

Exceptional Homes for Adults with Special Needs

Life Services Alternatives

Life Services Alternatives (LSA) is committed to providing quality homes and exceptional programs for adults with developmental disabilities because it believes everyone deserves to live the best life they can. Through 11 licensed, quality residential care homes in Santa Clara County and customized programs focused on skill-building and achieving independence, LSA's caring staff support residents 24/7.

There are approximately 278,000 special needs individuals statewide with 6,500 adults living in Santa Clara County. The demand for homes and programs will only continue to grow as the special needs population ages. LSA is committed to finding housing solutions to help meet this ever-increasing demand.

Sereno Group is proud to support the commitment and services LSA provides to our community.
