

ERIAFF Working Group

S3 Partnership on High Tech Farming

ERIAFF Working Group “High Tech Farming”

- **Coordinating Region:** Tuscany
- **Member Regions:**
23 (not all ERIAFF Regions) + 1 Member State (Estonia)
- **Objective:**
Accelerating the development and adoption of Precision Farming technologies by:
 - ✓ Improving projects impact
 - ✓ Reducing funding and/or knowledge gaps
 - ✓ Allowing a better management and better marketing of new technologies
 - ✓ Enabling farmers to use/dominate technologies
- **Proposed activities:**
 - ✓ Mapping exercise
 - ✓ Joint projects under European funds
 - ✓ Organization of event (with businesses)
 - ✓ Identification of Interregional Pilot Projects

ERIAFF Working Group “High Tech Farming”

- **Next steps and involvement of ERIAFF Regions:**

ERIAFF has been involved in the activities since the development of the first concept proposal in 2016.

Next steps consist in continuing the development of potential business cases at interregional level. Three main potential projects are under development at the moment:

- ✓ Technology adoption in small and family farms
- ✓ Agriculture warnings for weeds and diseases
- ✓ Integration of sensors to monitor and improve the conditions of livestock

- **Expected results:**

- ✓ Joint projects (and programmes);
- ✓ Adoption of new technologies by farmers;
- ✓ New business models;
- ✓ New connections among actors and among sectors.
