

# For rainy days For 'best days ever'

Helping **employees** plan ahead

**SCVO Credit Union**

Let's make money work for you

## Our credit union payroll scheme

# Hassle-free saving that helps you live your life

### For sensible saving and planning ahead

Life is full of twists and turns. Sometimes a turn for the worse might come when you least expect it. Having a savings pot, which you've accumulated over a period of time, enables you to deal with whatever life throws at you.

It also allows you to plan ahead. Sensible saving, a little bit every month, will help you celebrate events like Christmas or special anniversaries without the worry of how you can afford them. Just £30, £50 or £100 a month of savings will soon turn into a handy sum in your personal SCVO Credit Union account.

### For ease and convenience

Saving through the SCVO Credit Union is so much easier. Because your savings are deducted from your payday salary, it's simple and convenient and there's no risk of forgetting.

Being on top of your finances and feeling you are in control of them, gives you a sense of good financial wellbeing, and helps take the stress away of everyday living. It enables you to relax and enjoy life both at work, and with family and friends.

**For you, for family,  
for all of us.**
