

Fish Discard

What are discards?

- **Discards are those fish, often dead or dying, that are returned to the sea during commercial fishing operations.**

Why discards happen?

- **Non-selectivity of fishing gears**
- **High grading**

Implementation in the North Sea and North West Waters Regions for 2017

European Commission and form the basis of published delegated acts for the North Sea (and annex) and North Western Waters (and annex).

What Taiwan can do

- According to IPOA-bycatch, stipulates Taiwan NPOA-bycatch.
- Turn discards into fish meal and fish oil.

Thank you!
