## CHAIR'S MESSAGE TO SHAREHOLDERS

Fellow Shareholder

This year has been pivotable for your Company but one which brings forth an exciting future.

Despite some strong exploration results in Sweden, the Board made a decision to expand its strategy to actively seek potential project acquisitions that would complement the work it is doing on its highly prospective Swedish portfolio.

This move is consistent with the Company's commitment to deliver shareholder value by leveraging its skill base both through the execution of highly prospective exploration as well as value accretive corporate transactions.

Alicanto is currently evaluating a number of opportunities that it believes could add significant value for shareholders.

In Sweden, the exploration program at the Falun Project has yielded some excellent results. At each of the high-priority targets selected for drilling, strong results were recorded:

- At Skyttgruvan-Naverberg (3.5km to the west of Falun) drilling has identified a target which is analogous to the architecture of the Falun massive sulphide deposit and where interpretations indicate a significantly larger mineralised system than previously thought;
- At Krondiket (immediately to the west of the Falun deposit) we expected to find a continuation of the Falun stratigraphic sequence but now believe we have identified an entirely new upflow zone similar to that which created the original Falun deposit; and
- At Galgberget (immediately to the south of the Falun deposit) we believe we have identified what appears to be the southern extension of the original Falun deposit.

While work this year was focused on Falun, the opportunity at Sala also remains a priority. The next phase of exploration at Sala includes the drill testing of high-grade silver repeat structures to the north of the historic mine and Finntorpet, where a broad range of Sala-style silver mineralisation has been identified.

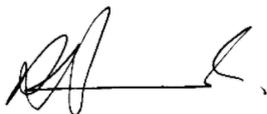

In line with this expanded strategy and the resignation of the Managing Director, Alicanto has restructured its Board and management team. We welcome the addition of Duncan Grieve and Russell Curtin to our Board. Furthermore, the value-add from Stephen Parsons and Michael Naylor and their expertise will be crucial too as we advance our current projects, explore new opportunities and drive shareholder value.

At the end of the year, we were grateful for the support of Shareholders that supported the Entitlement Offer that was successful in raising \$1.72 million to progress our growth initiatives. In addition, we are now well progressed on a number of options to continue our exploration efforts in the world class mining district of Bergslagen in Sweden.

On behalf of the Board, I would like to thank the team both in Sweden and Australia on the excellent work during the year. In addition, I would also like to express my appreciation to Rob Sennitt for his efforts as Managing Director over the past two years and wish him well for the future and finally, my sincere thanks to all our supportive shareholders.

We look forward to delivering on the potential of Alicanto in 2025.

Yours faithfully

Raymond Shorrocks  
Non-Executive Chairman

## Operations Review

### Overview

During the year, Alicanto expanded its strategic focus to incorporate potential project acquisitions to complement its highly prospective Swedish portfolio.

To facilitate this expanded growth strategy and the stepping down of its Managing Director, Alicanto restructured both its Board and Management team to best position the Company for success.

In addition, the Company completed a successful capital raising, raising in the order of A\$1.7m, to fund this new strategy.

### Project Acquisition Strategy

Alicanto is actively seeking potential project acquisitions that will complement its highly prospective Swedish portfolio. The team at Alicanto is committed to delivering shareholder value both through the execution of highly prospective exploration as well as value accretive corporate transactions.

Alicanto is currently evaluating multiple opportunities that it believes could add significant value for shareholders. The reconstructed Company's Board, management and advisers have a track record in sourcing quality opportunities and adding value by funding considered exploration programs.

### Exploration in Sweden

Alicanto continues to pursue an exploration campaign in Sweden's highly regarded mining region of Bergslagen. This region is well known for its long mining history, mining culture, large mineralised systems and highly developed infrastructure. It hosts world-class base and precious metals operating projects, such as the Garpenberg mine owned by Boliden AB and the Zinkgruvan mine owned by Lundin Mining Corporation.

Figure 1:  
Map of Sweden showing the Bergslagen region

For personal use only

## Operations Review (continued)

### Exploration in Sweden (continued)

Alicanto is focused on two key projects in the region; the Falun copper-gold project and the Sala zinc-silver project, both of which have a long history of high-grade production before closure. Alicanto believes these projects offer significant opportunity for the Company and its shareholders given the prospective mineralisation, the lack of historical exploration and the opportunity to apply modern exploration techniques to these projects.

Alicanto has a highly-credentialed team based in Sweden managing the investigation of these projects. In the twelve months to 30 June 2024, the focus has been on Falun where the team has identified numerous high-priority targets with the potential to deliver rapid Resource growth. A drill program commenced in September 2023 to investigate a number of these targets located around the historic Falun mine as well as on the highly prospective 3.5km trend which runs between Falun and the high-grade mineralisation previously intersected at the Skyttgruvan-Naverberg target mine.

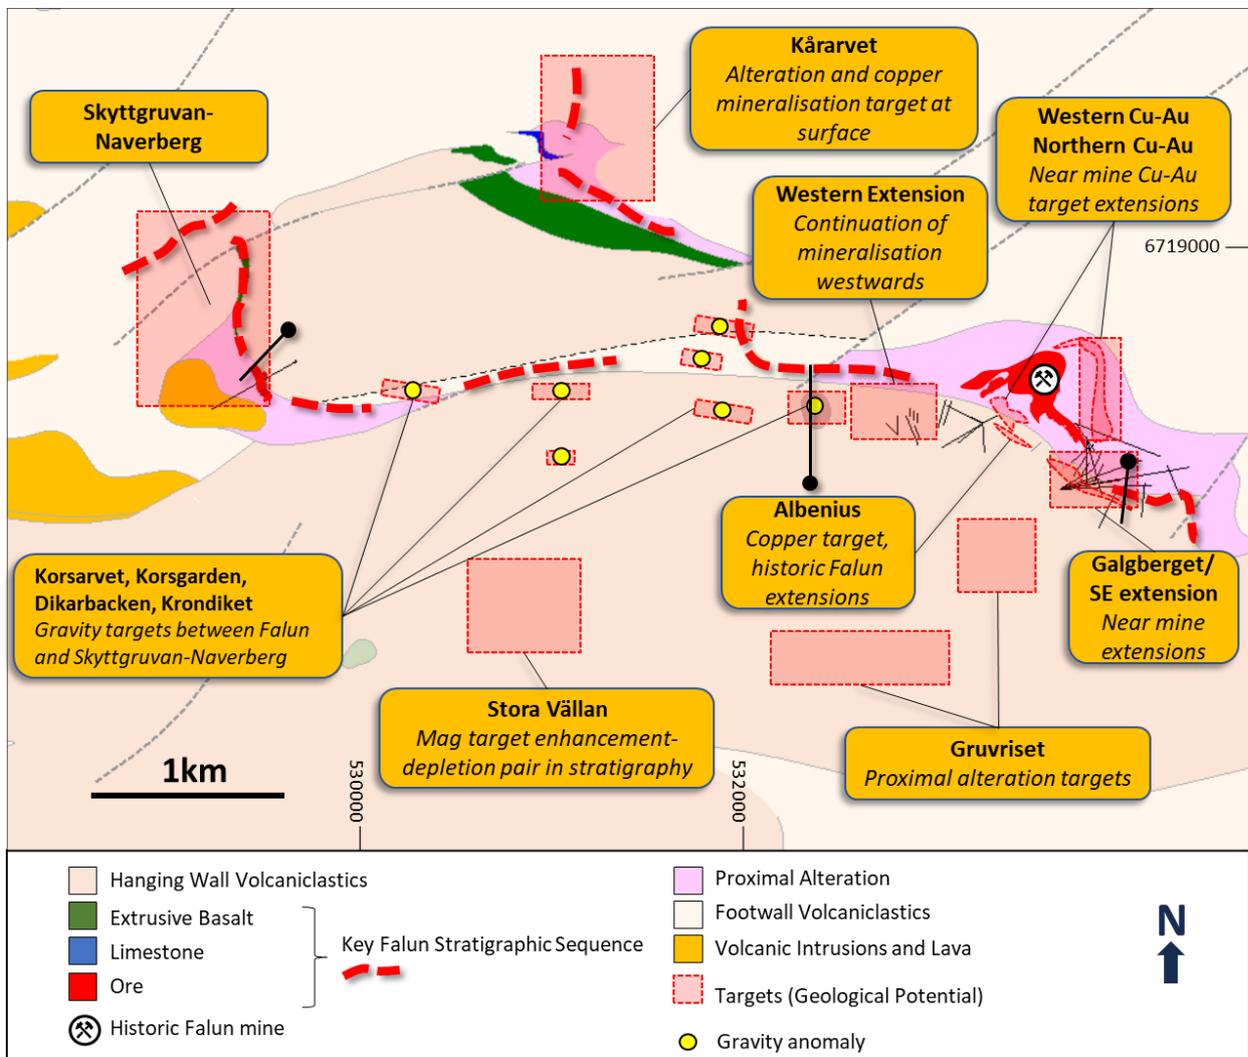

Figure 2: High priority targets in the prospective host horizon of the historic Falun mine

For personal use only

## Operations Review (continued)

### Exploration in Sweden (continued)

Alicanto's consolidated Falun project represents a significant landholding in the Bergslagen Region. Within its total landholding of 298km<sup>2</sup>, Alicanto controls over 60km of the target limestone horizon. Alicanto's tenements also include the world-class historic Falun mine which for centuries was the largest copper producer in the western world. Over its operating life, it produced in the order of **28 million tonnes of high-grade ore grading 4% copper, 5% zinc, 4g/t gold, 35g/t silver and 2.1% lead.**<sup>1</sup>

No concerted exploration campaign has been undertaken in the Falun area since closure of the mine in 1992. Alicanto commenced exploration of its Falun permits in September 2020. This work has shown that the stratigraphic sequence at Falun could be tracked for over ten kilometres to the Green Mile target to the west of the historic Falun mine and confirms Alicanto's view that the historical Falun mine is only a small part of a major mineralised belt.

Alicanto's ongoing focus at Falun includes:

- Completion of the first systematic district scale exploration in a province proven to host world class VMS mineralisation;
- Discovery of a new Falun style polymetallic sulphide deposit; and
- Extending the historic Falun Resource at depth and along strike.

Drilling during the year focused on three key target areas: namely, Skyttgruvan-Naverberg, Krondiket and Galgberget (refer Figure 2).

### Skyttgruvan-Naverberg

At Skyttgruvan-Naverberg drilling intersected mineralisation with interpretations indicating a significantly larger mineralised system than previously thought. As indicated in Figures 3 and 4, this zone remains a high priority target given the known copper-zinc mineralised footprint and proximal copper bearing footwall alteration in the area.

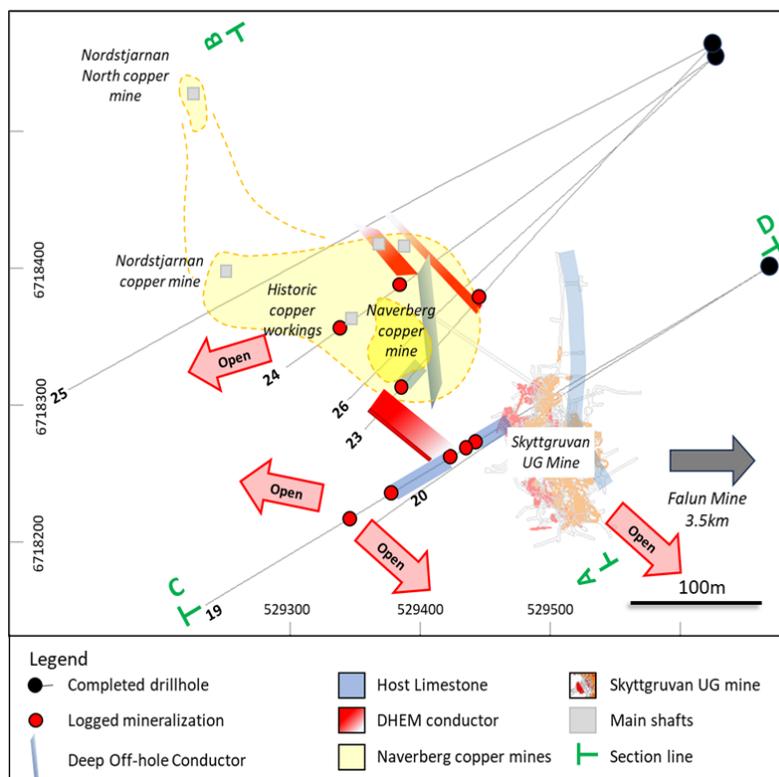

Figure 3:  
Plan view of completed drilling at Skyttgruvan-Naverberg

## Operations Review (continued)

### Exploration in Sweden (continued)

#### Skyttgruvan-Naverberg (continued)

Drilling and logging to date continues to suggest that the Skyttgruvan-Naverberg target has the potential for a massive iron sulphide-rich centre with higher copper grades, analogous to the architecture of the Falun massive sulphide deposit, with the target still remaining open in a number of directions. Geological modelling of this area is ongoing to optimise further testing of this target.

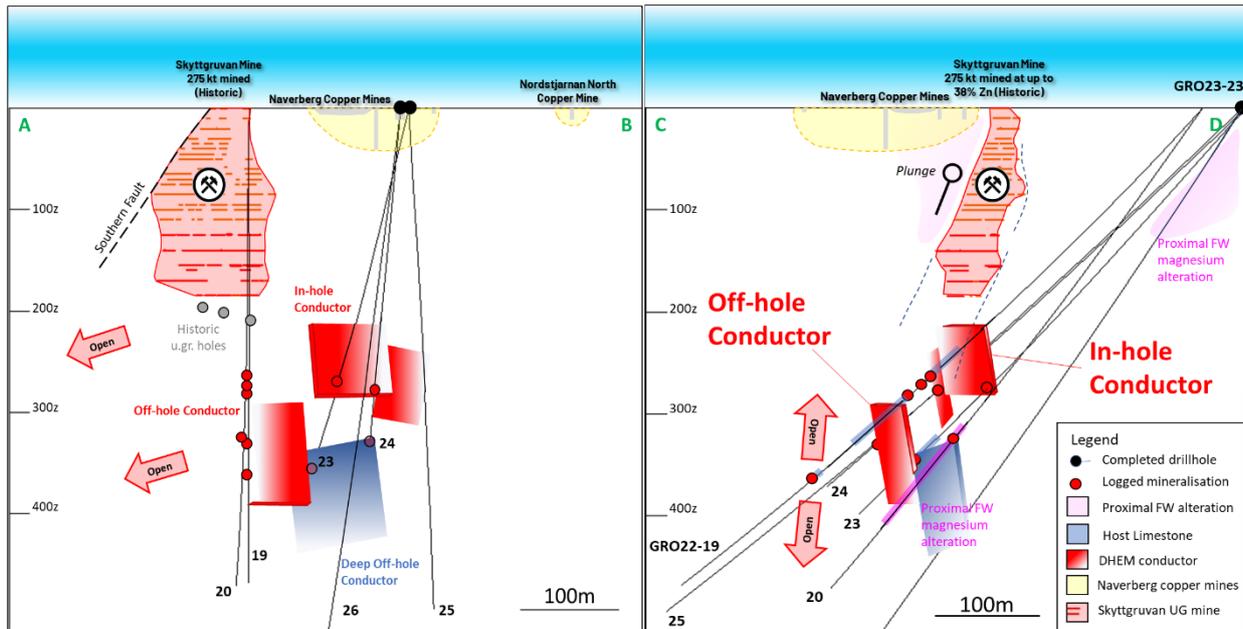

Figure 4:  
Long section and cross section of completed drilling at Skyttgruvan-Naverberg

#### Krondiket

The gravity anomaly at the Krondiket target was interpreted as a continuation of the Falun stratigraphic sequence to the west with mapped footwall copper stringer systems at surface. Due to the intensity of the proximal alteration and the distance from the historic Falun mine, Alicanto believes that this area represents an entirely new upflow zone rather than a continuation of the upflow zone that created the historic Falun deposit.

#### Galgeberget

Drilling at the Galgeberget target was designed to test the southern extension of the Falun deposit where Alicanto has already identified significant copper and zinc mineralisation. Drilling intercepted strong footwall alteration and identified a second off-hole electromagnetic conductor (refer Figure 5) at around the 500 metre level which has the potential to represent an extension of the known deposit. All indications are for the mineralisation to continue at depth where historic intercepts include 5.0m @ 2.8% copper and 2.7g/t gold.<sup>2</sup>

## Operations Review (continued)

### Exploration in Sweden (continued)

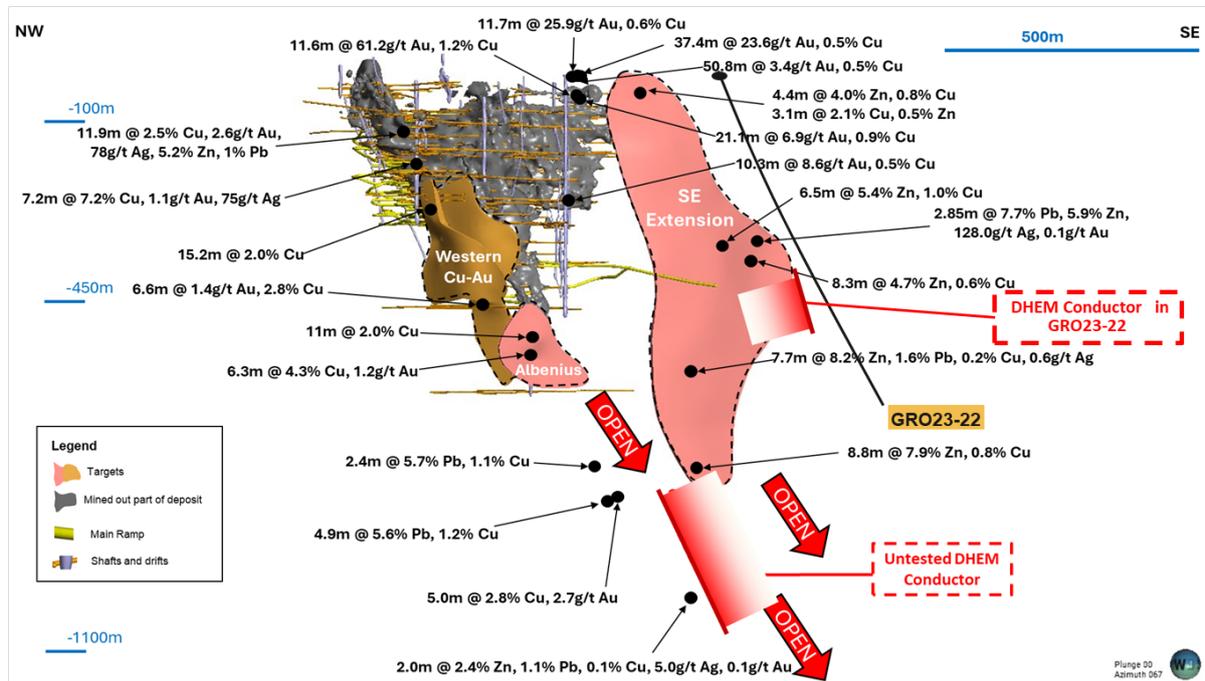

Figure 5:  
Long section of Falun including drilling of Galgberget target (drill hole GRO23-22)

### Future Drill Programs at Falun

Alicanto is currently considering its next drill phase at Falun. This will consist of a number of follow up drill targets from the most recent drill program as well as other high priority targets (refer Figure 2).

Key targets under consideration include:

**Albenius:** This copper rich zone was previously intersected with only two holes from underground. Historic intersections include 6.3m @ 4.3% copper and 1.3g/t gold and 11m @ 2% copper.<sup>2</sup> The continuation of the mineralisation is open in multiple directions.

**Skyttgruvan-Naverberg:** Potential for massive iron sulphide-rich centre with higher copper grades, analogous to the architecture of the Falun massive sulphide deposit, with the target still remaining open in a number of directions.

**Galgberget:** The known SE extension is interpreted to constitute one limb in a Z-fold where the south western continuation is unexplored. The mineralisation is open at depth.

**Gruvriset:** A set of mapped antiforms interpreted as Falun parallel structures, alteration and gravity anomalies southwest of Falun, which require further investigation.

## Operations Review (continued)

### Exploration in Sweden (continued)

#### Sala Zinc-Silver-Lead project (AQI 100%)

Like Falun, the Sala Project is also located in Sweden’s world class mining province of Bergslagen. Sala was previously one of the largest and highest-grade silver mines in Europe. It produced more than **200Mozs of silver at an estimated average grade of 1,244g/t with grades reported as high as 7,000g/t** over its operating life.<sup>3</sup>

The Sala system is a polymetallic skarn hosted by a thick sequence of dolomitised stromatolitic limestone. The polymetallic high-grade nature of the mineralisation is analogous to other major operating underground mines in the region, including Boliden’s Garpenberg mine (located 50km away).

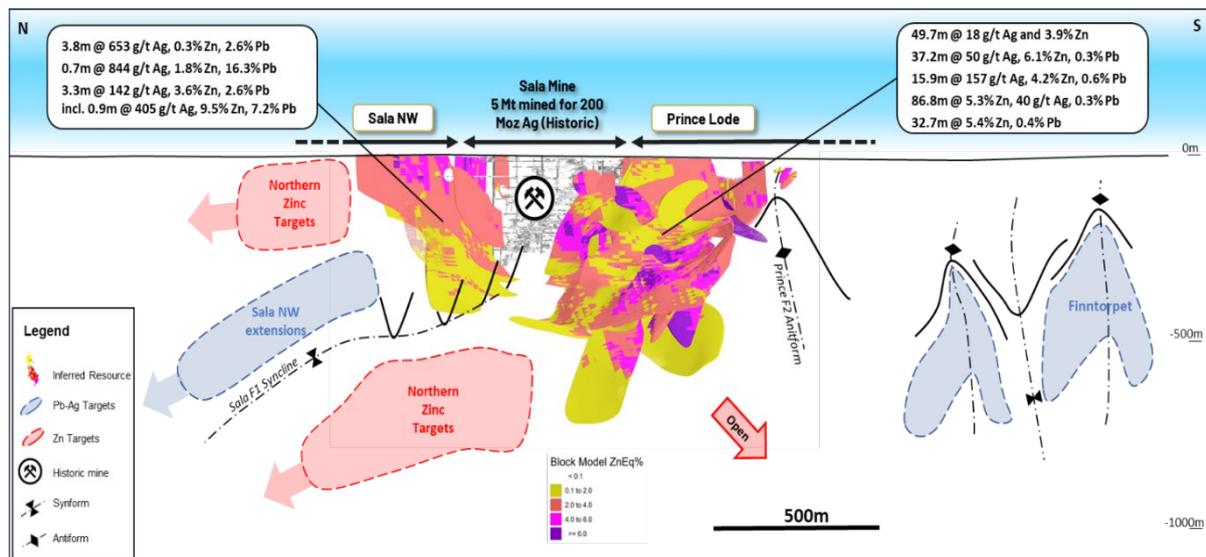

The Sala system was mined to a depth of 318m, is completely untested below 500m and remains open in multiple directions. There has been minimal exploration at the site since closure of the mine in 1908.

Alicanto’s exploration permits at Sala comprise an area of over 90km<sup>2</sup>, allowing it to control the largest part of the prospective limestone host rock in the region.

In July 2022, just over a year after securing ownership of the property, the Company announced a maiden JORC 2012-compliant Inferred Resource at Sala of **9.7Mt @ 4.5% ZnEq** (containing 311,000t of zinc, 15Mozs of silver and 44,000t of lead), including a coherent near surface, high-grade breccia zone dominated by semi massive sphalerite containing **4.5Mt @ 6.0% ZnEq** (containing 8.5Moz of silver and 201,000 tonnes of zinc).

The maiden Resource estimate includes the Prince Lode, located immediately to the south of the historic Sala mine and the Sala north-west lode, a silver dominated continuation of the historic Sala mine trending northwest (Figure 6). The Resource remains open in multiple directions.

In its most recent exploration program, the Company completed a limited step-out drill program and undertook a review of recently identified historical drill core. This program resulted in two new discoveries outside of the current Resource: the first is located 600m to the north of the Prince Lode, near the historic Bronäs mine, and the second is located 575m west of the Prince Lode, at Finntorpet.

**Figure 6:** Simplified exploration model targeting high-grade galena-silver mineralisation. Long section looking towards the east

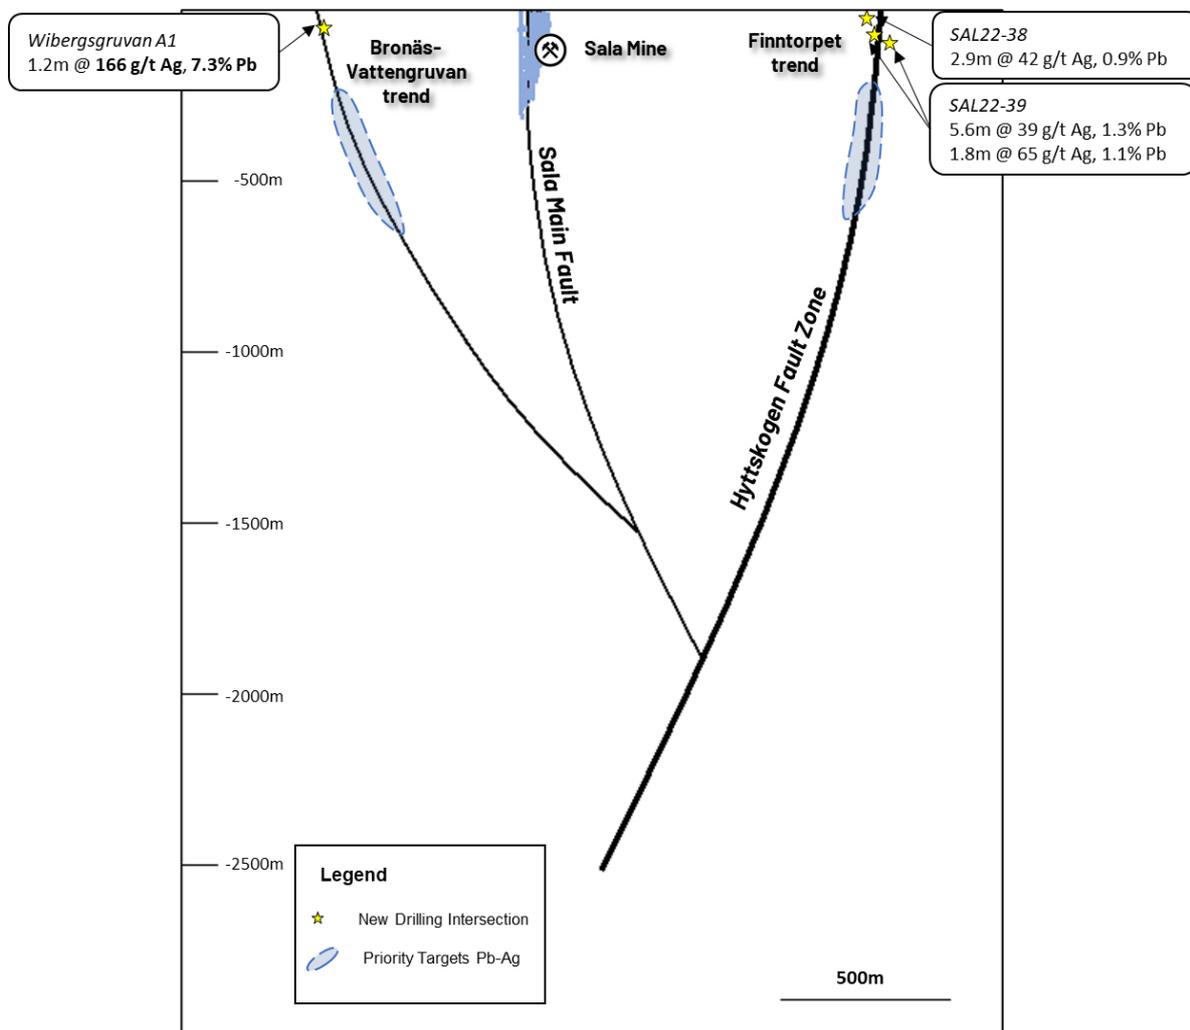

For personal use only

## Operations Review (continued)

### Exploration in Sweden (continued)

These results indicate the presence of a significant mineralisation footprint north of the historic Sala ore body. Alicanto believes it will be able to extend and upgrade the current Resource in this area through the discovery of more high-grade zinc zones as well as additional silver bearing structural repetitions of the historic Sala ore body.

The results at Finntorpet are significant in that they show the presence of Sala-style galena-silver mineralisation in what has been interpreted as a significant and previously untested fault structure, the Hyttskogen Fault Zone. The Sala Main Fault (source of historic production) is interpreted as a splay originating from the Hyttskogen Fault (refer Figure 7). The presence of mineralisation in the first two drill holes in this extensive target is greatly encouraging and increases the potential of the Hyttskogen Fault zone to host significant mineralisation.

**Figure 7:** Simplified exploration model targeting high-grade galena-silver mineralisation. Long section looking towards the east

Numerous high-priority targets have been identified for future drilling (refer Figure 8) which have significant potential for immediate Resource growth through step out drilling of known mineralisation. These include:

- **Sala repeat structures**

High grade silver mineralisation at the historic Sala mine is found proximal to a central fault, which acted as the main conduit for hydrothermal fluid in the centre of an F1 syncline. Alicanto has identified

## Operations Review (continued)

### Exploration in Sweden (continued)

repetitions of these parallel structures to the north of the Sala and Bronäs mines, with the potential for more to be found. Drill intercepts<sup>4</sup> to date include:

- 1.1m @ 1,326g/t Ag, 0.8% Zn, 6.6% Pb
- 4.7m @ 256g/t Ag, 1.0% Zn, 4.7% Pb
- 0.2m @ 2,630g/t Ag, 0.1% Zn, 30.1% Pb
- 3.9m @ 762g/t Ag, 1.2% Zn, 11.8% Pb

#### • Sala North West extensions

The continuation of the moderately plunging silver bearing central fault and Sala syncline silver-galena mineralisation has been intersected in both Alicanto surface drilling and historical underground drillholes with the system open to the north and north west. Drill intercepts<sup>4</sup> include:

- 0.4m @ 242g/t Ag, 2.0% Pb
- 0.4m @ 314 g/t Ag, 4.6% Pb
- 0.4m @ 232 g/t Ag, 4.0% Pb

#### • Finntorpet

Maiden drilling intersected broad Sala style silver-galena mineralisation in the previously untested Hyttskogen fault zone, interpreted as the parent fault to the mineralised Sala fault splay. The fault zone is open along strike with potential to host significant mineralisation. Recent Alicanto drill intercepts<sup>4</sup> include:

- 7.5m @ 31g/t Ag, 0.6% Pb
- 5.6m @ 39g/t Ag, 1.3% Pb
- 2.9m @ 42g/t Ag, 0.9% Pb

#### • Northern Zinc targets

Historical drilling indicates the continuation of the lower sphalerite-rich strata of the Prince Lode under, and to the north, of the historic Sala mine. Historical drill intercepts<sup>4</sup> include:

- 6.4m @ 53g/t Ag, 7.0% Zn, 0.9% Pb, including 3.7m @ 82 g/t Ag, 10.1% Zn, 1.3% Pb
- 0.8m @ 69g/t Ag, 10.8% Zn, 24% Pb
- 2.0m @ 104g/t Ag, 14.8% Zn, 1.5% Pb

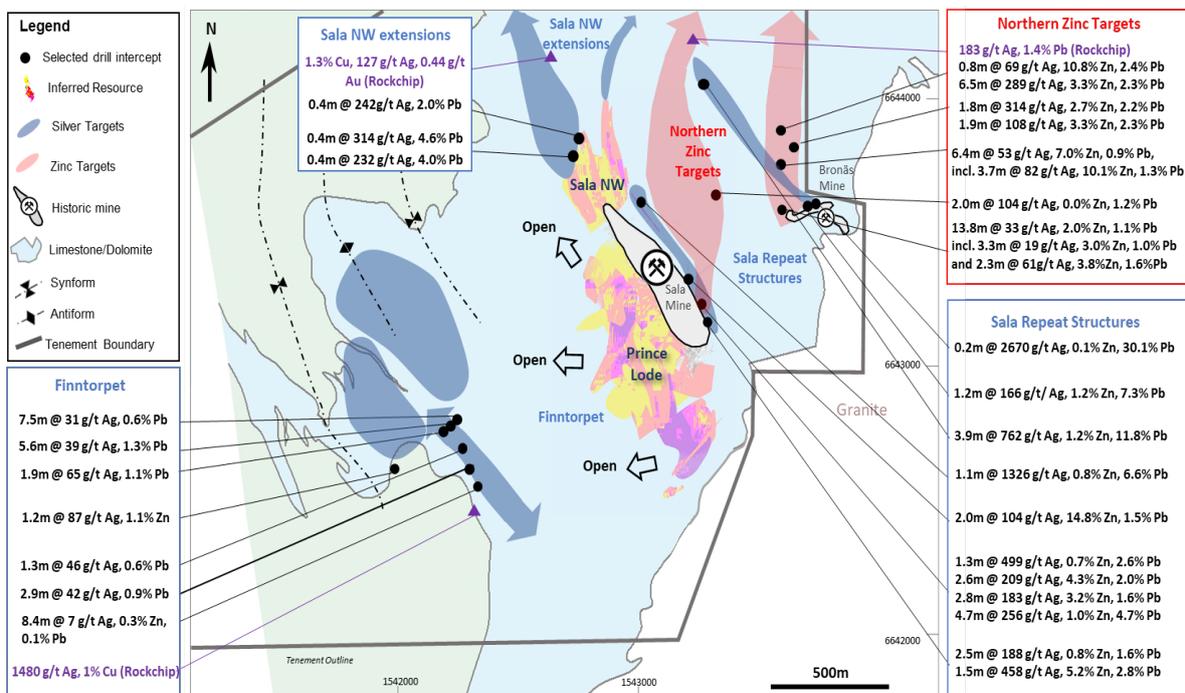

Figure 8: Simplified exploration model targeting high-grade galena-silver mineralisation. Long section looking towards the east

## Directors' Report

The Directors of Alicanto Minerals Limited ("Company" or "Alicanto") submit herewith the consolidated financial statements of the Company and its controlled entities ("Group") or ("Consolidated Entity") for the year ended 30 June 2024 in order to comply with the provisions of the *Corporations Act 2001*.

### 1. Directors and Company Secretaries

The names and details of the Company's directors and company secretaries in office during the financial year and until the date of this report (unless otherwise stated) are as follows:

#### Mr Raymond Shorrocks

Position	Interim Executive Chair (appointed 20 June 2024, previously Non-Executive Chair from 7 August 2020 to 20 June 2024)
Qualifications	BA (Hons), MBA (Finance)
Appointment date	7 August 2020
Length of service	4 years 1 month
Biography	Ray Shorrocks has more than 30 years' experience in corporate finance in the mining sector and has advised a diverse range of resources companies during his career at one of Australia's largest investment banking and stockbroking/financial services firms. He has been instrumental in managing and structuring equity capital raisings as well as having advised extensively in the area of mergers and acquisitions. Mr Shorrocks has worked on mines in South Africa, Africa, Australia and North and South America.
Current ASX listed directorships	Galilee Energy Limited (ASX: GLL) - 2 December 2013 to present Cygnus Metals Limited (ASX: CY5) - 30 June 2020 to present Hydrocarbon Dynamics Ltd (ASX: HCD) - 12 January 2016 to present Andean Silver Ltd (ASX: ASL) – 7 February 2023 to present
Former ASX listed directorships in the last three years	FireFly Metals Limited (ASX: FFM) – 28 January 2020 to 19 March 2024
Interest in shares	10,726,426
Interest in options	None
Interest in performance rights	35,000,000

## Directors' Report (continued)

### Mr Didier Murcia

Position	Non-Executive Director
Qualifications	LLB, BJuris
Appointment date	30 May 2012 (previously Non-Executive Chair to 7 August 2020)
Length of service	12 years 4 months
Biography	<p>Mr Murcia holds a Bachelor of Jurisprudence and Bachelor of Laws from the University of Western Australia, and has over 30 years' experience in corporate, commercial and resource law. Mr Murcia is Non-Executive Chair of Centaurus Metals Limited, which is listed on the Australian Securities Exchange. He is also Chair of Perth law firm Murcia Pestell Hillard and the Honorary Consul for the United Republic of Tanzania.</p> <p>In January 2014, Mr Murcia was made a Member of the Order of Australia in recognition of his significant service to the international community.</p>
Current ASX listed directorships	Centaurus Metals Limited (ASX: CTM)- 28 January 2010 to present
Former ASX listed directorships in the last three years	Strandline Resources Limited (ASX: STA) - 24 October 2014 to 23 November 2023
Interest in shares	2,527,000
Interest in options	2,000,000
Interest in performance rights	4,500,000

### Mr Russell Curtin

Position	Non-Executive Director
Qualifications	BBus, CA
Appointment date	20 June 2024
Length of service	3 months
Biography	<p>Mr Curtin, a former Partner at Ernst &amp; Young, brings over 30 years of experience of energy, resources &amp; assurance. He held leadership roles in energy, resources and climate change with responsibility for EY strategic direction and capability. He served EY major clients, such as Woodside and Santos, along with various multinational public and private companies, bringing a deep understanding of corporate finance, governance, control, and the importance of confidence capital markets.</p>
Current ASX listed directorships	None

## Directors' Report (continued)

### Mr Russell Curtin (continued)

Former ASX listed directorships in the last three years	None
Interest in shares	4,000,000
Interest in options	None
Interest in performance rights	10,000,000

### Mr Duncan Grieve

Position	Non-Executive Director
Qualifications	BSc Geological Sciences, MSc Mining Geology
Appointment date	20 June 2024
Length of service	3 months
Biography	Mr Grieve is a seasoned geologist with a track record of success in exploration. He was part of the discovery and resource drill out at the Bellevue Gold Project and previously worked for Barrick Gold at the Loulo-Goukoto gold mine in Mali. Mr Grieve has substantial project generation experience in gold, lithium, and base metals exploration across Africa, Australia, Europe and North America. Mr Grieve has previously worked with Alicanto on its exploration strategy in Sweden and will take an active role in reviewing additional advanced projects that have potential to complement Alicanto's existing assets.
Current ASX listed directorships	None
Former ASX listed directorships in the last three years	None
Interest in shares	800,000
Interest in options	None
Interest in performance rights	10,000,000

For personal use only

## Directors' Report (continued)

### Mr Robert Sennitt

Position	Managing Director
Qualifications	BEC (Sydney), ACA
Appointment date	1 September 2022
Resignation date	20 June 2024
Length of service	1 years 8 months
Biography	<p>Mr Sennitt was initially an investment banker for over 25 years where his focus was advising companies in the natural resources sector on strategy, capital raising and M&amp;A transactions.</p> <p>Mr Sennitt was appointed Managing Director and CEO of Mineral Deposits Limited (MDL) in June 2015. MDL owned 50% of the TiZir Joint Venture (comprising the Grande Cote (Mineral Sands) Mining Operations in Senegal and the TTI (Titanium Slag and Iron) smelting operations in Norway). At MDL, Mr Sennitt was responsible for the performance, restructure and refinancing of the Joint Venture as well as driving MDL strategy, delivering a number of successful outcomes, including a significant recapitalisation of the Company, before its acquisition by Eramet SA.</p> <p>Following the takeover of MDL, Rob became Senior Advisor to Appian Capital with responsibility for the Australian and Asian regions. At Appian, his responsibilities included origination of investments for the Appian Natural Resources Funds as well as portfolio company management.</p>
ASX listed directorships at date of resignation	None
Former ASX listed directorships in the last three years at date of resignation	None
Interest in shares	1,350,000
Interest in options	None
Interest in performance rights	None

For personal use only

## Directors' Report (continued)

### Company Secretary

#### Ms Maddison Cramer

Qualifications	LLB, BA (Hons)
Appointment date	1 November 2022
Length of service	1 year 10 months
Biography	<p>Ms Cramer is a corporate lawyer with a focus on mining and resources and a professional Company Secretary. Ms Cramer is a co-founder of boutique corporate services business Belltree Corporate and is currently company secretary of a number of ASX-listed mining and resource companies.</p> <p>Ms Cramer is a former Company Secretary of Bellevue Gold Limited (ASX:BGL) (then ASX300) and prior to this, she was an Associate at Bellanhouse Legal and HWL Ebsworth Lawyers.</p> <p>Ms Cramer specialises in corporate and commercial transactions, including capital raisings, IPOs and backdoor listings, and corporate governance issues.</p>

## 2. Operating Results

The loss attributable to owners of the entity after providing for income tax amounted to \$5,470,225 (2023: \$7,046,235).

The loss included the following items:

- Exploration expenditure of \$3,318,819 (2023: \$3,807,640)
- Share based payments of \$358,873 (2023: \$225,393)
- Employment benefits of \$680,100 (2023: \$788,765)
- Consultancy fees of \$550,710 (2023: \$1,187,360), which includes share-based payments of \$211,852 (2023: share-based payments of \$783,934)

## 3. Principal Activities

The principal activity of the Company during the financial year was mineral exploration. The Company continues with its exploration activities in Sweden.

There were no significant changes in the nature of the Company's principal activities during the financial year.

## Directors' Report (continued)

### 4. Dividends Paid or Recommended

The directors do not recommend the payment of a dividend and no amount has been paid or declared by way of a dividend to the date of this report.

### 5. Financial Position

The Group held net assets of \$2,539,269 (2023: \$4,784,659).

At 30 June 2024 the group held \$803,773 in cash and cash equivalents (2023: \$3,067,926). At the date of this report the Company has raised a further \$1,723,230 before issue costs, refer Note 20 for additional details.

### 6. Significant Changes in the State of Affairs

The following significant changes in the state of affairs of the entity occurred during the financial year:

#### Changes in Securities

- (i) On 11 August 2023 the Company issued 72,500,000 fully paid ordinary shares at an issue price of \$0.04 per share to raise a total of \$2,900,000 before issue costs.
- (ii) On 10 November 2023, following receipt of shareholder approval at the Annual General Meeting held on 9 November 2023, the Company issued 2,500,000 fully paid ordinary shares at an issue price of \$0.04 per share to Non-Executive Chairman Mr Raymond Shorrocks (or his nominee) to raise \$100,000 before issue costs.
- (iii) 1,000,000 performance rights (held by the former Managing Director) lapsed on 5 March 2024, 5,000,000 options expired on 18 March 2024 and 1,500,000 performance rights lapsed on 21 May 2024.
- (iv) On 6 May 2024, the Company issued 250,000 shares on the conversion of an equivalent number of performance rights.
- (v) On 20 June 2024, 18,000,000 performance rights held by the former Managing Director, Rob Sennitt, were cancelled by agreement between the parties

#### Board and management changes

On 21 June 2024, the Company announced a board and management restructure to reflect the Company's new expanded growth strategy. As part of the changes, Rob Sennitt stepped down as Managing Director and Raymond Shorrocks was appointed Interim Executive Chair. Senior geologist Duncan Grieve and finance professional Russell Curtin were appointed as Non-Executive Directors, and Susan Field replaced Michael Naylor as Chief Financial Officer. Michael Naylor remains on as a corporate consultant.

## Directors' Report (continued)

### 7. Future Developments, Prospects and Business Strategies

For the year to 30 June 2025, the Company believes the results of recently completed Phase 1 drilling program at Falun in Sweden highlight the project's significant potential and further exploration is warranted.

On 21 June 2024 the Company announced on ASX that it had restructured its Board to reflect a new expanded growth strategy and that it would be reviewing potential advanced project acquisitions.

In parallel with the acquisition strategy, Alicanto intends to consider a range of strategic funding options to continue its exploration in Sweden.

### 8. Material Business Risks

The following describes the material business risks that could affect the Company, including any material exposure to economic, environmental and social sustainability risks, and how the Company seeks to manage them.

#### Future capital requirements and market risks

As an exploration entity, the Company is not generating net cash flow, meaning it is reliant on raising funds from investors or lenders in order to continue to fund its operations and to scale growth. The Company will require further funding in the future.

The Company is exposed to external market forces that impact on specific commodity prices and overarching market sentiment that may restrict the Company's access to new flows of capital if the Company's project pipeline is not ascribed value in the market at any given time. The Company manages this risk by ensuring a constant focus on the Company's current financial position and forecast working capital requirements. Discretionary exploration activities are focused on commodities and in jurisdictions that will ensure access to higher levels of capital in times of broader market depression.

Any additional equity financing may be dilutive to Shareholders, may be undertaken at lower prices than the current market price or may involve restrictive covenants which limit the Company's operations and business strategy. Debt financing (while not currently a focus), if available, may involve restrictions on financing and operating activities.

Although the Company believes that additional capital can be obtained, no assurances can be made that appropriate capital or funding, if and when needed, will be available on terms favourable to the Company or at all. If the Company is unable to obtain additional financing as needed, the Company may be required to reduce the scope of its activities, which could have a material adverse effect on the Company's activities and could affect the Company's ability to continue as a going concern.

#### Acquisition and competition risks

The Company may actively pursue the acquisition of exploration, development and production assets consistent with its acquisition and growth strategy. From time to time, the Company may also acquire securities of or other interests in companies with respect to which it may enter into acquisitions or other transactions.

Acquisition transactions involve inherent risks, including but not limited to: accurately assessing the value, strengths, weaknesses, contingent and other liabilities and potential profitability of acquisition candidates, ability to achieve operating and financial synergies, unanticipated costs, diversion of management attention from existing business, potential loss of key employees, unanticipated changes in business, successor liability issues, industry or general economic conditions that affect the assumptions underlying the acquisition, and decline in the value of acquired properties, companies or securities.

## Directors' Report (continued)

### 8. Material Business Risks (continued)

#### Acquisition and competition risks (continued)

Any one or more of these factors or other risks could cause the Company not to realize the anticipated benefits of an acquisition of properties or companies and could have a material adverse effect on the Company's financial condition.

Furthermore, the Company currently competes with other exploration and producing companies for the acquisition of mineral properties, leases and other mineral interests. Such other companies may be better capitalized, have greater financial resources, operational experience and technical capabilities or are further advanced in their development or are significantly larger.

#### Exploration and development risks

The prospects of the Company's projects must be considered in light of the considerable risks, expenses and difficulties frequently encountered by companies in the early stage of exploration and development activities and, accordingly, carries significant exploration risk.

Potential investors should understand that mineral exploration and development is a high-risk undertaking. There can be no assurance that exploration and development will result in the discovery of further mineral deposits. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, native title process, changing government regulations and many other factors beyond the control of the Company.

The success of the Company will also depend upon the Company having access to sufficient development capital, being able to maintain title to its Projects and obtaining all required approvals for its activities. In the event that exploration programs are unsuccessful this could lead to a diminution in the value of its projects, a reduction in the cash reserves of the Company and possible relinquishment of part or all of its projects.

#### Tenure, access and grant of licences / permits

The Company's current and future operations are subject to receiving and maintaining licences, permits and approvals from appropriate governmental authorities. In particular, the Company may require exploration, processing, exploitation and environmental permits in Sweden from time to time in connection with exploration, mining and processing.

There is no assurance that any required licences, permits or approvals will be granted or that delays will not occur in connection with obtaining or renewing the licences, permits or approvals necessary for the Company's proposed operations.

Notwithstanding that Sweden has an established mining industry with a structured permitting process, delays in the permitting and approvals process are an inherent risk to all mining and industrial manufacturing projects. At the date of this report all mining and exploration permits and licenses were in good standing, however, failure to obtain or renew one or more required licences, permits or approvals on a timely basis may adversely affect the Company's operations.

## Directors' Report (continued)

### 8. Material Business Risks (continued)

#### Land access risk

Land access is critical for exploration and evaluation to succeed. In all cases the acquisition of prospective tenements is a competitive business, in which propriety knowledge or information is critical and the ability to negotiate satisfactory commercial arrangements with other parties is often essential. The Company may be required to pay compensation to landowners, local authorities, traditional land users and others who may have an interest in the area covered by the licenses. The Company's ability to resolve such compensation issues and compensation costs may have an impact on the future success and financial performance of the Company's operations. If the Company is unable to resolve such compensation claims on economic terms, this could have a material adverse effect on the business, results or operations and financial condition of the Company. In addition to the above, access to and from a number of such tenements may be limited due to seasonal weather conditions. Unexpected weather, such as significant amounts of snow, violent storms or flooding may delay or adversely impact the Company's exploration and operational activities.

#### Reliance on external contractors

The Company is dependent on third party contractors in Sweden, including consultants and drilling contractors. Third party contractors may not be available to perform services when required or on acceptable terms, and performance is subject to risk of dispute, equipment and staff shortage, and default of contract terms for quality, safety, environmental compliance, timeliness, and contractor insolvency.

#### Environmental and social risks

The Company's exploration, mining and processing activities will, in general, be subject to approval by governmental authorities and influence from other key stakeholders such as local communities. Development of any of the Company's properties will be dependent on the relevant project meeting environmental guidelines and, where required, being approved by governmental authorities. The Company is well aware of its environmental obligations across its operational activities in Sweden where there are various environmental requirements that it must adhere to and continues to monitor compliance.

#### Data management

The risk of retaining or managing the Company's corporate data in a way that is inconsistent with the Company's regulatory obligations. This is considered to be a growing risk as the Company and related data volumes grow and cyber-security threats become more sophisticated. Failure to properly manage the Company's corporate data could result in significant financial and regulatory implications.

The Company has implemented a number of company-wide controls to manage this risk, including the continuous review and updating of security controls on the Company's network based on known security threats and the latest intelligence.

#### People capability

The Company is currently reliant on the Board and key management personnel and expects in the future to continue to rely on those personnel. The loss of one or more of these current key contributors or an inability to source a sufficient number of appropriately experienced consultants could have an adverse impact on the business of the Company.

The intention of the Company's remuneration framework is to ensure remuneration and reward structures are aligned with shareholders' interests by being market competitive to attract and retain high calibre

## Directors' Report (continued)

### 9. Material Business Risks (continued)

#### People capability (continued)

individuals, rewarding superior individual performance, recognising the contribution of each executive to the continued growth and success of the Company, and linking long-term incentives to shareholder value.

#### General economic climate

Factors such as inflation, currency fluctuations, interest rates, legislative changes, political decisions and industrial disruption have an impact on operating costs. The Company's future income, asset values and share price can be affected by these factors.

#### Climate change

There are a number of climate-related factors that may affect the Company's business. Climate change or prolonged periods of adverse weather and climatic conditions (including rising sea levels, floods, hail, drought, water scarcity, temperature extremes, frosts, earthquakes and pestilences) may have an adverse effect on the ability of the Company to access and utilise its tenements and therefore the Company's ability to carry out operations.

Changes in policy, technological innovation, and consumer or investor preferences could adversely impact the Company's business strategy, particularly in the event of a transition (which may occur in unpredictable ways) to a lower-carbon economy.

### 10. Environmental Regulation

The Group is aware of its environmental obligations with regards to its exploration and ensures that it complies with all appropriate regulations when carrying out any exploration work.

### 11. Post Balance Date Events

On 21 June 2024, the Company announced a non-renounceable entitlement offer to existing eligible shareholders to raise up to approximately \$1.6 million (before costs) ("Rights Issue") and that it had received firm commitments from its current Directors to raise an additional \$123,500 (before costs) ("Director Placement"), subject to Shareholder approval which was obtained at a general meeting held on 11 September 2024.

- (i) On 29 July 2024, the Company issued 83,061,156 new fully paid ordinary shares at an issue price of \$0.013 per share, on completion of the Rights Issue to raise \$1,079,795 before issue costs.
- (ii) On 20 August 2024, the Company issued 39,995,000 new fully paid ordinary shares at an issue price of \$0.013 per share, on completion of the Rights Issue shortfall placement to raise \$519,935 before issue costs.
- (iii) On 12 September, the Company issued 9,500,000 new fully paid ordinary shares at an issue price of \$0.013 per share, on completion of the Director Placement to raise \$123,500 before issue costs.

Proceeds from the Rights Issue and Director Placement will be applied towards progressing exploration at the Company's existing projects in Sweden and project generation, as well as working capital and costs of the offers.

On 2 August 2024, a total of 36,000,000 unlisted options and 8,000,000 performance rights expired or were cancelled by agreement between the entity and the relevant holder as follows:

- (i) 3,000,000 unlisted options exercisable at \$0.10 on or before 24 November 2025;

## Directors' Report (continued)

### 11. Post Balance Date Events (continued)

- (ii) 23,000,000 unlisted options exercisable at \$0.10 on or before 13 August 2025;
- (iii) 10,000,000 unlisted options exercisable at \$0.20 on or before 26 July 2026; and
- (iv) 4,000,000 unvested Class D Performance Rights (expiry 2 August 2024); and
- (v) 4,000,000 unvested Class G Performance Rights (expiry 30 September 2024).

On 2 September 2024, the Company issued 105,000,000 performance rights, including 3,000,000 performance rights to the Chief Financial Officer, and on 12 September 2024, following shareholder approval received at the general meeting on 11 September 2024, the Company issued 127,500,000 performance rights, including 52,500,000 performance rights to directors, under the Company's Employee Securities Incentive Plan ('ESIP') as detailed in the following table:

PR ID#	Number of Performance Rights	Vesting Conditions	Vesting date	Expiry date
PRR	19,625,000	Satisfaction of the Retention Condition and the Company's shares achieving a volume-weighted average market price ("VWAP") of \$0.03 or greater, calculated over the 20 consecutive trading days on which trades in the Company's shares have actually occurred prior to 31 July 2027.	31 Jul 27	31 Jul 28
PRS	19,625,000	Satisfaction of the Retention Condition and the Company securing a material asset and completing at least 2,000m of drilling on that asset prior to 31 July 2027.	31 Jul 27	31 Jul 28
PRT	21,625,000	Satisfaction of the Retention Condition and the Company securing a funding partner for the Sala Project or completing a 5,000m drill program at the Sala Project prior to 31 July 2027.	31 Jul 27	31 Jul 28
PRU	21,625,000	Satisfaction of the Retention Condition and the Company securing a funding partner for the Falun Project or completing a 5,000m drill program at the Falun Project prior to 31 July 2027.	31 Jul 27	31 Jul 28
PRV	50,000,000	The Company's shares achieving a VWAP of \$0.03 or greater, calculated over the 20 consecutive trading days on which trades in the Company's shares have occurred prior to 31 July 2027.	On or before 31 Jul 27	31 Jul 28
PRW	50,000,000	The Company securing a material asset and completing at least 2,000m of drilling on that asset prior to 31 July 2027.	On or before 31 Jul 27	31 Jul 28
PRX	50,000,000	The Company achieving a market capitalisation of \$60 million or greater on at least 20 consecutive trading days on which trades in the Company's shares occur.	On or before 31 Jul 28	31 Jul 28

Other than the above, there were no other events occurring after 30 June 2024.

## Directors' Report

### 11. Audited Remuneration Report

The remuneration report for the year ended 30 June 2024 outlines the remuneration arrangements of the Company and the controlled entities ("Alicanto"), ("Group") or ("Consolidated Entity") and has been prepared in accordance with Section 300A of the *Corporations Act 2001* (Cth) (the "Act") and its Regulations. The information has been audited as required by section 308 (3C) of the Act.

The remuneration report details the remuneration arrangements for Directors and Key Management Personnel ("KMP"), who are defined as those persons having authority and responsibility for planning, directing, and controlling the major activities of the Company and Group, directly or indirectly including any director (whether executive or otherwise) of the parent entity.

#### 11.1 Directors and Key Management Personnel

The table below outlines the Directors and KMP of the Company during the financial year ended 30 June 2024. Unless otherwise indicated, the individuals were Directors or KMP for the entire financial year.

For the purposes of this report, the term "executive" includes the executive directors and senior executives of the Company.

##### Executive Directors

Mr Raymond Shorrocks	Interim Executive Chair (appointed 20 June 2024, previously Non-Executive Chair 7 August 2020 to 20 June 2024)
Mr Robert Sennitt	Managing Director (appointed 1 September 2022, resigned 20 June 2024)

##### Non-Executive Directors

Mr Didier Murcia	Non-Executive Director (appointed 7 August 2020, previously Non-Executive Chair 30 May 2012 to 7 August 2020)
Mr Russell Curtin	Non-Executive Director (appointed 20 June 2024)
Mr Duncan Grieve	Non-Executive Director (appointed 20 June 2024)

##### Other Key Management Personnel

Mr Michael Naylor	Chief Financial Officer (appointed 1 April 2020, resigned 20 June 2024)
Ms Susan Field	Chief Financial Officer (appointed 20 June 2024)

#### 11.2 Remuneration Governance

The role of a Remuneration Committee is to assist the Board in fulfilling its responsibilities in respect of establishing appropriate remuneration levels and incentive policies for employees.

During the year the Board consisted of between three (3) and four (4) members. The size of the Board and Company did not warrant a separate remuneration committee and therefore the full Board acts as the remuneration committee. The Board has established a broad remuneration policy which is consistent with the Company's business objectives and designed to attract and retain high calibre individuals, align key management personnel remuneration with the creation of shareholder value and motivate executives to achieve challenging performance levels.

## Directors' Report

### 11. Audited Remuneration Report

#### 11.2 Remuneration Governance (continued)

The business and operational environment of the Company is dynamic and ever changing, and so too are the remuneration policies. As such the broader remuneration policies, whilst currently under specific and detailed review, are by nature, always under consideration by the Board.

Further information relating to the role of the Board and its responsibilities in relation to remuneration policies can be found within the Corporate Governance Statement which is available for inspection on the Company's website <https://www.alicantominerals.com.au/corporate/corporate-governance/>.

#### 11.3 Use of remuneration consultants

The Board may obtain professional advice where necessary to ensure that the Group attracts and retains talented and motivated directors, executives and employees who can enhance Group performance through their contributions and leadership. The Company has not engaged or contracted remuneration consultants during the financial year.

#### 11.4 Remuneration Framework

##### Executive remuneration policy and framework

The remuneration policy of Alicanto Minerals Limited has been designed to align executives' objectives with shareholder and business objectives by providing both fixed and discretionary remuneration components which are assessed on an annual basis in line with market rates. By providing components of remuneration that are indirectly linked to share price appreciation (in the form of options and performance rights), executive, business and shareholder objectives are indirectly aligned. The board of Alicanto believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best directors to run and manage the Company, as well as create goal congruence between Directors and Shareholders.

In determining competitive remuneration rates, the Board reviews local and international trends among comparative companies and industry generally. It examines terms and conditions for employee incentive schemes, benefit plans and share plans. These ongoing reviews are performed to confirm that executive remuneration is in line with market practice and is reasonable in the context of Australian executive reward practices.

The Board also ensures that the mix of executive compensation between fixed, variable, long-term, short-term and cash versus equity is appropriate. The Company endeavours to reduce cash expenditure by providing a greater proportion of compensation in the form of equity instruments. This allows cash-flows to be directed towards exploration programs with a view to improving the quality of our projects.

##### KMP Remuneration

The Board ensures that executive reward satisfies the following key criteria for good reward governance practices:

- Competitiveness
- Acceptability to shareholders
- Performance linkage
- Capital management

## Directors' Report

### 11. Audited Remuneration Report

#### 11.4 Remuneration Framework (continued)

##### **KMP Remuneration (continued)**

A combination of fixed and variable reward may be provided to KMPs, based on their responsibility within the Group in relation to the achievement of its strategic objectives and capacity to contribute to the generation of long-term shareholder value.

The components of KMP remuneration may consist of:

##### ***Fixed Remuneration***

All executives receive a base cash salary which is based on factors such as length of service and experience as well as other fringe benefits. All applicable executives also receive a superannuation guarantee contribution required by the government, which was 11.0% during the 2024 financial year and do not receive any retirement benefits. Note that effective 1 July 2024, the superannuation guarantee rate has risen to 11.5% and will be effective for the 2025 financial year.

##### ***Short-term Incentives (STI)***

Under the Company's current remuneration policy, executives can from time to time receive short-term incentives in the form of cash bonuses. The Board can use its discretion when paying bonuses, including considering relevant industry key performance targets such as, definition and growth of existing resources, exploration targets and ongoing Executive loyalty to the Company. The Board believes that the criteria of eligibility for short-term incentives appropriately aligns shareholder wealth and executive remuneration as the completion of key performance targets have the potential to increase share price growth. During the financial year ended 30 June 2024, the Company did not offer or pay out any STIs to executives.

##### ***Bonuses***

There were no bonuses paid out during the current financial year.

##### ***Long-term Incentives (LTI)***

Executives are encouraged by the Board to hold shares in the Company, and it is therefore the objective of the Company's employee incentive scheme to provide an incentive for participants to partake in the future growth of the Company and, upon becoming shareholders in the Company, to participate in the Company's profits and dividends that may be realised in future years.

The Board considers that this equity performance linked remuneration structure is effective in aligning the long-term interests of group executives and shareholders as there exists a direct correlation between shareholder wealth and executive remuneration.

During the current year a total of 5,000,000 Performance Rights were issued to the Managing Director, which were approved under ASX Listing Rule 10.14 by shareholders at the general meeting held on 17 July 2023 (2023: 14,000,000), which were subsequently cancelled by agreement on 20 June 2024 upon his resignation as Managing Director. The previous Chief Financial Officer Michael Naylor, and current Chief Financial Officer (and former Financial Controller) were also issued 5,000,000 and 500,000 Performance Rights respectively during the current year. Performance Rights were issued to executives as they provide an indirect mechanism of aligning shareholder wealth and executive remuneration.

## Directors' Report

### 11. Audited Remuneration Report

#### 11.4 Remuneration Framework (continued)

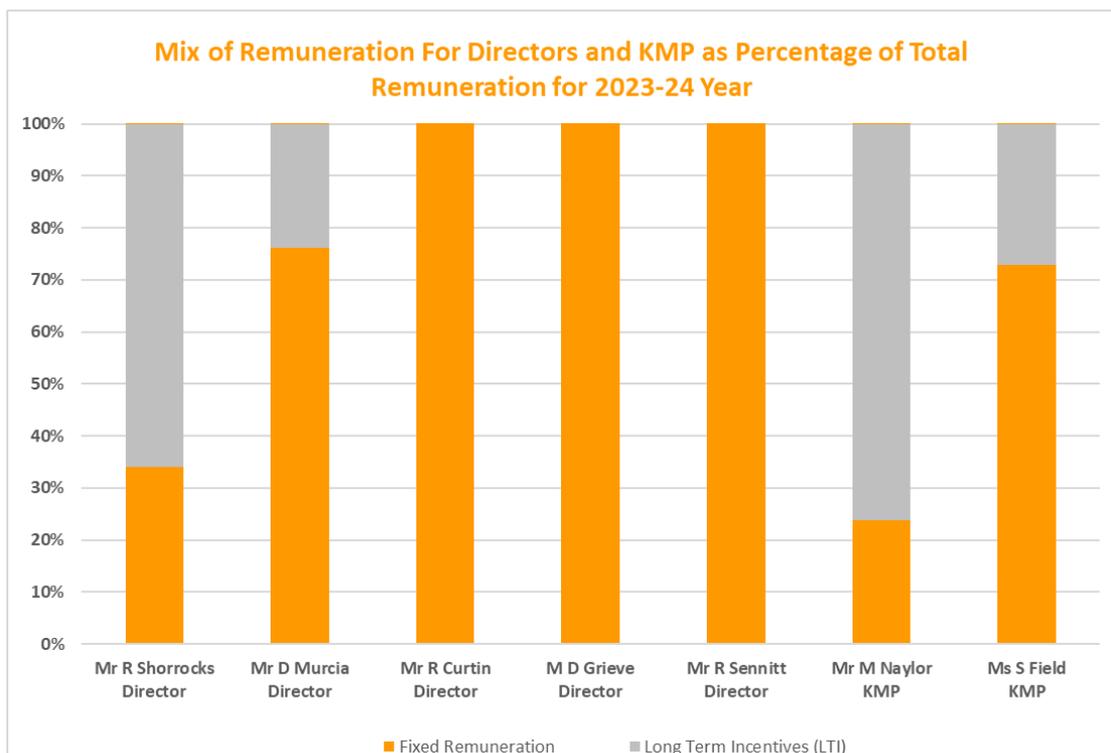

##### Non-Executive Director remuneration policy

The Board's policy is to remunerate non-executive directors at market rates for comparable companies for time, commitment, and responsibilities. Fees for non-executive directors are not linked to the performance of the Group. Typically, the Company will compare non-executive remuneration to companies with similar market capitalisations in the exploration and resource development business group. These ongoing reviews are performed to confirm that non-executive remuneration is in line with market practice and is reasonable in the context of Australian executive reward practices.

The maximum aggregate amount of fees that can be paid to non-executive directors is currently \$500,000 per annum as set out in the Company's constitution. No change is being requested for approval by shareholders at the Annual General Meeting. During the current year there were 7,000,000 Performance Rights issued to non-executive directors which were approved under ASX Listing Rule 10.14 at the shareholder meeting held on 17 July 2023 (2023: None issued). Performance Rights were issued to non-executives as they provide an indirect mechanism of aligning shareholder wealth and non-executive director remuneration.

#### 11.5 Company Performance, Shareholder Wealth and Director and Executive remuneration

The remuneration policy has been tailored to increase goal congruence between shareholders, directors and executives. This has been achieved by the issue of performance rights to directors, executives and other key management personnel, at the discretion of the Board of Directors. The performance rights are issued under the Employee Securities Incentive Plan and based on a mixture of short, medium and long-term incentive options. This structure rewards directors and executives for both short-term and long-term shareholder wealth development.

## Directors' Report

### 11. Audited Remuneration Report

#### 11.5 Company Performance, Shareholder Wealth and Director's and Executives remuneration (continued)

##### Overview of Company Performance

In considering the Company's performance and benefits for shareholder wealth, the Board has regard to the following business performance indicators in respect of the current and the previous three financial years (the Company listed on the ASX on 19 September 2012):

Year Ended 30 June	Units	2024	2023	2023	2021
Market Capitalisation	\$	12,927,323	18,911,788	24,941,385	44,262,107
Closing Share Price	\$	0.021	0.035	0.065	0.135
Number of shares on issue	#	615,586,806	540,336,806	383,713,617	327,867,461
Income	\$	37,756	17,848	778,485	90,821
Net loss after tax	\$	5,470,225	7,046,235	9,936,377	7,361,110

Currently, there is a portion of remuneration of key management personnel that is linked to share price performance. The rationale for this approach is that the Group is in the exploration phase, and it is currently not appropriate to link remuneration to any other factors such as profitability.

#### 11.6 Voting and comments made at the Company's 2023 Annual General Meeting

The Company received 79.10% of "Yes" votes on its remuneration report for the 2023 financial year (2022: 99.59%). The Company did not receive any specific feedback at the AGM or throughout the year on its remuneration practices.

#### 11.7 Details of Remuneration

The Key Management Personnel of Alicanto Minerals Limited for the year ended 30 June 2024 and 30 June 2023 are set out in the table below.

On 21 June 2024, the Company announced the resignation of Mr Robert Sennitt as Managing Director with effect from 20 June 2024 and thanked him for his commitment to driving the exploration program in Sweden. Mr Sennitt continued to be available to the Company for the following three months until 30 September 2024.

At the same time, the Company also announced the appointment of senior geologist Mr Duncan Grieve and finance professional Mr Russell Curtin, as Non-Executive Directors with effect 20 June 2024. In addition, it also announced that Ms Susan Field replaced Mr Michael Naylor as Chief Financial Officer, with effect from 20 June 2024.

There have been no other changes to the below named key management personnel since the end of the reporting period unless noted.

## Directors' Report

### 11. Audited Remuneration Report

#### 11.10 Details of share-based compensation and bonuses

Options and Performance Rights are issued to directors and executives as part of their remuneration. Performance Rights have been issued to directors and executives with long-term retention and performance criteria to align the remuneration of KMP with creation of sustained value for shareholders and to provide a link between remuneration and the level of their performance and performance of the Company. The Board believes that incentivising with performance rights is a prudent means of conserving the Company's available cash reserves.

#### Options issued – 30 June 2024

There were no options issued, exercised or lapsed to key management personnel during the 2024 financial year.

#### Options issued – 30 June 2023

There were no options issued, exercised or lapsed to key management personnel during the 2023 financial year.

On 28 February 2023, a total of 15,000,000 unlisted options were issued to Mr Stephen Parsons (or his nominee) as a part of his remuneration as a corporate consultant of the Company.

#### Performance Rights issued – 30 June 2024

During the year, the Company issued a total 33,250,000 performance rights of which 17,500,000 were issued to directors and other key management.

Performance rights granted carry no dividend or voting rights.

The terms and conditions of each Tranche of performance rights affecting remuneration of KMP during the year are set out in the following table.

PR ID#	Grant date	Expiry date	Vesting conditions	Number of performance rights	Fair value at grant date
PRO	1 Aug 2023	1 Aug 2027	The share price of the Company's Shares as traded on the ASX achieving a volume weighted average market price of \$0.08 per Share or more over 20 consecutive trading days on which shares are actually traded.	17,500,000	666,000

At the date of the report none of the above performance rights had vested and/or lapsed.

For personal use only

## Directors' Report

### 11. Audited Remuneration Report

#### 11.10 Details of share-based compensation and bonuses (continued)

##### Performance Rights issued – 30 June 2023

During the 2023 year, the Company issued 14,000,000 performance rights to the Managing Director, following shareholder approval received at the Annual General Meeting held on 8 November 2022, as detailed in below table.

PR ID#	Grant date	Expiry date	Vesting conditions	Number of performance rights	Fair value at grant date \$
PRI	29 Nov 2022	30 Nov 2027	The Company achieving a volume weighted average share price of \$0.10 or above for 20 consecutive Trading Days by 1 Mar 2024.	1,000,000	50,000
PRJ	29 Nov 2022	30 Nov 2027	The Company achieving a volume weighted average share price of \$0.30 or above for 20 consecutive Trading Days by 1 Sep 2025.	2,000,000	100,000
PRK	29 Nov 2022	30 Nov 2027	The Company achieving a volume weighted average share price of \$0.50 or above for 20 consecutive Trading Days by 1 Sep 2025.	3,000,000	150,000
PRL	29 Nov 2022	30 Nov 2027	The Company announcing a 4% or above Zn equivalent JORC Resource (inferred or indicated) of at least 20MT by 1 Sep 2024.	2,000,000	100,000
PRM	29 Nov 2022	30 Nov 2027	The Company announcing a positive PFS Study, demonstrating greater than 100,000 oz gold equivalent production or as otherwise agreed by the Board by 1 Sep 2024.	2,000,000	100,000
PRN	29 Nov 2022	30 Nov 2027	The Company obtaining all required permits to commence development and/or production at the Sala Mine in Sweden or as otherwise agreed by the Board by 1 Sep 2026.	4,000,000	200,000

The Class PRI Performance Rights lapsed in March 2024 due to failure to satisfy the vesting conditions by the vesting date, with the remainder of the above performance rights lapsing on 20 June 2024 by agreement between the Company and Mr Sennitt, concurrent with his resignation as Managing Director.

## Directors' Report

### 13. Proceedings on behalf of the Company

No person has applied for leave of Court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of these proceedings. The Company was not a party to any such proceedings during the year.

### 14. Meetings of Directors

The number of Directors' meetings held during the financial year that each Director who held office during the financial year was eligible to attend and the number of meetings attended by each Director were:

Director	Directors Meetings	
	Number Eligible to Attend	Meetings Attended
Mr R Shorrocks	7	7
Mr R Sennitt	7	7
Mr D Murcia	7	7
Mr R Curtin	-	-
Mr D Grieve	-	-

### 15. Indemnity and Insurance of Officers

The Company has indemnified the directors and executives of the Company for costs incurred, in their capacity as a director or executive, for which they may be held personally liable, except where there is a lack of good faith. During the financial year, the Company paid a premium in respect of a contract to insure the directors and executives of the Company against a liability to the extent permitted by the *Corporations Act 2001* (Cth). The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

### 16. Auditor's Independent Declaration and Non-Audit Services

The lead auditor's independence declaration for the year ended 30 June 2024 has been received and can be found on page 43 of the Directors' report.

No non-audit services have been provided by the auditor, Stantons International Audit and Consulting during the financial year.

The Auditor's audit remuneration is disclosed in Note 4.

Signed in accordance with a resolution of the Board of Directors.

**Ray Shorrocks**  
 Interim Executive Director

Perth Western Australia, 30 September 2024

## Mineral Resource and Competent Persons' Statements

### Mineral Resource Statement

The Inferred Mineral Resource estimate for the Sala Project in Sweden at 30 June 2024 is:

Independent JORC 2012 Inferred resource estimate at selected lower cut-off grades at the Sala Total Zn-Ag-Pb Project											
Cut-off grade	Mass	Grade					Metal				
		Tonnes (Mt)	Zn Grade (%)	Ag Grade (g/t)	Pb Grade (%)	ZnEq (%)	AgEq (g/t)	Zn Metal (Kt)	Ag Metal (Moz)	Pb Metal (Kt)	ZnEq (kt)
>1.5% ZnEq	15.5	2.5	38.8	0.4	3.6	170	388.7	19.3	63.6	558	85
>2.5% ZnEq	9.7	3.2	47.3	0.5	4.5	214	311.3	14.7	44.2	437	66
>4.0% ZnEq	4.5	4.5	58.4	0.5	6.0	285	201.0	8.5	23.5	270	41

Figures have been rounded to 1 decimal place

$$\text{ZnEq (\%)} = \text{Zn (\%)} + \text{Zn\%} \times [(\text{Ag\_rec} \times \text{Ag\$} \times \text{Ag(g/t)} + (\text{Pb\_rec} \times \text{Pb\$} \times \text{Pb(\%)})] / (\text{Zn\$} \times \text{Zn\_rec} \times \text{Zn\%})$$

$$\text{AgEq (g/t)} = \text{Ag (g/t)} + \text{Ag (g/t)} \times [(\text{Zn\_rec} \times \text{Zn\$} \times \text{Zn(\%)} + (\text{Pb\_rec} \times \text{Pb\$} \times \text{Pb(\%)})] / (\text{Ag\$} \times \text{Ag\_rec} \times \text{Ag (g/t)})$$

#### Metal Equivalent Calculations - Sala

Zn% (Eq) and Ag g/t (Eq) are based on recoveries at analogous mineralisation systems in Sweden to calculate the equivalent grades a recovery of 93.8% Zn, 82% Ag and 89.9% Pb was applied.

The following price assumptions were used to calculate the equivalents:

- Zinc Price of USD \$2,976.24 per tonne
- Silver Price of USD \$22.62 per ounce
- Lead Price of USD \$2,259.07 per tonne

Equivalents were calculated using the following formula:

$$\text{ZnEq} = \text{Zn\%} + \text{Zn\%} \times [(\text{727,345.29} \times \text{0.82} \times \text{Ag\%}) + (\text{2,259.07} \times \text{0.899} \times \text{Pb\%})] / (\text{2,976.24} \times \text{0.9380} \times \text{Zn\%})$$

$$\text{AgEq} = \text{Ag (g/t)} + \text{Ag (g/t)} \times [(\text{2,976.24} \times \text{0.938} \times \text{Zn\%}) + (\text{2,259.07} \times \text{0.899} \times \text{Pb\%})] / (\text{727,345.29} \times \text{0.820} \times \text{Ag (g/t)})$$

It is the Company's opinion that all the elements included in the metal equivalents calculation have a reasonable potential to be recovered and sold.

#### Classification

The Mineral Resource is entirely classified as Inferred. The classification is based on the relative confidence in the mineralised domain countered by variable drill spacing, un-verifiable historical database and partial lack of historical quality assurance and quality control.

#### Review of Material Changes

As part of an annual review of resource, the economic assumptions outlined in accordance with principles of the JORC Code have been reviewed, and no material changes have been applied. Furthermore, the Company is not in possession of any new information or data relating to the previously announced resource estimate, as such there is no material changes to the resource estimate and no comparison of estimates is necessary. No further review of the resource estimate has been completed following the annual review of mineral resources completed for the financial year ending 30 June 2024.

## Mineral Resource and Competent Persons' Statements

### Governance Controls

Alicanto has adopted the following governance arrangements and internal controls for the preparation of mineral resource estimations for the Company to ensure any Mineral Resource or Ore Reserve estimates prepared by Alicanto are reported in accordance with the principles of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves, 2012 edition (JORC Code) and ASX Listing Rules.

Exploration activity and material results acquired in support of Mineral Resource estimation is subject to regular internal review to confirm and compile exploration results on a continuous basis for disclosure to shareholders in accordance with ASX Listing Rule 5.7 and in accordance with requirements of the JORC Code. Compilation of exploration results is completed or overseen by Alicanto personnel that meet the requirements of a Competent Person in accordance with the principles of the JORC Code.

Any documentation for the estimation of Mineral Resources or Ore Reserve must be prepared or overseen by a Competent Person in accordance with the principles of the JORC Code involving either Company personnel or an Independent Competent Person as deemed appropriate by Company management, with reporting of final documentation prepared in accordance with ASX listing rule(s) 5.8 and/or 5.9 as relevant to the consideration of modifying factors used in the estimation process.

### Competent Persons' Statements

The information in this report that relates to Exploration Results is based on and fairly represents information compiled by Mr Erik Lundstam, a Competent Person who is a Member of The Australian Institute of Geoscientists. Mr Lundstam is the Chief Geologist for the Company and holds shares in the Company. Mr Lundstam has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and to the activity undertaken to qualify as a Competent Person as defined in the JORC 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' (the "JORC Code"). Mr Lundstam consents to the inclusion in this report of the matters based on his information in the form and context in which it appears.

The information in this announcement that relates to Mineral Resources is based on and fairly represents information compiled by Mr Brian Fitzpatrick. Mr Fitzpatrick is a Competent Person and a full-time employee of Cube Consulting Pty Ltd, a consultant to the Company which specialises in mineral resource estimation, evaluation and exploration. Neither Mr Fitzpatrick nor Cube Consulting Pty Ltd holds any interest in Alicanto Minerals Ltd, its related parties, or in any of the mineral properties that are the subject of this announcement. Mr Fitzpatrick is a member of the Australasian Institute of Mining and Metallurgy and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity undertaken to qualify as a Competent Person (or "CP") as defined in the 2012 Edition of the JORC Code. Mr Fitzpatrick consents to the inclusion in this report of the matters based on his information in the form and context in which it appears.

### Forward Looking Statements

Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors constitute, among others, continued funding, general business, economic, competitive, political and social uncertainties; the actual results of exploration activities; changes in project parameters as exploration strategies continue to be refined; renewal of mineral concessions; accidents, labour disputes, contract and agreement disputes, and other sovereign risks related to

## Mineral Resource and Competent Persons' Statements

changes in government policy; changes in policy in application of mining code; and political instability. The Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward looking statements, however there may be other factors that cause actions, events or results to differ from those anticipated, estimated or intended. Forward-looking statements contained herein are made as of the date of this report and the Company disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events or results, except as may be required by applicable securities laws. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements.

Board of Directors  
Alicanto Minerals Limited  
Level 2, 8 Richardson Street  
West Perth WA 6005

Dear Directors

**RE: ALICANTO MINERALS LIMITED**

In accordance with section 307C of the *Corporations Act 2001*, I am pleased to provide the following declaration of independence to the directors of Alicanto Minerals Limited.

As Audit Director for the audit of the financial statements of Alicanto Minerals Limited for the year ended 30 June 2024, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- (i) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (ii) any applicable code of professional conduct in relation to the audit.

Yours sincerely

**STANTONS INTERNATIONAL AUDIT AND CONSULTING PTY LTD**  
**(An Authorised Audit Company)**

Amounts relating to payments to suppliers and employees as set out above are inclusive of goods and services tax. The above consolidated statement of cash flows should be read in conjunction with the accompanying notes.

## For the Year Ended 30 June 2024

### 1. Summary of Material Accounting Policies

The principal accounting policies adopted in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to the financial years presented, unless otherwise stated. These financial statements cover Alicanto Minerals Limited as a consolidated entity consisting of Alicanto Minerals Limited and its subsidiaries ('the consolidated entity' or 'the group').

#### (a) Basis of preparation

These general-purpose financial statements have been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements and the *Corporations Act 2001*.

##### (i) Compliance with IFRS

The financial statements of Alicanto Minerals Limited also comply with Australian Equivalents to International Financial Reporting Standards (AIFRS). Compliance with AIFRS ensures that the financial statements and notes as presented comply with International Financial Reporting Standards (IFRS).

##### (ii) Historical cost convention

These financial statements have been prepared under the historical cost convention, as modified by the revaluation of available for sale financial assets.

##### (iii) Going Concern

The Directors believe it is appropriate to prepare the consolidated financial report on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

For the year ended 30 June 2024, the Group incurred a loss before tax of \$5,470,225 (2023: \$7,046,235). At 30 June 2024, the Group had total current assets of \$1,038,091 (2023: \$3,417,425) including cash and cash equivalents of \$803,773 (2023: \$3,067,926) and total current liabilities of \$313,208 (2023: \$503,390).

The Directors are of the view that the Group will be able to meet its commitments and pay its debts as and when they fall due, while meeting its objectives of exploring its projects as presently forecast. The Group has potential options available to manage liquidity, including one or a combination of, a placement of shares, option conversion, entitlement offer, joint venture arrangements or sale of certain assets, and as such, the Directors have a reasonable basis to believe that the Group will have sufficient working capital for at least twelve months from the date this financial report is approved.

In the event that all of the funding options available to the Group do not transpire or there is no change to the forecasted spending pattern, there may be material uncertainty about whether it would be able to continue as a going concern and, therefore, realise its assets and discharge its liabilities in the normal course of business at the amounts stated in the financial report. The financial statements do not include any adjustment relating to the recoverability or classification of recorded asset amounts or to the amounts or classification of liabilities that might be necessary should the Group not be able to continue as a going concern.

## For the Year Ended 30 June 2024

### 2. Summary of Material Accounting Policies (continued)

#### (b) Principles of consolidation

##### (i) Subsidiaries

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Alicanto Minerals Limited as at 30 June 2024 and the results of all subsidiaries for the year then ended.

Subsidiaries are entities the parent controls. The parent controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. A list of subsidiaries is provided in Note 22.

The assets, liabilities and results of all subsidiaries are fully consolidated into the financial statement of the Group from the date on which control is obtained by the Group. The consolidation of a subsidiary is discontinued from the date that control ceases. Intercompany transactions, balances and unrealised gains or losses on transactions between group entities are eliminated on consolidation. Accounting policies of subsidiaries have been changed and adjustments made where necessary to ensure uniformity of the accounting policies adopted by the Group.

Equity interests in a subsidiary not attributable, directly or indirectly, to the Group are presented as “non-controlling interests”. The Group initially recognises non-controlling interests that are present ownership interests in subsidiaries and are entitled to a proportionate share of the subsidiary’s net assets on liquidation at either fair value or at the non-controlling interests’ proportionate share of the subsidiary’s net assets. Subsequent to initial recognition, non-controlling interests are attributed their share of profit or loss and each component of other comprehensive income. Non-controlling interests are shown separately within the equity section of the consolidated statement of financial position and consolidated statement of profit or loss and other comprehensive income.

##### (ii) Joint arrangements

Under AASB 11 Joint Arrangements investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. Alicanto Minerals Limited is not involved in any joint arrangements.

##### (iii) Jointly operations

Alicanto Minerals Limited recognises its direct right to the assets, liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses.

Alicanto Minerals Limited is not involved in any joint operations.

#### (c) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the board of directors.

#### (d) Revenue recognition

Revenue is recognised when performance obligations are satisfied, being when control upon goods or services underlying the performance is transferred to the customer.

## For the Year Ended 30 June 2024

### 2. Summary of Material Accounting Policies (continued)

#### (d) Revenue recognition (continued)

##### Interest income

Interest income is recognised as the interest accrues (using the effective interest method, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument) to the net carrying amount of the financial asset.

Revenue from other income, rendering goods and services is measured at the fair value of consideration received or receivable for the sale of goods and services in the ordinary course of the Group's activities when control of the asset is transferred to the customer or services rendered.

#### (e) Income tax

The income tax expense or revenue for the year is the tax payable on the current year's taxable income based on the national income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantively enacted for each jurisdiction. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to these temporary differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

#### (f) Impairment of assets

At each reporting date, the Board assesses whether there is any indication that an asset may be impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

#### (g) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

## For the Year Ended 30 June 2024

**2. Summary of Material Accounting Policies (continued)****(h) Trade and other receivables**

Trade and other receivables include amounts due from customers for goods and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets. Trade and other receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment.

**(i) Exploration and evaluation expenditure**

Exploration, evaluation and development expenditure is expensed as incurred other than for the capitalisation of acquisition costs.

**(j) Property, plant and equipment**

All property, plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of profit or loss and other comprehensive income during the financial year in which they are incurred.

Depreciation on assets is calculated using the reducing balance method to allocate their cost, net of their residual values, over their estimated useful lives, as follows:

Plant and equipment - office	40.0%
Furniture and equipment - office	20.0%
Plant and equipment - field	20.0%
Motor vehicles	22.5%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 1(f)). Gains and losses on disposals are determined by comparing proceeds received with the carrying amount. These are included in the statement of profit or loss and other comprehensive income.

**(k) Intangibles****Acquired minerals rights**

Acquired minerals rights comprise exploration and evaluation assets including ore reserves and minerals resources which are acquired as part of:

- business combinations recognised at fair value at the date of acquisition; and
- asset acquisitions recognised at cost.

Acquired minerals rights are carried forward only if they relate to an area of interest for which rights of tenure are current and in respect of which:

- such costs are expected to be recouped through successful development and exploitation or from sale of the area: or

## For the Year Ended 30 June 2024

**2. Summary of Material Accounting Policies (continued)****(k) Intangibles (continued)**

- exploration and evaluation activities in the area have not, at balance date, reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active operations in, or relating to, the area are continuing.

Acquired minerals rights in respect of areas of interest which are abandoned are written off in full against profit or loss in the year in which the decision to abandon the area is made. For acquired minerals rights in an area of interest that are developed, costs are classified as mine property and development from commencement of development and amortised when commercial production commences on a unit of production basis over the estimated economic reserves of the mine.

**(l) Financial Instruments***Recognition, initial measurement and derecognition*

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument. Financial instruments (except for trade receivables) are measured initially at fair value adjusted by transactions costs, except for those carried “at fair value through profit or loss”, in which case transaction costs are expensed to profit or loss. Where available, quoted prices in an active market are used to determine the fair value. In other circumstances, valuation techniques are adopted. Subsequent measurement of financial assets and financial liabilities are described below.

Trade receivables are initially measured at the transaction price if the receivables do not contain a significant financing component in accordance with AASB 15.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and all substantial risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

*Classification and subsequent measurement**Financial assets*

Except for those trade receivables that do not contain a significant financing component and are measured at the transaction price in accordance with AASB 15, all financial assets are initially measured at fair value adjusted for transaction costs (where applicable).

For the purpose of subsequent measurement, financial assets other than those designated and effective as hedging instruments, are classified into the following categories upon initial recognition:

- amortised cost;
- fair value through other comprehensive income (FVOCI); and
- fair value through profit or loss (FVPL).

Classifications are determined by both:

- the contractual cash flow characteristics of the financial assets; and
- the entities business model for managing the financial asset.

## For the Year Ended 30 June 2024

### 2. Summary of Material Accounting Policies (continued)

#### (I) Financial Instruments (continued)

##### *Classification and subsequent measurement (continued)*

##### *Financial assets (continued)*

##### *Financial assets at amortised cost*

Financial assets are measured at amortised cost if the assets meet the following conditions (and are not designated as FVPL):

- they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows; and
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial recognition, these are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial. The Group's cash and cash equivalents, trade and most other receivables fall into this category of financial instruments.

##### *Financial assets at fair value through other comprehensive income (Equity instruments)*

The Group measures debt instruments at fair value through OCI if both of the following conditions are met:

- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding; and
- the financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling the financial asset.

For debt instruments at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the statement of profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI.

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under AASB 132 *Financial Instruments: Presentation* and are not held for trading.

##### *Financial assets at fair value through profit or loss (FVPL)*

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term.

##### *Financial liabilities*

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Group designated a financial liability at fair value through profit or loss. Subsequently, financial liabilities are measured at amortised cost using the effective interest method except for derivatives and financial liabilities designated at FVPL, which are carried subsequently at fair value with gains or losses recognised in profit or loss.

For the Year Ended 30 June 2024

**2. Summary of Material Accounting Policies (continued)**

**(l) Financial Instruments (continued)**

*Financial liabilities (continued)*

All interest-related charges and, if applicable, gains and losses arising on changes in fair value are recognised in profit or loss.

All interest-related charges and, if applicable, gains and losses arising on changes in fair value are recognised in profit or loss.

*Impairment*

The Group assesses on a forward-looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables, the Group applies the simplified approach permitted by AASB, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

**(m) Fair value measurement**

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principle market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interest. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at fair value are classified, into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed each reporting date and transfers between levels are determined based on a reassessment of the lowest level input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

**(n) Current and non-current classification**

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is current when: it is expected to be realised or intended to be sold or consumed in normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within twelve months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

## For the Year Ended 30 June 2024

**2. Summary of Material Accounting Policies (continued)****(n) Current and non-current classification (continued)**

A liability is current when: it is expected to be settled in normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within twelve months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. All other liabilities are classified as non-current.

**(o) Trade and other payables**

These amounts represent liabilities for goods and services provided to the company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

**(p) Provisions**

Provisions are recognised when; the company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the balance sheet date. The discount rate used to determine the present value reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

**(q) Employee benefits****(i) Short-term obligations**

Liabilities for wages and salaries, including non-monetary benefits and annual leave expected to be settled within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liability for annual leave is recognised in the provision for employee benefits. All other short-term employee benefit obligations are presented in payables.

**(ii) Other long-term employee benefit obligations**

The liability for long service leave and annual which is not expected to be settled within 12 months after the end of the period in which the employees render the related service is recognised in the provision for employee benefits and measured as present value of expected future wage payments to be made. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the end of the reporting period. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting regardless of when the actual settlement is expected to occur.

**(iii) Share-based payments**

The company provides benefits to employees (including directors) of the company in the form of share-based payment transactions, whereby employees render services in exchange for shares or rights over shares ('equity-settled transactions'). The cost of these equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option. In valuing equity-settled transactions, no account

## For the Year Ended 30 June 2024

### 2. Summary of Material Accounting Policies (continued)

#### (q) Employee benefits (continued)

##### (iii) Share-based payments (continued)

is taken of any performance conditions, other than conditions linked to the price of shares of Alicanto Minerals Limited ('market conditions').

#### (r) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares for the acquisition of a business are not included in the cost of the acquisition as part of the purchase consideration.

#### (s) Earnings per share

##### (i) Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the company excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

##### (ii) Diluted earnings per share

Diluted earnings per share adjusts the Figures used in the determination of basic earnings per share to take into account the after-tax effect of interest and other financing costs associated with the dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

#### (t) Goods and services tax ('GST')

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense. Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flow.

#### (u) Foreign currency translation

##### (i) Functional and presentation currency

Items included in the financial statements of each of the group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Australian dollars, which is Alicanto Minerals Limited's functional and presentation currency.

## For the Year Ended 30 June 2024

**2. Summary of Material Accounting Policies (continued)****(u) Foreign currency translation (continued)****(ii) Transactions and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. They are deferred in equity if they relate to qualifying cash flow hedges, qualifying net investment hedges or are attributable to part of the net investment in a foreign operation.

Translation differences on financial assets and liabilities carried at fair value are reported as part of the fair value gain or loss. Translation differences on non-monetary financial assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss. Translation differences on non-monetary financial assets such as equities classified as available for sale financial assets are included in the fair value reserve in equity.

**(iii) Group companies**

The results and financial position of foreign operations that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- Assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- Income and expenses for the statement of profit or loss and other comprehensive income are translated at average exchange rates, and
- All resulting exchange differences are recognised in other comprehensive income.

**(v) Leases****The Group as lessee**

At inception of a contract the Group assesses if the contract contains or is a lease. If there is a lease present, a right-of-use asset and a corresponding liability are recognised by the Group where the Group is a lessee. However, all contracts that are classified as short-term leases (i.e. leases with a remaining lease term of 12 months or less) and leases of low-value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

Initially, the lease liability is measured at the present value of the lease payments still to be paid at the commencement date. The lease payments are discounted at the interest rate implicit in the lease. If this rate cannot be readily determined, the Group uses incremental borrowing rate.

Lease payments included in the measurement of the lease liability are as follows;

- fixed lease payments less any lease incentives;
  - variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
  - the amount expected to be payable by the lessee under residual value guarantees;
  - the exercise price of purchase options if the lessee is reasonably certain to exercise the options;
  - lease payments under extension options, if the lessee is reasonably certain to exercise the options;
- and

For the Year Ended 30 June 2024

2. Summary of Material Accounting Policies (continued)

(v) Leases (continued)

The Group as lessee (continued)

- payments of penalties for terminating the lease, if the lease term reflects the exercise of options to terminate the lease.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, any lease payments made at or before the commencement date and any initial direct costs. The subsequent measurement of the right-of-use assets is at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the lease term or useful life of the underlying asset, whichever is the shortest.

Where a lease transfers ownership of the underlying asset or the costs of the right-of-use asset reflects that the Group anticipates to exercise a purchase option, the specific asset is depreciated over the useful life of the underlying asset.

The Group as lessor

The Group does not have any property which has been leased out, and therefore not applicable.

(w) New accounting standards and interpretations adopted by the Group

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

*AASB 2021-2: Amendments to Australian Accounting Standards – Disclosure of Accounting Policies and Definition of Accounting Estimates*

The Group adopted AASB 2021-2 which amends AASB 7, AASB 101, AASB 108 and AASB 134 to require disclosure of 'material accounting policy information' rather than significant accounting policies' in an entity's financial statements. It also updates AASB Practice Statement 2 to provide guidance on the application of the concept of materiality to accounting policy disclosures.

The adoption of the amendment did not have a material impact on the financial statements.

*AASB 2020-1: Amendments to Australian Accounting Standards – Classification of Liabilities as Current or Non-current*

The amendment amends AASB 101 to clarify whether a liability should be presented as current or non-current.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

*New Accounting Standards and Interpretations not yet mandatory or early adopted*

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the consolidated entity for the annual reporting period ended 30 June 2024. The consolidated entity has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

The Group plans on adopting the amendment for the reporting period ending 30 June 2025. The amendment is not expected to have a material impact on the financial statements once adopted.

For the Year Ended 30 June 2024

**2. Summary of Material Accounting Policies (continued)**

**(X) Comparative figures**

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

**2. Critical accounting estimates and judgements**

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances. The company makes estimates and assumptions concerning the future. The resulting accounting estimates and judgements may differ from the related actual results and may have a significant effect on the carrying amount of assets and liabilities within the next financial year and on the amounts recognised in the financial statements. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

**(a) Share based payment transactions**

The group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by an internal valuation using a Black-Scholes option pricing model, using the assumptions detailed in Note 17.

**(b) Recovery of deferred tax assets**

Deferred tax assets are recognised for deductible temporary differences when management considers that it is probable that future taxable profits will be available to utilise those temporary differences.

**(c) Fair value of Deferred Consideration**

In accordance with AASB 9 management assesses the probability of the conditions with relation to any contingent asset and that the probability of its recovery. If the probability is assessed as less than 50% or not likely to be achieved hence, no asset has been recognised.

## 9(a) 2024

There were no additional acquisition costs during the year.

## 2023

During the year the Company acquired the historic Falun Mine and associated tenements from the current owners, Explora Mineral AB (**Explora**).

Key terms of the agreement included:

Total consideration of A\$200,012, comprising:

- an immediately payable cash deposit of A\$10,012 (paid on 10 November 2022);
- a cash payment on completion of A\$40,000 (paid on 28 April 2023); and
- Alicanto shares to the value of A\$150,000 to be issued at a deemed price equal to the VWAP over the 30 trading days prior to the date of completion (3,623,189 consideration shares issued on 28 April 2023 at a deemed issue price of \$0.0414).

On 1 May 2023, the Company finalised the acquisition of Falun copper gold zinc mine in Sweden.

10(c) On 21 November 2022 the Company agreed to enter a sub-license over part of the premises at Level 2, 8 Richardson Street, West Perth. To recognise the sub-license the Company initially recognised right of use asset of \$198,085, however during the half year the Company was required to recalculate the right of use asset due to a reduction in the monthly costs being charged in accordance with the sub-license directly related to the reduction in space being used by the Company. As a result, the adjusted recognition for the sub-license is now \$131,810 and is being treated as a new right of use asset.

At the date of the report an estimated 4 years and 2 months remain. The maturity analysis of the lease liabilities is shown at Note 13.

10(d) During 2021, the Company entered into a hire purchase agreement to acquire a drill rig, with ownership transferring to it on satisfaction of the terms of the lease, being on meeting total payments set out in the agreement. The hire purchase facility was paid in full on 2 December 2022 and the fully depreciated drill rig transferred to Plant and Equipment field (refer Note 8).

## Share placements

- On 11 August 2023 the Company issued 72,500,000 fully paid ordinary shares at an issue price of \$0.04 per share to raise a total of \$2,900,000 before issue costs.
- On 10 November 2023, following receipt of shareholder approval at the Annual General Meeting held on 9 November 2023, the Company issued 2,500,000 fully paid ordinary shares at an issue price of \$0.04 per share to Non-Executive Chairman Mr Raymond Shorrocks (or his nominee) to raise \$100,000 before issue costs.
- On 6 May 2024, the Company issued 250,000 fully paid ordinary shares to a contractor following the exercise of 250,000 vested Performance Rights.

## 15 Reserves

	2024 \$	2023 \$
Unlisted Option Reserve	6,619,481	6,619,481
Performance Rights Reserve	1,973,945	1,484,829
Foreign Currency Translation Reserve	(240,188)	(122,645)
<b>Total Reserves</b>	<b>8,353,238</b>	<b>7,981,665</b>

As at 30 June 2024, the Company has:

- 81,000,000 (30 June 2023: 86,000,000) Unlisted Options on issue; and
- 34,750,000 (30 June 2023: 22,250,000) Performance Rights.

	2024 \$	2023 \$
<b>(a) Unlisted Option Reserve</b>		
Opening balance at 1 July	6,619,481	6,142,164
Options vested	-	477,317
<b>Total Unlisted Option Reserve</b>	<b>6,619,481</b>	<b>6,619,481</b>

## For the Year Ended 30 June 2024

## 15 Reserves (continued)

The share-based payment reserve records items recognised on valuation of director, employee and contractor share options and performance rights. Information relating to options and performance rights issued, exercised and lapsed during the financial year and options outstanding at the end of the financial period, is set out in Note 16.

**(b) Performance Rights Reserve**

Opening balance at 1 July	1,484,829	952,819
Portion of fair value recognised as expensed during year	570,725	532,010
Portion of fair value resulting from lapsed during prior periods and transferred to accumulated losses	(81,609)	-
<b>Total Performance Rights Reserve</b>	<b>1,973,945</b>	<b>1,484,829</b>

**(c) Foreign Currency Translation Reserve**

Opening balance at 1 July	(122,645)	(245,319)
Exchange differences arising on translation of foreign operations	(117,543)	122,674
<b>Total Foreign Currency Translation Reserve</b>	<b>(240,188)</b>	<b>(122,645)</b>

Exchange differences arising on translation of the foreign controlled entity are taken to the foreign currency translation reserve. The reserve is recognised in the consolidated statement of profit or loss when the net investment is disposed of.

## 16 Share Based Payments

## 16.1 Unlisted Options

## 2024

There were no unlisted options issued during the year.

## 2023

During the 2023 financial year 15,000,000 unlisted options were issued to a consultant, with the fair value of the options granted during the year being \$0.0318 per option. The options were valued using the Black-Scholes Model.

Peer volatility has been the basis for determining expected share price volatility as it assumed that this is indicative of future tender, which may not eventuate. The life of the options is based on historical exercise patterns, which may not eventuate in the future. Refer below the detail of unlisted options on issue for 2024 and 2023.

Total share-based payment transactions recognised during the year are as set out in 16.3.

## For the Year Ended 30 June 2024

## 16 Share Based Payments (continued)

## 16.1 Unlisted Options (continued)

The following table illustrates of the number and weighted average exercise prices (WAEP) of, and movements in unlisted share options during 30 June 2024 and 30 June 2023.

	No of options 2024	WAEP	No of options 2023	WAEP \$
Outstanding at the beginning of the year	86,000,000	\$0.110	95,000,000	\$0.110
Granted during the year	-	-	15,000,000	\$0.058
Lapsed during the year	(5,000,000)	\$0.030	(24,000,000)	\$0.065
<b>Balance at 30 June</b>	<b>81,000,000</b>	<b>\$0.012</b>	<b>86,000,000</b>	<b>\$0.110</b>
<b>Vested and exercisable at the end of the financial year</b>	<b>81,000,000</b>	<b>\$0.012</b>	<b>86,000,000</b>	<b>\$0.110</b>

This table illustrates of the movement in unlisted share options for financial year ended 30 June 2024.

Grant Date	Expiry date	Exercise price	Balance at 1 July 2023	Granted	Exercised/ (Lapsed)	Balance at 30 June 2024	Vested	Value of options expensed/ lapsed
			No	No	No	No	No	\$
14 Mar 19	14 Mar 24	\$0.030	5,000,000	-	(5,000,000)	-	-	(84,291)
13 Aug 20	13 Aug 25	\$0.100	37,000,000	-	-	37,000,000	37,000,000	-
5 Aug 20	24 Nov 25	\$0.100	9,000,000	-	-	9,000,000	9,000,000	-
5 Aug 20	24 Nov 25	\$0.100	2,500,000	-	-	2,500,000	2,500,000	-
5 Aug 20	24 Nov 25	\$0.150	2,500,000	-	-	2,500,000	2,500,000	-
5 Aug 20	24 Nov 25	\$0.200	2,500,000	-	-	2,500,000	2,500,000	-
4 Nov 20	24 Nov 25	\$0.250	2,500,000	-	-	2,500,000	2,500,000	-
26 Jul 21	26 Jul 26	\$0.200	10,000,000	-	-	10,000,000	10,000,000	-
14 Feb 23	28 Feb 28	\$0.058	15,000,000	-	-	15,000,000	15,000,000	-
			<b>86,000,000</b>	<b>-</b>	<b>(5,000,000)</b>	<b>81,000,000</b>	<b>81,000,000</b>	<b>(84,291)</b>

The weighted average remaining contractual life of options at the end of the financial year was 1.65 years (2023: 2.65 years).

## For the Year Ended 30 June 2024

## 16 Share Based Payments (continued)

## 16.1 Unlisted Options (continued)

## Fair Value of unlisted options granted

The fair value of the equity-settled share based payment granted is estimated at the grant date using either a Black-Scholes or a Binomial model, which takes not account factors including the exercise price, the volatility of the underlying share price, the risk-free interest rate, the market price of the market price of the underlying share at grant date, historical and expected dividends and the expected life of the options or right, and the probability of fulfilling the required hurdles.

Grant date	Underlying share price	Exercise price	Risk free interest rate	Share price volatility	Expiry date	Value per options
14 Mar 19	\$0.027	\$0.030	1.59%	80.00%	14-03-24	\$0.01686
13 Aug 20	\$0.080	\$0.100	0.39%	85.00%	24-07-25	\$0.04981
5 Aug 20	\$0.080	\$0.100	0.39%	85.00%	24 Nov 25	\$0.04981
5 Aug 20	\$0.080	\$0.150	0.39%	85.00%	24 Nov 25	\$0.04387
5 Aug 20	\$0.080	\$0.200	0.39%	85.00%	24 Nov 25	\$0.03952
5 Aug 20	\$0.080	\$0.250	0.39%	85.00%	24 Nov 25	\$0.03613
4 Nov 20	\$0.124	\$0.100	0.26%	85.00%	24 Nov 25	\$0.08632
26 Jul 21	\$0.165	\$0.200	0.58%	103.00%	26 Jul 26	\$0.12041
14 Feb 23	\$0.044	\$0.058	3.52%	100.00%	28 Feb 28	\$0.03182

## 16.2 Listed Options

No listed options were issued during the 2024 or 2023 financial years.

## 16.3 Performance rights

	2024	2023
	<b>Number of rights</b>	
Balance at 1 July	22,250,000	12,500,000
Granted	33,250,000	14,000,000
Lapsed	(20,750,000)	(4,250,000)
<b>Balance at 30 June</b>	<b>34,750,000</b>	<b>22,250,000</b>
<b>Vested and exercisable at the end of the financial year</b>	<b>-</b>	<b>-</b>

## For the Year Ended 30 June 2024

## 16 Share Based Payments (continued)

## 16.3 Performance rights (continued)

The following table illustrates the number of, and movements in, performance rights for financial years ended 30 June 2024 and 2023.

Each performance right converts to one ordinary share in the Company upon satisfaction of the performance conditions linked to the rights. The rights do not carry any other privileges. The fair value of the performance rights granted is determined based on the number of rights awarded multiplied by the share price of the Company on the date awarded. There are performance rights issued with market conditions and monte-carlo simulation was used to determine the fair value of these performance rights.

Management has then assessed the likelihood of the performance conditions being achieved. If the probability is judged to be greater than 50%, the total value is recognised on a straight-line basis over the vesting period (in this case from the award date to the expiry date) within the relevant expense or equity account. If the probability is judged 50% or less, no amounts are recognised in the period.

	<u>211,852</u>	<u>783,934</u>
<b>Total share-based payments</b>	<u><b>570,725</b></u>	<u><b>1,009,327</b></u>

## 17 Cash Flow Information

	2024	2023
	\$	\$
<b>(a) Reconciliation of cash flows from operating activities with loss from ordinary activities after tax:</b>		
(Loss) for the year after income tax	(5,470,225)	(7,046,235)
Depreciation	16,530	13,368
Depreciation on right of use assets	26,362	147,449
Accelerated depreciation – low value assets	1,591	6,169
Write-off of property, plant and equipment	-	2,638
Share based payments	358,873	225,393
Share based payments included in consultancy expenses	211,852	783,934
Interest expense	9,622	13,057
Net exchange differences	(115,543)	122,674
<i>Change in assets and liabilities</i>		
Increase in operating trade and other receivables	115,181	266,717
(Decrease) in operating trade and other payables and provisions	(158,030)	(512,688)
<b>Net cash outflows from Operating Activities</b>	<u><b>5,005,787</b></u>	<u><b>(5,977,524)</b></u>

## For the Year Ended 30 June 2024

## 17 Cash Flow Information (continued)

## (b) Non-cash investing and financing activities

There were no other non-cash investing and financing activities, except those disclosed in Notes 13 and 14.

## 18. Commitments

	2024	2023
	\$	\$
The Group has the following exploration/ tenement commitments and hire purchase commitments, noting that at balance date there were no hire purchase obligations.		
<b>Exploration/tenure commitments</b>		
Not longer than one year	88,398	87,345
Longer than one year, but not longer than five years	236,056	233,245
Longer than five years	113,800	112,445
<b>Total exploration commitment</b>	<b>438,254</b>	<b>433,035</b>

## Sweden

As there is no minimum spend for exploration activities in Sweden the minimum commitments to be met are represented by annual rentals for the current tenement holding.

## 19. Segment Information

## (a) Description of segments

Management has determined the operating segments based on the reports reviewed by the chief operating decision maker that are used to make strategic decisions. For the purposes of segment reporting the chief operating decision maker has been determined as the board of directors. The board monitors the entity primarily from a geographical perspective, and has identified three operating segments, being exploration for mineral reserves and the corporate/head office function in Australia.

## (b) Measurement of segment information

All information presented in part (a) above is measured in a manner consistent with that in the consolidated financial statements.

## (c) Segment revenue

No inter-segment sales occurred during the current financial year. The entity is domiciled in Australia. A detailed breakdown of revenue from continuing operations is as follows:

	2024	2023
	\$	\$
Interest received - Australia	37,820	18,222
Other (loss) / income - Australia	(64)	(374)
<b>Total revenue from continuing operations (Note 3(a))</b>	<b>37,756</b>	<b>17,848</b>

## For the Year Ended 30 June 2024

## 19. Segment Information (continued)

## (d) Reconciliation of segment information

Total segment revenue, total segment profit/(loss) before income tax, total segment assets and total segment liabilities as presented in part (e) below, equal total entity revenue, total entity profit/(loss) before income tax, total entity assets and total entity liabilities respectively, as reported within the financial statements.

## (e) Segment information provided to the board of directors

The segment information provided to the board of directors for the reportable segments for the year ended 30 June 2023 and 2024 are set out follows:

2024	Exploration Sweden \$	Corporate \$	Total \$
<b>Total segment revenue</b>	-	37,756	37,756

## For the Year Ended 30 June 2024

**20. Post Balance Date Events**

On 21 June 2024, the Company announced a non-renounceable entitlement offer to existing eligible shareholders to raise up to approximately \$1.6 million (before costs) (“Rights Issue”) and that it had received firm commitments from its current Directors to raise an additional \$123,500 (before costs) (“Director Placement”), subject to Shareholder approval which was obtained at a general meeting held on 11 September 2024.

- (i) On 29 July 2024, the Company issued 83,061,156 new fully paid ordinary shares at an issue price of \$0.013 per share, on completion of the Rights Issue to raise \$1,079,795 before issue costs.
- (ii) On 20 August 2024, the Company issued 39,995,000 new fully paid ordinary shares at an issue price of \$0.013 per share, on completion of the Rights Issue shortfall placement to raise \$519,935 before issue costs.
- (iii) On 12 September, the Company issued 9,500,000 new fully paid ordinary shares at an issue price of \$0.013 per share, on completion of the Director Placement to raise \$123,500 before issue costs.

Proceeds from the Rights Issue and Director Placement will be applied towards progressing exploration at the Company’s existing projects in Sweden and project generation, as well as working capital and costs of the offers.

On 2 August 2024, a total of 36,000,000 unlisted options and 8,000,000 performance rights expired or were cancelled by agreement between the entity and the relevant holder as follows:

- (i) 3,000,000 unlisted options exercisable at \$0.10 on or before 24 November 2025;
- (ii) 23,000,000 unlisted options exercisable at \$0.10 on or before 13 August 2025;
- (iii) 10,000,000 unlisted options exercisable at \$0.20 on or before 26 July 2026; and
- (iv) 4,000,000 unvested Class D Performance Rights (expiry 2 August 2024); and
- (v) 4,000,000 unvested Class G Performance Rights (expiry 30 September 2024).

On 2 September 2024, the Company issued 105,000,000 performance rights, including 3,000,000 performance rights to the Chief Financial Officer, and on 12 September 2024, following shareholder approval received at the general meeting on 11 September 2024, the Company issued 127,500,000 performance rights, including 52,500,000 performance rights to directors, under the Company’s Employee Securities Incentive Plan (‘ESIP’).

PR ID#	Number of Performance Rights	Vesting Conditions	Vesting date	Expiry date
PRR	19,625,000	Satisfaction of the Retention Condition and the Company’s shares achieving a volume-weighted average market price (“VWAP”) of \$0.03 or greater, calculated over the 20 consecutive trading days on which trades in the Company’s shares have actually occurred prior to 31 July 2027.	31 Jul 27	31 Jul 28
PRS	19,625,000	Satisfaction of the Retention Condition and the Company securing a material asset and completing at least 2,000m of drilling on that asset prior to 31 July 2027.	31 Jul 27	31 Jul 28

## For the Year Ended 30 June 2024

## 20. Post Balance Date Events (continued)

PR ID#	Number of Performance Rights	Vesting Conditions	Vesting date	Expiry date
PRT	21,625,000	Satisfaction of the Retention Condition and the Company securing a funding partner for the Sala Project or completing a 5,000m drill program at the Sala Project prior to 31 July 2027.	31 Jul 27	31 Jul 28
PRU	21,625,000	Satisfaction of the Retention Condition and the Company securing a funding partner for the Falun Project or completing a 5,000m drill program at the Falun Project prior to 31 July 2027.	31 Jul 27	31 Jul 28
PRV	50,000,000	The Company's shares achieving a VWAP of \$0.03 or greater, calculated over the 20 consecutive trading days on which trades in the Company's shares have occurred prior to 31 July 2027.	On or before 31 Jul 27	31 Jul 28
PRW	50,000,000	The Company securing a material asset and completing at least 2,000m of drilling on that asset prior to 31 July 2027.	On or before 31 Jul 27	31 Jul 28
PRX	50,000,000	The Company achieving a market capitalisation of \$60 million or greater on at least 20 consecutive trading days on which trades in the Company's shares occur.	On or before 31 Jul 28	31 Jul 28

Other than the above, there were no other events occurring after 30 June 2024.

## 21. Related Party Transactions

## (a) Parent entity

The ultimate parent entity within the group is Alicanto Minerals Limited.

## (b) Subsidiaries

Interests in subsidiaries are set out in Note 22.

## (c) Key management personnel compensation

Disclosures relating to key management personnel are set out in the Remuneration Report included in the Directors' Report.

	2024 \$	2023 \$
Short-term employee benefits	546,748	734,309
Post-employment benefits	33,000	47,031
Share-based payments	426,462	423,462
<b>Total key management personnel compensation</b>	<b>1,006,210</b>	<b>1,204,802</b>

## For the Year Ended 30 June 2024

## 21. Related Party Transactions (continued)

(d) Transactions with Director and other key management personnel related parties

The following transactions occurred with related entities during the financial year for the recharges of office and administration costs incurred on its behalf during the year:

	2024	2023
	\$	\$
Bellevue Gold Limited <sup>1</sup>	-	469
Firefly Metals Limited (formerly Auteco Minerals Limited) <sup>2</sup>	109,855	308,531
Bellavista Resources Limited <sup>3</sup>	15,245	19,073

The following transactions occurred with related parties during the financial year:

- <sup>1</sup> Mr Naylor is a Non-executive Director (formerly Executive Director) of Bellevue Gold Limited, a company which held the head lease for Right of Use Asset and on charges rent, office and other administration service costs on normal terms and conditions. The Company no longer has this arrangement with Bellevue Gold Limited. The balance outstanding as at 30 June 2024 was Nil (2023: Nil).
- <sup>2</sup> Mr Naylor is an Executive Director of FireFly Metals Limited (and Mr Raymond Shorrocks was also Chairman and Non-Executive Director of Firefly Metals Limited until 19 March 2024). FireFly Metals Ltd shares office and administration services costs on normal commercial terms and conditions, and sublicenses part of the office premises to Alicanto. The total fees charged to the Group amounted to \$158,589 (2023: \$308,531) as at 30 June 2024. The balance outstanding as at 30 June 2024 was Nil (2023: Nil).
- <sup>3</sup> Mr Naylor was a Non-Executive Director of Bellavista Resources Limited which on charges costs to Alicanto, including personnel services and other administrative costs on normal terms and conditions. The balance outstanding as at 30 June 2024 was Nil (2023: Nil).

There were no other related party transactions during the year.

## 22. Subsidiaries

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in Note 1(b):

Name of entity	Country of incorporation	Class of shares	2024 %	2023 %
Alicanto Minerals WA Pty Ltd <sup>B</sup>	Australia	Ordinary	100	100
Calrissian (Guyana) Resources Inc. <sup>B</sup>	Guyana	Ordinary	100	100
Banner (Guyana) Inc. <sup>B</sup>	Guyana	Ordinary	100	100
Zaffer Australia Pty Ltd	Australia	Ordinary	100	100
Zaffer Sweden AB	Sweden	Ordinary	100	100

A: The proportion of ownership interest is equal to the proportion of voting power held.

B: Alicanto Minerals WA Pty Ltd, Calrissian (Guyana) Resources Inc and Banner (Guyana) Inc. were dormant during the financial year. Note that the Company is in the process of winding up Calrissian (Guyana) Resources Inc. and Banner (Guyana) Inc.

**(f) Guarantees**

The parent entity has not guaranteed any loans for any entity during the year.

For the Year Ended 30 June 2024

**23. Parent Entity Information (continued)**

**(g) Contingent liabilities**

The parent entity has no contingent liabilities at the end of the financial year.

**24. Contingent Assets / Liabilities**

**Contingent Liabilities**

**Sweden**

On 3 February 2020, Alicanto announced it had exercised its option to acquire 100% of shares in Zaffer (Australia) Pty Ltd ("Zaffer") which owns the Oxberg and Naverberg VMS (Volcanogenic Massive Sulphide) Projects within the highly endowed Cu-Au-Zn-Pb-Ag Bergslagen Mining District of Southern Sweden, the transaction which was approved by shareholders on 31 July 2019.

Pursuant to the Acquisition Agreement, Zaffer has agreed to enter into a royalty deed with the Zaffer Vendors pursuant to which it will pay the Zaffer Vendors a royalty on net smelter returns in respect of sales of products extracted from the Tenements. As such a contingent liability exists as follows:

- Net smelter royalties of 2.5% will be paid to the Zaffer Vendors for extracted zinc, lead, copper, gold, cobalt, nickel and iron that is able to be recovered from the Tenements and is capable of being sold or otherwise disposed of.

There are no further contingent liabilities outstanding at the end of the year.

**25. Financial Instruments, Risk Management Objectives and Policies**

The Consolidated Entity's principal financial instruments comprise cash and cash equivalents. The main purpose of the financial instruments is to earn the maximum amount of interest at a low risk to the group. The Consolidated Entity also has other financial instruments such as trade and other receivables and trade and other payables which arise directly from its operations. For the year under review, it has been the Consolidated Entity's policy not to trade in financial instruments.

The main risks arising from the Consolidated Entity's financial instruments are interest rate risk and credit risk. The board reviews and agrees policies for managing each of these risks and they are summarised below.

**(a) Interest Rate Risk**

The Group's exposure to interest rate risk, which is the risk that a financial instrument's value will fluctuate as a result of changes in market interest rates and the effective weighted average interest rate for each class of financial assets and financial liabilities is set out in the table below.:

The maturity date for all cash, current trade and other receivable and current trade and payable financial instruments included in the above tables is one year or less from balance date. The maturity for the non-current trade and other receivables is between 1 and 3 years from balance date.

For personal use only

## For the Year Ended 30 June 2024

	<b>1.94</b>	<b>-</b>	<b>167,948</b>	<b>453,142</b>	<b>621,090</b>

## (b) Group Sensitivity analysis

The Consolidated Entity's main interest rate risk arises from cash and cash equivalents with variable and fixed interest rates. At 30 June 2024 and 30 June 2023, the Group's exposure to interest rate risk is not considered material.

## (c) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the group. The group has adopted the policy of only dealing with credit worthy counterparties and

## For the Year Ended 30 June 2024

## 25. Financial Instruments, Risk Management Objectives and Policies (continued)

## (c) Credit risk (continued)

obtaining sufficient collateral or other security where appropriate, as a means of mitigating the risk of financial loss from defaults.

The group does not have any significant credit risk exposure to any single counterparty or any company of counterparties having similar characteristics. The carrying amount of financial assets recorded in the financial statements, net of any provisions for losses, represents the company's maximum exposure to credit risk.

## (d) Liquidity risk

The group manages liquidity risk by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. Due to the dynamic nature of the underlying businesses, the group aims at ensuring flexibility in its liquidity profile by maintaining the ability to undertake capital raisings. Funds in excess of short-term operational cash requirements are generally only invested in short term bank bills.

## (e) Foreign currency risk

The Group is exposed to currency risk arising from exchange rate fluctuations on purchases that are denominated in currency other than the respective functional currencies of the Group entities, primarily the Australian Dollar (AUD) and Swedish Krona (SEK). The currencies in which these transactions are primarily denominated in are AUD, and SEK.

## Sensitivity analysis

The following table illustrates sensitivities to the Group's exposure to changes exchange rates. The table indicates the impact of how profit and equity values reported at the end of the reporting period would have been affected by changes in the relevant risk variable that management considers to be reasonably possible.

The sensitivities assume that the movement in a particular variable is independent of other variables.

Year Ended 30 June 2024	Consolidated	
	Loss \$000	Equity \$000
Increase in SEK exchange rate by 10%	333,429	333,429
Decrease in SEK exchange rate by 10%	(333,429)	(333,429)

Year Ended 30 June 2023	Consolidated	
	Loss \$000	Equity \$000
Increase in SEK exchange rate by 10%	382,250	382,250
Decrease in SEK exchange rate by 10%	(382,250)	(382,250)

The Group's exposure to foreign currency exchange risk in USD is not considered material and therefore no sensitivity analysis has been performed.

The Group's investments in its Swedish subsidiary are denominated in AUD and are not hedged as those currency positions are considered long term in nature. The Group does not have a hedging policy in place.

## For the Year Ended 30 June 2024

## 26. Loss per Share

	Consolidated	
	2024	2023
	\$	\$
<b>(a) Loss</b>		
Loss used in the calculation of basic loss per share from Continuing Operations	(5,470,225)	(7,046,235)
<b>(b) Weighted average number of ordinary shares ('WANOS')</b>		
WANOS used in the calculation of basic loss per share	606,288,861	447,609,277
<b>(c) Basic loss per share</b>		
Basic loss per share from Continuing Operations	(0.9)	(1.6)
<b>(d) Diluted Loss Per Share</b>		
Basic loss per share from Continuing Operations	(0.9)	(1.6)

*Diluted loss per share is considered to be the same as the basic loss per share, as the potential ordinary shares on issue are anti-dilutive and have not been applied in calculating dilutive loss per share.*

## Consolidated Entity Disclosure Statement

As at 30 June 2024

### Basis of preparation

This consolidated entity disclosure statement (CEDs) has been prepared in accordance with the *Corporations Act 2001* and includes information for each entity that was part of the Group as at 30 June 2024 in accordance with AASB 10 *Consolidated Financial Statements*.

### Determination of Tax Residency

Section 295 (3A)(vi) of the *Corporations Act 2001* defines tax residency as having the meaning in the *Income Tax Assessment Act 1997*. The determination of tax residency involves judgement as there are different interpretations that could be adopted, and which could give rise to a different conclusion on residency.

In determining tax residency, Alicanto has applied the following interpretations:

- Australian tax residency: Alicanto has applied current legislation and judicial precedent, including having regard to the Tax Commissioner's public guidance in Tax Ruling TR 2018/5; and
- Foreign tax residency: Where necessary, Alicanto has used independent tax advisers in foreign jurisdictions to assist in its determination of tax residency to ensure applicable tax legislation has been complied with (see section 295 (3A)(vii) of the *Corporations Act 2001*).

Name of Entity	Type of entity	% of share capital	Place of incorporation	Australian resident or foreign resident	Foreign jurisdiction of foreign resident

For personal use only

In the directors' opinion:

- the attached consolidated financial statements and notes comply with the *Corporations Act 2001* (Cth), the Accounting Standards, the *Corporations Regulations 2001* (Cth) and other mandatory professional reporting requirements;
- the attached consolidated financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in note 1 to the financial statements;
- the attached consolidated financial statements and notes give a true and fair of the Group's financial position as at 30 June 2024 and of its performance for the financial year ended on that date;
- there are reasonable grounds to believe that the Company and Group will be able to pay its debts as and when they become due and payable; and
- the information disclosed in the consolidated entity disclosure statement is true and correct.

The directors have been given the declarations required by section 295A of the *Corporations Act 2001* (Cth).

Signed in accordance with a resolution of directors made pursuant to section 295(5) of the *Corporations Act 2001* (Cth).

**INDEPENDENT AUDITOR'S REPORT  
TO THE MEMBERS OF  
ALICANTO MINERALS LIMITED****Report on the Audit of the Financial Report****Opinion**

We have audited the financial report of Alicanto Minerals Limited ("the Company"), and its subsidiaries ("the Group"), which comprises the consolidated statement of financial position as at 30 June 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information, the consolidated entity disclosure statement, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the Group's financial position as at 30 June 2024 and of its financial performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

**Basis for Opinion**

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110: *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Material Uncertainty Relating to Going Concern**

We draw attention to Note 1 in the financial report, which indicates that the Group incurred a loss before tax of \$5,470,225. At 30 June 2024, the Group had total current assets of \$1,038,091, including cash and cash equivalents of \$803,773 and total current liabilities of \$313,208. As stated in Note 1, the events or conditions, along with other matters, as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matter described below to be Key Audit Matter to be communicated in our report.

**Key Audit Matters**
**How the matters were addressed in the audit**
**Share Based Payments**

(Refer to Note 16 to the financial report)

As disclosed in Note 16 to the financial statements, the Group granted 33,250,000 performance rights to directors, management, and consultants during the year. In addition, some performance rights granted in prior years were forfeited.

The performance rights issued are subject to achievement of various vesting conditions including service conditions. During the financial year ended 30 June 2024, the Group has recognised a share-based payment expense of \$570,725, of which \$358,873 is included in the share-based payment expense and \$211,852 recognised in consultancy expense.

Share based payments are considered to be a key audit matter due to:

- the value of the transactions;
- the complexities involved in the recognition and measurement of these instruments under AASB 2 *Share-based Payment*; and
- judgement involved in determining the assumptions and inputs used in the valuations.

Inter alia, our audit procedures included the following:

- i. Reviewing the relevant agreements to obtain an understanding of the contractual nature and terms and conditions of the share-based payment arrangements;
- ii. Reviewing management's determination of the fair value of the share-based payments granted, considering the appropriateness of the valuation models used in assessing the valuation inputs focusing on the Group's interpretation of grant date, vesting dates and vesting conditions;
- iii. Challenging management's assumptions in relation to the likelihood of achieving the performance conditions;
- iv. Assessing the allocation of the share-based payment expense over the relevant vesting period; and
- v. Assessing the appropriateness of the disclosures in Note 16 to the financial statements.

**Other Information**

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2024 but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance opinion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of the Directors for the Financial Report**

The directors of the Group are responsible for the preparation of:

- a. the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* (other than the consolidated entity disclosure statements); and
- b. the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and for such internal control as the directors determine is necessary to enable the preparation of:
  - i. the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
  - ii. the consolidated entity disclosure statement that is true and correct and is free from misstatement whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

***Auditor's Responsibilities for the Audit of the Financial Report***

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report.

The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

We evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in Internal control that we identify during our audit.

The Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements. We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

***Report on the Remuneration Report******Opinion on the Remuneration Report***

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2024.

In our opinion, the Remuneration Report of Alicanto Minerals Limited for the year ended 30 June 2024 complies with section 300A of the *Corporations Act 2001*.

*Responsibilities*

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
