NEW EXPERIENCES

About us

Integral Diagnostics (IDX) provides state-of-the-art diagnostic services to patients and their referrers across Australia and New Zealand.

IDX employs some of Australasia's leading radiologists and diagnostic imaging specialists in a unique medical leadership model that promotes quality patient care, service, and access.

With our holistic career pathways you'll have access to ongoing professional development and leadership training. Additionally, pathways exist for radiologists and medical imaging professionals to develop their own career and build a business.

You'll be supported to grow as a clinician and a leader to contribute to improving health outcomes in all of our communities.

Our workplace is more than a career, it's a community of like-minded people.

Discover our Australian businesses

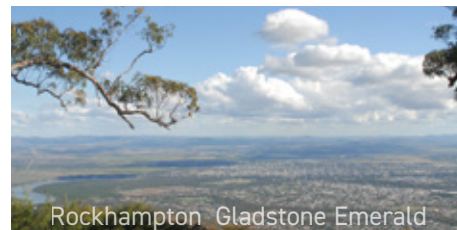

Imaging Queensland is a major provider of advanced diagnostic imaging services with locations in Brisbane, Margate and Deception Bay. Our comprehensive services include X-ray, ultrasound, CT, MRI, mammography, nuclear medicine & interventional procedures.

Through world-class capabilities and home-grown expertise, Imaging Queensland brings the best in diagnostic care to our communities.

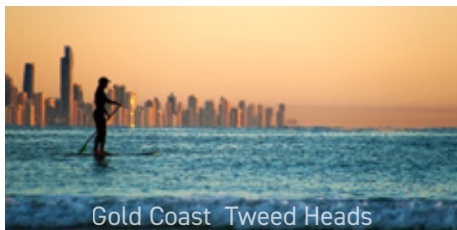

With over 15 years experience providing comprehensive, patient-focused diagnostic imaging services, Sunshine Coast Radiology has 13 practice centres in spanning from Beerwah and Caloundra to Cooroy and Noosa, including hospital clinics at Nabour Selangor Private Hospital and Sunshine Coast University Hospital.

Sunshine Coast Radiology is part of the Imaging Queensland group.

For over a decade, Central Queensland Radiology has been well recognised for excellence in the provision of quality, patient focussed diagnostic Radiology services.

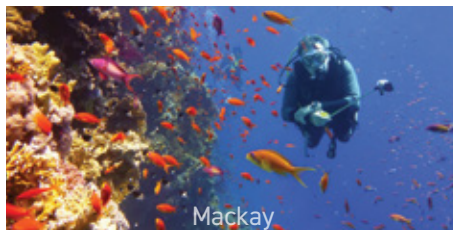

Part of the Imaging Queensland network, Central Queensland Radiology comprises two private radiology clinics and six on-site hospital clinics, located across the Central Queensland region.

**SOUTH COAST
RADIOLOGY**

Since 1967, South Coast Radiology (SCR) has evolved to become the largest radiology group on the Gold Coast, and one of the longest standing radiology organisations in South East Queensland.

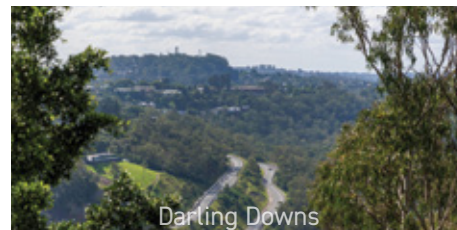

Healthcare professionals have relied on SCR to provide exceptional medical imaging services and the highest level of patient care to the Tweed, Gold Coast and Darling Downs communities.

**MACKAY
RADIOLOGY**

Mackay Radiology has been providing exceptional medical imaging services and the highest level of patient care to the local community for over 15 years.

Mackay Radiology is part of South Coast Radiology, the largest imaging provider in South East Queensland, and Integral Diagnostics (IDX Group), a leading provider of quality diagnostic imaging throughout Australia and New Zealand.

**DARLING DOWNS
RADIOLOGY**

Located in the heart of Toowoomba, Darling Downs Radiology is a leading provider of comprehensive diagnostic imaging services to the Darling Downs region. Our team is dedicated to delivering high-quality patient care using advanced imaging technology.

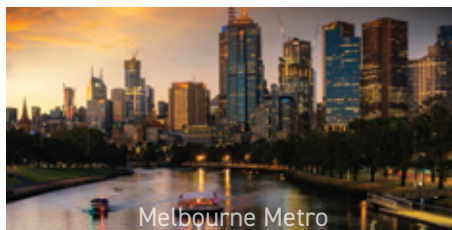

Team members enjoy a supportive environment, diverse case mix, and the opportunity to work alongside experienced radiologists in a well-established and respected practice.

Established in 1996, Apex Radiology provides patients in rural and regional communities access to the highest standard of comprehensive diagnostic imaging services previously only available in metropolitan Western Australia. Recently Apex expanded into the Perth metro area.

Apex also provide radiology and teleradiology services to WACHS (Western Australia Country Health Service).

Radiology Tasmania

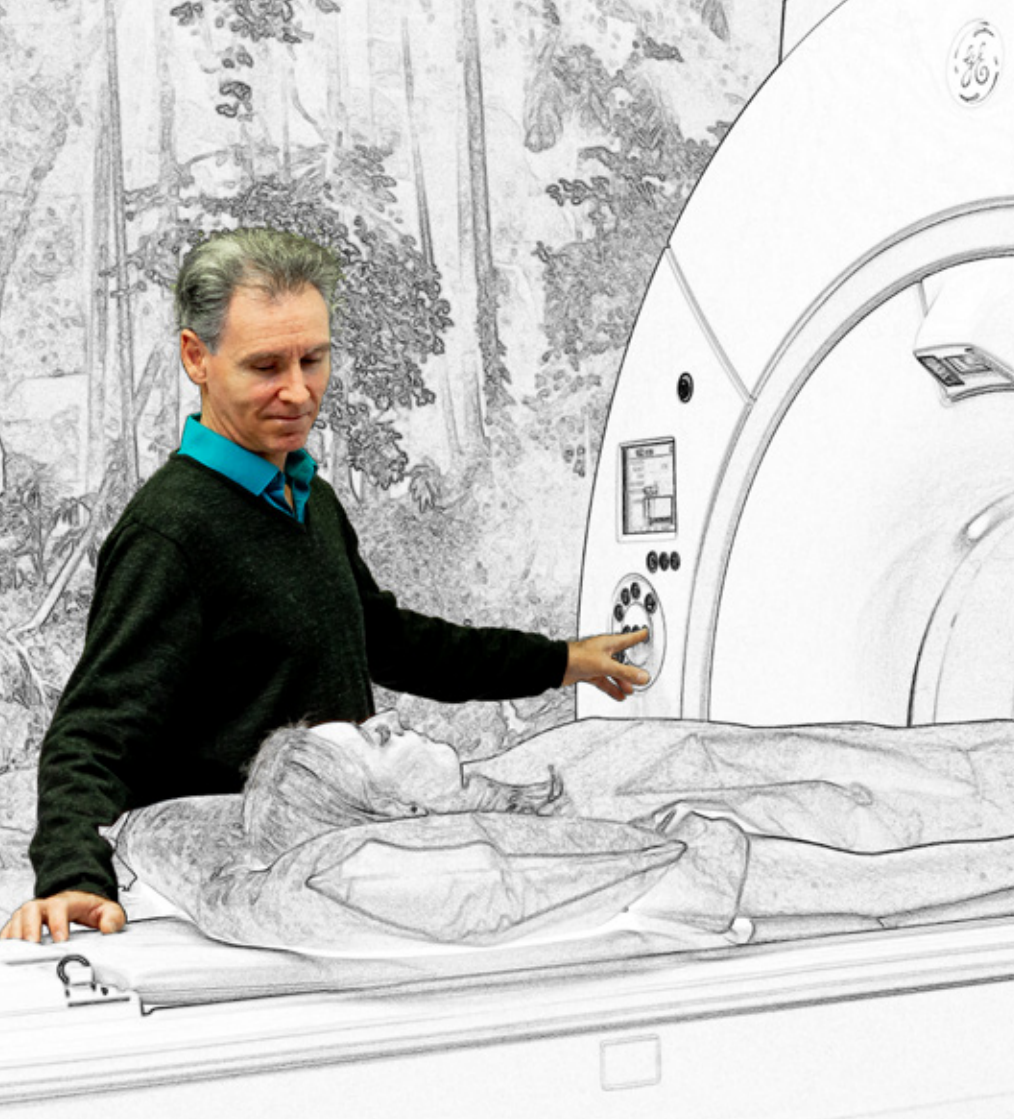

Established in 2007, Radiology Tasmania delivers expert diagnostic imaging services across four clinics in Hobart City, Glenorchy, Rosny and Launceston.

Patients and referrers experience high-quality customer service informed by the best medical imaging equipment.

Located in Adelaide's CBD, Fowler Simmons Radiology is an industry renowned practice, specialising in musculoskeletal imaging services.

The team offers a range of interventional procedures in addition to sports injury imaging and is led by renowned radiologists Dr Shaun Fowler and Dr Tom Entwisle.

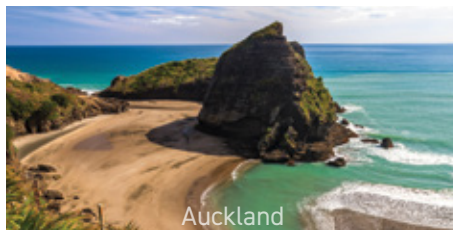

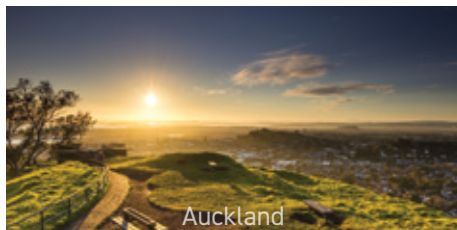

IDxt are a specialist overflow and after hours teleradiology provider.

We provide teleradiology services to more than 150 hospitals across Australia and New Zealand.

Our industry-leading turnaround times allow patients to get a quick diagnosis and the care they need; at the time they need it.

Providing a quality service supported by RANZCR accredited radiologists, IDxt offers urgent, routine and overflow teleradiology services.

Discover our New Zealand businesses

Established in 1999, Astra Radiology has eight clinics across Auckland.

Astra provide patients with a comprehensive, state-of-the-art radiology service, across all diagnostic imaging modalities; MRI, CT, PET CT, ultrasound, digital breast tomosynthesis and X-ray. Astra has highly trained and qualified professionals to provide ultimate patient care.

Specialist Radiology + MRI was established in 2007 and now operates three sites in Greenlane, Manukau and Waiata Shores.

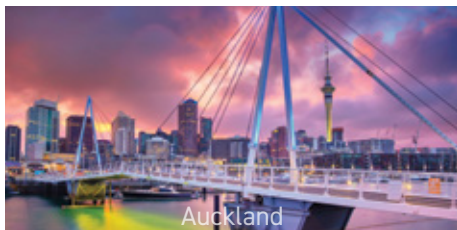

SRG is a leading radiology practice offering diagnostic imaging services and interventional radiology procedures with fellowship trained radiologists.

Trinity MRI is New Zealand's only imaging facility dedicated to brain, spine and neurovascular imaging, with a commitment to providing accurate, timely reports.

Staff at Trinity are sub-specialty trained, with tailored equipment ensuring the highest quality images.

All studies at Trinity are double-read by neuroradiologists.

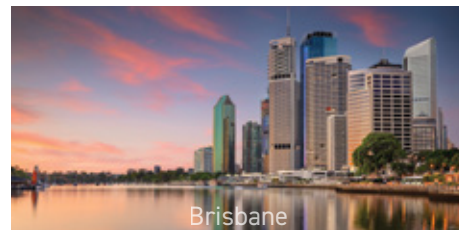

Horizon Radiology offers a wide range of diagnostic imaging services including X-rays, ultrasounds, pregnancy scans, and steroid injections.

Horizon is Auckland's largest community based radiology provider with modern clinics geographically spread across the Auckland region.

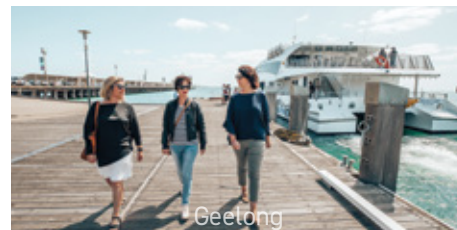

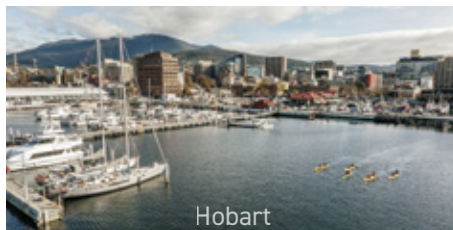

Discover our clinics for women

Diagnostic Imaging for Women (DIFW) is Brisbane's premier women's imaging centre, offering personalised, high-quality diagnostic services in a welcoming environment.

Located in the Brisbane CBD, DIFW specialises in breast, gynaecological, obstetric and general ultrasound imaging, using advanced 2D and 3D mammography and ultrasound techniques. Led by Dr Paula Sivyler, the experienced team ensures compassionate care, prioritising comfort, and timely results.

The Women's Imaging Centre offers specialised diagnostic imaging for women, with a strong focus on breast, pelvic, and obstetric imaging. Based in Southport, our team provides compassionate, patient-centred care in a calm and private setting. Team members benefit from working in a niche, purpose-built environment, with access to advanced equipment, experienced clinicians, and a supportive team that values collaboration and excellence.

Women's Imaging are Tasmania's leading obstetric and gynaecological specialists in ultrasound for pregnancy, gynaecology and breast related concerns.

Our radiologists and obstetricians have extensive experience and use the latest mammography and breast imaging equipment allowing them to accurately assess scans in greater detail.

The Geelong Breast Clinic is a dedicated comprehensive diagnostic breast imaging centre located in the medical precinct next to St John of God Hospital Geelong. Led by Clinical Director Dr Linda West, GBC is purpose-built and provides state-of-the-art breast imaging in a caring and compassionate environment. Our subspecialised team of radiologists work with specialist mammographers, breast sonographers and breast care nurses.
