

## 2025 STANSW Young Scientist Awards

**Tia Charukonda** Abbotsleigh Junior School

**Project Title:** Should The Canteen Provide Hand Sanitiser/ Wipes To Reduce The Impact Of Harmful Bacteria?

**Year** 5 to 6 **Scientific Investigations**

Dear Tia,

Well done on being part of this year's Young Scientist Awards! Your project shows how much you've learned about exploring real questions, solving problems, and discovering how things work. Completing your project means you've joined other young innovators in testing ideas, trying new approaches, and learning from what you find.

Our judges were impressed by your curiosity, creativity, and effort. They've written some feedback to help you see what went really well and what you might try next time. Every project helps you use and grow the skills and strengths you already have as a STEM problem-solver.

**The strengths of your project include:**

- actively participating in a scientific investigation
- carefully assessing the risks involved

**Next time, you could make your project even better by:**

- having a larger sample size providing greater reliability of results

Thank you for sharing your work with us. We hope this experience inspires you to keep asking questions, exploring new ideas, and using your skills to make and discover amazing things. We hope to see more submissions from you in the years ahead!

A handwritten signature in black ink, reading 'Philippa Miller'.
