## Chairman's Letter

---

Dear Fellow Shareholders,

FY25 has been a transformational year for Felix.

With China placing export controls on antimony 12 months ago and the rise of the antimony price to around US\$60,000/tonne, management focus has been on Felix's near-term antimony production potential. The principal uses for this critical mineral are in fire retardant materials, armaments, night vision glasses, and many vital electronics applications.

The global supply remains constrained, with ~95% of mine supply deriving from China, Russia and Tajikistan while the USA has no current domestic mine supply.

China, which until recently provided ~85% of global mine supply, placed export controls on its antimony in September 2024 and a total ban on exports to the USA in December 2024.

This strategic opportunity is reflected in our performance. During FY25, Felix's share price rose from 4.4c at 30 June 2024 (market cap \$18.7m) to 13.0c at 30 June 2025 (market cap \$55.3m). Since the financial year-end, our share price has risen dramatically higher to 62.0c at the time of writing (25 September 2025) for a market capitalisation of \$263.5m.

During the year, Felix focused on commercialising its extraordinary antimony provenance in Alaska. This work has included geological analysis and drilling, metallurgical testing, hydrology studies, engineering, mine and plant design, environmental impact studies and permitting. With Felix's exceptionally high-grade and near surface ore body at Treasure Creek, we are working to be in small scale, but highly valuable, production in the next few months.

Simultaneously Felix continues to liaise closely with the US Department of Defense (being renamed Department of War) in Washington DC.

It is also important to note our significant strategic asset in the Company's 831,000-ounce JORC-compliant inferred gold resource. This substantial gold holding represents a considerable store of value, and the board is actively assessing strategies to best realise this value for our shareholders.

Joe Webb, our Executive Director, continues to work energetically and tirelessly. I thank him on behalf of the board and all shareholders for his significant achievements in FY25 and continuously in the months since. Our sincere thanks also go to the company building management team in Alaska and Brisbane.

We look forward to commissioning the first modern US producing antimony mine in the coming months.

Ronnie Beevor

## Review of Operations

---

During the year ended 30 June 2025, Felix Gold Limited focused on the advancement of the Company's projects in Alaska. The Company provides a summary of its operational and corporate activities for year ended 30 June 2025 as follows.

### PROJECTS

#### Strategy & Operations

- Pivoted decisively to near-term antimony production at Treasure Creek (Scrafford/NW Array).
- Established Felix Gold as a leading U.S.-based antimony development opportunity, strategically positioned to deliver into critical mineral supply chains.
- Maintained strong operational momentum with trenching, sampling, and drilling programs advancing across NW Array and the Scrafford Shear.

#### Exploration & Technical Results

- High-grade trenching results confirmed, including standout intersections of 3m @ 50.26% Sb and 5.29 g/t Au (true width) within broader mineralised zones.
- Additional trench assays recorded bonanza stibnite values up to 65% Sb, reinforcing the exceptional tenor of mineralisation.
- Re-assay of historical drill holes validated continuity of high-grade antimony zones, strengthening confidence in near-term resource potential.
- Metallurgical testwork confirmed a simple gravity + flotation flowsheet can produce high-grade antimony concentrate, with excellent recoveries and grades exceeding military specifications.

#### Studies, Permitting & Engagement

- Advanced economic and scoping work focused on a low-capex, staged development strategy, allowing early production with a path to expansion.
- Initiated permitting processes and baseline environmental studies, maintaining alignment with state and federal requirements.
- Ongoing engagement with U.S. government stakeholders and regulators to position Treasure Creek as a strategic domestic antimony supply source.

#### Capital Markets & Corporate

- Successfully completed a \$17.0m two-tranche placement in May 2025 at \$0.155 per share, anchored by leading offshore and Australian institutional investors, with Petra Capital acting as sole lead manager.
- Finalised Tranche 2 top-up in June 2025, issuing 27.64 million shares for \$4.283m following shareholder approval.
- Continued prudent balance sheet management to fund exploration, permitting, and studies at Treasure Creek.

#### Reporting & Governance

- Delivered quarterly updates throughout the year, highlighting progress toward near-term production and key technical milestones.
- Released the Half-Year Financial Report in March 2025, confirming ongoing investment in project advancement while maintaining a clear focus on value creation.
- All AGM resolutions carried, supporting the company's strategic pivot to critical minerals and shareholder value growth.

Disclaimer: References to production timing, development pathways, or potential concentrate specifications are conceptual in nature and subject to the completion of detailed technical studies, feasibility work, permitting processes, financing, and Board approvals.

### Environmental Issues

The Group is subject to significant environmental regulations under the (Federal, State and local) laws in Alaska. The directors monitor the Group's compliance with environmental obligations. The directors are not aware of any compliance breach arising during the year and up to the date of this report.

### Remuneration Report (Audited)

This report details the nature and amount of remuneration for each director and other key management personnel.

The names of key management personnel of Felix Gold Limited who have held office during the financial year are:

Ronnie Beevor	Non-Executive Chairman
Joseph Webb	Executive Director
Andrew Browne	Non-Executive Director
Mark Strizek	Non-Executive Director

The Group's remuneration policy seeks to align director and executive objectives with those of shareholders and the business, while at the same time, recognising the early exploration stage of the Group and the criticality of funds being utilised to achieve discovery objectives. The board believes the current policy has been appropriate and effective in achieving a balance of these objectives.

The Group's remuneration policy provides for long-term incentives to be offered through a director and employee equity incentive plan. Options and Performance Rights may be granted under this plan to align directors', executives', employees' and shareholders' interests.

The board of directors is responsible for determining and reviewing the Group's remuneration policy, remuneration levels and performance of both executive and non-executive directors. Independent external advice will be sought when required. No independent external advice was sought during the current year.

### Remuneration Report (Audited) (Continued)

#### **Performance-Based Remuneration**

Performance-based remuneration includes both short-term and long-term incentives and is designed to reward key management personnel for reaching or exceeding specific objectives or as recognition for strong individual performance. Short-term incentives are available to eligible staff of the Group and may be comprised of cash bonuses, determined on a discretionary basis by the board. No short-term incentives were made available during the year.

Long-term incentives are currently comprised of share options and performance rights, which are granted from time-to-time to encourage sustained strong performance in the realisation of strategic outcomes and growth in shareholder value.

The exercise price of the options is determined after taking into account the underlying share price performance in the period leading up to the date of grant and if applicable, performance conditions attached to the share options. Subject to specific vesting conditions, each option is convertible into one ordinary share.

The Group's policy for determining the nature and amount of remuneration of board members and key executives is set out below.

#### **Directors**

Board policy is to remunerate non-executive directors at market rates for comparable companies for time, commitment and responsibilities. The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders at the Annual General Meeting and is not linked to the performance of the Group. The maximum aggregate amount of fees that can be paid to non-executive directors approved by shareholders is currently \$300,000. The appointment conditions of the non-executive directors are set out and agreed in letters of appointment.

#### **Executives**

The remuneration structure for executives is based on a number of factors, including length of service, particular experience of the individual concerned, and overall performance of the Group.

The executives receive payments provided for under an employment or service agreement, which may include cash, superannuation, short-term incentives and equity-based performance remuneration.

The Company has entered into an agreement with Joseph Webb as Executive Director on the following material terms.

- Position: Executive Director.
- Commencement Date: 6 October 2023.
- Notice period: Either party may terminate the agreement with 3 months' notice. Executive Director is entitled to six (6) months termination payment in the event of a change of control.
- Remuneration:
  - 1 July 2024 to 30 April 2025: \$100,000 pa, with 70% to be paid in cash and 30% of remuneration to be deferred and paid in company shares.
  - From 1 May 2025: \$330,000 pa (plus statutory superannuation), with 70% to be paid in cash and 30% of remuneration to be deferred and paid in company shares.

## Directors' Report

### Remuneration Report (Audited) (Continued)

#### Company Performance, Shareholder Wealth, and Director and Executive Remuneration

During the financial year, the Company generated losses as its principal activity was mineral exploration. As the Company is still in the exploration stage, the link between remuneration, company performance and shareholder wealth is tenuous. Share prices are subject to the influence of commodity prices and market sentiment towards the sector, and as such, increases and decreases might occur independent of executive performance and remuneration.

### Corporate Governance

In recognising the need for the highest standards of corporate behaviour and accountability, the directors of Felix Gold Limited support and, where practicable or appropriate, have adhered to the ASX Principles of Corporate Governance. The Company's Corporate Governance Statement is lodged separately on the ASX and can be found on the Company's website ([www.felixgold.com.au](http://www.felixgold.com.au)).

## Directors' Report

### Directors' Meetings

The meetings (held while a director) attended by each director during the financial year were:

Directors	Board	
	Meetings	Attended
R Beevor	14	14
J Webb	14	14
A Browne	14	14
M Strizek	14	11

It is noted that the Directors were able to attend to business of the Company during the year by circulated resolution and telephone meetings as permitted by the Company's Constitution in place of conducting physical meetings.

### Indemnifying Directors and Auditors

The Company has entered into a Deed with each of the Directors (and the Company Secretary) whereby the Company has agreed to provide certain indemnities to each Director (and the Company Secretary) to the extent permitted by the Corporations Act and to use its best endeavours to obtain and maintain directors' and officers' indemnity insurance, subject to such insurance being available at reasonable commercial terms.

The Company has paid premiums to insure each of the directors (and the Company Secretary) of the Company against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of director (or Company Secretary) of the Company, other than conduct involving a wilful breach of duty in relation to the Company. The contracts include a prohibition on disclosure of the premium paid and nature of the liabilities covered under the policy.

The Company has not given an indemnity or entered into an agreement to indemnify, or paid or agreed to pay insurance premiums in respect of any person who is or has been an auditor of the Company or a related entity during the year and up to the date of this report.

### Proceedings on Behalf of the Company

No person has applied for leave of Court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings. The Company was not a party to any such proceedings during the year.

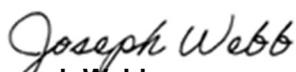

### Non-Audit Services

During the financial year, PKF Brisbane provided accounting and taxation services in relation to the Company of \$6,050 (2024: \$5,500 related to accounting and taxation services).

### Auditor's Independence Declaration

The lead auditor's independence declaration under section 307C of the Corporations Act 2001 is attached to and forms part of this financial report.

Signed in accordance with a resolution of the board of directors.

**Joseph Webb**  
**Executive Director**  
 30 September 2025  
 Brisbane, Queensland

**AUDITOR'S INDEPENDENCE DECLARATION  
UNDER SECTION 307C OF THE CORPORATIONS ACT 2001  
TO THE DIRECTORS OF FELIX GOLD LIMITED**

I declare that, to the best of my knowledge and belief, during the year ended 30 June 2025, there have been no contraventions of:

- (a) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (b) any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Felix Gold Limited and the entities it controlled during the year.

## Annual Mineral Resources Statement

### Grant Gold Project

A 364,000-ounce Mineral Resource has been defined at the Grant Gold project. After an extensive due diligence, a maiden Mineral Resource Estimate (JORC, 2012) for the historical Grant Mine was completed in June 2021. A table outlining the Mineral Resource Estimate is contained below.

\*The preceding statements of Mineral Resources conforms to the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code) 2012 Edition. Due to rounding to appropriate significant figures, minor discrepancies may occur, all tonnages reported are dry metric. Mineral Resource estimates are not precise calculations, and the reported estimate is dependent on the interpretation of limited data pertaining to the location, shape, continuity of the mineralisation and the quality and quantity of the samples of the mineralisation. Mineral Resources that are not Ore Reserves do not have demonstrated economic viability. No processing recovery factors, or other modifying factors have been applied to these resource figures. The estimate of Mineral Resources may be materially affected by environmental, permitting, legal, title, taxation, sociopolitical, marketing, or other relevant modifying factors.

The defined resource is contiguous, and by virtue of its grade and geometry, should be considered as a Mineral Resource. As such, the CP (Mr Ian Taylor of Mining Associates) considers that the reported Mineral Resource has reasonable prospects for eventual economic extraction by open pit mining methods, and Mineral Resources below the pit depth are considered at a higher cut off to reflect the higher cost of underground mining methods.

### NW Array Resource Statement

A 467,000 ounce Mineral Resource has been defined at the NW Array project. After an extensive due diligence, a maiden Mineral Resource Estimate (JORC, 2012) for the NW Array Project was completed in June 2021. A table outlining the Mineral Resource Estimate is contained below.

Classification	Tonnes (Mt)	Grade (g/t Au)	Contained Au (Oz)
Inferred	25	0.58	467,000

Table 1: Statement of Inferred Mineral Resources for NW Array as at 17 June 2024 reported at 0.25 g/t Au cut off within US\$2,000 pit shells

NOTE: The Inferred Mineral Resources have been compiled by Mr. Mark Strizek who is a non-executive director and consultant to Felix Gold. Mr. Strizek is a Member of the Australian Institute of Mining and Metallurgy. Mr. Strizek has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity that he has undertaken to qualify as a Competent Person as defined in the JORC Code. 1. All Inferred Mineral Resources figures reported in the table above represent estimates at 17 June 2024. Inferred Mineral Resource estimates are not precise calculations, being dependent on the interpretation of limited information on the location, shape and continuity of the occurrence and on the available sampling results. The totals contained in the above table have been rounded to reflect the relative uncertainty of the estimate. Rounding may cause some computational discrepancies. 2. Mineral Resources are reported in accordance with the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (The Joint Ore Reserves Committee Code – JORC 2012 Edition).

## Notes to the Consolidated Financial Statements For the Year Ended 30 June 2025

---

### NOTE 1: MATERIAL ACCOUNTING POLICY INFORMATION

The financial statements are general purpose financial statements that have been prepared in accordance with the Corporations Act 2001, Australian Accounting Standards, and other authoritative pronouncements of the Australian Accounting Standards Board. Felix Gold Limited is a for-profit entity for the purpose of preparing the financial statements. The financial statements are presented in Australian dollars.

Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards.

The financial statements are for the consolidated entity, consisting of Felix Gold Limited and its Controlled Entities (the Group). Felix Gold Limited is a listed public company, incorporated and domiciled in Australia. The financial report was authorised for issue on 30 September 2025 by the directors of the Company.

Financial information required for Felix Gold Limited as an individual entity is included in Note 21.

Material accounting policies adopted in the preparation of these financial statements are presented below. They have been consistently applied unless otherwise stated.

#### Basis of Preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit orientated entities. These financial statements and notes also comply with the International Financial Reporting Standards and Interpretations as issued by the International Accounting Standards Board ('IASB').

#### Historical Cost Convention

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of financial assets and liabilities at fair value through profit or loss.

#### Going Concern

The financial statements have been prepared on a going concern basis which contemplates the continuity of normal business activities and the realisation of assets and discharge of liabilities in the ordinary course of business.

For the year ended 30 June 2025 the Group generated a consolidated loss of \$2,686,930 and incurred net cash outflows from operating and investing activities of \$5,969,140. As at 30 June 2025 the Group had cash and cash equivalents of \$16,430,259 and net assets of \$38,925,510.

In the short to medium term, the Group has the ability to seek to raise funds from shareholders or other investors and proposes to raise such funds as and when required. If such funding is not achieved, the Group plans to reduce expenditure significantly, which may result in an impairment loss on the book value of exploration and evaluation expenditure recorded at reporting date.

In the longer term, the development of economically recoverable mineral deposits found on the Group's existing or future exploration properties depends on the ability of the Group to obtain financing through equity financing, debt financing or other means. If the Group's exploration programs are ultimately successful, additional funds will be required to develop the Group properties and to place them into commercial production. The ability of the Group to arrange such funding in the future will depend in part upon the prevailing capital market conditions as well as the business performance of the Group.

### NOTE 1: MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision makers. The chief operating decision makers, who are responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors'.

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

The Group is managed primarily on the basis of geographical locations as these locations have notably different risk profiles and performance assessment criteria. Operating segments are therefore determined on the same basis. Reportable segments disclosed are based on aggregating operating segments where the segments are considered to have similar economic characteristics and are similar with respect to any external regulatory requirements. Management currently identifies the Group as having only one reportable segment, being the exploration of mineral projects in Alaska.

#### Exploration and Evaluation Assets

Exploration and evaluation expenditure incurred is accumulated in respect of each identifiable area of interest. Such expenditures comprise net direct costs and an appropriate portion of related overhead expenditure but do not include overheads or administration expenditure not having a specific nexus with a particular area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage which permits reasonable assessment of the existence of economically recoverable reserves and active or significant operations in relation to the area are continuing.

A regular review will be undertaken on each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest. A provision is raised against exploration and evaluation assets where the directors are of the opinion that the carried forward net cost may not be recoverable or the right of tenure in the area lapses. The increase in the provision is charged against the results for the year. Accumulated costs in relation to an abandoned area are written off in full against profit or loss in the year in which the decision to abandon the area is made.

#### Share-Based Payments

The Group makes equity-settled share-based payments to directors, employees and other parties for services provided or the acquisition of exploration assets. Where applicable, the fair value of the equity is measured at grant date and recognised as an expense over the vesting period, with a corresponding increase to an equity account. The fair value of shares is ascertained as the market bid price. The fair value of options is ascertained using the Black Scholes option valuation pricing model. The fair value of the performance rights granted is measured using Monte Carlo Simulation, taking into account the terms and conditions upon which the performance rights were granted. Where applicable, the number of shares and options expected to vest is reviewed and adjusted at each reporting date such that the amount recognised for services received as consideration for the equity instruments granted shall be based on the number of equity instruments that eventually vest.

Where the fair value of services rendered by other parties can be reliably determined, this is used to measure the equity-settled payment.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

## Notes to the Consolidated Financial Statements for the Year Ended 30 June 2025

---

### NOTE 1: MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### Share-Based Payments (Continued)

If the non-vesting condition is within the control of the Group or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the Group or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

#### Provisions

Provisions are recognised when the Group has a present (legal or constructive) obligation as a result of a past event, it is probable the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation.

If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost.

#### Property, plant and equipment

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment (excluding land) over their expected useful lives as follows:

Plant and equipment 5 years  
Computer equipment 3 years  
Office equipment 4 years  
Motor vehicle 5 years

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the Group. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss.

#### New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

### NOTE 1: MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### **New and Amended Standards and Interpretations for Future Periods**

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Group for the annual reporting period ended 30 June 2025.

The Group has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

#### **Critical Accounting Estimates and Judgements**

The directors evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

Key Judgements:

##### *Exploration and Evaluation Assets*

The Group performs regular reviews on each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest. These reviews are based on detailed surveys and analysis of exploration and drilling results performed to reporting date.

##### *Share-based payment transactions*

The Group measures the cost of equity-settled transactions with employees and suppliers by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Monte Carlo Simulation or Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

Refer Note 16 for further information.

##### *Rehabilitation provision*

The Group's exploration activities are subject to various laws and regulations governing the protection of the environment. The Group recognises management's best estimate for assets retirement obligations and site rehabilitations in the period in which they are incurred. Actual costs incurred in the future periods could differ materially from the estimates. Additionally, future changes to environmental laws and regulations, life of mine estimates and discount rates could affect the carrying amount of this provision.

As at 30 June 2025, management's best estimate is that there is \$nil provision required (2024: \$nil).

On 20 December 2023, the Group announced that it had secured an AUD \$1.2 million loan from significant shareholder, MDF Global Ltd (MDF), to be applied to progressing the company's Alaskan projects and commercialisation opportunities. The loan had been repaid in full at 30 June 2025 (2024: drawn to \$730,000).

The loan was unsecured, attracted an interest rate of 6% per annum and was repayable by 31 December 2025. During the reporting period, the Group received Shareholder approval and repaid the amount owing to MDF by issuing convertible notes (having a face value of AUD\$0.08 per convertible note), together with one (1) attaching option for every two (2) convertible notes issued, to MDF.

The Group issued 9,125,000 shares issued at \$0.08 per share on the conversion of convertible note which completed on 13 August 2024.

#### Capital Management

Exploration companies such as Felix Gold Limited are funded almost exclusively by share capital. Management controls the capital of the Group to ensure it can fund its operations and continue as a going concern. Capital management policy is to fund its exploration activities principally by way of equity. No dividend will be paid while the Group is in exploration stage. There are no externally imposed capital requirements.

There have been no other changes to the capital management policies during the year.

#### Share-Based Payments Reserve

The share-based payment reserve is used to recognise the fair value of options issued to employees and consultants. This reserve can be reclassified as retained earnings if options lapse.

#### Foreign currency reserve

The reserve is used to recognise exchange differences arising from the translation of the financial statements of foreign operations to Australian dollars.

### NOTE 11: OPERATING SEGMENTS

#### Segment Information

##### Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

The Group is managed primarily on geographic basis, that is, the location of the respective areas of interest (tenements) in Alaska. Operating segments are determined on the basis of financial information reported to the board of directors which is at the Group level. The Group does not have any products or services that it derives revenue from. The Group's exploration and development activities in Alaska is the Group's sole focus.

Accordingly, management currently identifies the Group as having only one reportable segment, being the exploration of mineral projects in Alaska. There have been no changes in the reporting segments during the year. Accordingly, all significant operating decisions are based upon analysis of the Group as one segment. The financial results from this segment are equivalent to the financial statements of the Group as a whole.

### NOTE 16: SHARE-BASED PAYMENTS

#### Director and Employee Share-based Payments

##### Options

In 2020, the Company, Felix Gold Limited, established an employee share option program that entitles directors, key management personnel and senior employees to purchase shares in the Company. Each option is exercisable to acquire one common share of the Company.

In the 2021, 2023 and 2024 years, grants were offered to these groups of Felix Gold Limited employees. In accordance with these programs, options are exercisable at the exercise price determined at the date of grant.

The terms and conditions of the employee share option grants made under the employee share option program and in existence at 30 June 2025 were as follows.

Grant date	Entitlement	Number of instruments	Vesting conditions	Contractual life
07.12.2023	Directors	500,000	Immediately	06.04.2027 – 40 months
07.12.2023	Directors	1,000,000	Vest at 25c share price	06.04.2027 – 40 months
07.12.2023	Directors	500,000	12 months from grant	06.04.2027 – 40 months
03.06.2025	Directors	2,750,000	8 months from grant	31.12.2028 – 43 months
03.06.2025	Directors	2,750,000	16 months from grant	31.12.2028 – 43 months
03.06.2025	Directors	2,750,000	24 months from grant	31.12.2028 – 43 months
03.06.2025	Consultant	375,000	8 months from grant	31.12.2028 – 43 months
03.06.2025	Consultant	375,000	16 months from grant	31.12.2028 – 43 months
03.06.2025	Consultant	375,000	24 months from grant	31.12.2028 – 43 months
Total employee share options		<u>11,375,000</u>		

All employee share options are exercisable at any time after the vesting date and before the expiry date to acquire one fully paid ordinary share. Where the employment or office of the option holder is terminated, any options which have not reached their vesting date will lapse and any options which have reached their vesting date may be exercised within two months from the date of termination of employment.

The fair value of employee share options is measured at grant date and recognised as an expense over the period during which the key management personnel and senior employees become unconditionally entitled to the options. The fair value of the options granted is measured using Black-Scholes formulas, taking into account the terms and conditions upon which the options were granted. The amount recognised as an expense is adjusted to reflect the actual number of options that vest.

## Notes to the Consolidated Financial Statements for the Year Ended 30 June 2025

### NOTE 18: FINANCIAL INSTRUMENTS

#### (a) Financial Risk Management Policies

The Group's financial instruments comprises cash balances, receivables and payables and loans to and from subsidiaries. The main purpose of these financial instruments is to provide finance for Group operations.

#### **Treasury Risk Management**

The Directors of the Company meet on a regular basis to analyse exposure and to evaluate treasury management strategies in the context of the most recent economic conditions and forecasts.

The board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. Management is responsible for developing and monitoring the risk management policies and reports to the board.

#### **Financial Risks**

The main risks the Group is exposed to through its financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. These risks are managed through monitoring of forecast cash flows, interest rates, economic conditions and ensuring adequate funds are available.

#### **Interest Rate Risk**

The Group's exposure to interest rate risk, which is the risk that a financial instrument's cash flows or fair value will fluctuate as a result of changes in market interest rates, arises in relation to the Group's bank balances. This risk is managed through the use of variable rate bank accounts.

#### **Liquidity Risk**

Liquidity risk is the risk that the Group will not be able meet its financial obligations as they fall due. This risk is managed by ensuring, to the extent possible, that there is sufficient liquidity to meet liabilities when due, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group's activities are funded from equity.

#### **Credit Risk**

The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance date to recognised financial assets, is their carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements.

Credit risk arises from exposures to deposits with financial institutions and sundry receivables.

#### (b) Credit Risk Policies

Credit risk is managed and reviewed regularly by key executives. The key executives monitor credit risk by actively assessing the rating quality and liquidity of counter parties:

- only banks and financial institutions with an 'A' rating are utilised; and
- all other entities are rated for credit worthiness taking into account their size, market position and financial standing.

At 30 June 2025, there was no concentration of credit risk, other than bank balances.

#### **Foreign Currency Risk**

The Group's operations and operating costs are denominated in USD and as a result the Group has exposure to foreign currency risk. There was no specific exposure to foreign currency risk, other than the impact on future budgets and operating costs, at the end of the reporting period.

## Notes to the Consolidated Financial Statements for the Year Ended 30 June 2025

### NOTE 18: FINANCIAL INSTRUMENTS (Continued)

#### (c) Financial Instrument Composition and Contractual Maturity Analysis

The following tables detail the Group's remaining contractual maturity for its financial instrument liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid. The tables include both interest and principal cash flows disclosed as remaining contractual maturities and therefore these totals may differ from their carrying amount in the statement of financial position.

	2025	2024

Payables <sup>(1)</sup>	2,284,201	221,813
	<b>2,284,201</b>	<b>221,813</b>

#### Notes:

(1) *Non-interest bearing. The contractual cash flows do not differ to the carrying amount.*

#### (d) Net Fair Values

Fair values of financial assets and financial liabilities are materially in line with carrying values.

#### (e) Sensitivity Analysis

The Company has performed sensitivity analysis relating to its exposure to interest rate risk. At year end, the effect on profit and equity as a result of a 10% change in the interest rate, with all other variables remaining constant, is immaterial.

### NOTE 19: SUBSIDIARIES

- (1) As of 30 June 2025, based on the interpretations required for the purpose of the making a consolidated entity disclosure statement in accordance with Section 295(3A) of the Corporations Act, these subsidiaries had Australia as an additional tax residency to their country of incorporation.

### Basis of preparation

This consolidated entity disclosure statement (CEDS) has been prepared in accordance with the Corporations Act 2001 and includes information for each entity that was part of the consolidated entity as at the end of the financial year in accordance with AASB 10 Consolidated Financial Statements.

### Determination of tax residency

Section 295 (3A) (vi) of the Corporations Act 2001 defines tax residency as having the meaning in the Income Tax Assessment Act 1997. The determination of tax residency involves judgement as there are different interpretations that could be adopted, and which could give rise to a different conclusion on residency.

In determining tax residency, the consolidated entity has applied the following interpretations:

- Australian tax residency: The consolidated entity has applied current legislation and judicial precedent, including having regard to the Tax Commissioner's public guidance in Tax Ruling TR 2018/5.
- Foreign tax residency: The consolidated entity has applied current legislation and judicial precedent in the determination of foreign tax residency.

## INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF FELIX GOLD LIMITED

### Report on the Financial Report

#### Opinion

We have audited the accompanying financial report of Felix Gold Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2025, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion the financial report of Felix Gold Limited is in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the Group's financial position as at 30 June 2025 and of its performance for the year ended on that date; and
- b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

#### Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

## Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

### 1. Carrying value of capitalised exploration expenditure

#### Why significant

As at 30 June 2025 the carrying value of exploration and evaluation assets was \$24,223,109 (2024: \$19,027,427), as disclosed in Note 5.

The carrying value of exploration and evaluation assets (E&E) is a key audit matter due to:

- the significance of the activity to the Group's operations and its financial position (being 59% of total assets); and
- the greater level of audit effort to evaluate the Group's application of the requirements of the industry-specific accounting standard AASB 6 *Exploration for and Evaluation of Mineral Resources* ("AASB 6"), in particular the conditions allowing capitalisation of relevant expenditure and consideration of impairment indicators.

The Group's accounting policy in respect of exploration and evaluation expenditure is outlined in Note 1.

#### How our audit addressed the key audit matter

Our work included, but was not limited to, the following procedures:

- to assess whether there are indicators of impairment:
  - assessing whether the rights to tenure of the areas of interest remained current at balance date as well as confirming that rights to tenure are expected to be renewed for tenements that will expire in the near future;
  - holding discussions with the directors and management as to the status of ongoing exploration programmes for the areas of interest, as well as assessing if there was evidence that a decision had been made to discontinue activities in any specific areas of interest; and
  - obtaining and assessing evidence of the Group's future intention for the areas of interest, including reviewing future budgeted expenditure and related work programmes;
- considering whether exploration activities for the areas of interest had reached a stage where a reasonable assessment of economically recoverable reserves existed;
- testing, on a sample basis, exploration and evaluation expenditure incurred during the year for compliance with AASB 6 and the Group's accounting policy; and
- assessing the appropriateness of the related disclosures in Notes 1 and 5.

## 2. Share-based payments

### Why significant

During the year ended 30 June 2025, the Company issued options to directors, key personnel and brokers for services rendered, including as a capital raising cost for the capital raise performed during the year.

A total value of \$1,556,391 was recognised as share-based payments during the year, including \$64,937 expensed through the profit and loss, and \$1,491,454 deducted from issued capital for broker options.

The amounts have been accounted for as share-based payments in accordance with AASB 2 *Share-based Payment*.

Management engaged an independent valuation expert to assist in determining the fair value of the equity instruments issued as share-based payments.

This is a key audit matter due to:

- Management valued the options using the Black Scholes model, where inputs such as volatility and risk-free rate require judgement; and
- The significance of the share-based payments to the Group's financial position as at 30 June 2025 and its financial performance for the year then ended.

Refer to Notes 1, 9 and 16 to the financial report for a description of the accounting policy, significant estimates and judgements applied, and other details in relation to the share-based payments.

### How our audit addressed the key audit matter

Our audit procedures included, but were not limited to:

- obtaining an understanding of the key terms and conditions of the securities by inspecting relevant supporting documentation
- considering the objectivity, competence, experience and scope of the engagement of the independent expert appointed by the management;
- assessing the reasonableness of key inputs into the valuation models used by management and its appointed expert.
- testing the accuracy of the amortisation of share-based payments over the relevant vesting periods and the recording of an expense in the statement of profit or loss and an increment to the share-based payment reserve; and
- reviewing the adequacy of the company's disclosures in respect of the accounting treatment of share-based payments in the financial statements, including the significant judgements involved, and the accounting policy adopted.

### Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2025, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- b) the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and

for such internal control as the directors determine is necessary to enable the preparation of:

- i. the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- ii. the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

### Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: <http://www.auasb.gov.au/Home.aspx>. This description forms part of our auditor's report.

### Report on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2025. The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

### Opinion

In our opinion, the Remuneration Report of Felix Gold Limited for the year ended 30 June 2025 complies with section 300A of the *Corporations Act 2001*.
