6 MS Spitsbergen departures: June 7, 15, 23,  
July 1, 9, and September 15, 2023

# CIRCUMNAVIGATING SPITSBERGEN - IN THE REALM OF THE POLAR BEAR

Join us as for a full circumnavigation of Spitsbergen, taking in mighty glaciers, peaceful fjords, and Arctic wildlife under the enchanting Midnight Sun.

### **Last frontier to the North Pole**

After an evening flight from Oslo, your expedition starts in Longyearbyen, the town on top of the world. Get a taste of what it feels like to live this far north of the world as you meet the ingenious, resilient, and conscientious residents of this unique town.

From here, we traverse the stunning terrain of Northwest Spitsbergen National Park. Explore picturesque fjords, steep mountains, and beautiful offshore islands while sweeping the landscape for wildlife.

### **Polar hope**

Eastern Svalbard boasts the highest population of polar bears in the archipelago. Hopefully, over our three-day exploration of Spitsbergen's eastern seaboard, you'll spot one or more of these apex

predators. The bird cliffs in the region also make bird watching a rewarding activity. Svalbard is home to a wide variety of seabirds including thousands of Brünnich's guillemots, gulls, and kittiwakes.

### **Due south**

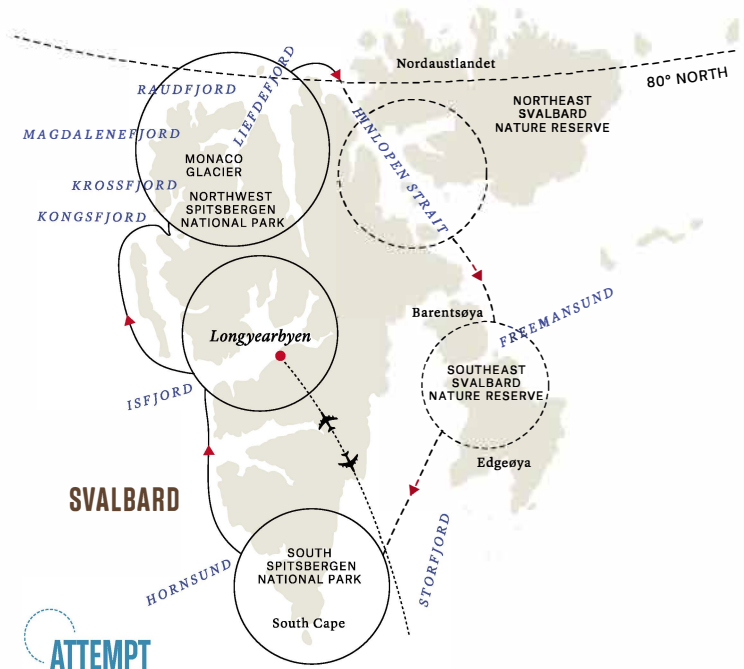

Prepare to explore the wonderfully varied landscape and geology of Hornsund. The rugged, steep mountains, stunning fjords, and rich, colorful vegetation make it one of the world's most scenic natural corners.

After exploring this area, we'll sail north toward Isfjord before concluding your expedition in Longyearbyen.

Above:  
Skansbukta.  
Left: Polar bear.

Our Spitsbergen Attempts are expeditions where we, in true expedition style, challenge the elements and the ice edge of the Arctic Ocean, to circumnavigate this remote archipelago – in a safe way. Flexibility, several alternative routes, and our deep knowledge of the area are key factors to giving you the most amazing experience. And if we really manage to circumnavigate Spitsbergen, it will be one for the books!

### INCLUDED ACTIVITIES

- Lecture program
- Nature landings
- Expedition boat cruising
- Science activities
- Art activities
- Photo lectures
- Wildlife watching

Activities are subject to change.

### ITINERARY

**Day 1:** Oslo/Longyearbyen
