revero

# The Precision Medical Clinic **Transforming Chronic Care**

Revero's virtual clinic treats the root cause of more than 20 chronic conditions. There's now an alternative to the status quo of sick care, a patient-centered treatment designed to improve employee health and reduce costs for your organization.

**76%** of US adults are managing a chronic condition

**$21K** average annual medical spend per employee with multiple chronic conditions

## Real results in 90 days, healthier, happier employees

Revero patients see measurable improvement in just 3 months [1], driving confidence for our partners that better health and lower costs are within reach.

## The Revero Standard

- Built for **Reversal**, not symptom management
- Personalized care for each member
- Ongoing medical oversight, lab work, and biomarker tracking
- Safe deprescription of medications
- 20+ chronic conditions treated in one program

## How is Revero Different

- × No paying for members who don't engage
- × No implementation fee or admin burden
- × No adding to the pharmacy bill, this program is built to reduce it
- × No system integration needed to launch
- × No separate point solution for every condition, one program covers 20+
