

2025 STANSW Young Scientist Awards

Olivia Zhang Presbyterian Ladies' College Sydney

Project Title: Comparing The Effectiveness Of Orange Peel Extract As A Natural Surfactant
And Detergent For Oil Spill Treatment

Year 7 to 8 Scientific Investigations - Earth and Environmental Science

Dear Olivia,

Congratulations on being part of this year's Young Scientist Awards and for the thought, care, and originality you brought to your project. You've demonstrated genuine initiative in designing and carrying out your own ideas – an achievement that reflects both curiosity and persistence.

Our judges reviewed your project in detail, considering how clearly you explored your question, how well you supported your conclusions, and how effectively you communicated your process. Their feedback below highlights the aspects that were particularly strong and offers suggestions to help you extend your thinking even further – much like the peer review process used in professional research.

The strengths of your project include:

- selecting an area of study that has relevance to problems/issues in the wider world
- using thorough scientific methodology including the control of variables

Next time, you could make your project even better by:

- acknowledging any/all sources of experimental design

Thank you for sharing your work with us, it is a testament to your growing capability as an investigator, communicator, and creative thinker. We hope this experience strengthens your confidence and inspires you to keep pursuing questions that matter to you..
