

# CREATING OPPORTUNITIES

**Vision & LITERACY**  
*Partners Creating Opportunities*

Illiteracy is often a root cause of some of the most serious problems facing society today. Its effects are particularly devastating in our lower income communities, where low literacy skills often prevent parents from learning, communicating, and becoming engaged in the education of their children. Vision Literacy is a premium provider of adult literacy education services in Santa Clara County. For more than 27 years, they have partnered with donors, volunteers, and organizations to raise awareness and funds to provide necessary free services for adults to improve their literacy skills. At Sereno Group we are honored to support Vision Literacy and their commitment to adult education services.
