Giuseppe (Joe) Totaro (Non-Executive Director)
Deborah (Deb) Morrow (Non-Executive Director)

COMPANY SECRETARY

Omesh Motiwalla

PRINCIPAL ACTIVITIES

During the financial period, the consolidated entity's activities have been the provision of high quality process engineering, detailed engineering design, process control and automation design and construction services to the mining and mineral processing industry and the provision of operations, maintenance and advisory services to the energy sector.

REVIEW OF RESULTS AND OPERATIONS

The HY25 EBITDA of the consolidated entity was \$34.5 million (HY24: \$22.6 million) on revenue of \$272.1 million (HY24: \$187.3 million). Refer to note 10 on page 16 of this report for segment analysis.

The HY25 results were characterised by solid operational performance across the group, with work on major projects continuing into the second half of FY25 and FY26. GR Engineering's key subsidiaries provided solid contributions to the group for the half year period.

At 31 December 2024, GR Engineering's cash position was \$111.8 million (31 December 2023: \$58.4 million) with negligible external bank debt. During HY25, GR Engineering paid out \$16.7 million in dividends (HY24: 16.5 million). GR Engineering has significant headroom in its guarantee and bonding facilities.

Mineral Processing Design and Construction

New and ongoing projects

GR Engineering's design and construction order book of current work includes:

- **Mungari Future Growth Project - Process Plant** - \$155 million EPC contract with Evolution Mining for the Mungari Future Growth Project in Western Australia. The scope of the work is to expand the existing Mungari process plant to an annual throughput of 4.2 Mtpa, including required changes to process plant buildings and associated infrastructure. This project was awarded in September 2023 and will be completed in the second half of FY25.
- **Kainantu Gold Mine - 1.2 Mtpa Process Plant** - US\$81 million EPC contracts with K92 Mining for a 1.2Mtpa Process Plant at the Kainantu Gold Mine in Papua New Guinea. This project was awarded in December 2023.
- **King of the Hills Operations Stage 1 Upgrade** - \$75 million EPC contract with a wholly owned subsidiary of Vault Minerals Limited for the Stage 1 Upgrade for the King of the Hills Operations in Western Australia. The project scope comprises the design, procurement, construction, installation and commissioning of the upgrade to the King of the Hills dry processing plant and the wet processing plant. This project was awarded in January 2025.
- **Woodlawn Restart Project** - \$26 million contract with a wholly owned subsidiary of Develop Global Limited for the Woodlawn Restart Project in New South Wales. The scope of work includes the refurbishment flowsheet and operability improvements of the existing process plant and associated infrastructure. The project was awarded in September 2024.
- **Kathleen Valley Lithium Backfill Project** - \$71 million EPC contract with a wholly owned subsidiary of Liontown Resources Limited (Liontown) for the Kathleen Valley Lithium Project in Western Australia. The project scope comprises two paste plants which will produce paste fill for use in Liontown's underground operations. Work on this project is substantially complete.

In addition to the above ongoing projects, GR Engineering maintains a solid pipeline of near term work opportunities across a broad range of commodities.

DIRECTORS' REPORT

Studies and Consulting

GR Engineering has been engaged on a number of engineering and consultancy assignments on a range of domestic and international projects with scopes extending to engineering studies, process design, procurement support and site supervision services associated with new and existing operations.

During HY25, GR Engineering completed 25 studies and as at 31 December 2024, was engaged on a further 30 studies across a broad range of commodities for projects in Australia and abroad. The level of ongoing study work is high.

Process Controls - Mipac and Paradigm

Mipac and Paradigm are leading providers of control systems, operational technology and engineering services primarily in the mineral processing, iron ore and energy sectors. With an established proven track record of success, the process controls group leverages technology to deliver solutions for operational challenges across a project's entire life cycle, minimising risk and driving productivity.

During HY25, the business continued to deliver control systems, automation and digital solutions for key repeat clients such as First Quantum Minerals, BHP Group, Rio Tinto, Glencore Technology, Anglo American, Ok Tedi Mining and other smaller conglomerates.

Energy - GR Production Services

GR Engineering's production services business, GRPS, achieved revenue contributions primarily through the provision of operations and maintenance services to the energy sector, including conventional gas, coal seam gas (CSG) to liquefied natural gas (LNG), LNG (offshore and onshore), green hydrogen production and transport, carbon sequestration and the onshore and offshore oil and gas sectors throughout Australia.

In Queensland and South Australia (Cooper Basin), GRPS managed and executed maintenance and operations support services on 5 gas production facilities and over 3,000 CSG and conventional oil and gas wells. On 31 October 2024, GRPS was awarded a two year contract extension for Santos in the Surat and Cooper Basins. GRPS continued to be the regulated operator of the Moranbah Gas Project under a long term agreement. GRPS supported onshore clients with respect to carbon sequestration services and provided operational advisory services on several Australian green hydrogen projects. GRPS provided engineering, procurement and construction services for Senex Energy, for the EOS and Glenora nodal compression stations as part of their Roma North facility expansion project.

In the Northern Territory, GRPS continued to provide maintenance services on the Blacktip gas field production facilities (onshore and offshore). In addition, GRPS provides operations and maintenance support services to the Ichthys LNG upstream and downstream facilities. The scope of work involves providing production and technical roles to INPEX as required to supplement their business and support for maintenance shutdown planning and execution on all facilities.

In Western Australia, GRPS remains a leading provider of operations and maintenance services to clients in the Perth Basin. GRPS is providing services at Chevron's Gorgon Project and continues to provide operational support services for Santos projects in the region. In addition, GRPS provides maintenance and operational support services to Mitsui E&P Australia (MEPAU) and Beach Petroleum's Waitsia asset in the Basin.

Safety

GR Engineering is founded on a strong belief in its core values. These values drive GR Engineering to constantly improve its working environment. GR Engineering's commitment to health and safety for all its personnel at all times is managed to ensure a safe working environment and to ensure that no one is allowed to work in an unsafe manner. GR Engineering is committed to the target of zero injuries and operates using accredited OH&S, Integrated Management and Quality Management Systems.

GR Engineering applies risk and hazard identification methodologies in developing safety and health management plans that are tailored to each project and its client's requirements. GR Engineering encourages its employees and subcontractors to report all incidents, accidents and near miss occurrences within its workplaces and all reported incidents are investigated.

The group's Total Reportable Injury Frequency Rate (TRIFR) for HY25 was 4.55.

DIVIDENDS

During HY25, a final dividend for financial year ended 30 June 2024 was paid. This was a fully franked dividend of 10.0 cents per share, paid on 20 September 2024.

A fully franked dividend of 10.0 cents per share has been declared for the 6 months ended 31 December 2024 (31 December 2023: 9.0 cents per share fully franked). The ex-dividend date for the interim dividend is 4 March 2025, the record date for determining entitlements to the interim dividend is 5 March 2025 and the payment date for the interim dividend is 25 March 2025.

AUDITOR'S INDEPENDENCE DECLARATION TO THE DIRECTORS

The auditor's independence declaration to the directors is included on page 6 of the Half Year Financial Report.

EVENTS AFTER THE REPORTING DATE

In January 2025, GR Engineering was awarded an EPC contract for the King of the Hills Operations Stage 1 Upgrade. This is a \$75 million contract with a wholly owned subsidiary of Vault Minerals Limited for the Stage 1 Upgrade for the King of the Hills Operations in Western Australia. The project scope comprises the design, procurement, construction, installation and commissioning of the upgrade to the King of the Hills dry processing plant and the wet processing plant.

Signed in accordance with a resolution of directors made pursuant to s.306(3) of the Corporations Act 2001.

GR ENGINEERING SERVICES LIMITED

HALF-YEAR FINANCIAL REPORT

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE HALF-YEAR ENDED 31 DECEMBER 2024

1 CORPORATE INFORMATION

The financial report of GR Engineering Services Limited and its subsidiaries for the half year ended 31 December 2024 was authorised for issue in accordance with a resolution of the directors on 19 February 2025.

GR Engineering Services Limited is a limited company incorporated and domiciled in Australia. The registered office of GR Engineering Services Limited is located at 71 Daly Street, Ascot, Western Australia.

2 MATERIAL ACCOUNTING POLICIES

(a) Basis of preparation

The condensed consolidated financial statements have been prepared on the basis of historical cost, except for certain financial instruments that are measured at revalued amounts or fair values. Historical cost is generally based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

The accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the consolidated entity's annual financial report for the financial year ended 30 June 2024, except for the impact of the Standards and Interpretations described below. The accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

(b) Statement of Compliance

The half-year financial report is a general purpose financial report prepared in accordance with the Corporations Act 2001 and AASB 134 'Interim Financial Reporting'. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'. The half-year report does not include notes of the type normally included in an annual financial report and shall be read in conjunction with the most recent annual financial report.

(c) Standards and Interpretations adopted in the current half year period

The accounting policies adopted in the preparation of the half-year financial report are consistent with those applied in the preparation of the consolidated entity's annual financial report for the year ended 30 June 2024, except for new standards, amendments to standards and interpretations which became effective on 1 July 2024 as set out below.

In the current half year, the consolidated entity has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board ("AASB") that are relevant to its operations and effective for an accounting period that begins on or after 1 July 2024, which include:

- AASB 2022-5 Amendments to Australian Accounting Standards – Lease Liability in a Sale and Leaseback
- AASB 2022-6 Amendments to Australian Accounting Standards – Non-current Liabilities with Covenants
- AASB 2023-1 Amendments to Australian Accounting Standards – Supplier Finance Arrangements

The adoption of these Standards and Interpretations does not have any impact on the disclosures or the amounts recognised in the consolidated entity's condensed consolidated financial statements.

(d) Standards and Interpretations issued but not yet adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet effective have not been adopted by the consolidated entity for the reporting period ended 31 December 2024. Management are in the process of assessing the impact of the adoption of these Standards and Interpretations on the consolidated entity.

2 MATERIAL ACCOUNTING POLICIES (CONTINUED)

(e) Change in presentation - disclosure of right of use assets and lease liabilities

In the annual report of the consolidated entity for the year ended 30 June 2024, right of use asset balances were included and presented as part of the "Property, plant and equipment" line item, while the lease liabilities balances were included and presented as part of "Borrowings" line items. In the half year report, the consolidated entity has presented lease liabilities and right-of-use asset balances as separate line items for better presentation and alignment with general industry practices, for the users of the financial statements. As a result, the consolidated entity has split out its 30 June 2024 comparatives as follows:

10 SEGMENT INFORMATION

Operating segments have been identified on the basis of internal reports of the consolidated entity that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segments and to assess their performance. The chief operating decision maker has been identified as the Managing Director. On a regular basis, the board receives financial information on a company basis similar to the financial statements presented in the financial report, to manage and allocate their resources.

The Managing Director has chosen to classify the operations of the consolidated entity by reference to presence in an industry. The segments identified on this basis are "mineral processing" and "oil and gas".

The consolidated entity holds equity securities of \$665,525 (30 June 2024: \$1,448,296) which are classified as fair value hierarchy level 1, in which fair values are based on quoted prices in active markets. There have been no transfers of fair value hierarchy levels during the period.

These investments in equity instruments are not held for trading. Instead, they are held for medium to long-term strategic purposes. Accordingly, the directors of the consolidated entity have elected to designate these investments in equity instruments as at fair value through other comprehensive income as they believe that recognising short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the consolidated entity's strategy of holding these investments for long-term purposes and realising their performance potential in the long run.

13 KEY MANAGEMENT PERSONNEL

Remuneration arrangements of key management personnel are disclosed in the annual financial report dated 30 June 2024.

14 EVENTS AFTER THE REPORTING DATE

Independent Auditor's Review Report to the members of GR Engineering Services Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of GR Engineering Services Limited (the "Company") and its subsidiaries (the "Group"), which comprises the condensed consolidated statement of financial position as at 31 December 2024, and the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of cash flows and the condensed consolidated statement of changes in equity for the half-year ended on that date, notes to the half-year financial report, including material accounting policy information and other explanatory information, and the directors' declaration as set out on page 18.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001*, including:

- Giving a true and fair view of the Group's financial position as at 31 December 2024 and of its performance for the half-year ended on that date; and
- Complying with Accounting Standard AASB 134 Interim Financial Reporting and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 Review of a *Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Half-year Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) ("the Code") that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Directors' Responsibilities for the Half-year Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Half-year Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
