1	Myelin and White Matter	1
2	Classification of Myelin Disorders	20
3	Selective Vulnerability	25
4	Myelination and Retarded Myelination	37
5	Lysosomes and Lysosomal Disorders	66
6	Metachromatic Leukodystrophy	74
7	Multiple Sulfatase Deficiency	82
8	Globoid Cell Leukodystrophy (Krabbe Disease)	87
9	GM₁ Gangliosidosis	96
10	GM₂ Gangliosidosis	103
11	Fabry Disease	112
12	Fucosidosis	119
13	Mucopolysaccharidoses	123
14	Free Sialic Acid Storage Disorder	133
15	Neuronal Ceroid Lipofuscinoses	137
16	Adult Polyglucosan Body Disease	147
17	Peroxisomes and Peroxisomal Disorders	151
18	Peroxisome Biogenesis Defects	154
19	Peroxisomal D-Bifunctional Protein Deficiency	167
20	Peroxisomal Acyl-CoA Oxidase Deficiency	172
21	X-linked Adrenoleukodystrophy	176
22	Refsum Disease	191
23	Mitochondria and Mitochondrial Disorders	195
24	Mitochondrial Encephalopathy with Lactic Acidosis and Stroke-like Episodes	204
25	Leber Hereditary Optic Neuropathy	212
26	Kearns-Sayre Syndrome	215
27	Mitochondrial Neurogastrointestinal Encephalomyopathy	221
28	Leigh Syndrome and Mitochondrial Leukoencephalopathies	224
29	Pyruvate Carboxylase Deficiency	245
30	Multiple Carboxylase Deficiency	248
31	Cerebrotendinous Xanthomatosis	252
32	Cockayne Syndrome	259
33	Trichothiodystrophy with Photosensitivity	268
34	Pelizaeus-Merzbacher Disease and X-linked Spastic Paraplegia Type 2	272
35	18q- Syndrome	281
36	Phenylketonuria	284
37	Glutaric Aciduria Type 1	294
38	Propionic Acidemia	300
39	Nonketotic Hyperglycinemia	306
40	Maple Syrup Urine Disease	311
41	3-Hydroxy 3-Methylglutaryl-CoA Lyase Deficiency	321
42	Canavan Disease	326
43	L-2-Hydroxyglutaric Aciduria	334
44	D-2-Hydroxyglutaric Aciduria	338
45	Hyperhomocysteinemias	342
46	Urea Cycle Defects	360
47	Serine Synthesis Defect Caused by 3-Phosphoglycerate Dehydrogenase Deficiency	369
48	Molybdenum Cofactor Deficiency and Isolated Sulfite Oxidase Deficiency	372
49	Galactosemia	377
50	Sjögren-Larsson Syndrome	383
51	Lowe Syndrome	387
52	Wilson Disease	392
53	Menkes Disease	400
54	Fragile X Premutation	406
55	Hypomelanosis of Ito	409
56	Incontinentia Pigmenti	412
57	Alexander Disease	416
58	Giant Axonal Neuropathy	436
59	Megalencephalic Leukoencephalo- pathy with Subcortical Cysts	442
60	Congenital Muscular Dystrophies	451
61	Myotonic Dystrophy Type 1	469
62	Myotonic Dystrophy Type 2	473
63	X-linked Charcot-Marie-Tooth Disease	476

64	Oculodentodigital Dysplasia	479
65	Leukoencephalopathy with Vanishing White Matter	481
66	Aicardi–Goutières Syndrome	496
67	Leukoencephalopathy with Calcifications and Cysts	505
68	Leukoencephalopathy with Brain Stem and Spinal Cord Involvement and Elevated White Matter Lactate . . .	510
69	Hypomyelination with Atrophy of the Basal Ganglia and Cerebellum .	519
70	Hereditary Diffuse Leukoencephalo- pathy with Neuroaxonal Spheroids . . .	526
71	Dentatorubropallidoluysian Atrophy .	530
72	Cerebral Amyloid Angiopathy	535
73	Cerebral Autosomal Dominant Arteriopathy with Subcortical Infarcts and Leukoencephalopathy	541
74	Cerebral Autosomal Recessive Arteriopathy with Subcortical Infarcts and Leukoencephalopathy	549
75	Polycystic Lipomembranous Osteodysplasia with Sclerosing Leukoencephalopathy (Nasu-Hakola Disease).	552
76	Pigmentary Orthochromatic Leukodystrophy	557
77	Adult-Onset Autosomal Dominant Leukoencephalopathies	559
78	Inflammatory and Infectious Disorders	561
79	Multiple Sclerosis	566
80	Acute Disseminated Encephalomyelitis and Acute Hemorrhagic Encephalomyelitis	604
81	Acquired Immunodeficiency Syndrome	616
82	Progressive Multifocal Leukoencephalopathy	628
83	Brucellosis	635
84	Subacute Sclerosing Panencephalitis .	640
85	Congenital and Perinatal Cytomegalovirus Infection	645
86	Whipple Disease	658
87	Toxic Encephalopathies	664
88	Iatrogenic Toxic Encephalopathies . .	679
89	Central Pontine and Extrapontine Myelinolysis	684
90	Hypernatremia	690
91	Marchiafava–Bignami Syndrome . . .	695
92	Posterior Reversible Encephalopathy Syndrome	699
93	Langerhans Cell Histiocytosis	709
94	Post-Hypoxic–Ischemic Damage	714
95	Post-Hypoxic–Ischemic Leukoencephalopathy of Neonates . .	718
96	Neonatal Hypoglycemia	749
97	Delayed Posthypoxic Leukoencephalopathy	755
98	White Matter Lesions of the Elderly . .	759
99	Subcortical Arteriosclerotic Encephalopathy	767
100	Vasculitis	773
101	Leukoencephalopathy and Dural Venous Fistula	801
102	Leukoencephalopathy after Chemo- therapy and/or Radiotherapy	808
103	Gliomatosis Cerebri	818
104	Diffuse Axonal Injury	823
105	Wallerian Degeneration and Myelin Loss Secondary to Neuronal and Axonal Degeneration	832
106	Diffusion-Weighted Imaging	839
107	Magnetization Transfer Imaging	854
108	Magnetic Resonance Spectroscopy: Basic Principles, and Application in White Matter Disorders.	859
109	Pattern Recognition in White Matter Disorders.	881
