QUARTERLY REPORT

For the
period ending
30 June 2025

JUNE QUARTER HIGHLIGHTS

- License renewals pending
- Progress on Maiden Mineral Resource Estimate (MRE)
- Mali update
- As at 30 June 2025, Cash Balance of \$0.4m with further funds due to be deposited on 31 July 2025, of a further \$0.4m

First Lithium Limited (“FL1”, or “the Company”) is pleased to provide an update on its activities for the June 2025 quarter.

First Lithium Managing Director, Venkatesh Padala said:

“The Mali Government and the Company continue to work closely in finalising the Mali license renewals and believe these are very close to being issued. Further, recent discussions with the reporting consultants and competent person on the pending MRE for the Project (*Figure 1*), have indicated the maiden MRE will be finalised with results expected for release in this quarter. Both of these milestones will be greatly welcomed by the Company.”

PERMIT RENEWAL APPLICATIONS PENDING

Discussions with the Government of the Republic of Mali have indicated licence processing has commenced and renewals are expected to be processed shortly for both Gouna and Faraba permits, with all obligations met by the Company and submissions lodged within the timeframes provided.

Earlier this year, the Government announced plans to partially lift the suspension of mining permits effective 15 March 2025¹. The suspension had been in place across the country since September 2022, and the lifting again allows the submission of applications for exploration permits and renewals. FL1 had received a letter from the National Director of Geology and Mines in Mali confirming geophysical survey work can continue on both Faraba and Blakala permits in the interim, with direct meetings with the Government of Mali confirming the requirements for the licence renewal process.

MAIDEN MINERAL RESOURCE ESTIMATE (MRE)

Ongoing discussions with the reporting consultants and the competent person indicate the maiden MRE is expected to be finalised and issued to the Company in the September Quarter.

TENURE STATUS

The following is a summary of the Exploration Permits and their associated Mining Convention (held in FL1's 100% owned subsidiary):

Exploration Permit	Exploration License	Holder	EL Validity		Status
Faraba	PR 1375/18	Intermin Lithium SARL	16/4/2018	16/4/2024	Pending Renewal
Gouna	PR 1382/18	Intermin Lithium SARL	15/5/2018	15/5/2024	Pending Renewal

MALI OVERVIEW

The partial lifting of the suspension of mining permits by the Government of the Republic of Mali occurred in March 2025¹. Processing of renewals is underway and the Government is working through the backlog caused by the suspensions that have been in place since September 2022. Indications suggest Mali is set to secure the position of Africa's second-biggest lithium producer in 2025, with output anticipated to represent 14% of the regional total according to Benchmark's lithium forecast².

FUNDING FACILITY

The Company confirms the third tranche of the existing funding facility¹ is due to be received by the end of July with the sophisticated and professional investors involved confirming funds are being processed.

Any Loan Shares and Loan Options issued on conversion of the Loan will be issued subject to the Company obtaining any required Shareholder approvals under the Corporations Act and ASX Listing Rules (including ASX Listing Rules 7.1 or 10.11, where applicable). The Company will hold a General Meeting for this purpose. The Company will seek Shareholder approval under ASX Listing Rules 7.1 for the issue of the Broker Options.

CORPORATE

First Lithium had a cash balance of \$0.4m at 30 June 2025. Exploration and evaluation expenditure incurred for the year to date was \$826k.

Related Party Transactions

Payments to related parties of the entities and their associates (refer section 6 of Appendix 5B):

- Included at section 6.1 – Comprises: Remuneration of Directors - \$107k
- Included at section 6.2 – Comprises: Remuneration of directors - Nil

Listing Rule 5.3.1 and 5.3.2

In accordance with ASX Listing Rule 5.3.1, the Company confirms that there have been no material developments or changes to its exploration activities, and provide the following information:

- Approximately \$111k was incurred by the Company in respect of exploration activity for the quarter ended 30 June 2025, primarily on:
 - MRE estimation, geological mapping and reconnaissance field work
- A summary of the specific exploration activities undertaken in the two permits held is included in this activity report.

In accordance with ASX Listing Rule 5.3.2, the Company advises that no Mining Development or Production activities were conducted during the quarter.

Listing Rule 5.3.4

The Company provides the following disclosures required by ASX regarding a comparison of actual expenditure to date since re-listing on 28 September 2023 against use of funds statement in the Prospectus dated 30 June 2023.

Expenditure	Funds Allocated under Prospectus	Actual to 30 June 2025	Variance	Note
	\$	\$	\$	
Exploration – Mali Lithium Project	4,732,782	5,656,442	923,660	1
Expenses of the Offers	560,000	248,862	(311,138)	2
Corporate and administration costs	650,000	1,995,014	1,345,014	3
Working capital	552,396	-	(552,396)	4
Capital raising	-	(2,961,964)	(2,961,964)	5
Capital raising costs	-	200,271	200,271	5
Total	6,495,178	5,138,625	(1,356,553)	

The Use of Funds table is a statement of current intentions, investors should note that the allocation of funds set out in the table may change depending on a number of factors including the results of exploration, outcome of development activities, regulatory developments and market and general economic conditions.

1. Exploration at the Mali Lithium Project is currently over the use of funds budget by \$924k. The variance is due an additional capital raising conducted during the period since re-listing on 28 September 2023.
2. Expenses of the offer is currently under the use of funds budget by \$311k. The variance was due to costs of the offer being over estimated and some budgeted costs being paid from existing cash reserves.
3. Corporate and administration costs include business running costs, director's fees and related party payments, ASX compliance costs and corporate expenses. Additional funds have been allocated to be spent for administration purposes due to an additional capital raising conducted during the 24-month period since re-listing on 28 September 2023.
4. Working capital is currently under the use of funds budget by \$552k. This is set aside as a reserve of funding for effective capital management.
5. In the June 2024 quarter, the Company completed a capital raising of \$2.16m (before costs) to advance exploration activities and provide working capital.
In the March 2025 quarter, the Company announced a debt capital raising of up to \$1.2m (before costs). \$775k had been received under the loan agreements by the end of the reporting quarter.

Competent Persons Statement

Except where indicated, exploration results above have been reviewed and compiled by Mr Kobus Badenhorst, a Competent Person who is a Member of SACNASP and the South African Geological Society (GSSA), with over 26 years of experience in metallic and energy mineral exploration and development, and as such has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Badenhorst is the Managing Director of GeoActiv Dynamic Geological Services and consents to the inclusion of this technical information in the format and context in which it appears. Some parts of the reporting were prepared by Mr Robert Barnett, the designated Competent Person for mineral resource declaration being conducted by Pivot Mining Consultants (Pty) Ltd of South Africa.

Cautionary Statement – Visual Estimates

This announcement contains references to visual results and visual estimates of mineralisation. FL1 advises there is uncertainty in reporting visual results. Visual estimates of mineral findings should not be considered a substitute for laboratory analysis where concentrations or grades are provided with scientific accuracy. Visual estimates also potentially provide no information regarding impurities or other factors relevant to mineral result valuations. The presence of pegmatite rock does not necessarily indicate the presence of Lithium mineralisation. Laboratory chemical assays are required to determine the grade of mineralisation.

Forward-Looking Statements

This announcement contains forward-looking statements which are identified by words such as ‘may’, ‘could’, ‘believes’, ‘estimates’, ‘targets’, ‘expects’, or ‘intends’ and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this announcement, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the Directors and the Company’s management.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this announcement will actually occur, and investors are cautioned not to place undue reliance on these forward-looking statements.

The Company has no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this announcement, except where required by law.

These forward-looking statements are subject to various risk factors that could cause the Company’s actual results to differ materially from the results expressed or anticipated in these statements.

8.8 If Item 8.7 is less than 2 quarters, please provide answers to the following questions:

1. Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: Additional costs were incurred during the quarter, including security deposits paid as part of the renewal of the Gouna tenements. As such, the relevant outgoings are expected to be lower in the coming quarters.

2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: The Company is expecting receipt of the final drawdown of the Loan Agreement in the coming days and those funds are anticipated to aid the Company until the renewal of the licences are formalised. Additional funding will be required post formal licence renewal to fund the next stage of large-scale exploration and infill drilling.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes for the reasons specified in 8.8.1 & 8.8.2 above.
