Head coach Ron Caragher

On Kenny Potter

Kenny should be ok going forward. One of his strengths is his scrambling ability and his ability to run. If you take that away, it's just not the same. Against a team like that, we decided to go with Josh (Love) for the rest of the way. I think it's nothing that will hamper him long term

On 10 sacks

That's a tough statistic there. That will put a big ugly minus on the rushing yardage. That's too many. You'd think it's the offensive line, but it's everything from getting the ball out on time to the running backs picking up protection. We tried to change it up with three-step drop passes, and one of those ended up as an interception. But that's too many sacks. You summarize those sacks with just a collapse of the pocket. There was a lot of pressure, and it was tough.

On Josh Love

For a freshman I was encouraged by Josh Love. Being thrown out there in the heat of the battle, he had poise while the pocket was collapsing. I know there was an interception in there, but in his first game, I thought he did some good things and made some good throws. It was something to build on for down the road.

NICK OREGLIA

I thought we definitely did better than last week. Each game we've gotten tremendously better. We're practicing extremely hard every week. We just have to build off this and practice hard all week to get ready for next week.

We have to stay focused throughout the game, stay steady throughout the game and stay working. That was the mentality for the defense, and it led to a couple of turnovers.

(The work) starts tomorrow. We come in for a run and a lift. We need to stay on track and work all next week in practice. I love the way our practices have been going. We're in good shape, and we just need to continue that moving forward.

FRANK GINDA

I thought we did a bunch of great things in the first half on both sides. Defensively, we have some things to clean up. The interception on the goal line was a good thing. Overall I love the way we finished and never quit.

On giving up 201 yards rushing

The only thing we just had some minor miscommunications, but minor things lead to big plays. Big plays are going to happen in games, and we've just got to recover from them.

KENNY POTTER

Being under pressure a lot

Their defense up front is impressive. We did a good job fighting even though we made mistakes including my mistakes. I have to take ownership for my mistakes. We showed signs of good things out there, but we just have to put it together.

The injury play

I was going to go for the first down no matter what. If a brick wall was there, I was going through it. I'm just fighting for my teammates and fighting for my coaches.
