ASX ANNOUNCEMENT

31 July 2025

Q4 ACTIVITIES – FY 2025

Cassius Mining Limited (“Cassius” or the “Company”) (ASX Code: CMD) is pleased to provide shareholders with the Company’s Activities Report for the quarter ending 30 June 2025.

SOALARA LIMESTONE PROJECT, MADAGASCAR – 100% owned

Soalara holds a JORC 2012 Mineral Resource Estimate (MRE) of 340 to 440 Mt of 97% purity Limestone, open to the north, south and at 100m depth. Cassius is targeting commercial development of the Soalara project to generate future revenue from the asset. An experienced 3rd party based in Madagascar has been commissioned to identify interested mining and offtake partners to develop the project, potentially through a JV agreement.

Discussions continue to progress with three international groups, operating inside and outside Madagascar, currently involved in project due diligence. All groups are particularly interested in the high quality of the Soalara Limestone, with each being involved in cement manufacture and infrastructure development.

About the SOALARA LIMESTONE PROJECT

Soalara’s resource is a near horizontal sequence of Limestones. The very shallow nature of the asset, from or within a few metres of surface, allows a very low stripping ratio which is highly suitable to open pit mining.

Fig 1 - Example Surface Miner – Limestone row cutting

The Soalara Project’s absolute coastal location within ~28 kms of the Toliara sea port supports cost effective logistics options for a future mining operation to ship to other domestic or international sea ports, or transfer via national road network to other domestic locations. The Project currently holds the following JORC 2012 MRE:

- 95-130 Mt of “Very High” 98.6% Limestone purity at 97.5% cut-off, dependent on a bulk or selective mining application, with 25-40 Mt (Indicated) and 70-90 Mt (Inferred) or,
- 340-440 Mt of “High” 97% Limestone purity at 95.7-95.3% cut-off, dependent on a bulk or selective mining application, with 100-130 Mt (Indicated) and 240-310 Mt (Inferred)

For personal use only

VISION 2030 PROJECT - SAUDI ARABIA

The Company holds a Joint Venture with Segia Gulf Group in Saudi Arabia (**Segia**) to participate in the country's **VISION 2030** of unlocking the Kingdom's vast mineral resources by fact-tracking exploration in critical minerals.

Key Objectives for the Exploration and Mining Industry in the "SAUDI VISION 2030"

- Grow and diversify the economy to become a global investment powerhouse
- Create an environment attractive to both local and international investors
- Apply international legal and commercial regulations conducive to long term business investments
- Explore for and develop valuable minerals known to be present in the Kingdom
- Streamline the mineral licensing process for exploration and mining
- Attract the participation of exploration companies via substantial financial incentives

Currently Round 9 has been active since January 2025 with the release of 3 large belt scale exploration license areas under tender with the Ministry of Industry and Mineral Resources (MIMR). This round is expected to close at the end of August 2025, after which we expect the subsequent round of licenses to be released in Q4 CY25. The Company continues its policy to review selected licenses where practical, in particular in gold exploration.

INTERNATIONAL ARBITRATION, GHANA

On 3 February 2023 Cassius Mining Ltd's (ASX:CMD) wholly owned Ghanaian subsidiary (Cassius Mining Ltd, "**Cassius**" or "**the Company**") commenced international arbitration against the Government of the Republic of Ghana ("**Ghana**") seeking damages in excess of USD 275 million as a consequence of Ghana's breaches of contract and statute. The Company continues to progress the case in international arbitration as follows:

- **23 December 2024** – Cassius filed its full Memorial outlining its Claim against Ghana, including witness statements and independent expert reports, specifying damages of **~USD 277m (~AUD 443m¹)** as determined by the independent experts.
- **17 January 2025** – the Tribunal found that the Cassius challenge to remove Prof. Opong was justified and admissible, finding that the overall circumstances gave rise to reasonable cause to doubt the arbitrator's independence or impartiality. At the Tribunal's invitation, Prof. Opong decided to voluntarily step aside.
- **19 February 2025** – the parties agreed that the venue for the final hearing of the arbitration proceedings will be at the Peace Palace in The Hague in the Netherlands. The hearing is set down for **15-19 June 2026**.
- **21 February 2025** – Ghana appointed a replacement arbitrator.
- **2 June 2025** – the Tribunal was formally reconstituted.

Next Steps

- In anticipation of Ghana's Defense Memorial being received, Cassius remains in negotiations to finalise third party funding arrangements, with the target to secure more attractive terms as funding requirements continue to reduce while the arbitration progresses. This would reduce any future funding

¹ Based on ~0.625 USD:AUD f/ex rate @ 23 December 2024

costs to be paid by Cassius to a third party funder, to the significant benefit of all shareholders, in the event of an award or settlement successfully won by the Company.

CHENENE LITHIUM PROJECT, TANZANIA – 100% owned

The Company holds 4 contiguous exploration licenses covering ~300 kms² area within ~40 kms of the capital city of Dodoma, with easy access via the nearby main road north from Dodoma.

Pegmatites are hosted in the metamorphosed rocks in the ~35km long “Hombolo-Dulu” belt. The primary target at Dulu in PL 11921 hosts Lithium-bearing pegmatites², along with significant associated Caesium and Tantalum.

Cassius continues to follow its plan to sell the Project, having also engaged the services of an external agent to assist in this process.

CORPORATE

During the quarter Cassius advanced its target of developing the Soalara project in Madagascar towards future revenue generation through the ongoing engagement of an external party in discussions with 3 groups of interested partners. Cassius is also seeking to sell its non-core Chenene project in Tanzania, through the services of external parties with discussions continuing. The Company continued to progress the international arbitration against the Government of the Republic of Ghana. The Company continued its participation in the Saudi Vision 2030.

The company continued its on-going date compilation, report compilation and project generation work during the quarter. Exploration expenditure for the quarter mainly related to \$114k on Tribunal costs, data compilation and report writing on the various tenements \$65k, project generation \$30k and legal fees \$168K (partly incurred in the previous quarter and paid in the current quarter).

On 16 April 2025 the company raised approximately \$532,000 (before expenses) via a placement of 35,461,123 ordinary shares at \$0.015.

The loan of \$200,000 from a director was repaid together with interest during the quarter (refer to Item 6.1 in Appendix 5B).

Since the end of the quarter the Company held a general meeting where all resolutions put to shareholders were approved. The resolutions approved included the following:

- The Directors have been issued with 13,380,000 ordinary shares at \$0.015 in lieu of the payment of directors fees and superannuation. These shares were issued on 22 July 2025.
- \$50,000 is to be raised from the issue of 3,333,333 ordinary shares at \$0.015 to directors. These shares are expected to be issued in early August 2025.
- \$200,000 of convertible notes are to be issued to Mr D Chidlow (a Director). These convertible notes are expected to be issued in early August 2025.

This announcement is authorised for release to the ASX by the Board.

² ASX “Chene Lithium Project – Rock Sample Assays to 1.08% Li₂O” – 16 February 2023

11921	Cassius Mining (T) Limited	100	Prospecting (Exploration)	12 May 2026	13 May 22	115.40	Lithium

License Permits are held by wholly owned subsidiary “Soalara Calcaire SARLU” in Madagascar and “Cassius Mining (T) Ltd” in Tanzania

Competent Person Statement - Soalara

The information in this statement that relates to Exploration Targets and Exploration Results is based on information compiled by Mr Jannie Leeuwner – BSc (Hons) Pr.Sci.Nat. MGSSA and is a full-time employee of Vato Consulting LLC. Mr. Leeuwner is a registered Professional Natural Scientist (Pr.Sci.Nat. - 400155/13) with the South African Council for Natural Scientific Professions (SACNASP). Mr. Leeuwner has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and the activity being undertaken to qualify as a Competent Person as defined in the Note for Mining Oil & Gas Companies, June 2009, of the London Stock Exchange and the 2012 Edition of the ‘Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves’ (JORC Code). Mr. Leeuwner consents to the inclusion of the information in this release in the form and context in which it appears.

Previously Released Information

Cassius confirms it is not aware of any new information or data that materially affects the information included in the original market announcements, and, in the case of the Soalara JORC Resource, that all material assumptions and technical parameters underpinning the JORC Resource in the relevant market announcements continue to apply and have not materially changed. Cassius confirms that the form and context in which the Competent Person’s findings presented have not been materially modified from the original market announcements.

5.5	Cash and cash equivalents at end of quarter (should equal item 4.6 above)	394	490

6.	Payments to related parties of the entity and their associates	Current quarter \$A'000
6.1	Aggregate amount of payments to related parties and their associates included in item 1 * interest on loan from a Director	7*
6.2	Aggregate amount of payments to related parties and their associates included in item 2	-

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

7. Financing facilities	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
<i>Note: the term "facility" includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</i>		
7.1 Loan facilities	-	-
7.2 Credit standby arrangements	-	-
7.3 Other (please specify)	-	-
7.4 Total financing facilities	-	-
7.5 Unused financing facilities available at quarter end		-
7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(428)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	-
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(428)
8.4 Cash and cash equivalents at quarter end (item 4.6)	394
8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	394
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	0.92
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: Yes	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: During July 2025 the company received shareholder approval for the issue of 3,333,333 shares at \$0.015 each to directors. The proceeds of \$50,000 will be received by the company early August 2025. Also the company received shareholder approval for the issue of \$200,000 of convertible notes with funds to be received in August 2025.	
The company always monitors its cash position and it expects funding will be forthcoming via either equity or borrowings should it be required.	

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
