DIRECTORS' REPORT

The directors of Global X Management (AUS) Limited (the "Responsible Entity"), the Responsible Entity of Global X Gold Bullion ETF (the "Fund"), present their interim report together with the condensed interim financial statements of the Fund for the half-year ended 31 December 2024 and the auditor's report thereon.

FUND OBJECTIVES

The Fund invests in gold bullion by holding units in the Global X Gold Bullion Wholesale Trust (the "Sub-Fund"), an unregistered managed investment scheme. The Responsible Entity is the trustee of the Sub-Fund. Under the Trust Deed, each unit in the Sub-Fund entitles the Fund to a Gold Interest in the Sub-Fund, separate from all other Gold Interests, and each Gold Interest in the Sub-Fund is in turn an interest in an amount of physical gold bullion equal to the Gold Entitlement separate from all other interests in the Sub-Fund. Each Holder is therefore absolutely entitled to the value of the underlying gold bullion held by the Sub-Fund.

The Fund aims to provide a return that tracks the performance of the price of gold bullion in Australian dollars (before fees and expenses) by reference to the Gold Spot Price which is denominated in US Dollars and converted to Australian dollars. The value of an investment in a Gold Interest will be subject to fluctuations in the AUD/USD exchange rate as well as fluctuations in the price of gold bullion.

The Gold Interests provide Holders with a beneficial interest in gold bullion without the necessity of holding, trading and storing gold bullion.

The Hongkong and Shanghai Corporation Limited ("HSBC"), Sydney Branch has been appointed as the custodian of the interests in the Sub-Fund which are held by the Fund. The Sub-Fund has been established by the Responsible Entity to act as a special purpose vehicle for holding gold bullion on behalf of the Fund. JPMorgan Chase Bank, N.A. has been appointed as the custodian of the gold bullion acquired in connection with the Fund.

The Fund is an Exchange Traded Fund ("ETF") and can be traded by investors on the Australian Securities Exchange ("ASX"); ETFs can be bought and sold like any other share through normal brokerage accounts.

PRINCIPAL ACTIVITIES

The Fund was constituted on 23 August 2022 and commenced its operations on 2 June 2024. The Fund is currently quoted on the ASX. The admission date was 29 May 2024.

The Fund invested in accordance with the provisions of the Fund's Constitution. There were no significant changes in the nature of the Fund's activities during the period ended 31 December 2024.

The Fund did not have any employees during the period ended 31 December 2024.

The Responsible Entity is the trustee of the Sub-Fund. The Hongkong and Shanghai Corporation Limited ("HSBC"), Sydney Branch has been appointed as the custodian of the interests in the Sub-Fund which are held by the Fund. The Sub-Fund has been established by the Responsible Entity to act as a special purpose vehicle for holding gold bullion on behalf of the Fund. JPMorgan Chase Bank, N.A. has been appointed as the custodian of the gold bullion acquired in connection with the Fund.

The condensed interim financial report was authorised for issue by the directors on 13 March 2025. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

The condensed interim financial statements are presented in Australian Dollars, which is the Fund's functional currency.

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES

The accounting policies applied in these condensed interim financial statements are the same as those applied in the Fund's 2024 annual financial report for the financial year ended 30 June 2024:

(a) Statement of Compliance

This condensed interim financial statements are general purpose financial statement which has been prepared in accordance with the Corporations Act 2001 and AASB 134 *Interim Financial Reporting*. Compliance with AASB 134 ensures compliance with *International Financial Reporting Standard IAS 34 Interim Financial Reporting*.

The condensed interim financial statements do not include all the notes of the type normally included in an annual financial report. Accordingly, these condensed interim financial statements are to be read in conjunction with the annual report for the year ended 30 June 2024 and any public announcements made during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

(b) Basis of Preparation

The condensed interim financial statements have been prepared under the historical cost convention, except for the revaluation of certain non-current assets and financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise stated.

In the application of AASBs management is required to make judgments, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstance, the results of which form the basis of making the judgments. Actual results may differ from these estimates.

The Fund is a registered scheme of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, issued by the Australian Securities and Investments Commission relating to the "rounding off" of amounts in the directors' report and condensed interim financial statements. Amounts in the directors' report and the condensed interim financial statements have been rounded to the nearest dollar in accordance with ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, unless otherwise indicated.

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES

(c) Accounting standards issued but not yet effective

There are no new standards, interpretations or amendments to existing standards that are effective for the first time for the financial half-year beginning 1 July 2024 that would be expected to have a material impact on the Fund. A number of new accounting standards, amendments and interpretations have been published that are not mandatory for the 31 Dec 2024 reporting period and have not been early adopted in preparing these financial statements. Most of these are not expected to have a material impact on the financial statement of the fund. However, management is still in the process of assessing the impact of the new standard AASB 18 which was issued in June 2024 and replaces AASB 101 Presentation of Financial Statements.

3. FAIR VALUE OF ASSETS AND LIABILITIES

The carrying amount of the Fund's assets and liabilities at the end of each reporting period approximate their fair values.

Assets and liabilities at fair value through profit or loss are measured initially at fair value. Transaction costs on assets and financial liabilities at fair value through profit or loss are expensed immediately. Subsequent to initial recognition, all instruments at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Condensed Statement of Profit or Loss and Other Comprehensive Income.

The fair value of financial assets and liabilities traded in active markets is based on their last traded prices at the end of the reporting period without any deduction for estimated future selling costs.

The Fund values its investments in accordance with the accounting policies set out in Note 2(b). For the majority of its investments, the Fund relies on information published by independent sources.

Fair value in an inactive or unquoted market

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period.

4. FAIR VALUE HIERARCHY

The Fund classifies fair value measurements using a fair value hierarchy that reflects the subjectivity of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Responsible Entity. The Responsible Entity considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The Directors of the Responsible Entity are responsible for:

- the preparation of the Condensed Interim Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*
- such internal control as the Directors determine is necessary to enable the preparation of the Condensed Interim Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Condensed Interim Financial Report

Our responsibility is to express a conclusion on the Condensed Interim Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Condensed Interim Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Scheme's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a Condensed Interim Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
