

Do you want to be a Game Changer?

Be our new business coach!

Science Park Skövde is looking for a business coach that can coach entrepreneurs within tech software solutions and smart industry. Through a continuously improved process and a coaching mind, you help entrepreneurs to verify their business ideas in an early stage with the main goal to build sustainable and growing businesses.

Our mission is to find innovative and scalable business ideas with international potential. Science Park Skövde AB has special expertise in computer games and smart industry. This service is mainly focused on smart industry. Our vision is to be a Game Changer for our entrepreneurs' businesses and the groundbreaking sustainable innovations of tomorrow.

The role

In the role as a business coach, you daily meet entrepreneurs who want to enter the market as successfully and quickly as possible. With a coaching approach, you help them stay focused and work with what is important. For example, it may be a question of how to:

- verify the commercial viability of the business idea at an early stage
- find sustainable business models
- prepare the company for investment

Our process of supporting startups includes both group lectures as well as individual counseling and coaching. Together with your colleagues, you will keep the process up to date on content and models to be able to accelerate the entrepreneurs' knowledge and skills in an educational way.

Who are you?

We believe that you have:

- a university degree in IT and/or tech software solutions, smart industry/industry 4.0 or earned skills through previous positions and experiences in the field
- a pedagogic experience and a coaching approach
- experience and understanding of the manufacturing industry, solutions for optimization, efficiency and/or digitization
- great knowledge and skills in a data driven industry and insights in the latest trends
- great understanding in business development and how to build sustainable business models

Your way of working is result-oriented, structured, and inclusive. It is a great advantage if you have experience within the innovation support system. If you have previously run a startup, it is a merit but not a requirement.

As a person you are driven and empathetic. It is natural for you to connect with new people in different contexts and you like to be involved when new innovations are born. Creating and facilitating captivating presentations and workshops, regardless of the meeting forms, come

natural for you. We work together in teams which is why we attach great importance to your collaborative skills.

Work type

Permanent employment, full-time.

The application is open until March 15 and access to the service is immediate.

Send your CV and application to: rekrytering@scienceparkskovde.se.

We would like to see both female and male applicants.

If you have any questions, please contact:
