

BALANCING OUR ECOSYSTEM

Many of our community's disadvantaged children don't have the chance to experience the thrilling impact of beach sand, ocean waves, and sea creatures. Oceanseed Project uses evidence-based programs to transform the lives of these at-risk youth by providing access to oceans, beaches, estuaries, and watersheds. And they provide ongoing mentorship and student-centered curricula in the humanities and sciences that meet current educational standards. Oceanseed's participants discover and develop profound connections to new skills and values while learning about our natural world.

Oceanseed Project maintains its programs through donations and grants. Sereno Group is proud to support this caring group of professional individuals who are immediately and directly taking action to improve lives in their community and teach environmental stewardship first-hand.

Learn more about their programs, or about how you can get involved at oceanseedproject.org.

FROM JANUARY THROUGH MARCH OF 2014, SERENO GROUP AND ITS SANTA CRUZ AGENTS WILL BE CONTRIBUTING 1% OF THEIR GROSS COMMISSIONS TO OCEANSEED PROJECT.
