

SANDHILL COVE FOUNDATION, INC

WHERE DID YOUR MONEY GO?

Over 40 of our employees and children of employees are grateful to the Sandhill Cove Community for raising funds needed to support our scholarship program. The programs cover certified training certificates to enable entry into such careers as solar energy, fire science and emergency medical technicians (EMT). Also covered are educational assistance for Associate's, Bachelor's, Masters and PhD degrees. Scholarships are awarded on the basis of merit and financial need.

Olivia Dodge, daughter of rehab contractor, Cheryl Dodge, received a scholarship in 2018 and 2019. Olivia worked at Water's Edge. She is one year from graduation at the University of Florida where she is majoring in Mechanical Engineering and minoring in Business. Olivia is accepted into the Navy's highly coveted and competitive Nuclear Officer program and hopes to serve on a nuclear submarine.

"My courses are for the most part entirely online, and so I have been doing exams, designs, and experiments in my kitchen. Some of the projects I've been working on are airplane dollies, scissor-lifting jacks, and various circuit systems – I wish I had more counter space! It has been difficult, but I am learning to work with the self-imposed work structure and building an ever growing network of friends and peers to work with, both in person and virtually."

The entire Sandhill Cove Foundation Inc., consisting of a Board of Directors and a Scholarship Committee, are thankful to the Sandhill Cove Community and to Life Care Services for their support. This financial assistance enables the Foundation to give our employees and children of employees a better chance to attain the skills necessary to succeed in life.

CHANGING LIVES ONE EMPLOYEE AT A TIME
