

Large Capacity Ceiling Panel for Multiple Services

Legrand's Ceiling Panels are an industry leading solution for providing multiple services directly above equipment in Lab/Healthcare spaces and more. Legrand's ceiling panels are designed to accommodate power, communication, A/V Devices, as well as air/gas/vac services, all in one product.

Legrand's Ceiling Panels applications include Laboratories, non-patient care health care areas, colleges/universities, commercial and more.

Legrand's Ceiling Panels are available in two standard sizes. Custom options available. Consult factory.

Features and Benefits

- **Two standard sizes available.** 12" x 24" and 24" x 24" to fit in standard drop ceiling grid sizes.
- **Versatile Mounting:** Threaded rod or cable mounted.
- **Factory Powder Coat Painted White** to match ceiling panels.
- **Up to 10 gangs** for Power or Data
- **Large area for onsite drilling of openings** for gas/air/vac.
- **Multiple Faceplate options.** Can be field changed out for future expansion.
- **Device opening can fit up to 60 Amp Straight blade devices.**
- **Deep device boxes (3 3/8")** to fit most data and A/V devices.
- **Constructed of 16-gauge A60 steel.**
- **Multiple panels can be used side by side** for additional capacity.
- **Divider available** to split services in single compartment.
- **Custom sizes/colors available.** Consult factory.
