BeanQ

Kebbi

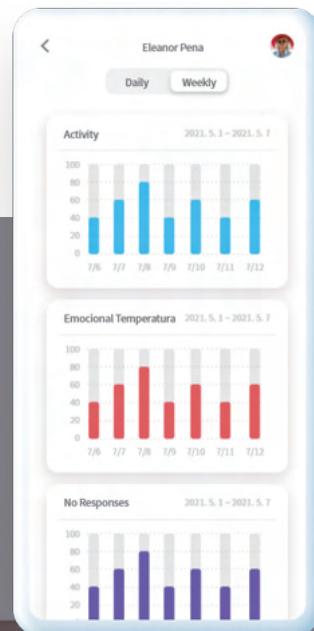

Cloi

AI utilized care

“AVAdin Friends” and “AVAdin Robot,” linked with the Guardian app, are **artificial intelligence robot solutions that take care of elderly and parents who live alone.**

Guardian App

Elderly and parents who live alone

AVAdin Friends  
AVAdin Robot

Safety management of elderly and parents through an emergency call service

Safety care with at least 2 registered caretakers

AI service designed for elderly and parents who live alone

\* Up to 5 caretakers can be registered

01

## AVAdin Friends / AVAdin Robot Core Features

### ● Emergency Call Service

Weekdays at 6pm~8am, on weekends, AVAdin will be connected to caretakers and emergency services. You won't miss the crucial time.

### ● Medication Alarm

Notifies with an alarm to take medicine. Guardian can send a scheduled alarm with the name of a medicine. AVAdin will confirm with the Guardian once the elder takes the medicine.

### ● Text Message/Phone Call Notification

Elderly constantly miss calls and don't know when a message has arrived. AVAdin will notify the elder to ensure these are not missed.

### ● Video Call / Monitoring Emergencies

When there are emergencies, caretakers can use video call and a monitoring system to talk to the elderly face to face. Caretakers can monitor the elderly remotely through a Guardian app.

### ● Dementia Prevention Conversation

Random chat service between AVAdin Friends users can help prevent dementia. AVAdin will create an opportunity for the elderly who are alone and simply want to talk to someone. "Aren't you bored? How about talking to a friend nearby?"

### ● Play Songs, YouTube / Analysis of Elders' Life Patterns

Play various content easily with voice commands. "Hi AVAdin, play some nice music." We also analyze the elderly's lifestyle patterns and recommend content to them.
