RANGER CREW XD 1500 CHASSIS

STEELDRIVE TRANSMISSION

The industry-exclusive STEELDRIVE transmission features a 100% steel constructed belt that delivers smooth, precise operation and a fully-sealed, liquid cooled design for unmatched durability.

SMOOTH, PRECISE CONTROL

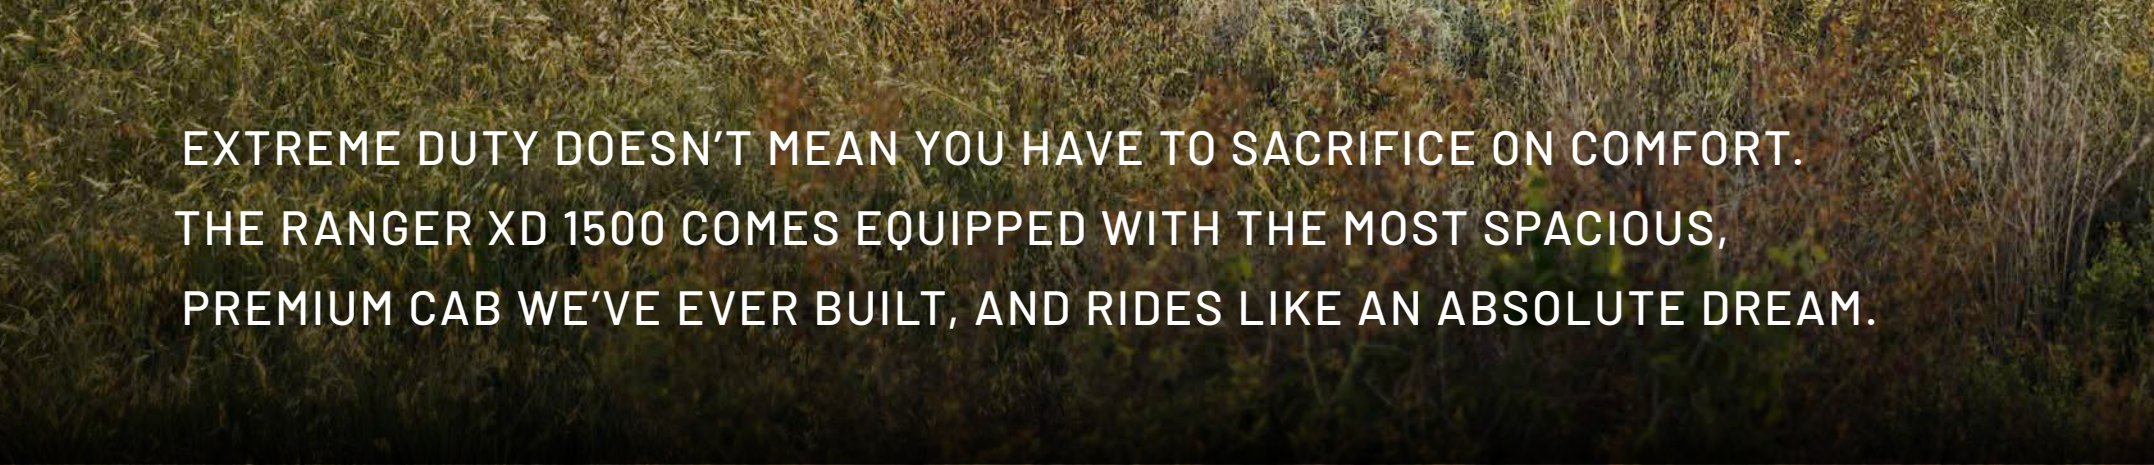

STEELDRIVE is electronically controlled to deliver outstanding drivability. Enjoy smooth, predictable throttle engagement and precise low speed control when backing up to trailers, navigating rough terrain, or spraying a fence line. STEELDRIVE also allows for Hill Assist for complete confidence in challenging terrain.

UNMATCHED COMFORT

QUIETER. LONGER. MORE SPACIOUS.

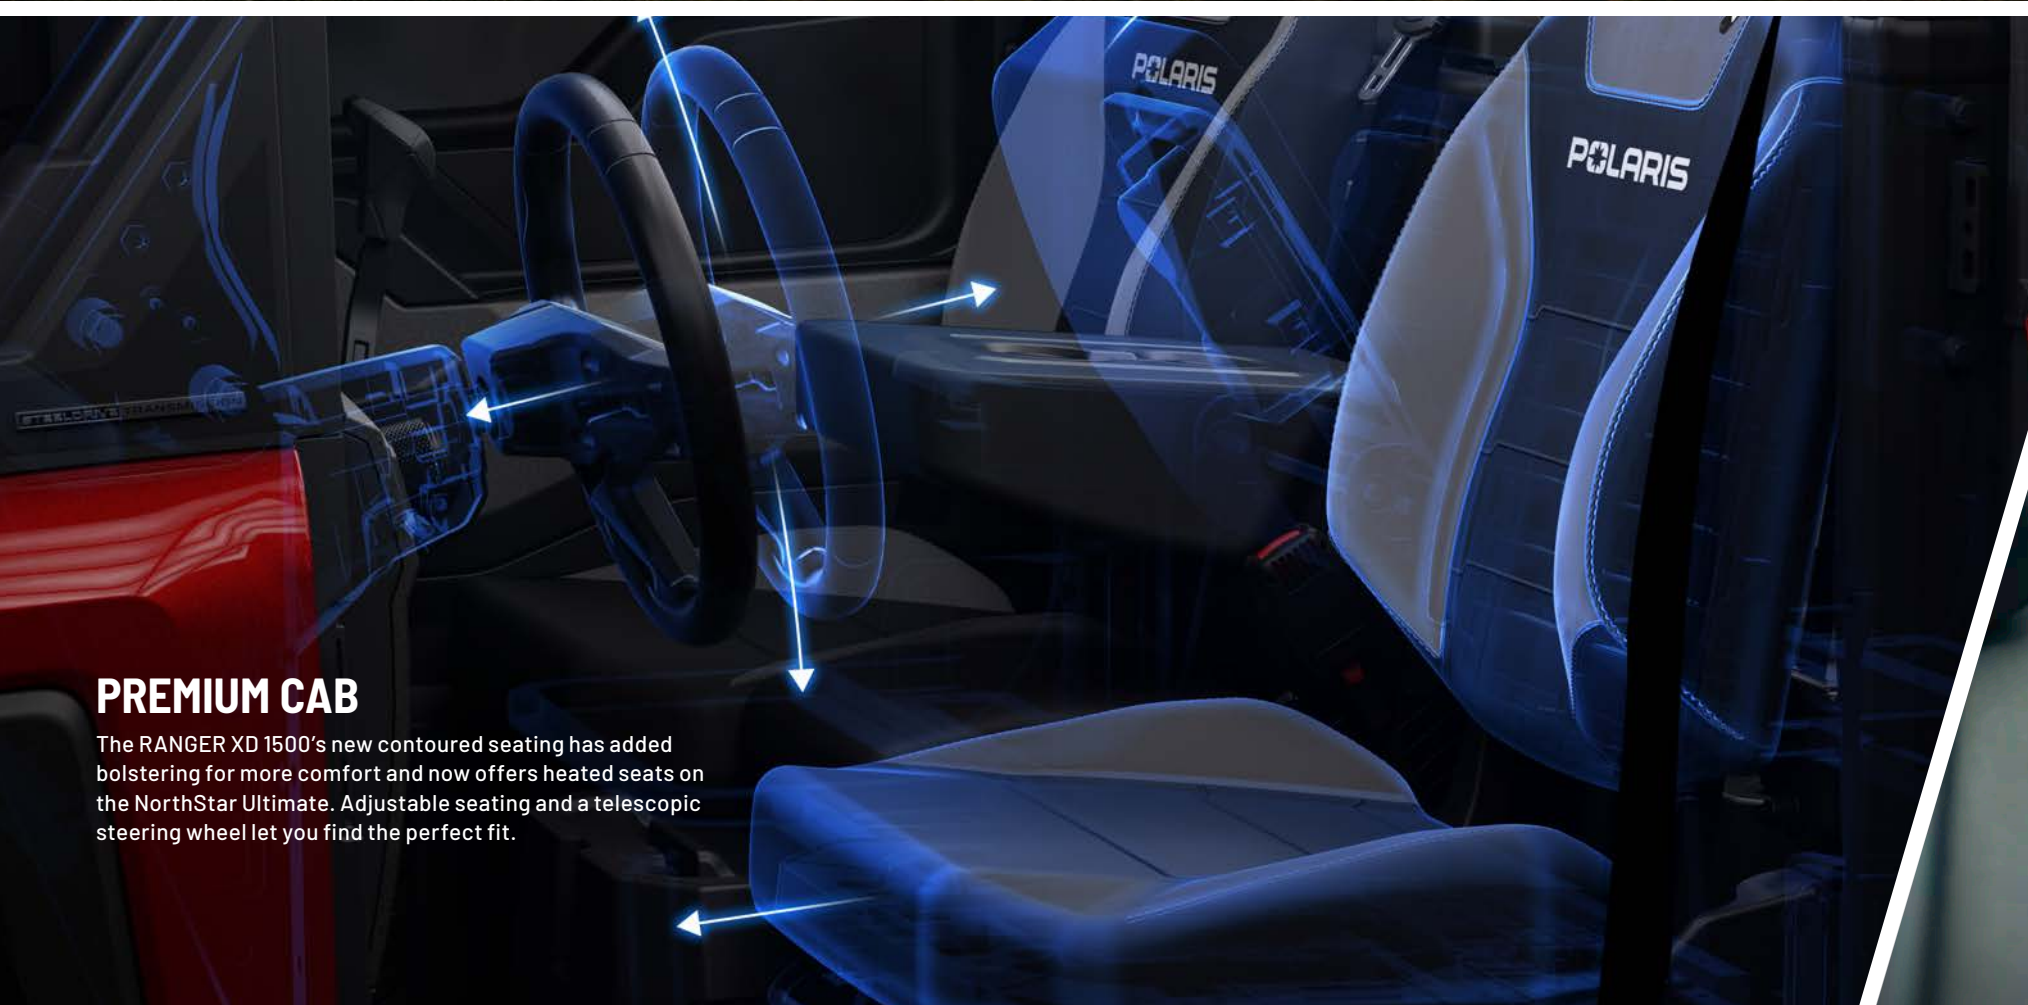

EXTREME DUTY DOESN'T MEAN YOU HAVE TO SACRIFICE ON COMFORT. THE RANGER XD 1500 COMES EQUIPPED WITH THE MOST SPACIOUS, PREMIUM CAB WE'VE EVER BUILT, AND RIDES LIKE AN ABSOLUTE DREAM.

LEGENDARY SMOOTH RIDE

Industry-leading 12" suspension travel, the ultra smooth engagement and quiet operation of the STEELDRIVE transmission, and chassis improvements deliver the smoothest ride of any RANGER ever built.

PREMIUM CAB

The RANGER XD 1500's new contoured seating has added bolstering for more comfort and now offers heated seats on the NorthStar Ultimate. Adjustable seating and a telescopic steering wheel let you find the perfect fit.

DRIVE MODES

Tailor the throttle and transmission response to the task with four different drive modes. Comfort for casual driving. Standard for everyday driving scenarios. Sport maximizes throttle response and eliminates engine braking for the most sporty ride possible. Tow/Haul maximizes the torque for the toughest jobs.

INDUSTRY'S MOST SPACIOUS CAB

We've increased the interior space with more leg room and more shoulder room than a full-size UTV, plus easier entry and exit for tasks like working fence lines.
