0 of 0 people found the following review helpful. Not Enough Concern, Much Less AngerBy WSS25Lightweight presentation of serious topic. Good filler for the expert, waste of time for the novice.0 of 0 people found the following review helpful. just. plain. crap.By edna rodgersThis book isn't worth using as toilet paper.

True detective by America's most controversial private investigator. The book covers Clausen's personal involvement in the Unabomber case as well as the questionable murder conviction of Native American Leonard Peltier. It also covers environmental/animal rights terrorism. The book has been featured in several magazines, on numerous radio talk shows and as part of a feature story (four times)on a Fox News documentary.
