

How is **1% FOR GOOD** helping those less fortunate in our community?

BY SUPPORTING

Sunnyvale Community Services works to ensure that residents are safely and stably housed with food on the table, and with access to medical care and services. SCS addresses immediate critical needs to help low-income families and seniors who are often one bill away from hunger and homelessness. The organization's Board and staff work together to innovate and measure what works best to help low-income persons stabilize and move on to health and prosperity.
