

Contents

Part I Foundations of Casimir Theory

1	Introduction	3
1.1	Casimir’s Thought-Experiment	3
1.1.1	The Ground State Field Energy	3
1.1.2	Regularising the Energy	6
1.1.3	The Finite Casimir Force	8
1.1.4	Renormalisation and Background Energies	9
1.2	Dispersion Forces	11
1.2.1	Van der Waals Forces	12
1.2.2	Casimir-Polder Forces	15
1.2.3	Casimir-Lifshitz Forces	19
1.3	Experimental Evidence	20
1.3.1	Early Measurements	20
1.3.2	High Precision Measurements	22
	References	23
2	Macroscopic Quantum Electrodynamics	25
2.1	Field Quantisation in Vacuum	25
2.1.1	Quantising the Light Field	25
2.1.2	Maxwell’s Equations	26
2.1.3	The Quantum Light Mode	27
2.1.4	Zero-Point Energy	28
2.1.5	External Boundaries on a Quantum Field	28
2.2	Field Quantisation in Media	29
2.2.1	The Macroscopic Maxwell Equations	29
2.2.2	Quantum Noise	30
2.2.3	Bosonic Field Operators	31
2.2.4	Field Fluctuations	31

2.2.5	The Fundamental Fields	33
2.2.6	The Hamiltonian	35
2.2.7	Photons and Polaritons	35
2.3	The Casimir Force Density	36
2.3.1	The Stress Tensor	36
2.3.2	Averaging over the Quantum Stress Tensor	46
2.3.3	Regularising the Stress Tensor	47
2.4	The Lifshitz Result for Two Half-spaces	49
2.4.1	The Force in a Dielectric Sandwich	49
2.4.2	The Casimir Force in the Limit	54
2.4.3	Boyer's Repulsive Mirrors	55
	References	55
3	The Quantum Nature of the Casimir Force	57
3.1	Diverging Accounts of the Casimir Effect	57
3.2	Three Theories of the Casimir Force	58
3.2.1	Casimir's Theory and the Quantum Vacuum	58
3.2.2	Lifshitz Theory and Stochastic Fluctuations	60
3.2.3	Macroscopic QED and the Polariton Field	61
3.3	Three Ontologies of the Casimir Effect	63
3.3.1	Semi-classical Ontologies	63
3.3.2	A Dual-Aspect Quantum Ontology	65
3.4	Summary Remarks	66
	References	66
 Part II Surprises in Casimir Theory		
4	The Cut-off Independence of the Casimir Energy	71
4.1	Beyond Homogeneous Media	71
4.2	An Inhomogeneous Casimir Piston	72
4.2.1	The Modified Casimir Energy	72
4.2.2	The Modified Eigenfrequencies	73
4.2.3	Frequency Perturbations	76
4.2.4	Field Energy Perturbations	79
4.2.5	Removing the Regularisation	83
4.2.6	Special Cases	88
4.3	Summary Remarks	88
4.3.1	The Cut-off Independence of the Casimir Energy	88
4.3.2	Possible Objections	89
	References	89

5	The Divergence of the Casimir Stress	91
5.1	The Casimir Force in Real Media	91
5.2	The Regularised Stress in the Continuum Limit	92
5.2.1	The Stress Tensor for a Rectangular Cavity	92
5.2.2	An Anticipated Divergence	93
5.3	Transfer Matrices for the Electromagnetic Field	94
5.3.1	Single-Interface Transfer Matrix	94
5.3.2	Multilayer Transfer Matrix and Reflection Coefficients	100
5.3.3	Approximate Transfer Matrices for an Inhomogeneous Medium	101
5.4	The Casimir Stress in an Inhomogeneous Medium	106
5.4.1	The High-Wavenumber Divergence	107
5.4.2	A Numerical Illustration	110
5.4.3	Speculations on Spatial Dispersion	112
5.5	Summary Remarks	114
	References	115

Part III Conundrums in Casimir Theory

6	The Casimir Force in a ‘Compressive’ Medium	119
6.1	The Paradox of Transformation Media	119
6.2	The Casimir Force in a ‘Compressed’ Cavity	120
6.2.1	Properties of the <i>C</i> -Slice	120
6.2.2	Modifying the Casimir Force	122
6.3	Applications of the <i>C</i> -slice	130
6.4	Summary Remarks	131
	References	132
7	The Casimir Force in Maxwell’s Fish-Eye	133
7.1	The Paradox of Maxwell’s Fish-Eye	133
7.2	The Geometry of the Fish-Eye	134
7.2.1	The Stereographic Projection	134
7.2.2	The Force in the Fish-Eye	136
7.3	Maxwell’s Fish-Eye and the Finestructure Constant	137
7.3.1	Casimir’s Semi-classical Model of the Electron	137
7.3.2	The Fish-Eye with a Mirror	138
7.4	Speculations on Regularisation	145
7.5	Summary Remarks	147
	References	148

8 Outlook	149
8.1 The Cut-Off Independence of the Casimir Force	149
8.2 The Divergence of the Casimir Stress	150
8.3 The Casimir Force in a ‘Compressive Medium’	152
8.4 The Casimir Force in Maxwell’s Fish-Eye	153
8.5 Beyond the Diverging Casimir Force	154
References	156
Appendix A: Causality and Wick Rotation	157
Appendix B: Maxwell’s Stress Tensor	163
Appendix C: Green Functions from Transfer Matrices	165
Appendix D: Möbius Transformations	173
