

2024 Yamaha FX[®] Series

FX[®] HO, FX Cruiser[®] HO, FX SVHO[®],
FX Cruiser SVHO[®], FX[®] Limited SVHO[®]

Overview

Introducing the pinnacle of personal watercraft luxury – the Yamaha FX Series WaveRunners. Engineered to redefine your expectations of premium watercraft experiences, the FX Series combines unparalleled performance, cutting-edge technology, and superior craftsmanship. The FX Series offers the latest technology with features like RiDE, integrated audio, and the signature Connex[®] touchscreen with smartphone connectivity, Bluetooth[®] audio control, and GPS-maps compatibility. The FX Series includes the FX HO, FX Cruiser HO, FX SVHO, FX Cruiser SVHO, and FX Limited SVHO.

	Horsepower:		1.9L HO 200 hp 1.8L SVHO 250 hp	Pump Size:		HO 155mm SVHO 160mm

	Displacement: 1.9L HO 1898cc 1.8L SVHO 1812cc	Impeller: 3-Blade, Stainless Steel
Hull	Construction: High-Compression Molded	Material: Sheet Molded Compound (SMC)

Yamaha Innovations and Technology

NEW Yamaha 1.9L HO Marine Engine: This new 1898cc, four-stroke, four-cylinder, 16-valve High Output Yamaha marine engine replaces the 1812cc High Output motor that powered the previous year's HO model. This more powerful engine provides quicker and smoother acceleration and a higher top speed. This is achieved through the engine's increased displacement, optimized intake and exhaust paths, and a 10 percent larger throttle body for more power and torque.

Connex[®] Information System: All FX models feature the Connex Information System with a 7-inch LED touchscreen. Allows for complete audio connectivity through your smartphone. You can receive incoming phone calls and view incoming text message notifications on the Connex screen. The rider can also use the voice assistant to make phone calls using the voice command button and integrated microphone, conveniently positioned just below the steering column and to the left.

GPS-ready Mapping with Geo-Fencing and New Drive Control Modes: With the optional GPS map card installed, the operator can add and follow GPS waypoints, record and follow tracks, and geofence the riding area where the watercraft can be operated. With geofencing activated, fence distance and distance from the center can be set to create an audio warning telling the operator that they have ridden too far. The Drive Control function allows you to set and save different trim modes for performance or comfort, set the top speed limit, and designate preferred acceleration curves. New Drive Control functions include Eco Mode for better fuel economy when cruising and Towing Mode, which sets the optimal speeds for towables.

Factory-Installed Integrated Speakers: FX Series WaveRunners come standard with factory-installed, custom-integrated audio speakers (optional on FX HO model). The package includes two 4.5-inch waterproof marine speakers, an integrated two-channel amplifier, an easy access control pad, and an integrated low-voltage regulator to protect the battery. Audio played through the speakers is controlled through the Connex touchscreen, connected to the rider's smartphone.

RiDE[®] Dual Throttle System: Provides independent functionality of the left and right handlebar levers, with the right lever controlling forward and the left lever controlling reverse. As a result, you can reverse by using the left lever while keeping both hands on the handlebars. This provides single-action forward/reverse capability. It also provides the ability to decelerate using the left lever while riding.

Integrated Multi-Mount System: Easily affixes accessories (sold separately) onto the dash through the cupholders. These accessories include ECOXGEAR[®] wireless Bluetooth[®] speakers, as well as a holder for your action camera, fishfinder, and smartphone.

Limited Package Accessories: Includes GPS Maps card for the FX Connex system, multi-mount adapter, single-rider tube, tube holder, tube inflator, tow rope, dedicated soft cooler, custom cover with glove box access, and two gunwale fenders.

2024 Models

FX[®] Limited	● Limited Package Accessories ● 1.8L SVHO Yamaha Marine Engine
-------------------------------	--

SVHO®	● 7" Connex Screen with Security and Enhanced Drive Control ● Pull-up Cleats (2) ● Two-piece, Cruiser Seat ● Molded Cooler Storage in Bow ● RiDE Dual Throttle System (forward, reverse, decelerate) ● GPS Maps and Geofencing Capabilities ● Integrated Speakers with Phone Call and Audio Control Capabilities ● Reverse Assist Mode ● Touchpad Control ● Drive Control ● Dual Mirrors ● Dual Rope Hooks ● Beverage Holders on Dash ● Multi-Mount System Capable ● Cruise Assist/No Wake Mode ● Electric Trim System ● Performance Auto Trim ● Comfort Auto Trim ● Watertight Glovebox (with USB, 12V outlet, LED lighting) ● Under-seat Watertight Storage ● Fast Access Stern Storage ● Custom Cut Deck Mats ● Footwell Drains ● Upgraded TowHook ● Upgraded Reboarding Step ● Automatic Bilge ● Maintenance-free Battery

Award-Winning Customer Service

Yamaha WaterCraft has won more National Marine Manufacturers Association's (NMMA®) Customer Service Index Awards in the Personal Watercraft and Jet Boat categories than any other brand in the 20-year history of the prestigious honor. This award is based on customer surveys and is a testament to Yamaha's commitment to providing the best customer service in the powersports and marine industry.
