

TERYX

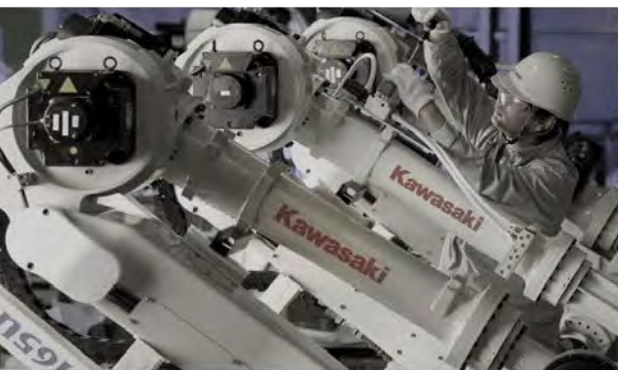

THE 2015 TERYX AND TERYX4™ SIDE X SIDES

Kawasaki
Let the good times roll.™

KAWASAKI STRONG

With 135 years of Kawasaki Heavy Industries, Ltd. (KHI) engineering building the heaviest, most durable and complex machines on the planet, Kawasaki strong is a name we can claim. KHI builds tunnel boring machines that connect continents and trains that carry millions of New Yorkers in and out of the city 24-hours a day, 7-days a week. From these engineering monsters to the last bolt on the smallest Mule™ side x side, KHI engineering says, over and over; Use me. Rely on me. I'm built to work.

BULLET TRAINS

You already know KHI builds machines that move people. But, did you know it also builds machines that move thousands of people—all at once? We're talking trains here. From New York City subway cars to Japan's hyper-speed bullet trains, Kawasaki has been in the business since 1906. Whether a 186-mph bullet train or a 1,441cc Ninja® ZX™-14R motorcycle, KHI likes to believe that the technology that goes into moving thousands of people has a positive effect on how it goes about moving just one.

MOTORCYCLE ENGINES

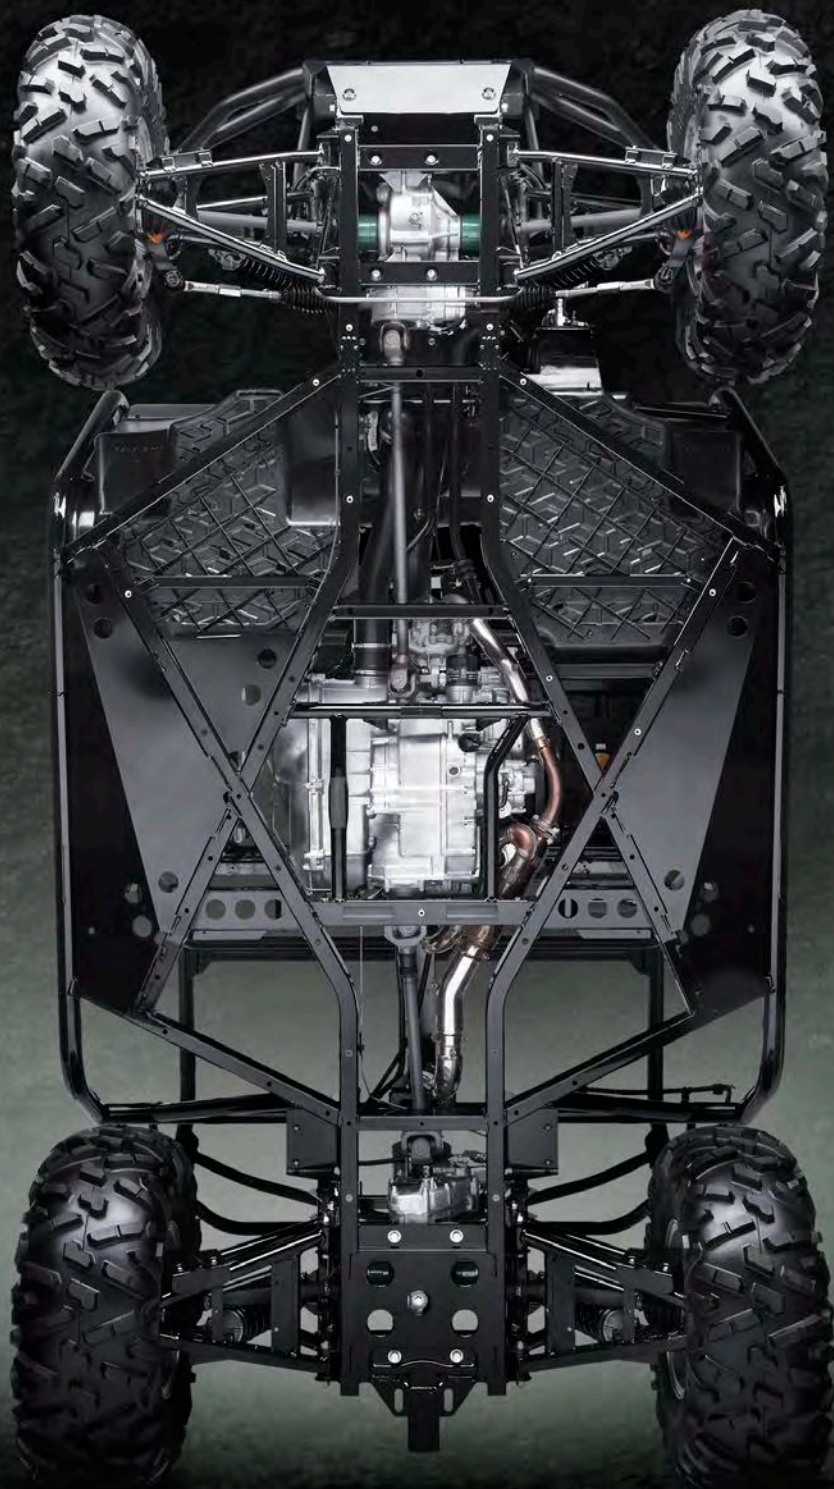

Since KHI build its first motorcycle engine in 1953, it has never stopped pushing technology to arm riders with what they need to dominate the streets. Advanced engineering, exhaustive testing, and tireless passion go into every motorcycle every time rubber hits the road. From industry-first features to the features that have evolved over a long history, KHI's innovations will never stop feeding the insatiable appetites of riders around the world.

ROBOTICS

If robots are the future, then KHI has been shaping it since 1969 when the company built its first industrial robot. KHI continues to be a leader in the development of robots for a diverse number of processes including: assembly, handling, welding, painting and sealing. Kawasaki robot technology is being used every day to manufacture motorcycles and other products.

Teryx® in Candy Lime Green

WELDED TO PERFECTION

We infused our patented Kawasaki Strong engineering and construction into the Teryx® with visibly tough, high-quality welds and a premium look that can only be found on our Side x Sides. While our competitors would take the easy way out, weakly bolting frames together, we weld our Teryx frames into one solid piece. We refuse to settle for anything less than dependable, edgy, and ground-breaking products that are built to last and perform beyond every expectation.

Our Side x Sides are the strongest because we pride ourselves in building machines that last for decades, not just years. And we're so confident in saying it, that we backed it all up with the industry's best limited warranty that's good for three years, the Kawasaki Strong 3-Year Warranty.

So grab a hand hold, hang on and prepare to experience adventure-driven innovation firsthand with the Teryx and Teryx4™ side x sides.

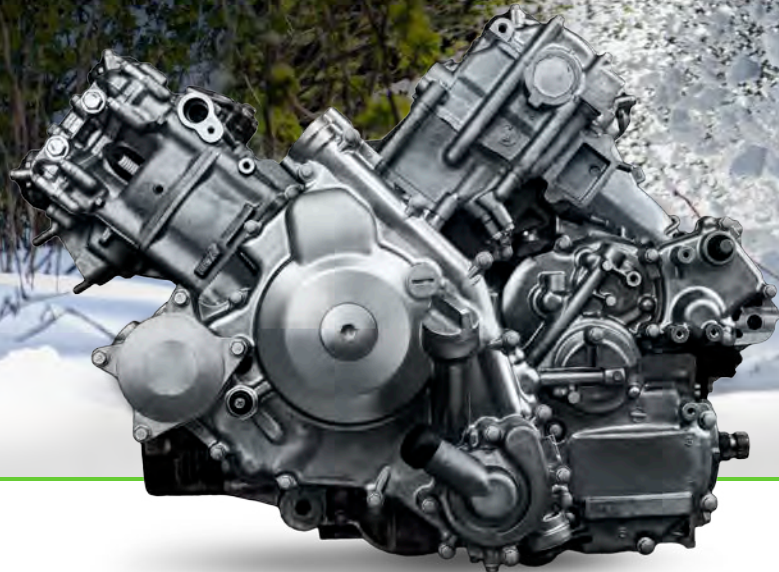

SPORTY WITH A SHOT OF VERSATILITY

POWER DELIVERY

Both the Teryx4 and Teryx® are driven by a digitally fuel-injected, 783cc 90-degree V-Twin engine that pumps out massive torque while remaining extremely fuel-efficient. Complemented by the Continuously Variable Transmission and centrifugal clutch, power delivery is instant. The CVT is also tuned for smooth, automatic downhill engine braking.

2015 TERYX4™ LE

The Teryx4 LE offers versatile sport and utility performance that simply can't be matched. It features a large displacement engine, an instantly responsive transmission, ample cargo capacity and towing power, and terrafirma-ready premium suspension for unbeatable family adventures. It's easy to drive and has the capability to crawl over rocks, ascend mountain trails and ride until dark with high-output LED headlights.

The 800-class V-Twin engine provides both the thrilling torque and deep-woods fuel range to make any trip memorable. Partnered with impressive cargo and towing capacities, speed-sensitive Electric Power Steering, and color-matched Fox Podium shocks that provide additional suspension travel and a sportier look, the Teryx4 is a complete package: power, performance, versatility and comfort. Every 2015 Teryx4 comes standard with a spacious

Candy Lime Green

cabin that seats four passengers comfortably, integrated doors, a protective sun top, and plush color-matched three-tone, high-backed bucket seats so you feel at ease while powering down the trail.

2015 **TERYX4™ LE**

Candy Burnt Orange

BUILT TO LAST

1 STURDY A-ARMS

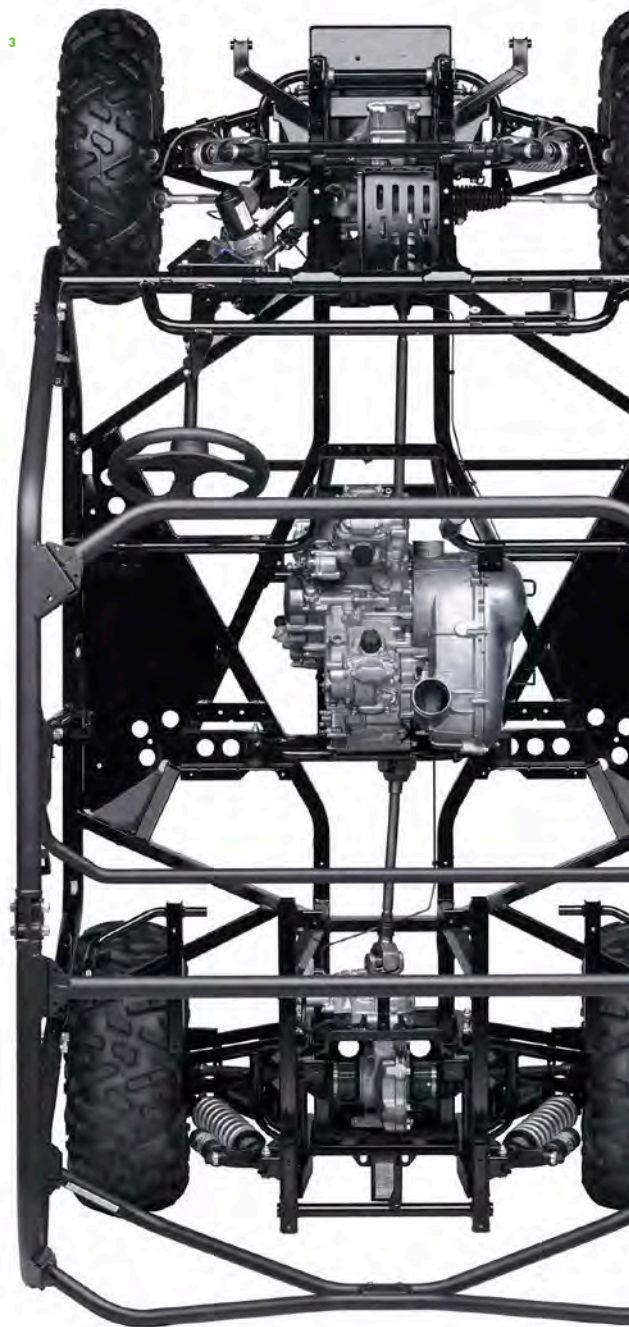

The A-arms of the Teryx4 LE are durable and strong, as well as color-matched to the bodywork and shocks to complement the sporty image of this trail-conquering beast.

2 FOX PODIUM PIGGYBACK SHOCKS

The 2015 Teryx4 LE is supported with FOX Podium piggyback gas-charged high performance shocks that have a competitive 8.0 inches of front suspension travel and 8.3 inches of rear suspension travel. All four race-proven shocks feature adjustable spring preload and compression damping for consistent performance in a variety of conditions.

3 DOUBLE-X FRAME

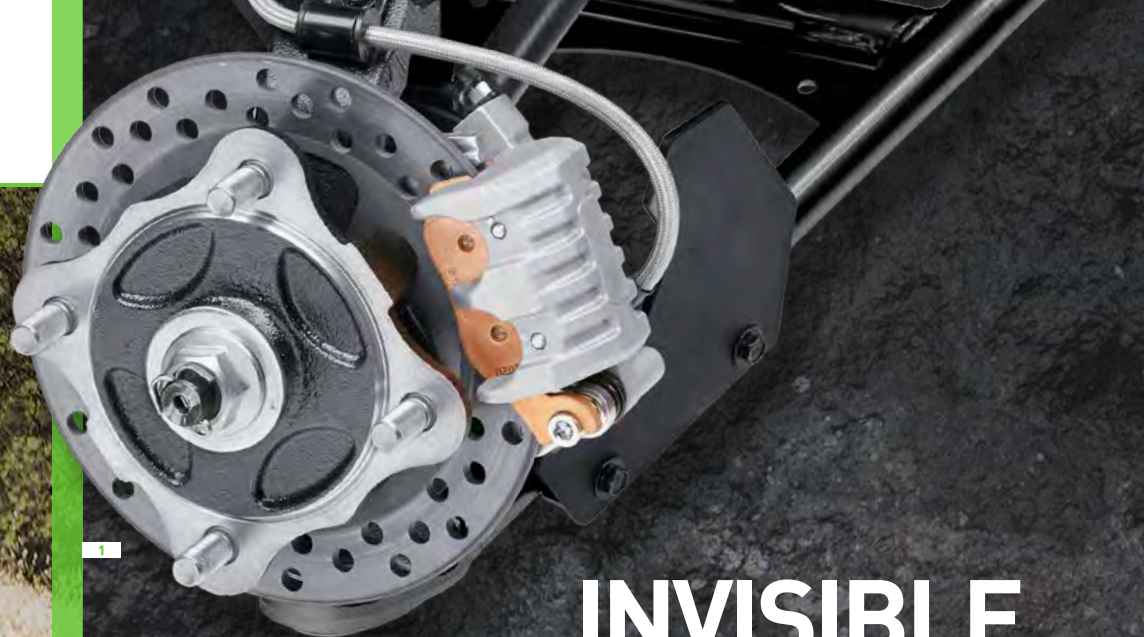

Strength begins with a rock-solid foundation. That's why we welded - not bolted - the frame of both the 2015 Teryx® and Teryx4 side x sides into one solid piece to create a robust structure. This rigid frame reduces chassis flex and gives our side x sides the strength and durability to withstand nature's toughest obstacles.

2015 **TERYX4™ CAMO**

Realtree Xtra® Green Camo

1

INVISIBLE MEETS INVINCIBLE

With the 2015 Teryx4 Camo side x side, you can load up a couple days worth of gear for the hunt and still have room leftover to seat your passengers comfortably. With a welded frame, Realtree Xtra® Green graphics that stand up to brush and branches and a 783cc engine with smile-triggering power, your Teryx4 Camo provides a memorable adventure you'll be eager to brag about on Monday.

2

1 BRAKES

The Teryx4 is equipped with dual 200mm front disc brakes gripped by rigid-mount calipers with 27mm twin-pistons and steel braided lines. It has a sealed, oil-bathed rear wet multi-disc brake in the rear that is encapsulated tightly to keep water and debris out and is virtually maintenance free for extended durability without sacrificing performance.

2 2WD/4WD AND FRONT DIFFERENTIAL LOCK

The transfer case of the Teryx4 can be changed between 2WD, 4WD and 4WD with differential lock by rotating a switch located on the dash - a convenience that helps provide traction for a variety of conditions.

VERSATILE PERFORMANCE

Open the door, secure your seatbelt, turn the ignition and transform into the strongest thing the woods have ever seen. Climb a trail, crawl over boulders or just enjoy camping where others cannot with the Kawasaki Strong 2015 Teryx4. With Electric Power Steering, a thrilling V-Twin engine, and the towing capacity to take everything with you, the Teryx4 is exhilarating to drive, handles like a dream and has the versatility to take on anything, from a tough day's work to a high-octane trail ride.

1 TOWING CAPACITY

The cargo bed of the Teryx4 has a 250-pound capacity and comes standard with cargo hooks. Another 1300 pounds of towing capacity is available via a standard 2-inch pickup-style receiver, making the Teryx4 an unusually functional adventure machine.

2 TECHNICAL OFF-ROAD ABILITY

The go-anywhere, conquer-all attitude of the 2015 Teryx4™ is made possible by its short wheelbase, a 16.7-foot turning radius, 11.1 inches of ground clearance and a 17-degree break-over angle.

3 CLASS-LEADING COMFORT

With a spacious cabin that has more head and leg room than any other side x side in its class, the Teryx4 is the perfect family vehicle. The cabin features grab bars, automotive-style seat belts and reachable hand holds for every passenger along with racing-style bucket seats in a stadium seating formation to allow rear passengers a clearer view of the action ahead.

Super Black

TERYAK®

Candy Lime Green

2015 TERYX® LE

SPORT FUN WITH ATTITUDE

The 2015 Teryx LE is the versatile and functional side x side, in the most impressively fun way possible. It has extensive storage and cargo space, an incredibly strong and rigid frame, impressive towing capacity, and a large gas tank. You've got the range, capability, and storage space to go out on an epic adventure and get back home again easily.

It's also equipped with LED lights, color-matched shock springs and A-Arms, three-toned bucket seats, a thicker, sportier steering wheel, a serious front bumper and large tires. Who can't stop and stare at a vehicle with more than 8 inches of Lime Green suspension travel?

Top that off with a powerful, fuel-efficient engine, a fuel injection system that makes starting effortless, and an Electric Power Steering system that reduces steering effort, and the Teryx® LE is a must have.

Candy Lime Green

Metallic Stardust White

CVT/CENTRIFUGAL CLUTCH

The Continuously Variable Transmission features high, low and reverse gears with immediate feel and responsive power from the engine. The centrifugal clutch pitches in, aiding with instantaneous acceleration.

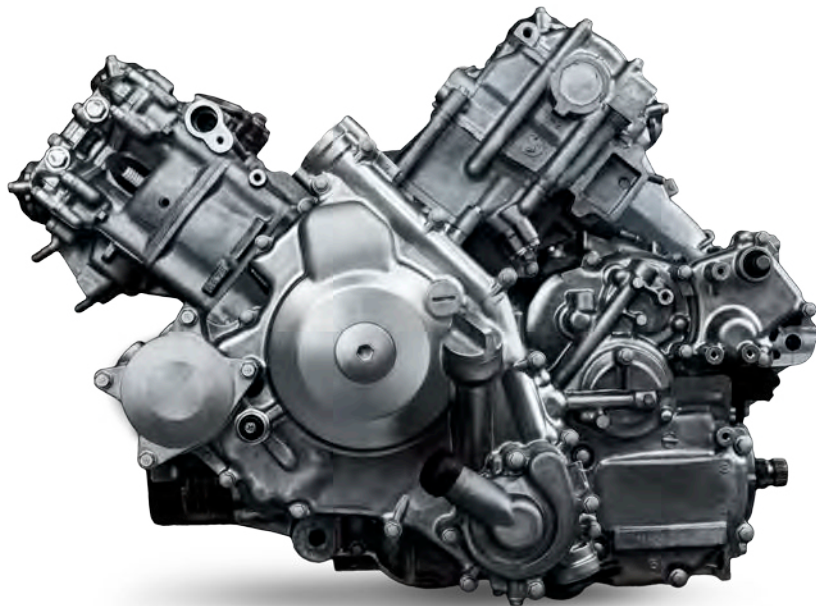

TITAN OF TORQUE

1 V-TWIN POWER

When climbing hills or blasting down the trail, a powerful engine makes all the difference. The Teryx LE features a 783cc V-Twin with legendary Kawasaki power, making for a seriously exciting side x side.

EPS

Driving the Teryx side x side is smooth and predictable thanks to the speed-sensitive Electric Power Steering (EPS) that comes standard on all Teryx models. EPS greatly dampens kickback while reducing steering effort.

Metallic Stardust White

2015 TERYX®

Super Black

HAUL ONE WEEK'S SUPPLIES

Whether you're headed for a long camping trip, exploring mountain trails or out for some rock crawling fun, the 2015 Teryx has the storage capacity, high performance suspension capability, and powerful engine to get you just about anywhere you want to go.

1 BED VERSATILITY

The cargo bed of the Teryx was built strong to make your life easier. The gas-assist bed tilts for quick cleaning, holds up to 600 pounds of gear and equipment and comes with optional bed dividers to keep everything organized.

2 ONBOARD STORAGE

Hidden behind the bucket seats are two tightly sealed, enormous storage compartments boasting a total 48 gallons of space. An additional center tray is available to attach a small cooler or tackle box at your leisure.

GET OUT **AND BLEND IN**

A lot of hard work, time and patience is involved when it comes to preparing for the hunt. You need the right equipment and timing to be in the right place for that perfect early morning shot. You need a vehicle that has the engine and suspension performance to go deep into wilderness, and the Teryx Camo can get you there.

The 2015 Teryx Camo has been dipped in a genuine Realtree Xtra® Green graphic treatment that is designed to last as well as blend in. It also has the extra power and suspension performance needed to have an adventure the Kawasaki Strong way.

1 PREMIUM FEATURES

With LED headlights that are brighter, more powerful and longer lasting than traditional bulbs, drink holders for each occupant and a padded sport-style steering wheel positioned low for comfort, the Teryx has class and luxury to complement its off-road warrior capabilities.

2 HIGH-BACK BUCKET SEATS

The high-back bucket seats are form-fitting, three-way adjustable, and feature retractable three-point seatbelts with a shock absorbing anti-cinch system to help provide a comfortable ride while maintaining a roomy seating position.

3 INTEGRATED DOORS

Secure-latching, integrated doors allow quick and easy entry as well as protection from the elements. The doors are also camouflaged to match the rest of the Teryx's durable, blend-in bodywork.

Realtree Xtra® Green Camo

Realtree Xtra® Green Camo

BUILT TO LAST

Superior Realtree Xtra® Green camouflage coloring gives the Teryx Camo an uncompromising, tactical look to match its class-leading performance. Strong thermoplastic olefin bodywork has an attractive, scratch-resistant finish that is capable of remaining in good condition longer than the plastic bodywork offered by some competitors.

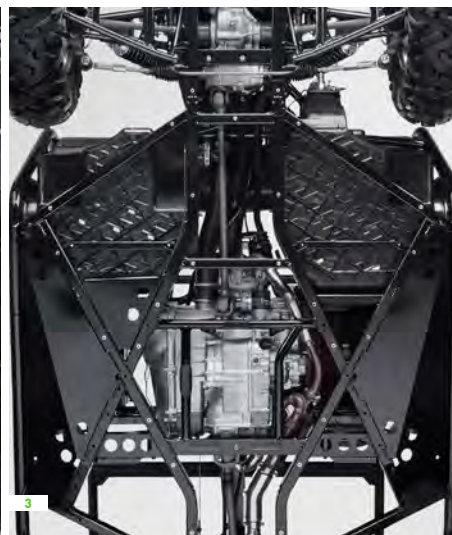

1 ROPS FRAME

Protecting passengers from harm is a strong ROPS tubular steel cab framework that meets stringent government requirements and provides a barrier from branches while also adding strength to the double-X frame.

2 ADVENTURE-WORTHY SUSPENSION

Even the toughest obstacles are doable as the Teryx Camo is equipped with high-performance gas-charged FOX Podium shocks on all four corners that provide adjustable spring preload and 24-way compression damping for excellent fade-resistant performance over rocks or on bumpy trails.

3 DOUBLE-X FRAME

The undeniably strong double-X frame design bridges each of the boxed sections with cross members that significantly stiffen and strengthen the overall structure, adding durability to the chassis while reducing flex to improve handling.

HUNTING

It's not truly yours until it's customized with Kawasaki Genuine Accessories. Built by the same engineers who built your Teryx to be strong, durable, and versatile, these accessories are the best way to get the most out of your vehicle, no matter what your needs may be.

Kawasaki Genuine Accessories are:

DEVELOPED BY KAWASAKI TERYX ENGINEERS

This ensures a perfectly integrated fit, an easy, seamless installation, and long-lasting dependability.

THOROUGHLY TESTED

These accessories meet the same stringent quality standards as every Kawasaki Strong Teryx side x side, as a result of exhaustive testing by Kawasaki engineers.

WARRANTY COMPLIANT

Kawasaki Genuine Accessories never compromise the status of your included Kawasaki Strong Three-Year Warranty like some third party parts.

WARRANTY

Every Kawasaki TERYX® and TERYX4™ side x side is backed with a Kawasaki Strong Three Year Limited Warranty. Ask your dealer for details about the factory warranty and available extended coverage.

UP TO TWO YEARS ADDITIONAL COVERAGE

Let Kawasaki protect your new vehicle for years to come with the exclusive Kawasaki Protection Plus. This plan repairs or replaces most components free of charge if found defective in material or workmanship. Everything about the plan is easy: There's no deductible. It's honored at every authorized utility vehicle dealer nationwide. It's transferable to another owner with no fee. Just ask your dealer how you can buy additional coverage of 12 or 24 months.

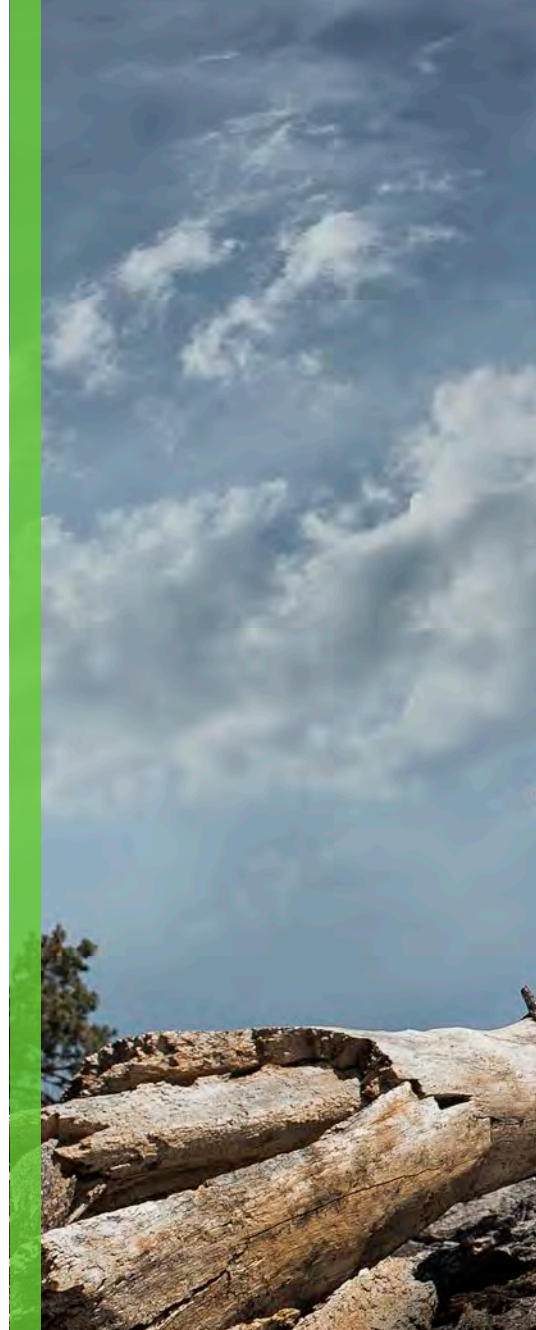

KAWASAKI CARES: Always wear protective gear appropriate for the use of this vehicle. Never operate under the influence of drugs or alcohol. Protect the environment. The Kawasaki TERYX side x side is an off-highway vehicle only, and is not designed, equipped, or manufactured for use on public streets; roads or highways. Obey the laws and regulations that control the use of your vehicle. Read Owner's Manual and all on product warnings.
