Metro Mining Limited and Controlled Entities
Directors' report
30 June 2025

The Directors present their report on the consolidated entity (referred to hereafter as the 'Group' or 'Metro') consisting of Metro Mining Limited ('Metro Mining' or 'Company') and its controlled entities for the half-year ended 30 June 2025.

This Directors' Report has been prepared in accordance with the requirements of Division 1 of Part 2M.3 of the *Corporations Act 2001 (Cth)*.

BOARD OF DIRECTORS

The Directors of Metro Mining Limited during the period and up to the date of this report were:

Name	Position
Douglas Ritchie	Independent Non-Executive Director and Chair of the Board
Simon Wensley	Managing Director and Chief Executive Officer
Andrew Lloyd	Independent Non-Executive Director
Jo-Anne Scarini	Independent Non-Executive Director
Paul Lucas	Independent Non-Executive Director
Jennifer Purdie	Independent Non-Executive Director (appointed 1 August 2025)

PRINCIPAL ACTIVITIES

Metro Mining is an Australian exploration and mining company based in Brisbane, Queensland. Its flagship project, the Bauxite Hills Mine, located 95km north of Weipa is one of the largest independent bauxite mines within the internationally acclaimed Weipa Bauxite Region.

The principal activities of the Group during the period were the exploration, mining, transshipping, and sale of bauxite at the Bauxite Hills Mine.

REVIEW AND RESULTS OF OPERATIONS

FY25 KEY HIGHLIGHTS

The Group emerged from a productive wet season that saw an intense and focused maintenance upgrade program across the site and marine assets to deliver record 1H shipments of 1.9 million Wet Metric Tonnes (WMT). This was achieved despite shipments being 5% lower than planned due to transshipping constraints in the Skardon River over approximately six weeks, following a reduction in the river's controlling depth caused by a severe tropical storm during the Easter period which damaged the barging channel. The controlling depth issue was resolved with an extensive bed-levelling campaign to re-establish channel limits.

The Group continued to benefit from a resilient bauxite market that translated into record achieved Free on Board (FOB) net revenue of A\$72/WMT (30 June 2024: A\$45/WMT) for the half-year period ending 30 June 2025, up 60% year-on-year.

Strong financial performance for the Group during the 6 month period ending 30 June 2025 resulted in a EBITDA increase of 248% and NPAT increase of 424% year-on-year.

During the half-year, the Company continued to solidify its financial position as it drew down on the remaining unused amount under Tranche 4 of the Nebari facility of US\$5.2 million and restructured its foreign exchange hedging position to achieve an average rate of 0.63 AUD/USD for FY25.

OPERATIONAL PERFORMANCE

The Group's flagship project, the Bauxite Hills Mine, located on western Cape York in Queensland, commenced operations for the year in March 2025. The Group finished the period with a total of 1.9 million WMT of bauxite sold, a 27% improvement on the period ended 30 June 2024 (30 June 2024: 1.5 million WMT).

The Group sold its 1H 2025 production through binding offtake agreements with Xinfu Aluminium Group, Xiamen Xiangsen Aluminium Co., Limited and Shandong Lubei Enterprise Group General Company. All production during the half-year period was sold to Chinese refineries, shipped on a Cost Insurance Freight (CIF) basis or Free on Board (FOB) basis on Capesize class vessels. The offtake pricing for customers was negotiated during the half-year period and all deliveries to customers were made within contractual specifications. The Group recorded an average blended FOB and CIF sales price per tonne shipped of A\$78/WMT (30 June 2024: A\$54/ WMT).

WMT '000	Q1 2025	Q2 2025	1H 2025	Q1 2024	Q2 2024	1H 2024

FINANCIAL RESULTS

For the half-year period ended 30 June 2025, the Group reported a net profit after tax of \$119.8 million (30 June 2024: \$37.0 million loss).

	30 June 2025 \$000	30 June 2024 \$000
Revenue from contracts with customers	144,979	81,373
Cost of sales	(123,284)	(96,539)
Gross profit/(loss)	21,695	(15,166)
Other income and operating expenses	71,460	(9,982)
Operating profit/(loss) before interest and income tax (unaudited, non-IFRS term)	93,155	(25,148)
Finance costs	(10,777)	(11,985)
Finance income	127	117
Profit/(loss) before income tax	82,505	(37,016)
Income tax benefit	37,288	-
Profit/(loss) after income tax	119,793	(37,016)

Revenue

The Group generated revenue of \$145.0 million, a 78.2% increase compared to the prior period (30 June 2024: \$81.4 million).

Cost of sales

The Group's cost of sales increased as a result of additional equipment and labour committed to support the FY25 production guidance of 6.5 - 7 million WMT, as well as due to inflationary pressures. The cost of sales increased by 27.7% to \$123.3 million (30 June 2024: \$96.5 million).

Other income and operating expenses

(A) Other income

Other income decreased by \$1.3 million compared to the prior period. The prior period other income was as a result of the derecognition of lease liabilities and right of use assets for hired equipment previously accounted for under AASB 16 *Leases*.

(B) Administrative expenses

The Group recorded administrative expenses of \$8.1 million compared with the prior period (30 June 2024: \$5.3 million). Employee benefit expenses and share-based payments expenses were the largest costs, contributing to \$5.1 million of total administrative costs (30 June 2024: \$2.9 million). Other admin and consultant costs accounted for \$3 million (30 June 2024: \$2.4 million).

(C) Other operating gains and expenses

The Group's other operating gains and expenses included the full reversal of the prior period impairment of the Bauxite Hills Project of \$47.7 million, \$33.2 million for realised and unrealised foreign exchange gains, \$1.0 million expense from the equity pickup of the Ikamba Joint Venture loss incurred for the period, and \$0.3 million in other costs.

Finance costs and finance income

Finance costs and income primarily relate to interest expense incurred of \$7.3 million on borrowings, \$2.0 million on leases, and \$1.5 million on other liabilities.

UNDERLYING EARNING BEFORE INTEREST TAX DEPRECIATION AND AMORTISATION (EBITDA)

Underlying EBITDA is used by the Group to define the underlying results, adjusted for abnormal and non-recurring costs which are determined as not in the ordinary course of business.

Non-IFRS measures, including Underlying EBITDA, are financial measures used by management and the Directors as the primary measures of assessing the financial performance of the Group. The Directors also believe that these non-IFRS measures assist in providing additional meaningful information for stakeholders and provide them with the ability to compare against prior periods in a consistent manner.

The table below provides a reconciliation to Underlying EBITDA for the Group and is unaudited, non-IFRS financial information.

Debt facilities

On the 14th of February 2025, the Group drew down on the remaining unused amount under Tranche 4 of the Nebari facility for US\$5.2 million (A\$8.0 million). The terms of the drawdown are consistent with those of the initial Tranche 4 drawdown on the 26th of November 2024. The Group will commence monthly capital repayments on the debt facility in July 2025, with expected final full repayment of the debt at maturity on 12 March 2027.

INDIGENOUS ENGAGEMENT

The Group continues to prioritise the employment of personnel from the Ankamuthi people, the Traditional Owners of the land on which we operate, along with other Aboriginal and Torres Strait Islander peoples. As of June 2025, approximately 31% of the positions at the Bauxite Hills Mine were held by Indigenous employees, aligning with the Group's Indigenous workforce target.

The Group continues to prioritise engagement with the local communities of Cape York. Through the Community Partnership Program, the Group works to build mutually respectful relationships based on collaboration and co-operation, with a shared goal of sustainable development and positive community impact.

SAFETY PERFORMANCE

"Safety Citizenship" is a core value of the Group, with safety being a top priority and an integral part of everything the Group does. The Group is committed to providing a safe and healthy work environment for all employees, contractors and visitors by maintaining rigorous safety standards, promoting a proactive safety culture and continuously improving systems and practices. Through ongoing training and development, risk assessments and adopting a safety first approach at all times, the Group aims to prevent incidents and ensure that everyone returns home safely.

During the half-year ended 30 June 2025, across both the mining and marine operations, the Group recorded 3 Australian Maritime Safety Authority (AMSA) Reportable Incidents, 3 High Potential Incidents and 2 Lost Time Injuries.

ENVIRONMENTAL SOCIAL GOVERNANCE (ESG)

During the period, the Group continued to implement the ESG initiatives set out in its ESG Strategy and 2025-26 Roadmap. Additionally, the Group finalised the deliverables of its Reflect Reconciliation Action Plan (RAP) and commenced the preparation of its Innovate RAP. The Group commenced the implementation of its Calendar Year 2025 Australian Sustainability Reporting Standards (ASRS) Roadmap actions which are focused on ensuring the Group's readiness to commence its statutory reporting in 2028.

The Group prepared and submitted its 2025 Modern Slavery Report.

Community related highlights during the period were the ongoing high level of participation in its Indigenous seed collection program, and the delivery of the JTBelieve program at Ama Mary Eseli Injinoo Junior Campus in Term 2. An exceptional initiative designed for young people and their families, this program emphasises building confidence, courage, and self-belief among participants.

DIVIDENDS

No dividends have been paid or declared since the start of the financial period.

As at 30 June 2025, the Group had \$28.7 million (31 December 2024: \$31.2 million) in cash on hand, and recorded net cash operating inflows of \$7.3 million (30 June 2024: outflow \$17.3 million) for the half-year financial period.

As at 30 June 2025, the Group had net current liabilities of \$25.8 million (31 December 2024: \$44.8 million) resulting from its borrowings repayment schedule. The Group has prepared a cash flow forecast through to at least 12 months from approving these financial statements which indicates continued profitability and sufficient operating cash inflows to meet its debts as and when they fall due.

On this basis, the Directors believe that the Group will be able to continue as a going concern and, accordingly, have prepared the financial statements on a going concern basis.

(B) New standards, interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the Condensed Consolidated Interim Financial Report are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2024, except for the adoption of new standards effective as of 1 January 2025. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Several amendments apply for the first time in 2025, but do not have an impact on the Condensed Consolidated Interim Financial Reports of the Group.

(C) Critical accounting estimates and judgements

In preparing the Condensed Consolidated Interim Financial Statements, the Directors have made judgements, estimates and assumptions that affect the application of accounting policies and the reporting amounts of assets and liabilities, revenue and expenses. The estimates, judgements and assumptions are based on historical experience, adjusted for current market conditions, and other factors that are believed to be reasonable under the circumstances, and are reviewed on a regular basis. Actual results may differ from these estimates.

Note 2. SEGMENT INFORMATION

AASB 8 *Operating Segments* requires operating segments to be identified on the basis of internal reports that are reviewed and used by the Chief Operating Decision Maker (CODM). The Board, identified as the CODM, assess the performance of the Group and determine the allocation of resources.

The Group's operating segments have been determined with reference to the monthly management accounts used by the CODM to make decisions regarding the Group's operations and allocation of working capital.

Based on the quantitative thresholds included in AASB 8 *Operating Segments*, there is only one reportable segment, being the production and sale of bauxite from the Group's Bauxite Hills Mine in Queensland.

Note 2. SEGMENT INFORMATION (CONTINUED)

The Group's customers are located in one geographic area, China, with 100% of revenue from the sales of bauxite derived from that area during the half-year period. The Group had three customers who accounted for 100% of its revenue from contracts with customers during the half-year ended 30 June 2025.

The revenues and results of this segment are those of the Group as a whole and are set out in the Condensed Consolidated Statement of Comprehensive Income. The assets and liabilities of the Group as a whole are set out in the Condensed Consolidated Statement of Financial Position.

Note 3. REVENUE FROM CONTRACTS WITH CUSTOMERS

For the half-year ended 30 June 2025, revenue from contracts with customers is derived from the sale of bauxite from the Group's Bauxite Hills Mine. The Group recognises revenue from the sale of bauxite at a point in time.

	30 June 2025 \$000	30 June 2024 \$000
At a point in time		
Revenue from sale of bauxite	144,979	81,373
Total revenue from contracts with customers	144,979	81,373

Revenue for the half-year ended 30 June 2025 was generated from the shipment of 1.9 million WMT of bauxite (30 June 2024: 1.5 million WMT) from the Group's Bauxite Hills operation.

Note 4. IMPAIRMENT REVERSAL

	30 June 2025 \$000	30 June 2024 \$000
Impairment reversal	47,738	-
Total impairment reversal	47,738	-

AASB 136 *Impairment of Assets* requires the Group to assess throughout the reporting period whether there is any indication that an asset may be impaired or that an impairment loss recognised in prior periods for an asset may no longer exist or may have decreased. If any such indication exists, an entity shall estimate the recoverable amount of the asset or cash generating unit to which it relates.

In a prior period, an impairment of \$55.3 million was recognised by the Group following an assessment of the recoverable amount of its Bauxite Hills cash generating unit (CGU).

As a result of indicators that a previous impairment loss may no longer exist at 30 June 2025, the Group performed impairment testing and assessed the recoverable amount of its Bauxite Hills CGU. The assessment of recoverable amount of non-current assets was performed using a fair value less cost of disposal methodology (level 3 in the fair value hierarchy) using a discounted cash flow method.

The key assumptions used in the estimation of the recoverable amount as at 30 June 2025 are set out below:

- A nominal post-tax discount rate range of 7.2% - 9.0% based on the historic weighted average costs of capital as well as Company-specific risk factors.
- Cashflow projections based on 7 million WMT per annum until the end of the 2035 production year.
- Bauxite pricing for sales to customers at anticipated market rates based on external commodity research.
- AUD/USD exchange rate averaging 0.70 over the modelled years.

The assessment resulted in the recoverable amount of the Bauxite Hills CGU being calculated within a range of \$443.7 million and \$473.7 million. As the calculated recoverable amount exceeded the carrying value of the Bauxite Hills CGU at 30 June 2025, the Group recognised an impairment reversal of \$47.7 million. The reversal is limited such that the carrying amount of the Bauxite Hills CGU does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the Bauxite Hills CGU in prior years.

Note 5. TAX

At 30 June 2025, the Group's evaluation of the recoverability of deferred tax assets is based on cash flows and cash flow sensitivities consistent with those used in the Group's impairment assessment. Based on the assessment performed, the Group has recognised a deferred tax asset in relation to a portion of its carried forward income tax losses based on forecasted future profits against which those assets may be utilised, and the ability to satisfy the requirements of ownership continuity or business continuity test. The Group has a portion of tax losses which are unrecognised given the available fraction that restricts the utilisation of transferred tax losses against future taxable profits.

Note 8. SHARE-BASED PAYMENTS

The Group established the Metro Mining Employee Incentive Plan (EIP) to enable the issue of shares, performance rights, share options or subscription warrants in Metro Mining Limited. Under the EIP, the Group may offer shares or options over unissued shares in the Company.

The total share-based payment expense recognised in the half-year ended 30 June 2025 was \$2.2 million (30 June 2024: \$0.9 million).

(A) Performance rights granted under the EIP

The EIP acts as the Group's main incentive scheme to reward eligible participants through variable remuneration.

Performance rights are measured at fair value at the grant date.

Set out in the table below is a summary of movements in the number of performance rights under the EIP for the period ending 30 June 2025.

Note 9. BORROWINGS (CONTINUED)

(A) Loans – Nebari facility

In November 2024, the Group modified its long-term debt funding arrangement with Nebari Natural Resources Credit Fund I, LP and Nebari Natural Resources Credit Fund II, LP (collectively Nebari). As the modification contained substantially different terms, the Group accounted for the extinguishment of the original financial liability, and recognised a new financial liability in the year ended 31 December 2024.

The key terms of the modified facility are outlined below:

Facility amount	US\$56.8 million – amount drawn down in four tranches including original discount. Tranche 1 was fully drawn down on 12 March 2023 in the amount of US\$23.4 million. Tranche 2 was fully drawn down on 31 May 2023 in the amount of US\$11.2 million. Tranche 3 was fully drawn down on 26 November 2024 in the amount of US\$11.8 million and replaced the Nebari royalty borrowings that was entered into on 30 January 2024. Tranche 4 was drawn down in equal US\$5.2 million parts on 26 November 2024 and 14 February 2025 for a total of US\$10.4 million.
Interest rate	Secured overnight financing rate (SOFR) + 7% margin p.a., payable monthly.
Capital repayment	4.76% of the Facility Amount, i.e., each instalment will be US\$2.7 million beginning July 2025.
Maturity date	12 March 2027
Warrants	Upon drawdown of Tranche 1, 421 million detachable warrants were issued to the loan provider at an exercise price of \$0.012, with an expiry date of 3 years from issue. Upon drawdown of Tranche 2, an additional 103 million detachable warrants were issued to the loan provider at an exercise price of \$0.025, with an expiry date of 3 years from issue. Warrants were fully exercised during the year ending 31 December 2024.
Prepayment options	Prepayment at the Group's control is as follows: <ul style="list-style-type: none"> - Prepay at a point in time during the term of the loan as long as the minimum repayment amount is at least US\$5 million. - Prepay upon the occurrence of certain events within the Group's control. At any prepayment date, the Group must compensate the lender such that the lender realises an amount equal to the full amount of interest that would otherwise have been payable on the prepaid amount until the Maturity Date as if the prepayment had not occurred.
Interest rate floor	If the SOFR rate during the term of the loan is less than 3%, then SOFR shall be presumed to be 3% under the agreement.

The loan is recognised at fair value of US\$56.8 million (\$86.7 million) and is being carried in the balance sheet at amortised cost using the effective interest rate method, net of transaction costs.

The prepayment options are not deemed closely related to the host debt (loan) and are separated and accounted for as stand-alone derivatives. Based on the probabilities of exercising the options under different scenarios, the options were deemed to have no material value at inception. This will be reassessed at each reporting date until maturity of the loan, and any changes in fair value of the options will be recognised in profit or loss.

The interest rate floor is considered closely related to the host debt (loan) contract and is therefore accounted for as part of the loan.

	30 June 2025	31 Dec 2024
	\$000	\$000
Total investments accounted for using the equity method	22,716	23,022

On 17 May 2023, the Group, along with its joint venture partner ALM Shipping Management Ltd ("ALM Shipping"), incorporated Ikamba Pte Ltd in Singapore. The Group and ALM each own 50% of the ordinary shares on issue of Ikamba Pte Ltd. The Group acquired its shares in Ikamba Pte Ltd for \$25,000 and has since made further contributions of \$24.8 million to Ikamba Pte Ltd to fund the mobilisation, drydocking and transportation of the Ikamba OFT and the management of the joint venture. These contributions have been added to the value of the Group's investment in Ikamba Pte Ltd.

The Group's interest in Ikamba Pte Ltd is accounted for using the equity method in these Condensed Consolidated Financial Statements.

Details of each of the Group's material joint ventures at the end of the reporting period are as follows:

Joint Venture	Principal activity	Place of incorporation and principal place of business	Proportion of ownership interest and voting rights held by the Group 30 June 2025	Proportion of ownership interest and voting rights held by the Group 31 December 2024
Ikamba Pte Ltd	Owning and leasing the Ikamba OFT to the Group.	Singapore, incorporated on 17 May 2023.	50%	50%

In February 2024, the Ikamba OFT achieved Australian regulatory approvals and arrived in Weipa. The arrival in Weipa of the Ikamba OFT signified the commencement date of the bareboat charter between the Ikamba Pte Ltd joint venture (lessor) and the Group (lessee). The bareboat charter agreement has an initial term of 10 years, with an option to extend for 5 years. Charter payments are materially fixed. The Group recorded a lease liability, and corresponding right-of-use asset, under AASB 16 *Leases* for an initial recognition value of \$30.6 million.

As part of the bareboat charter agreement, the Group is required to pay for survey inspection and drydock work at specified periods in time over the life of the charter. The Group's marine team have performed a detailed analysis of these future costs and recorded a non-current provision for the discounted present value of these obligations; \$8.5 million. Upon initial recognition of this provision, an equivalent amount of \$8.5 million was capitalised to the Ikamba OFT AASB 16 right-of-use asset and will be depreciated over the life of the lease. At 30 June 2025, the Group re-estimated the present value of the drydock provision costs updated for expected CPI inflation cost estimates and a change in the risk free rate. The re-estimate resulted in an additional \$0.2 million recognised for the drydock provision and OFT right-of-use asset in the half-year ended 30 June 2025.

The joint venture comprises assets that relate to the Ikamba OFT vessel. The joint venture has no other contingent liabilities or commitments as at 30 June 2025 (31 December 2024 \$nil). For the half-year ended 30 June 2025, the joint venture had revenue associated with the bareboat charter to the Group, depreciation expenditure of the OFT vessel, and administration costs incurred for managing the joint venture. The Group's equity accounted loss for the half-year was \$1.0 million (30 June 2024 \$0.4 million).

During the half-year ended 30 June 2025, the Group made \$4.0 million in bareboat charter lease payments and \$0.7 million in capital contributions to the joint venture.

At 30 June 2025, the Group's estimated future committed cash outflow for the Ikamba bareboat charter is US\$26.6 million, and \$12.4 million for survey inspection and drydock work.

Note 12. COMMITMENTS AND CONTINGENCIES

(A) Commitments

As at 30 June 2025, the Group has commitments of \$145.9 million. These commitments are contractual payments due to contractors for the provision of operational services and offsets payable under Commonwealth mining licence conditions for the Bauxite Hills Mine.

(B) Contingencies

The Group has no contingencies as at 30 June 2025 (30 June 2024: nil).

Independent Auditor's Review Report to the Members of Metro Mining Limited

Conclusion

We have reviewed the accompanying half-year financial report of Metro Mining Limited (the Company) and its subsidiaries (collectively the Group), which comprises the condensed consolidated statement of financial position as at 30 June 2025, the condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the half-year ended on that date, explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group does not comply with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the consolidated financial position of the Group as at 30 June 2025 and of its consolidated financial performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Directors' responsibilities for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 30 June 2025 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

**Shape the future
with confidence**

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
