BH-989

Electric Pull Apart Bed

Versatile Home Care Bed

The K Care BH-989 Electric Pull Apart Bed is a versatile and functional electric bed, designed to provide optimal comfort, safety, and ease of use in home care environments.

Comprehensive Electric Adjustability

This home care bed offers a full range of electric adjustments to ensure ideal positioning for both user comfort and caregiver convenience. Using the simple handset, you can effortlessly control the Hi-Lo height adjustment, which ranges from a low of 390mm to a high of 790mm. The backrest can be reclined up to 65°, and the knee bend function adjusts up to 40°, allowing for comfortable reading, relaxing, or therapeutic positioning. Additionally, the bed is equipped with Trendelenburg and Reverse Trendelenburg tilt functions of up to ±10°, catering to more specific clinical or comfort needs.

Robust Construction

Built with durability in mind, the K Care BH-989 is designed to support a Safe Working Load (SWL) of 200kg. The combination of its robust construction and comprehensive features makes it an excellent choice for long-term home care.

Designed for Safety and Convenience

Safety is a paramount feature of the BH-989 bed. It comes equipped with durable ABS plastic bed rails to help prevent falls, and removable ABS head and foot boards for easy access. The bed is highly mobile on its four 125mm castors, which can be securely locked in place using a central locking system. For practicality, the bed features a “pull apart” design, which allows it to be easily assembled and disassembled for transport or storage.

B-941

Electric Foldable Bed

Foldable Electric Care Bed

The K Care B-941 Electric Foldable Bed is a highly practical and versatile care bed, uniquely designed to be easily folded for convenient transportation and storage without compromising on full electric functionality.

Effortless Portability and Storage

The standout feature of the K Care B-941 is its intelligent foldable design. The bed can be easily folded away into a compact unit, making it an ideal solution for temporary care situations, respite care, or for homes where space is at a premium. Its design allows for it to be easily erected by just one person, simplifying setup and storage. When folded, the bed has dimensions of just 1100mm (L) x 500mm (W) x 1350mm (H), allowing for straightforward transport and discreet storage when not in use.

Full Electric Functionality

This bed provides a comprehensive range of electric adjustments, all operated via a simple-to-use handset, ensuring optimal positioning for user comfort and caregiver access. It features a Hi-Lo height adjustment range from 300mm to 700mm. The backrest can be reclined from 0° to 75°, and the thigh/knee bend function adjusts from 0° to 30°. Furthermore, the bed is equipped with Trendelenburg and Anti-Trendelenburg tilt capabilities of up to ±10°, catering to more specific clinical and comfort requirements.

Designed for Safety and Durability

Constructed with a durable, powder-coated steel frame, the B-941 is built to last and supports a Safe Working Load (SWL) of 200kg. For user security, the bed comes complete with side rails and features four locking castors to keep it firmly in place. Removable head and foot boards allow for easy access to the user when required.

Over Bed Table

Adjustable Over Bed Table

The K Care Over Bed Table offers a sturdy and convenient solution for patients or residents, featuring adjustable height, a durable frame, and easy mobility.

Sturdy and Convenient Design

The K Care Over Bed Table provides a reliable and convenient table for patients or residents, whether in bed or seated in a chair. Its design ensures stability and ease of use, making it a practical addition to any care setting.

Height Adjustable

This table features fingertip pressure adjustable height, allowing users to easily set the table to their preferred height. This feature ensures comfort and convenience for various activities, such as eating, reading, or working.

Antibacterial Powder Coated Steel Frame

The table is constructed with an antibacterial powder-coated steel frame, offering durability and a sleek appearance. The "C" shaped base enhances stability and allows for easy positioning over beds or chairs.

Laminated Particle Board Table Top

The table top is made from laminated particle board with PVC edges, providing a durable and easy-to-clean surface. This material ensures that the table remains in good condition over time, even with regular use.

Easy Mobility

Supported by twin wheel casters, the table is easy to move around. Two of the casters are equipped with locking mechanisms, ensuring that the table can be securely positioned when needed.

Additional Features

The table includes a spring assist mechanism for smooth height adjustment. These design elements contribute to the table's overall versatility and ease of use.

Specifications

KA576

Overall Width	385mm
Overall Length	770mm
Max Overall Height	960mm
Min Overall Height	670mm
Max Load	15kg
