- Professor Nicola Dragoni, DTU Compute, Head of Section Cybersecurity Engineering
- Professor Tuomas Aura, SECCLO Programme Director, Aalto University

Programme

13.45-15.00 Alumni speeches

13.50-14.05 Akzharkyn Duisembiyeva, Security Engineer, TINK

14.05-14.20 Hsin Yi-Chen, Security Solution Manager, Ericsson

14.20-14.35 Dawin Schmidt, ArgoAI, Senior Product Security Architect

14.35-14.50 Bruno Duarte, Representative of Erasmus Mundus Student Association EMA, Senior DevOps Engineer, Ericsson

Speaker

Akzharkyn Duisembiyeva is a senior security engineer at Tink based in Stockholm, Sweden.

Akzharkyn works with Product Security team and has software engineering background. Her areas of interest include application security, security architecture, penetration testing. Besides work, Akzharkyn runs a local group for women who work in security or would like to join the field, mentors other people and in the process of establishing a Women4Cyber Sweden chapter. Secclo programme: 2018-2020, Communication Systems track at KTH.

Speaker

Hsin Yi-Chen is a Security Sales Manager in Ericsson. She gained my interest in telecom security while doing her thesis at Nokia Bell Labs After graduation, she joined Ericsson Early Career Program, an 18th month program consists of 3 rotations: started as a software developer, then soon moved to sales, driving customer security engagements in North America and North-East Asia.

Speaker

- Dawin Schmidt is an alumni of the NordSecMob- programme, study track KTH+Aalto. He works currently as a Cyber Security Engineer in Munich, Germany at ARGO AI.

Speaker

- Bruno M. Duarte Coscia has participated in many social initiatives as well as NGOs in Paraguay before joining SECCLLO (Aalto + KTH). He was a Founding member and first secretary of the board of the State Alumni Paraguay (SAP); an elite platform for exchange and access to opportunities for alumni of any of the U.S. Embassy programs in Paraguay. In regard of the development of the Internet infrastructure in Paraguay:

* He promoted and influenced the initial steps for the first Internet Exchange Point (IXP) and he also organized the 3rd Internet Governance Forum Paraguay and moderated the panel of "Youth Empowerment in Internet Governance". * As a representative of the civil society he is a key holder of the DNSSEC root zone of the ".PY" country code top level domain of Paraguay. EMA representative of SECCLLO.

Programme

- 15.00-15.45 Group photo, coffee/tea and cake
- 15.45 – 16.30 Panel discussion – Alumni panelists from SECCLLO and NordSecMob.
- Moderators: Professor Tuomas Aura and Flemming Stassen
