INNOVATIVE SOLUTIONS

Keypads and touchscreens are all too common now, but when you have to remove your gloves to use them, it defeats the purpose of even wearing them.

RefrigiWear® offers two solutions:

TOUCHSCREEN SOLUTION TOUCH-RITE NIB

RefrigiWear's® exclusive Touch-Rite Nib works on both touchscreens and keypads, allowing employees to remain productive without removing their gloves.

KEYPAD SOLUTION KEY-RITE NIB

RefrigiWear's® exclusive Key-Rite Nib works on keypads and pressure sensitive screens to help employees stay productive and protected while they work. Can be placed on any and as many fingers as needed.

AVAILABLE IN STYLES:

T679 (Page 69) **T282** (Page 71)

Located on the right index finger. Easy to unscrew and replace.

A pocket on the left glove allows for secure storage and easy access to replacement nibs.

A BARRIER AGAINST COLD

Liners are like layers – they can be used in many ways. Worn alone for mild temps or to protect the skin against abrasion. As an added boost of warmth and padding under other gloves. Paired with fingerless gloves to make them last longer. Pick a size that will provide a snug fit, but not too tight, for maximum dexterity and warmth.
