

**BMW
MOTORRAD**

THE BMW M 1000 RR

BROCHURE 2025

MAKE LIFE A RIDE

OVERVIEW

For all those who make every millisecond count. The superbike that is homologated for racing has been aerodynamically optimised in a wind tunnel and further developed on the circuit. The M RR can attribute its maximum speed of 314 km/h to its ShiftCam engine that now offers 218 hp (an increase of 6 hp) and the new trim panel with aerodynamic winglets. This bike stands for performance, motorsport, and exclusivity, right down to the last detail. The same goes for the BMW Motorrad Motorsport Race Support. Typically M – typically **#NeverStopChallenging.**

GEAR & GARMENT

M PRO RACE HELMET

Performance, aerodynamics or safety - the M Pro Race helmet stands for uncompromising performance on the road and race track alike. The padding for the head can be individually adjusted, the specially shaped lower edge of the helmet shell minimises collarbone injuries. The wind-tunnel-tested spoiler maximises the aerodynamic performance.

M PRO RACE COMPETITION BOOTS

The M Pro Race Comp boots meet the highest performance requirements and convince with large protective elements made of hard plastic. Removable magnesium slip pads on the side of the heel and tip of the shoe prevent injuries and ensure long life. The M colour design visually rounds off the sporty character.

M PRO RACE COMPETITION SUIT

The M Pro Race Comp suit combines high sport requirements with a complete safety package. Protectors at shoulders, elbows, hips and knees ensure safety. Whilst a hump optimises aerodynamics, the M Motorsport colours signal what the striking one-piece stands for: highest performance.

Find out about these items and other rider equipment at your BMW Motorrad dealer or at bmw-motorrad.com.au/en/wear/apparel.html

BMW MOTORRAD EXPERIENCE

BMW SAFARI

What is the BMW Safari?

The BMW Safari is a BMW customer motorcycle tour concept that began in 1994 with a trip from Sydney to Fraser Island. It is unique to Australia and there are three different flavours to choose from:

TS Safari

An on road tour where pillion riders can join in the fun.

GS Safari

Focused on off-road riding and linked together with twisty roads.

GS Safari Enduro

Generally more remote, more challenging or both.

BMW Safari events generally run for 5 to 7 days as a point to point tour, but sometimes with the start and finish at the same location. It's not a guided tour, the route is marked, route maps and GPS files are provided. Riders go at their own pace and take in sights along the route.

Why Ride the BMW Safari?

It's all about the organization, the Safari team do it all for you. It's a great week on your bike, with a great bunch of people. You can relax, so all you have to do is enjoy the ride. Ride safe with a comprehensive support crew and have fun exploring places you have always wanted to go to as well as taking you to places you would have never found on your own.

The BMW Safari allows you to escape the daily routine and enjoy good times on your motorcycle, while swapping stories with other riders and making some great friends along the way.

CALIFORNIA SUPERBIKE SCHOOL

Discover the Art of Cornering:

For many people, riding a motorcycle is something they just do. They don't really know what they do to get their overall result, it just seems to happen. At the California Superbike School we take the mystery out of riding. We help you understand precisely what you do with each and every control action to get each and every riding result. Only through true understanding can you consistently perform any task to a great degree, riding a motorcycle is no exception. Each level is a complete and integrated package of technical skills. The levels must be done in sequence and each level takes one day to complete.

Level 1:

Deals with the six most common rider errors.

Level 2:

The key to smooth, fast and confident riding is training your eyes.

Level 3:

Puts you in full command of the bike through better stability.

Level 4:

Your custom program, we evaluate your riding and find out what your program should include.
