

CREATING GOOD KARMA FOR THOSE IN NEED

Good Karma Bikes is a non-profit that believes in “Transportation for Transformation”. Take a moment and imagine your life without any form of transportation...How would you find your way to job interviews, your work site, shelter?

Transportation is a critical component in changing lives. Good Karma Bikes assists people with this challenge in their recovery and daily work by providing safe and reliable bicycles to those in need. They are also a full-service, second-hand bike shop reinvesting their earned revenue into employing people in recovery.

Sereno Group is proud to support the commitment and service that Good Karma Bikes provides to our community. For more information about their program or how you can get involved, please visit www.goodkarmabikes.org
