

CREATING OPPORTUNITIES FOR SUCCESS

Since 1969, Morgan Autism Center has served as a school and resource for families and professional service providers Bay Area-wide. Their mission is to help children and adults with autism or other developmental disabilities maximize their potential in a dignified, positive and loving environment. Their vision is for the students and clients to remain in the community and lead a productive and happy life. They work to increase awareness about autism and to promote sharing of the latest research and information.

Sereno Group is proud to support Morgan Autism Center and their mission.
