 ROLL No.

HomeGuard PB Termite Moisture Barrier:
 DIRECTIONS FOR USE (All states except Tas)
 Restraints:
 DO NOT use for remedial treatment of pre-existing termite damage

Pest	Situations	Rate	Critical Comments
Subterranean termites	Domestic, commercial, and industrial structures to form a complete perimeter pre-construction treatment providing both termite and moisture protection or as a flexible termite management system that may be used as part of an integrated termite management system	Single sheet thickness is sufficient to form an effective termite and moisture barrier	HomeGuard PB must be installed as a complete and continuous barrier. Any gaps, punctures, or tears present in the sheet after installation must be repaired as per the instructions in the general use directions on reverse. For joining sheets, attaching sheets to surfaces and treatment of penetrations, see general instruction section on back. For specific details on installation of sheet for perimeter treatments, see general instructions over the page.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.
