

## Classroom log-in:

You can provide access to all students by sharing your login credentials: email address and password. You can all log in at the same time. Because anyone who has that information could subscribe or unsubscribe from newsletters, change the password or stop the account, we recommend using a guest account as the login you share. You set up an alternate email address and password, and the class uses those credentials to log in. Here's how to do it.

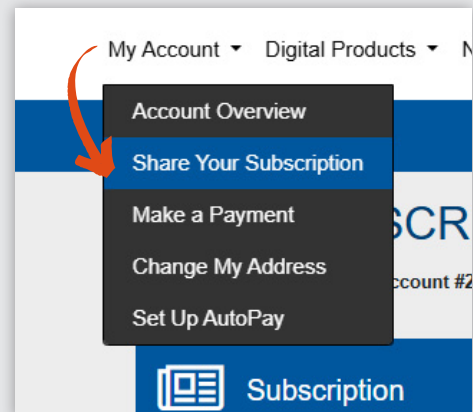

1

Log into your teacher account at [myaccount.daytondailynews.com](http://myaccount.daytondailynews.com).

2

Select Share Your Subscription from the My Account menu.

3

You can share your subscription with up to 4 other email addresses.

Enter your name or classroom name. Enter an email address that you can manage and also share with your students. Select "guest" as the Type.

4

Select the Invite button. An email will be sent to this email address to accept the subscription and set up a password.

The invite will remain under the Pending Invitations section until the subscription is accepted and password created.

5

Share this email address and password with your students.

The "guest" login won't allow sharing or stopping the account. If the password gets reset, you will be able to trigger the process to set it back.

If you need help accessing your account or have any questions, visit our Digital Help Center or contact our customer care team at **888-397-6397** or at **customer@daytondailynews.com**.
