General Notes

- Total vote counts exclude invalid votes.
- All Thiessen polygons across countries use consistent country borders from geoBoundaries. In some rare cases, like Taiwan, where the geoBoundaries lack precise definition, dated OpenStreetMap boundaries are used instead.
- A single dash with a space on either side, " - ", in the party column indicates a coalition between two or more parties; an em-dash is used when either a dash or an em-dash is formally in the party's name.

78.1 Notes

- NAME3_imp is generated piece-wise: polling stations are spatially matched to municipality boundaries, then filled by NAME3 where NAME3 is not NA, then filled by NAME1, NAME2, and NAME4.
- Smallest physical unit: Polling Station

78.2 Data Source(s)
