

# Contents

<b>Survey on the State of the Art. . . . .</b>	<b>1</b>
1 What Transitions in Mathematics Education? Review of the Literature . . . . .	1
1.1 Mathematics Education: A Story of Change . . . . .	1
1.2 Epistemological and Cognitive Transitions . . . . .	3
1.3 Sociocultural Transitions. . . . .	4
2 Continuity Versus Discontinuity in Learning Difficult Concepts . . . . .	5
2.1 Setting the Scene . . . . .	5
2.2 Misconceptions and Discontinuities . . . . .	6
2.3 Conceptual Change . . . . .	7
2.4 Steps Toward Resolving the Conflict . . . . .	8
2.5 Empirical Work . . . . .	8
2.6 Implications for Teachers and Other Educational Professionals . . . . .	9
2.7 Final Words . . . . .	11
3 Double Discontinuity Between Secondary School Mathematics and University Mathematics: Focusing on Mathematical Knowledge for Teaching . . . . .	11
3.1 Theorizing Teacher Knowledge . . . . .	12
3.2 Developments in Teacher Preparation . . . . .	14
3.3 Final Comments . . . . .	15
4 Transitions Between Teaching Institutions . . . . .	16
4.1 Changes Between Educational Institutions at Different Levels of Determination . . . . .	16
4.2 The Primary-Secondary Transition . . . . .	18
4.3 The Secondary-University Transition . . . . .	19
4.4 Questions to Be Pursued. . . . .	21

5 Transitions Between In- and Out-of-School Mathematics . . . . . 21

5.1 Introduction. . . . . 21

5.2 The Transition from Prior-to-School to School  
Mathematics . . . . . 22

5.3 Transitions from Out-of-School to School Mathematics  
(and Vice Versa) . . . . . 23

6 Summary and Looking Ahead . . . . . 26

References. . . . . 28

Transitions in Mathematics Education

Gueudet, G.; Bosch, M.; diSessa, A.A.; Kwon, O.N.;  
Verschaffel, L.

2016, X, 34 p. 2 illus., Softcover

ISBN: 978-3-319-31621-5
