- 40 score points and below means the overall product has low quality and will not be listed.
- 41 score points and above means overall product has high quality and may or may not be listing based on legal criteria

Satang Pro Listing Process

1. To list your digital asset on Satang Pro, submit your project information through to the Listing Application Form

Listing Application Form: <https://forms.gle/J9zaJ9ca8ZGnyaLH7>

2. When the information is received, our Due Diligence Team will review and evaluate the project in accordance with our criteria (Listing Rules).
3. If the criteria is satisfied, the application along with the evaluation result will be forwarded to the CEO and MD for an approval.
4. The announcement and the listing date will soon be announced after CEO and MD approval.

Satang Pro Internal Listing

Satang Pro may list digital assets on its own interest on each digital asset without requiring the digital assets issuer to make any listing inquiry on the platform. The asset will be evaluated using the same criteria, guidelines and process.

Delisting of Digital Assets

In order to protect the interests of investors, Satang Pro reserves the right to delist the digital assets or to cease the support of the listed digital assets on the platform.

If the digital assets or the issuer of the digital assets trigger conditions including, but not limited to;

- The issuer or did not follow the Whitepaper or the given guidelines about the project or digital assets
 - Disbanding of the project team.
 - Project teams face major legal problems.
 - As a result of strategic adjustment and development needs, the project operations team took the initiative to request the downline.
 - Serious technical or security problems are not addressed in a timely manner.
 - A serious lack of liquidity, with a daily average of less than 0.1m USD for 30 trading days.
 - Significant discrepancies in information disclosure.
 - Sudden chain split.
-

Delisting Process

Satang Pro will evaluate the delisting of the digital assets that fall into given delisting conditions and will request for delisting. Once confirmed, Satang Pro will make a trading suspension as well as delisting announcement 30 days ahead of the delisting.

Users will be given 30 days to withdraw digital assets from Satang Pro.

Forbidden digital assets for digital assets exchange listing

As of the current SEC regulations, Satang Pro will not list cryptocurrency/token that falls into the following criterias;

- a. Meme Token
- b. Fan Token
- c. NFT
- d. Cryptocurrency/Token issued by Satang Pro, its directors, any controlling person or their family members and relatives, company or juristic person with controlling power, and its subsidiaries, mother companies or joint ventures.
