Small-Area Global Elections Archive

Codebook

Version 1.3

134 countries

Noah Dasanaike

November 5, 2026

General Notes

- Total vote counts exclude invalid votes.
- All Thiessen polygons across countries use consistent country borders from geoBoundaries. In some rare cases, like Taiwan, where the geoBoundaries lack precise definition, dated OpenStreetMap boundaries are used instead.
- A single dash with a space on either side, " - ", in the party column indicates a coalition between two or more parties; an em-dash is used when either a dash or an em-dash is formally in the party's name.

51 India

51.1 Notes

- Thiessen polygons are generated separately by region, given substantial variation in how results are reported, digitized, and geocoded across states and union territories.
- Three supplementary shapefiles for India are provided: Thiessen polygons, 1km point buffer, and 5km point buffer.
- Smallest physical unit: Polling Station

51.2 Data Source(s)

- Respective State and Union Territory Election Commissions

51.3 Elections Summary

Elections Summary

Year	Election Type	Data Units	Spatial Units	% Geocoded
2019	Legislative (lower house)	1020235	371847	64.6%
