# Contents

**Part I A Brief History of Biomarkers and Mental Illness**

**1 Psychiatric Disorders as "Whole Body" Diseases** ..... 3
A Brief History of Psychiatric Disease: The Curse of the Gods? ..... 3
Is It All in the Blood or Other Body Fluids? ..... 5
What Went Wrong in the Middle Ages? ..... 6
Phase 1 ..... 7
Phase 2 ..... 7
Phase 3 ..... 8
Phase 4 ..... 9
Famous People with Psychiatric Disorders ..... 9
Is It All in the Mind? ..... 12
The Basics: Neurotransmission ..... 12
The Disconnectivity Theory of Mental Disorders ..... 15
What Can We Learn About Brain Function by Studying the Serum? ..... 16

**2 Treatment of Psychiatric Disorders: Time for a Paradigm Change?** ..... 17
What Is the Clinical Need? ..... 17
What Is a Biomarker? ..... 18
Clinical Examples ..... 19
Case 1 ..... 19
Case 2 ..... 20
Case 3 ..... 21
Case 4 ..... 22
Current Diagnostic Practices in Psychiatry ..... 23
How Might Biomarkers Be Used in Psychiatry? ..... 26
As an Aid to Diagnosis ..... 26
Identification of Diagnostic Subgroups ..... 26
Treatment Response Prediction ..... 26

Helping to Redefine the Diagnostic Categories ..... 27
Helping to Identify Staging of Psychiatric Diseases..... 28
What Kinds of Biomarkers Have Been Identified?..... 29
Future Prospects..... 30

**3 The Importance of Biomarkers: The Required Tools of the Trade**..... 31
Why Do We Need Biomarkers in Psychiatry?..... 31
Proteomics..... 32
What Are the Main Biomarker Technologies? ..... 34
Mulitplex Immunoassay..... 34
Two-Dimensional Gel Electrophoresis ..... 36
Mass Spectrometry..... 36
$^{1}$H-Nuclear Magnetic Resonance (NMR) Spectroscopy..... 38
Imaging Techniques ..... 39
Future Prospects..... 40

**Part II Psychiatric Diseases**

**4 Schizophrenia and the Mind–Body Connection**..... 45
How Do We Currently Diagnose Schizophrenia?..... 45
Can This Be Improved By Incorporation of Biomarkers?..... 46
Schizophrenia Symptoms..... 47
Positive Symptoms..... 47
Negative Symptoms ..... 48
Cognitive Symptoms..... 48
Diagnostic Tools ..... 49
DSM..... 49
Positive and Negative Syndrome Scale (PANSS)..... 49
Brain Effects ..... 51
Neurotransmitter Theories of Schizophrenia..... 53
Dopamine..... 53
Glutamate..... 54
GABA ..... 55
Acetylcholine ..... 55
Serotonin..... 55
The Link Between the Brain and the Periphery..... 55
Are There Any Novel Treatments on the Horizon?..... 58
Can We Improve Treatment Response of Patients Using Biomarkers? ..... 59
Development of Biomarker Tests to Detect Schizophrenia Before Disease Onset..... 61
Future Prospects in Schizophrenia Research ..... 62

**5 Progress for Better Treatment of Depression** ..... 63
Why Is It Difficult to Diagnose Depression?..... 63
Diagnostic Tools ..... 64

DSM-5 ..... 64
Hamilton Depression Rating Scale (HAM-D) ..... 65
Why Is It So Difficult to Treat Depression? ..... 68
What Is Going on in the Brains of Depressed Patients and Why Does It Take Antidepressants So Long to Work? ..... 69
Can We Detect Depression Using Biomarkers in the Blood? ..... 71
Stress Hormones ..... 72
Other Hormones ..... 72
Growth Factors ..... 73
Inflammation ..... 73
Oxidative Stress ..... 74
Can We Develop a Blood Test for Major Depressive Disorder? ..... 75
Are There Any Novel Treatments on the Horizon for Depression? ..... 75
Future Prospects in Depression Research ..... 77

**6 The Special Case of Bipolar Disorder** ..... 79
What Is BD Exactly? ..... 79
Diagnostic Tools ..... 81
DSM-5 ..... 81
Young Mania Rating Scale ..... 82
HAM-D ..... 84
The Problem of Diagnosing Bipolar Disorder ..... 84
Current Tools and Methods in BD Drug Target Discovery ..... 85
How Do We Identify New Drugs for a Complicated Psychiatric Disorder Such as BD? ..... 85
Animal Models ..... 85
Cellular Models ..... 86
What Are the Key Objectives of BD Research? ..... 88
What Do Current Drugs Target in BD? ..... 88
Novel Targets in BD ..... 89
Neuropeptide Converting Enzymes ..... 90
Inhibitors of Cell Death (Apoptosis) ..... 90
NMDA Receptor Antagonists ..... 91
Insulin Sensitizing Agents ..... 91
Future Prospects in BD Research ..... 92

**7 The Worrying Case of Anxiety and Stress-Related Disorders** ..... 95
What Happens When We Get Stressed? ..... 95
What Is Stress? ..... 97
Diagnostic Tools ..... 98
DSM-5 ..... 98
Beck Anxiety Inventory ..... 99
Stress in Humans ..... 99
Foetal Programming in Response to Stress ..... 100
Behavioural and Psychological Problems Resulting from Stress ..... 101
Effects of Stress on the Brain ..... 103

Timing and Severity ..... 104
Potential Advantages of Stress ..... 105
Effects of Stress on Insulin Resistance and the HPA Axis ..... 106
Biomarker Identification for Stress-Related Disorders ..... 107
Therapeutic Implications ..... 108
Conclusions and Future Prospects ..... 109

**8 The Autism Spectrum Conditions and the Extreme Male Brain Syndrome** ..... 111
What Is Autism? ..... 112
Diagnostic Tools ..... 113
Idiopathic ASD ..... 119
Symptomatic ASD ..... 119
What Causes Autism? ..... 119
How Is Autism Treated? ..... 121
Biomarkers for Autism ..... 121
Transcriptomics ..... 121
Proteomics and Metabolomics ..... 122
Developing New Treatments for Autism ..... 123
Melatonin ..... 124
Omega-3 Fatty Acids ..... 124
Glutamate and GABA ..... 124
Oxytocin ..... 124
The Future of Autism Research ..... 125

**9 Gender and Psychiatric Disorders** ..... 127
The Effects of Gender on Disease ..... 127
Are Different Biomarkers Found in Males and Females? ..... 129
Are There Gender Differences in the Brain? ..... 130
Do Brain Structural Differences in Males and Females Relate to Different Behaviours and Characteristics? ..... 131
Memory Encoding and Recall ..... 131
Intelligence ..... 132
Personality ..... 132
Occupational Preferences ..... 132
Sex Differences in Psychiatric Diseases ..... 133
Schizophrenia ..... 133
Depression ..... 135
Autism ..... 136
The Future: Should We Consider Sex Differences When Treating Patients with Psychiatric Disorders? ..... 138

**Part III Neurodegenerative Disorders**

**10 Biomarkers and New Treatments for Alzheimer's Disease** ..... 143
What Is Alzheimer's Disease? ..... 144
Early Stage Symptoms (2–5 Years) ..... 144

Middle-Stage Symptoms (2–10 Years) ..... 145
Late-Stage Symptoms (1–3 Years) ..... 145
What Is Going on in the Brain in Alzheimer's Disease? ..... 146
How Is Alzheimer's Disease Diagnosed? ..... 147
Famous People with Alzheimer's Disease ..... 148
How Is Alzheimer's Disease Treated? ..... 150
Known Biomarkers for Alzheimer's Disease in Body Fluids ..... 151
Cerebrospinal Fluid ..... 151
Blood, Serum and Plasma ..... 152
Exploring New Treatments for Alzheimer's Disease ..... 153
Inhibitors of Amyloid Plaque Production ..... 154
Inhibitors of Tau Tangle Formation ..... 154
Inhibitors of Cholesterol Synthesis ..... 154
Anti-inflammatory and Antioxidant Compounds ..... 154
Drugs Which Target Insulin Resistance ..... 155
Caffeine ..... 155
Diet and Exercise ..... 156
Future Directions ..... 156

**11 Parkinson's Disease, Biomarkers and Beyond** ..... 157
What Is Parkinson's Disease? ..... 157
How Is Dopamine Synthesized? ..... 158
What Causes Parkinson's Disease? ..... 159
How Is Parkinson's Disease Diagnosed? ..... 159
Unified Parkinson's Disease Rating Scale ..... 160
International Classification of Functioning, Disability and Health ..... 160
Hoehn and Yahr Staging Scale ..... 161
Schwab and England Activities of Daily Living Scale ..... 161
What Is Going on in the Brain's of People with Parkinson's Disease? ..... 161
Famous People with Parkinson's Disease ..... 162
Treatment of Parkinson's Disease ..... 166
The Need for Biomarkers ..... 166
Biomarker Candidates Identified for Parkinson's Disease ..... 167
Behavioural Biomarkers ..... 167
Transcranial Sonography ..... 168
Genetic Biomarkers ..... 168
Serum, Plasma and Cerebrospinal Fluid Biomarkers ..... 168
α-Synuclein ..... 169
Inflammation-Related Proteins ..... 169
Novel Drug Treatment Approaches in Parkinson's Disease ..... 169
Failed Approaches ..... 170
Methods that Result in Symptom Improvement ..... 170
Novel Approaches to Slow or Halt Disease Progression ..... 170
Future Directions ..... 171

**Part IV The Future**

**12 The Future: Towards Personalized Medicine** ..... 175
Why Do We Need Improved Technologies in the Study of Psychiatric Illnesses? ..... 175
What Kind of Biomarker Tests Should Be Developed? ..... 178
Clinical Impact of Biomarkers ..... 179
Other Benefits: Cost Savings for the Healthcare Systems ..... 180
Is There a Market for Point-of-Care Devices? ..... 181
How the Evolution of Biosensors Has Aided Development of Point-of-Care Devices ..... 182
e-Psychiatry ..... 183
Personalized Medicine? ..... 184
Targeting Insulin Resistance ..... 185
Targeting Inflammation ..... 186
Biomarkers for Prediction of Response ..... 186
The Future ..... 187
Concluding Remarks ..... 188

**Bibliography** ..... 191

**Index** ..... 201
