

Role of Appliance Efficiency Programmes in Intended Nationally Determined Contributions

27 October 2016, 12:00 PM -14:00 PM UTC

Welcome, Introductions, and Agenda Review **10 minutes**

Insights on Appliances from IEA’s 2016 Energy Efficiency Market Report **15 minutes**
Mr. Brian Dean, International Energy Agency

Case Study Presentations **60 minutes**

Some questions for presenters to address:

- What are the key INDC commitments, emission targets and mitigation actions?
- Why is appliance energy efficiency a priority in INDC commitments and climate strategies?
- What are the estimated impacts of appliance energy efficiency on the overall emission targets?
- What are the challenges and lessons learned for integrating appliance energy efficiency in INDCs and maximising effectiveness?
- Are there any opportunities or needs for support, assistance or collaboration from the international community?

Mr. Pengcheng Li, China National Institute of Standardization *15 minutes*
Appliance Energy Efficiency and China’s INDC commitment

Ms. Daniella Rough, Directorate General for Energy Efficiency *15 minutes*
Peru’s Energy Efficiency NAMA

Mr. Tran Huy Hoan, Institute for Trade of Vietnam *15 minutes*
Vietnam Experience to Support Appliance Energy Efficiency

Q&A, Potential Follow-on Activities, and Group Discussion **30 minutes**
Moderated by IEA and CLASP

Closing Remarks **5 minutes**
