

For sensible saving For responsible borrowing

An introduction to workplace
savings **for employees**

SCVO Credit Union

Let's make money work for you

Our credit union payroll scheme

Making saving easier, and loans more affordable.

How SCVO Credit Union works for you

Being on top of your finances is challenging at any time: in a tough financial climate it's even worse. There is a sensible savings solution though – with the SCVO Credit Union. It's a workplace savings scheme that's available to employees and volunteers working within the charity sector. An amount you choose to save is simply deducted from your payday salary. Before you know it, it soon adds up to a tidy sum in your personal SCVO Credit Union account.

For sensible saving

Whether you are saving for a rainy day, or even a sunny break away, we have a range of sensible saving products that will help your money work for you.

For responsible borrowing

There are many good reasons for needing a loan. It may be time to replace a car. Carry out home improvements. Treat you and your family to a well-earned break. Or even just organise your finances and consolidate any debts you may have.

For you, for family, for all of us.

Ask your manager or HR department for details now.
