AGM Notice & Letter from the Chair

Dear shareholder,

I am pleased to invite you to the 2023 Annual General Meeting (AGM) of CI Resources (ASX:CII) which will take place on **Wednesday, 22 November 2023 starting at 10:00am AWST**.

This year's meeting will be held as an in-person event in the **Iris & Hibiscus Room at the One World Hotel, First Avenue, Bandar Utama City Centre, 47800 Petaling Jaya, Selangor, Malaysia**. The usual forms for voting on the day will be available at the meeting.

This year has been a significant period for the Group, where we have delivered strong operational and financial results on the back of our successful implementation of the Group's diversification strategy.

We are a proudly Christmas Island domiciled, ASX-listed company with interests across a growing global fertiliser value chain. Our goal has and will continue to be maximising value to our shareholders and broader stakeholders via the further roll-out of the Group's on-island and off-island diversification strategy.

Additional information regarding the Group's performance is contained in the 2023 Annual Report, which can be viewed [here](#).

Items of Business

The items of business to be considered at the AGM are set out on the following pages. Specific details of all resolutions are set out in full in the notice of Meeting, however I wanted to summarise elements of the resolutions below.

This year, shareholders will be asked to approve the sale of wholly-owned Phosphate Resources' Malaysian-based palm oil business, Cheekah-Kemayan Plantations Sdn Bhd, for RM\$155 million (A\$51.5 million) to Prosper Trading Sdn Bhd. (see Resolution 2 in the attached NOM) An Independent Expert's Report for the purposes of the shareholder approval required under ASX Listing Rule 10.1 has been included with the Notice of Meeting and should be carefully considered by all shareholders prior to voting.

The Board unanimously support the transaction which is highly value accretive to shareholders and will provide non-dilutive funding for the Group to diversify into further investments and strengthen our existing fertiliser and logistics businesses with the objective of maximising value to shareholders.

As previously announced, approximately a third of the funds from the proposed sale has been quarantined to be returned to shareholders via a franked special dividend of A\$0.10 per share (to be paid in two equal tranches) and a share buy-back of up to \$5 million to be deployed in 2024.

In addition, several directors are standing for election or re-election. The elections of Mr Keng Siew Ong and Mr Ramanathan Krishnan and re-election of Mr Dato' Sri Tee Lip Sin and Mr Adrian Gurgone are unanimously supported by the Board.

Finally, Resolution 7, a special resolution, will consider the changing of the Company's name from CI Resources to PRL Global Ltd.

The proposed change of name reflects both the company's origins from its humble beginnings as Phosphate Resources Ltd - a company founded by the community of Christmas Island in 1990, and the Group's continuing global expansion driven by Malaysia-based PRM, along with the recent acquisitions of Singapore-based Liven Nutrients, and Swiss-based Kemoil.

Despite this focus on diversification, Christmas Island has and will continue to play a fundamental role in the Group. Our Company will continue our strong support for the Island, its community and broader stakeholders – via the delivery of economic, environmental, and social outcomes.

Whilst Shareholders will be able to vote in-person during the Annual General Meeting, you are encouraged to lodge a proxy ahead of the Annual General Meeting. Shareholders can vote by proxy by completing the enclosed Proxy Form. Instructions on how to appoint a proxy or return the Form are detailed on the Proxy Form.

We encourage all shareholders to access and read the Notice of Meeting prior to voting.

Should you wish to discuss the matters in this Notice of Annual General Meeting please do not hesitate to contact the Company Secretary Elizabeth Lee on elizabethl@cirp.com.

Yours sincerely

David Somerville

1. BACKGROUND

1.1 Background to the Transaction

Prosper Trading Sdn Bhd (Reg. No. 144561-U) (**Prosper**) is a company that is registered in Malaysia. Prosper is a substantial holder of the Company and is a registered holder of 11,616,000 shares in the capital of the Company (10.05%).

Phosphate Resources Limited (ACN 009 396 543) (**PRL**) is a wholly owned subsidiary of the Company. Cheekah Kemayan Plantations Sdn Bhd (reg. No. 50489-P) (**CKP**) is a wholly owned subsidiary of PRL. PRL originally acquired all shares of CKP from a related entity of Prosper in March 2011.

The Company has entered into a sale and purchase agreement (**SPA**) with Prosper, PRL and CKP, pursuant to which Prosper (or its nominee) will acquire 100% of the shares in the capital of CKP (**CKP Shares**) from PRL, subject to the terms and conditions of the SPA. On completion of the SPA, the Company will transfer the CKP Shares to Prosper (**Disposal**).

The material terms and conditions of the SPA are outlined in Schedule 2 of this Notice.

As Prosper holds 10.05% of the shares in the Company, Prosper is deemed a substantial shareholder by virtue of ASX Listing Rule 10.1.3.

Pursuant to Resolution 2, the Company seeks Shareholder approval for the disposal of CKP in accordance with Listing Rule 10.1.

Dato' Sri Tee Lip Sin is a director of Prosper and a substantial (10%) holder of the Company and is a related party for the purpose of the SPA. Mr Tee Lip Jen is a director of Prosper and a related party for the purpose of the SPA. Dato' Sri Tee Lip Sin and Mr Tee Lip Jen are also directors of the Company. Prosper is deemed a related party by virtue of section 228(4) of the *Corporations Act 2001* (Cth). Accordingly, the Company seeks Shareholder approval for the disposal of CKP in accordance with Chapter 2E.

1.2 Assets and Liabilities of CKP

CKP assets include the following:

- (a) a 4,060-acre palm oil plantation located in the State of Pahang, Malaysia (**CKP Plantation**);
- (b) a processing mill also located in the State of Pahang, Malaysia (**CKP Mill**);
- (c) 13,018,700 shares in United Malacca Berhad, a company listed on the Main Board of the Bursa Malaysia (**UMB Shares**), with a closing price on 17 August 2023 of Malaysian Ringgit (**RM**) 5.23; and
- (d) goodwill, contracts, intellectual property, plant and equipment, trading stock, business records and all other assets owned by CKP (**Other Assets**).

CKP has the following liabilities:

- (a) approximately RM21.09 million bank debt (**OCBC Loan**), which is secured by a parent company guarantee provided by PRL;
- (b) a related party debt to PRL, which is currently approximately \$3.6 million (**PRL Debt**); and
- (c) all other liabilities of CKP (**the CKP Liabilities**).

1.3 Consideration

In consideration for the CKP Shares together with all its moveable and immovable assets but without 13,018,700 UMB Shares and subject to the terms and conditions of this SPA, Prosper agrees to pay a cash consideration of RM155,000,000 (**Total Cash Consideration**).

Currency	Conversion Rate (as of 18 August 2023)	Transaction
Malaysian Ringgit	RM1	RM155,000,000
Australian Dollar	\$0.33	\$51,500,000

The breakdown and calculation of the consideration will be as follows:

- (a) RM15,500,000 shall be due and payable on the execution of this SPA (**Execution Date**) as follows:-
 - (i) to PRL the sum of RM4,650,000; and
 - (ii) to the Director General of Inland Revenue or Prosper' lawyer (whichever is applicable) the sum of RM10,850,000 being the retention sum of real property gain tax.
- (b) RM35,500,000 less the Working Capital Adjustment Amount shall be due and payable on the Completion Date (**Initial Payment**):

- (c) RM52,000,000 shall be due and payable on the date that is six (6) months from the Completion Date or on or before 31 July 2024 (whichever is later) **(Second Payment)**; and
- (d) RM52,000,000 shall be due and payable on the date that is twelve (12) months from the Completion Date or on or before 31 December 2024 (whichever is later) **(Final Payment)**.

In any event, the Total Cash Consideration must be paid by Prosper (and/or its nominee) no later than on the date that is eighteen (18) months from the Completion Date.

1.4 Commercial reasoning for Transaction

- Free up capital to reduce debt and allow organic growth for the downstream fertiliser business;
- Divest palm oil assets which are increasingly problematic on an ESG basis for shareholders and financiers;
- Provide shareholders with special dividends and share buyback; and
- Clarify the strategy of the business to the market and rebrand the Company as a focussed vertically integrated fertiliser business.

Indicative Use of Funds *	Amount
Special Dividends (2 x 5c special dividend payments aligned with the completion and mid-2024 payments)	AUD11.5m
Share buybacks to commence in mid-2024 aligned with mid-year payment	AUD5.0m
Pay down Debt held by the Group	AUD26.0m
Capex and working capital for core existing operations on Christmas Island	AUD9.0m
TOTAL	AUD51.5m

* Important note: This is an indicative use of funds as at the date of this Notice of Meeting. The Directors reserves the right to vary the use of funds as necessary.

1.5 Non-Associated Directors

(a) Advantages

- The deal terms are fair and reasonable as confirmed by the Independent Expert's Report;
- The CKP assets are no longer core to the Company's strategy and the Company considers its capital can be more effectively allocated in other areas.
- Palm oil markets have proven volatile and therefore return on investment has been below targets.

- Notwithstanding that the CKP business operates at the highest ESG standards, there are potentially adverse ESG implications for the Company in continuing to operate as a palm oil producer and particularly as the Company seeks to extend its mining lease on Christmas Island.
- Attracting finance is becoming increasingly challenging with many financiers simply not financing companies with palm oil assets, despite the Roundtable on Sustainable Palm Oil (RSPO) status of CKP.

(b) **Disadvantages**

- The CKP business, whilst volatile, is generally a profitable business which provides the Company with access to different markets which have potential synergies with the Company's other businesses.

2. **RESOLUTION 1 – ADOPTION OF REMUNERATION REPORT**

2.1 **General**

The Corporations Act 2001 requires that at a listed company's annual general meeting, a resolution that the remuneration report be adopted must be put to the shareholders. However, such a resolution is advisory only and does not bind the directors of the company or the company.

The remuneration report sets out the company's remuneration arrangements for the directors and senior management of the company. The remuneration report is part of the directors' report contained in the annual financial report of the company for a financial year.

The chair of the meeting must allow a reasonable opportunity for its shareholders to ask questions about or make comments on the remuneration report at the annual general meeting.

2.2 **Voting consequences**

A company is required to put to its shareholders a resolution proposing the calling of another meeting of shareholders to consider the appointment of directors of the company (**Spill Resolution**) if, at consecutive annual general meetings, at least 25% of the votes cast on a remuneration report resolution are voted against adoption of the remuneration report and at the first of those annual general meetings a Spill Resolution was not put to vote. If required, the Spill Resolution must be put to vote at the second of those annual general meetings.

If more than 50% of the votes cast are in favour of the Spill Resolution, the company must convene a shareholder meeting (**Spill Meeting**) within 90 days of the second annual general meeting.

All the directors of the company who were in office when the directors' report (as included in the company's annual financial report for the most recent financial year) was approved, other than the managing director of the company, will cease to hold office immediately before the end of the Spill Meeting but may stand for re-election at the Spill Meeting.

Following the Spill Meeting those persons whose election or re-election as directors is approved will be the directors of the Company.

2.3 Previous voting results

At the Company's previous Annual General Meeting the votes cast against the remuneration report considered at that annual general meeting were less than 25%. Accordingly, the Spill Resolution is not relevant for this Annual General Meeting.

Proxy voting restrictions

Shareholders appointing a proxy for this Resolution should note the following:

Proxy	Directions given	No direction given
Key Management Personnel ¹	Vote as directed	Unable to vote ³
Chair ²	Vote as directed	Able to vote at discretion of Proxy ⁴
Other	Vote as directed	Able to vote at discretion of Proxy

Notes:

1. Refers to Key Management Personnel (other than the Chair) whose remuneration details are included in the Remuneration Report, or a Closely Related Party of such a member.
2. Refers to the Chair (where he/she is also a member of the Key Management Personnel whose remuneration details are included in the Remuneration Report), or a Closely Related Party of such a member).
3. Undirected proxies granted to these persons will not be voted and will not be counted in calculating the required majority if a poll is called on this Resolution.
4. The Proxy Form notes it is the Chair's intention to vote all undirected proxies in favour of all Resolutions.

3. RESOLUTION 2 - DISPOSAL OF SUBSTANTIAL ASSET TO A SUBSTANTIAL SHAREHOLDER

3.1 General

Resolution 2 seeks Shareholder approval pursuant to ASX Listing Rule 10.1 and Chapter 2E of the Corporations Act for the disposal of a substantial asset to Prosper, a substantial holder and related party of the Company, as outlined in Section 1 of this Explanatory Statement.

As outlined in Section 1.1 of this Explanatory Statement above, the Company has entered into a SPA with Prosper, PRL and CKP, pursuant to which Prosper (or its nominee) will acquire the CKP Shares from PRL. In consideration for the Disposal, the Company is to receive the consideration set out in Section 1.3.

The material terms and conditions of the SPA are set out in further detail in Schedule 2 of this Notice.

Prosper holds 10.05% of the shares in the capital of the Company and is deemed a substantial shareholder by virtue of ASX Listing Rule 10.1.3. Further, Dato' Sri Tee Lip Sin is a director of Prosper and a substantial (10%) holder of the Company and is a related party for the purpose of the SPA. Mr Tee Lip Jen is a director of Prosper and a related party for the purpose of the SPA. Dato' Sri Tee Lip Sin and Mr Tee Lip Jen are also directors of the Company. Prosper is deemed a related party by virtue of section 228(4) of the *Corporations Act 2001* (Cth). Accordingly,

the Company seeks Shareholder approval for the disposal of CKP in accordance with Chapter 2E. The Non-Associated Directors assessment is that the transaction is on arm's length terms and that formal approval is not, as a matter of legal technicality, required under Chapter 2E as section 210 of the Corporations Act 2001 applies. Notwithstanding this assessment, the Company considers it prudent as a matter of good corporate governance to seek Shareholder approval for the transfer of the CKP Shares to Prosper in accordance with Chapter 2E of the Corporations Act.

Prosper is a related party of the Company by virtue of being an entity controlled by a related party of a director of the Company; and a substantial shareholder of the Company for the purpose of Listing Rule 10.1. Accordingly, the Company seeks Shareholder approval for the Disposal in accordance with Listing Rule 10.1 pursuant to Resolution 2.

3.2 ASX Listing Rule 10.1

ASX Listing Rule 10.1 provides that an entity must ensure that neither the entity, nor any of its child entities, acquires or agrees to acquire a substantial asset from, or dispose of or agrees to dispose of a substantial asset to, any of the following persons:

- (a) a related party;
- (b) a child entity;
- (c) a person who is, or was at any time in the 6 months before the transaction or agreement, a substantial (10%+) holder in the entity;
- (d) an associate of a person referred to in Listing Rules 10.1.1 to 10.1.3; or
- (e) a person whose relationship to the entity or a person referred to in Listing Rules 10.1.1 to 10.1.4 is such that, in ASX's opinion, the transaction should be approved by Shareholders.

without the prior approval of holders of the entity's ordinary shareholders.

3.3 Independent Expert's Report

ASX Listing Rule 10.5.10 requires a notice of meeting containing a resolution under ASX Listing Rule 10.1 to include a report on the transaction from an independent expert.

The Independent Expert's Report accompanying this Notice sets out a detailed independent examination of the Disposal to enable non-associated Shareholders to assess the merits and decide whether to approve Resolution 2. The independent expert has concluded that the Disposal is **FAIR AND REASONABLE** to the non-associated Shareholders.

Shareholders are urged to carefully read the Independent Expert's Report to understand its scope, the methodology of the valuation and the sources of information and assumptions made.

3.4 Substantial Asset

Pursuant to ASX Listing Rule 10.2, an asset is "substantial" if its value, or the value of the consideration for it is, or in ASX's opinion is, 5% or more of the equity

interests of the entity as set out in the latest accounts given to ASX under the ASX Listing Rules.

The equity interests of the Company as defined by the ASX Listing Rules and as set out in the latest accounts given to ASX under the ASX Listing Rules (being for the year ending 30 June 2023) was \$234,304,000. Given that, any asset valued at greater than \$11,715,200 would constitute a substantial asset.

As further set out in Section 1.3 above, the value of the consideration for the Disposal is \$51,500,000, which is equal to approximately 21.9% of the equity interests of the Company. As the value of the consideration is greater than 5% of the Company ASX Listing Rule 10.1 applies to the Disposal.

Accordingly, the Company's interest in CKP, will be considered a "substantial" asset for the purposes of Listing Rule 10.2, and the Company is required to seek Shareholder approval under Listing Rule 10.1 for the Disposal.

3.5 Related Party

For the purposes of ASX Listing Rule 10.1, a related party of a company includes the directors and entities controlled by the directors. 'Control' for the purposes of ASX Listing Rule 10.1 means the capacity to determine the outcome of decisions about the entity's financial and operating policies.

Dato' Sri Tee Lip Sin is a director of Prosper and a substantial (10%) holder of the Company and is a related party for the purpose of the SPA. Mr Tee Lip Jen is a director of Prosper and a related party for the purpose of the SPA. Additionally, the Associated Directors have a related party that controls Prosper. Section 228(4) of the Corporations Act confirms an entity controlled by a related party referred to in subsection 228(3)(a) are to be considered a related party of the public company. Accordingly, Prosper is considered a related party for the purposes of ASX Listing Rule 10.1 on the basis that it is controlled by a related party of the Associated Directors.

3.6 Substantial holder

For the purposes of ASX Listing Rule 10.1, a substantial (10%) holder is a person who has a relevant interest (either directly or through its associates) or had at any time in the six months before the transaction, in at least 10% of the total votes attaching to the voting securities of the Company.

Both Prosper and Dato' Sri Tee Lip Sin (and associated entities) currently hold a relevant interest in the Company. Prosper holds 10.05% and Dato' Sri Tee Lip Sin holds 27.19% and as a result Prosper is a substantial (10%) holder for the purpose of ASX Listing Rule 10.1. Mr Tee Lip Jen holds 1,229,150 Shares in the Company (1.06%).

3.7 Requirement for shareholder approval

As a result of the above conclusions, the completion of the Disposal will result in the disposal of a substantial asset to a related party and a substantial (10%) holder of the Company. The Company is therefore required to seek Shareholder approval under ASX Listing Rule 10.1.

As stated in Section 3.3 above, ASX Listing Rule 10.5.10 requires a notice of meeting containing a resolution under ASX Listing Rule 10.1 to include a report on the transaction from an independent expert. The Company has engaged

Pendragon Capital Limited to act as independent expert in the context of the Disposal.

The Independent Expert's Report has been prepared for the purpose of assisting Shareholders' consideration and assessment of the merits of the Disposal and making of their decision whether to vote in favour of Resolution 2. Shareholders are urged to carefully read the Independent Expert's Report, to understand the scope of the report, and the methodology and valuation and assumptions made.

The Independent Expert has concluded that the Disposal is FAIR AND REASONABLE to the non-associated Shareholders of the Company.

The Non-Associated Directors have outlined the advantages and disadvantages of the Disposal in Sections 1.5 above. The Non-Associated Directors consider that those are relevant to all Shareholders. All material information required for Shareholders to consider Resolution 2 is outlined in this Notice of Meeting (and the Independent Expert's Report).

A copy of the Independent Expert's Report accompanies this Notice of Meeting at Schedule 3.

3.8 Chapter 2E of the Corporations Act

For a public company, or an entity that the public company controls, to give a financial benefit to a related party of the public company, the public company or entity must:

- (a) obtain the approval of the public company's members in the manner set out in sections 217 to 227 of the Corporations Act; and
- (b) give the benefit within 15 months following such approval,

unless the giving of the financial benefit falls within an exception set out in sections 210 to 216 of the Corporations Act.

The financial benefit being given to Prosper is the CKP Shares. As stated in section 9 of the Independent Expert's Report, the enterprise value of CKP on a control basis has been assessed to be approximately \$108,427,531 (based on the net asset value as set out in that section).

Accordingly, the Disposal constitutes the giving of a financial benefit to Prosper, who is a related party. Upon completion of the Disposal, the Associated Directors will receive a financial benefit in the form of an interest in CKP (as described above).

The Non-Associated Directors assessment is that the transaction is on arm's length terms and that formal approval is not, as a matter of legal technicality, required under Chapter 2E as section 210 of the Corporations Act 2001 applies. Notwithstanding this assessment, the Company considers it prudent as a matter of good corporate governance to seek Shareholder approval for the transfer of the CKP Shares to Prosper in accordance with Chapter 2E of the Corporations Act.

3.9 Technical Information required by Listing Rule 14.1A

If Resolution 2 is passed, the Company will be able to proceed with the Disposal to Prosper.

If Resolution 2 is not passed, the Company will not be able to proceed with the Disposal to Prosper.

3.10 Technical information required by ASX Listing Rule 10.5 and section 219 of the Corporations Act

Pursuant to and in accordance with ASX Listing Rule 10.5 and section 219 of the Corporations Act, the following information is provided in relation to the Disposal:

- (a) the Company is entering into the SPA with Prosper for the disposal of the substantial asset;
- (b) the Company and Prosper are related parties by virtue of the Director of the Company, Dato Sri Tee Lip Sin. Dato Sri Tee Lip Sin is a director of Prosper and a substantial (10%) holder of both the Company and Prosper. Accordingly, Prosper is deemed to be a "related party" of the Company and therefore falls within the category set out in ASX Listing Rule 10.1.1;
- (c) the asset being disposed of is CKP. Please refer to Section 1.2 above for further information on the entity.
- (d) the consideration payable by Prosper is set out in Section 1.3 above;
- (e) summaries of the material terms of the Agreements are set out in Schedule 2;
- (f) the Company intends to use the funds received as consideration under the Agreements for the purposes outlined in section 1.4 of the Explanatory Statements;
- (g) see Schedule 2 for the applicable timetable for completing the disposal;
- (h) a voting exclusion statement is included in Resolution 2 of this Notice;
- (i) the Non-Associated Directors recommend that Shareholders vote in favour of Resolution 2 for the reasons set out in Section 1.5;
- (j) the Associated Directors have a material personal interest in the outcome of Resolution 2 on the basis that the Company and Prosper are related parties by virtue of the Associated Directors being directors and/or management of Prosper and related parties of substantial holders of both the Company and Prosper. For this reason, the Associated Directors do not believe that it is appropriate to make a recommendation on Resolution 2 of this Notice;
- (k) the Board is not aware of any other information that is reasonably required by Shareholders to allow them to decide whether it is in the best interests of the Company to pass Resolution 2; and
- (l) the Independent Expert's Report is included at Schedule 3 of this Notice.

4. RESOLUTION 3 - ELECTION OF DIRECTOR – MR KENG SIEW ONG

4.1 General

The Constitution allows the Directors to appoint at any time a person to be a Director either to fill a casual vacancy or as an addition to the existing Directors,

Mr Ong is currently an Independent Non-Executive Director of Paramount Corporation Berhad, United Malacca Berhad and Pekat Group Berhad, all listed on Bursa Malaysia.

4.3 Independence

Mr Ong has no interests, position or relationship that might influence, or reasonably be perceived to influence, in a material respect his capacity to bring an independent judgement to bear on issues before the Board and to act in the best interest of the Company as a whole rather than in the interests of an individual security holder or other party.

5.3 Independence

Mr Krishnan as a director of Phosphate Resources Malaysia along with CKP, which is proposed to be acquired by Prosper as is the subject of Resolution 2, will not meet the threshold of being independent due to his executive role in the business along with his position at CKP. Mr Krishnan's interests, position or relationship might influence, or reasonably be perceived to influence, in a material respect his capacity to bring an independent judgement to bear on issues before the Board and to act in the best interest of the Company as a whole rather than in the interests of an individual security holder or other party.

Dear Directors

INDEPENDENT EXPERT'S REPORT TO SHAREHOLDERS IN CI RESOURCES LIMITED

1. INTRODUCTION

1.1. Introductory Statement

- 1.1.1. You have requested Pendragon Capital Limited ("**Pendragon**") to prepare an Independent Expert's Report ("**Report**") to advise the non-associated shareholders of CI Resources Limited ("**CIL**" or "**the Company**") whether the disposal of its 100% interest in Cheekah Kemayan Plantations Sdn Bhd ("**CPK**") through its wholly owned subsidiary, Phosphate Resources Limited ("**PRL**") to Prosper Trading Sdn Bhd ("**Prosper**") ("**Proposed Transaction**"), is fair and reasonable to Shareholders who are not associated with Prosper ("**Non-associated Shareholders**").
- 1.1.2. CIL is a public company and is listed on the Australian Securities Exchange ("**ASX**").
- 1.1.3. Prosper is a private company that is registered in Malaysia and Prosper is a shareholder of CIL.
- 1.1.4. On 26 September 2023, the Company executed a Sale and Purchase Agreement ("**SPA**") with Prosper to sell 100% of the issued capital of CKP to Prosper.
- 1.1.5. At completion CKP is required to:
- dispose of 13,018,700 United Malacca Berhad shares ("**UMB Shares**") held within CKP to an entity nominated by PRL;
 - declare all proceeds derived by CKP from the disposal of the UMB Shares as dividends to PRL; and
 - discharge a related party debt to PRL, which is currently AUD3.6 million.
- 1.1.6. The total consideration of the 100% acquisition of the issued Capital in CKP, after the transactions in 1.1.5, is RM 155,000,000 plus a Working Capital Adjustment Amount (as defined in 4.3.3) ("**Total Cash Consideration**"), payable as set out in 4.3.
- 1.1.7. ASX Listing Rule 10.1 provides that approval is required for certain acquisitions or disposals between an entity and persons in a position to influence the entity. Per the requirements under ASX Listing Rule 10.5.10, a report on the transaction is required from an independent expert to provide an opinion as to whether the transaction is fair and reasonable for inclusion within a notice of meeting to approve the transaction.

- 1.1.8. The Company has requested an Independent Expert's Report to inform Shareholders of the Company whether, in the expert's opinion, the Proposed Transaction is fair and reasonable for Non-associated Shareholders in accordance with Regulatory Guide 74 ("RG 74") and pursuant to ASX Listing Rule 10.1. Terms used in this Report have the same meaning as corresponding terms in the Notice of Meeting.

2. SUMMARY AND OPINION

2.1. Opinion

- 2.1.1. Based on our analysis, as outlined further in this Report, we have concluded that the Proposed Transaction **is fair and reasonable** to Non-associated Shareholders of the Company.
- 2.1.2. This section is a summary of our opinion and does not substitute for a complete reading of this Report.
- 2.1.3. We recommend that Shareholders carefully read all relevant documentation including any explanatory notes, contact their own professional advisors and consider their own specific circumstances before voting for or against the Proposed Transaction.
- 2.1.4. There are benefits and risks associated with implementing or not implementing the Proposed Transaction, the outcomes of which may not suit all Shareholders.

2.2. Fairness

- 2.2.1. In section 11 of this Report, we determined the consideration paid compared to the value of CKP, as detailed below:

	Ref	Preferred Value RM
Total Cash Consideration received	Section 10	153,345,857
NPV of Total Cash Consideration received	Section 10	147,837,851
Value of CKP	Section 9	130,077,531

- 2.2.2. In the absence of any other relevant information, as the Total Cash Consideration is more than the value of CKP, we have assessed the terms of the Proposed Transaction in accordance with RG 111 and have determined that the Proposed Transaction is **fair** to the Non-associated Shareholders.

2.3. Reasonableness

- 2.3.1. If the Proposed Transaction is fair it is by definition, reasonable.
- 2.3.2. In our analysis outlined in Section 12 of this Report, we detail the advantages and disadvantages of the Proposed Transaction.
- 2.3.3. A summary of our advantages and disadvantages are as follows:

Advantages	Disadvantages
Increase in cash available to invest in projects aligned with the Company's goals and objectives and which may offer a better return to the group.	The Company may not be able to identify future investment opportunities which are more profitable than the CKP operations.

Advantages	Disadvantages
• Divestment in plantation assets de-risking from any volatility in the palm oil sector including fluctuations in market prices and environmental impacts. • As the sale of CKP is a cash transaction, the ownership interest of existing shareholders of CIL will not be diluted. • There may be environmental issues associated with palm oil growing and production which will be avoided as a result of the sale. • As the shares in CKP are being sold, a more favourable tax outcome may be achieved on the implicit capital gain arising from implementing the JLL independent valuation of the plantations and processing mill.	

3. SCOPE OF THE REPORT

3.1. Scope

- 3.1.1. An independent expert must, in certain circumstances, be appointed to meet the requirements of the Corporations Act 2001 (**"the Act"**), the ASX Listing Rules and the regulatory guides published by the Australian Securities and Investments Commission (**"ASIC"**).
- 3.1.2. The matters to be considered at the general meeting and additional information regarding those matters are set out in detail in the Notice of General Meeting. These documents are important and should be read in conjunction with this Report and any other information provided to the Shareholders by the Company regarding the Proposed Transaction.
- 3.1.3. This Report is general financial product advice only and has been prepared without taking into account the objectives, risk profile, financial situation or needs of each individual Shareholder. Before acting in relation to their investment, Shareholders should consider the appropriateness of the advice having regard to their own objectives, financial situation or needs.
- 3.1.4. Approval or rejection of the Proposed Transaction is a matter for individual Shareholders. Shareholders who are in doubt as to the action they should take in relation to the Proposed Transaction should consult their own professional advisor.

3.2. Purpose of the Report

- 3.2.1. The Directors of the Company have engaged Pendragon to prepare an Independent Expert's Report in relation to Resolution 2 of the Notice of Meeting to assess whether the Proposed Transaction is fair and/or reasonable to Non-associated Shareholders.

3.2.2. ASX Listing Rule 10.1 states that an entity must ensure that neither it, nor any of its subsidiaries, acquires or agrees to acquire a substantial asset from, or disposes of or agrees to dispose of a substantial asset to:

- (a) A related party of the entity;
- (b) A subsidiary of the entity;
- (c) A person who is, or was at any time in the 6 months before the transaction or agreement, a substantial (10%+) holder in the entity;
- (d) An associate of a person referred to in (a) to (c) above; or
- (e) A person whose relationship to the entity or a person referred to in (a) to (d) above is such that, in ASX's opinion, the transaction should be approved by shareholders,

without obtaining its shareholders' approval, unless any of the exceptions in ASX Listing Rule 10.3 apply.

3.2.3. Listing Rule 10.1 is based on the premise that a Listing Rule 10.1 party is likely to be in a position to influence whether the entity acquires a substantial asset from them, or disposes of a substantial asset to them, as well as the terms on which the acquisition or disposal take place.

3.2.4. An entity that is in a position of significant influence specifically includes any related party to the listed entity and any 'substantial (10%+) holder' (as defined in the ASX Listing Rules). A related party includes directors of an entity and entities controlled by such directors (including directors within the past 6 months), and a 'substantial (10%+) holder' is a person who, together with their associates, holds a relevant interest in at least 10% of the issued voting shares in the listed entity.

3.2.5. Under ASX Listing Rule 10.2, an asset is 'substantial' if its value, or the value of the consideration for it is, or in ASX's opinion is, 5% or more of the equity interests of the company as set out in the latest accounts given to ASX. Based on the latest audited annual accounts given to ASX, for the financial year ended 30 June 2022, a substantial asset would be an asset of value greater than A\$10.1639m (being 5% of CIL's equity of \$203,278m).

3.2.6. Therefore, since Prosper currently holds 10.05% of the shares on issue in the Company, and has, in the 6 months prior to execution of the agreement, been a substantial (10%+) holder in the Company, the Company is required to seek shareholders' approval for the Proposed Transaction in accordance with Listing Rule 10.1.

3.2.7. The sole purpose of this Report is to express Pendragon's opinion as to whether, for the purposes of Listing Rule 10.1, the Proposed Transaction is fair and/or reasonable to Non-associated Shareholders. This Report cannot be used by any other person for any other reason or for any other purpose. A copy of this Report will accompany the Notice of General Meeting to be sent to Shareholders.

3.3. Regulatory guidance

3.3.1. In determining whether the transaction is "fair and reasonable", we have considered ASIC RG 111 – Content of Expert Reports, which sets out how experts should analyse a proposed transaction, the different valuation methodologies used by experts and the treatment of assumptions.

3.4. Fair and Reasonable

- 3.4.1. The term fair and reasonable does not have a legal definition. However, ASIC RG 111 establishes certain guidelines in respect of the preparation of experts' reports.
- 3.4.2. What is fair and/or reasonable for Non-associated Shareholders should be judged in all circumstances of the Proposed Transaction. The Report must compare the likely advantages and disadvantages for Non-associated Shareholders if the Proposed Transaction is agreed to and if it is not.
- 3.4.3. RG 111.52 to RG 111.63 provides guidance on related party transactions under Chapter 2E of the Corporations Act or for a transaction with a person in a position of influence that requires member approval under ASX Listing Rule 10.
- 3.4.4. RG111 states that when analysing related party transactions, an expert needs to focus on the substance of the related party transaction rather than the legal mechanism. In analysing a related party transaction, the expert is required to express an opinion on whether the transaction is 'fair and reasonable' from the perspective of non-associated members. This analysis is specifically required where the report is also intended to accompany the Notice of Meeting for member approval of an asset acquisition or disposal under ASX Listing Rule 10.1.
- 3.4.5. Furthermore, RG 111.56 states that, where an expert assesses whether a related party transaction is 'fair and reasonable', this should not be applied as a composite test. There should be a separate assessment of whether the transaction is 'fair' and 'reasonable'.
- 3.4.6. A proposed related party transaction is 'fair' if the value of the financial benefit to be provided by the entity to the related party is equal to or less than the value of the consideration being provided to the entity. This comparison should be made assuming a knowledgeable and willing, but not anxious, buyer and a knowledgeable and willing, but not anxious, seller acting at arm's length.
- 3.4.7. By definition, an offer is reasonable if it is fair. However, where an offer is not fair, it can be reasonable if, after considering other significant factors, the interests of the Shareholders are reasonably balanced.

4. PROPOSED TRANSACTION

4.1. Sale and Purchase Agreement

- 4.1.1. A SPA detailing the divestment by PRL (a 100% owned subsidiary of CIL) of CKP to Prosper was executed on 26 September 2023 for CIL to divest 100% of the shares held in CKP through PRL to Prosper.

4.2. Conditions Precedent

- 4.2.1. Completion of the Proposed Transaction is conditional upon the satisfaction (or waiver) is subject to the satisfaction or waiver of the following conditions:

- 6.1.5. CKP uses its own fresh fruit bunches (“FFB”) grown within the estate to produce its palm oil. In addition to its own FFB’s, CKP purchases FFB’s from surrounding estates to utilise the surplus capacity of the mill. External purchases account for approximately 80% of the mill’s annual throughput.

7. INDUSTRY ANALYSIS

7.1. Overview and History

- 7.1.1. Originating from West Africa, palm oil is an edible vegetable oil produced from the mesocarp of the fruit of oil palms and is the world's highest yielding oil crop, with output 5-10 times higher per hectare than other leading vegetable oil crops.

7.2. Supply of Palm Oil

- 7.2.1. Palm oil production is concentrated in Indonesia and Malaysia, together accounting for approximately 85-90% of total palm oil produced.
- 7.2.2. Since the start of the COVID-19 pandemic in 2020, foreign workers (who account for approximately 75% of the 500,000 harvesters employed on Malaysian palm oil estates) could not return due to border restrictions. The second challenge is the high cost of fertiliser. Fertiliser cost is a major cost component after labour cost for oil palm producers.
- 7.2.3. With the COVID-19 pandemic, many Malaysian palm oil companies have struggled with labour shortage as well as estate management issues resulting in longer periods of time to harvest palm oil as well as lower yield rates.
- 7.2.4. Palm oil production in Indonesia was 6.7% higher in the second quarter of 2021, gathering pace from the 1.5% growth in the first quarter. The Malaysian Palm Oil Board ("MPOB") estimated that in 2021 palm oil output in the country will drop to 18.3 million tonnes from 2020's 19.2 million tonnes. Palm oil ending stocks are expected to stay below average levels of 4.0 million tonnes in Indonesia and 2.1 million tonnes in Malaysia.

- 7.2.5. Leading into 2022, the benchmark CPO contract price reached all-time high around May due to the Russia-Ukraine War with Indonesia's temporary export bans which averaged MR4,943/mt, which lead to higher supply of CPO from Malaysia.
- 7.2.6. Palm Oil production is set to recover in 2023, after three years of decline, with the industry estimates a forecast of 3% to 5% increase over 18 million mt produced in 2022. Globally, the vegetable oil production is likely to accelerate to 4% in 2023, according to USDA forecasts which are driven by robust output growth forecast for rapeseed and soybean oils.

7.3. Crude Palm Oil Price

- 7.3.1. The MPOB records the daily Crude Palm Oil ("CPO") prices for Malaysia. The CPO price in 2011 was 3,283 RM/tonne which since then has declined at an average of 25% to 2019 at 2,119 RM/tonne.
- 7.3.2. The following graph shows the yearly average trend of CPO prices since 2011 per MPOC:

Source: MPOB

- 7.3.3. The CPO price has trended lower with a stable high and low price over the last 10 years, however, since 2020 CPO prices has rallied as high as 6,100 RM/tonne. The rally in price leading to 2022 were due to the recent invasion of Ukraine by Russia creating fear of global vegetable oil shortages and in addition to the supply tightness caused by Indonesian export restrictions, labour shortages in Malaysia and weather concerns in South America. There is a downward trend in the prices of CPO in 2023, due to reduced demand affected by the price competitiveness of other vegetable oils compared to CPO along with lower demand from major buyers and expectations and impacts of facing a possible recession which would lead slower global growth and contraction of global economies.

7.4. Industry Outlook on CPO Price

- 7.4.1. Reduction in the CPO prices in the first quarter of 2023 have been due to the official transition from La Niña to El Niño (climate pattern describing the unusual warming of surface waters in eastern Pacific Ocean). The change in the climate has had significant implications for the agricultural regions, particularly in Malaysia, disrupting rainfall frequency and leading to severe drought conditions. Rating agencies such as S&P and Fitch expects the Malaysian benchmark CPO spot prices to weaken further over the 12 months, where the prices are likely to be pressured by the steadily rising CPO output and robust near-term market expectations for supply of competing vegetables.

8. VALUATION METHODOLOGIES

8.1. Consideration of Valuation Methodologies

- 8.1.1. To estimate the fair market value of the Company before and after the Proposed Transaction we have considered common market practice and the valuation methodologies recommended in RG 111 issued by ASIC. Each of these valuation methods is appropriate in certain circumstances and often more than one approach is applied. Per RG 111, an expert should, when possible, use more than one valuation methodology.
- 8.1.2. The choice of methods depends on factors such as the nature of the business being valued, the return on the assets employed in the business, the valuation methodologies usually applied to value such businesses and the availability of the required information.
- 8.1.3. There are a number of methods that can be used to value an entity, including the following:
- (a) Discounted Cash Flow Method
 - (b) Market Based Methods
 - (c) Asset Based Methods

8.2. Discounted Cash Flow Method

- 8.2.1. This method values an entity by discounting the future net cash flows to their present day value using an appropriate discount rate. The discount rate is representative of the opportunity cost of capital being the expected rate of return that could be obtained by investing in equivalent risk investments. This method is generally appropriate where future cash flows can be projected with a reasonable degree of confidence.

8.3. Market Based Methods - Capitalisation of Maintainable Earnings

- 8.3.1. This method places a value on the entity by estimating the likely future maintainable earnings capitalised at a rate which reflects business outlook, business risk, investor expectations, future growth prospects and other factors specific to the entity. Use of this method relies on the availability and analysis of comparable market data.

8.4. Market Based Methods - Industry Specific Methods

- 8.4.1. Use industry specific assumptions and comparisons to form a valuation.

8.5. Market Based Methods - Availability of Alternative Offers

- 8.5.1. Where there are other similar offers, a comparison between offers can be used to determine the market value of the entity.

8.6. Asset Based Methods - Liquidation of Assets Method

- 8.6.1. This method values a company based on the net value of its assets should they be sold in a distressed scenario.

8.7. Asset Based Methods - Orderly Realisation of Assets Method

- 8.7.1. This method values an entity based on the net value of its assets should the assets be put to market and held out for a fair value sale price given the market and condition of the assets.

8.8. Asset Based Methods - Net Tangible Asset Value on a Going Concern Value ("NTA")

- 8.8.1. NTA is appropriate where the majority of assets consist of cash or passive investments. The combined market value of the entity's assets and liabilities is used to value the entity.

8.9. Selection of Valuation Methodology

- 8.9.1. Each of the methods listed above is appropriate in certain circumstances and often more than one approach is applied. Per RG 111, an expert should, when possible, use more than one valuation methodology.
- 8.9.2. The choice of methods depends on factors such as the nature of the business being valued, the return on the assets employed in the business, the valuation methodologies usually applied to value such businesses and the availability of the required information.
- 8.9.3. In assessing the value of CKP, we have selected the Asset Based Method – Orderly Realisation of Assets Method, as the most appropriate methodology. As CKP operates in Malaysia and has a significant land asset and the processing mill, appointing an independent expert to value these specific assets is appropriate under RG 111.134.

9. NET ASSET VALUATION OF CHEEKAH-KEMAYAN PLANTATIONS SDN BHD

- 9.1.1. The net asset value ("NAV") methodology estimates the market value of an entity's securities based on the realisable value of its identifiable net assets. There are three net asset value methods:
- (a) Liquidation of assets method;
 - (b) Orderly realisation of assets method; and
 - (c) Net assets on a going concern method.
- 9.1.2. The asset-based method we believe is most appropriate to value the net assets of CKP is the orderly realisation of assets method. Under this method, assets and liabilities are valued at market value, and the resulting value of the net assets forms the basis for the entity's valuation.
- 9.1.3. The asset-based methods ignore the possibility the entity's value could exceed the realisable value of its assets as they do not recognise the value of intangible assets.
- 9.1.4. In assessing the value of CKP's palm oil plantation and mill, Jones Lang Wootton ("JLW") based in Malaysia were engaged as independent valuer to value CKP's plantation and mill. A copy of their report is attached at Appendix 3.

- 9.1.5. The estimated value of CKP's adjusted net assets on an orderly realisation is RM 130,077,531 as determined in the table below:

Adjustment 1 – Independent valuation by JLW of the plantation and processing mill:

Plantation and processing mill	RM
Plantation	111,000,000
Processing mill	21,000,000
Market value of palm oil plantation and processing mill	132,000,000
Book value recognised as per unaudited 30 June 2023	97,925,521
Fair value adjustment	34,074,479

The valuation approach adopted by JLW is the Market Value which is defined as “the estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm’s-length transaction, after proper marketing where the parties had each acted knowledgeably, prudently and without compulsion”.

In arriving at JLW’s opinion of the Market Values, they have used the following approaches:

- (a) Comparison Approach – Comparison is made of the property under valuation with sales of other similar property. Where dissimilarities exist, adjustments are made.
- (b) Income Approach by way of Profits Method (By Discounted Cash Flow) – which involves the capitalisation of all future profits from the operations of the plantation as a basis to determine the market value of the property.

Full details of JLW’s valuation can be found at Appendix 3.

Adjustment 2 – Cash balance offset to offset PRL loan

We note the loan amount of RM 11,113,560 payable to PRL will be repaid from the cash balance held as at 30 June 2023.

Adjustment 3 – Retention of Quoted Equity Investment

We note from the definition of the consideration of the SPA, the investment of 13,018,700 UMB shares is not included as part of the net assets of CKP for the consideration of the sale and will be transferred to Phosphate Resources (Malaysia) Sdn Bhd (wholly-owned subsidiary of CIL). Hence, we have removed the investment to reflect an accurate total net assets value.

Adjustment 4 – Discharge of OCBC Loan

We note from the definition of the consideration of the SPA, the OCBC loan amounting to RM 21,650,000 is to be discharged on the completion date. Hence, we have removed the OCBC loan to reflect an accurate total net assets value.

10. CONSIDERATION PAID

10.1. Total Cash Consideration

- 10.1.1. As per the SPA, the Total Cash Consideration payable (based on the unaudited 30 June 2023 balance sheet of CKP) is RM 153,345,857 as outlined in the table below:

Total Cash Consideration	Note Ref	RM
Cash Consideration	1	155,000,000
Add:		
Working Capital Adjustment Amount	2	(1,654,143)
Total Cash Consideration Paid		153,345,857

Note 1 – Consideration - Net Assets

We note from the SPA, the total consideration to be paid by Prosper to acquire 100% of CKP is RM 155,000,000.

Note 2 – Working Capital Adjustment Amount

See below for the calculation of the Working Capital Adjustment Amount as per the SPA.

Working Capital Adjustment	RM
Total Current Assets	12,154,091
Total Current Liabilities (excluding OCBC Loan and finance lease liabilities)	(10,606,253)
Deferred Tax Liabilities	(3,201,981)
Adjusted Working Capital	(1,654,143)

10.2. Net Present Value (NPV) of Consideration

10.2.1. As outlined in the SPA, the Total Cash Consideration will be payable as follows:

- RM 4,650,000 receivable at Execution Date;
- RM 33,845,857 receivable at Completion Date being RM 35,500,000 plus the Working Capital Adjustment of RM (1,654,143);
- RM 10,850,000 amount is the expected refund to be received from the DGIS within 60 days of Completion Date for the RPGT paid.
- RM 52,000,000 is the fixed amount to be received within 6 months from Completion Date;
- RM 52,000,000 is the fixed amount to be received within 12 months from Completion Date.

10.2.2. As the cash payments will be made periodically over the next twelve (12) months, we believe it is appropriate to perform a discounted cash flow on the Total Cash Consideration receivable, and outline the NPV of the future cashflows in the table below:

Timeline ¹	Consideration Receivable ¹	Time Period	Discount Rate ²	NPV
Execution Date	RM 4,650,000	0.00	7.36%	RM 4,650,000
Completion Date	RM 33,845,857	0.00	7.36%	RM 33,845,857
2 Months after Execution Date	RM 10,850,000	0.17	7.36%	RM 10,722,299
6 Months from Completion Date	RM 52,000,000	0.50	7.36%	RM 50,185,459
12 Months from Completion Date	RM 52,000,000	1.00	7.36%	RM 48,434,236
Total	RM153,345,857			RM 147,837,851

Note 1- Timeline and Consideration Receivable

With reference to the timeline of consideration payable by Prosper and per the agreed SPA, the following amounts is to be received as below:

- RM 4,650,000 receivable at Execution Date.
- RM 33,845,857 receivable at Completion Date being RM 35,500,000 plus the Working Capital Adjustment of RM (1,654,143). We have not considered the discharge of the OCBC loan to reduce the cash consideration received as the OCBC Loan is attributed to the UMB shares which will be transferred to Phosphate Resources (Malaysia) Sdn Bhd and therefore does not affect the Net Assets or the Consideration receivable.
- RM 10,850,000 amount is the expected refund to be received from the DGIS within 60 days of Completion Date for the RPGT paid.
- RM 52,000,000 is the fixed amount to be received within 6 months from Completion Date.
- RM 52,000,000 is the fixed amount to be received within 12 months from Completion Date.

Note 2 – Discount Rate: Weighted Average Cost of Capital (WACC)

Please refer to Appendix 2 for the detailed calculation of the WACC of 7.36%.

- 10.2.3. Based on our analysis of the above, the NPV of the Total Cash Consideration is RM 147,837,851.

11. ASSESSMENT OF FAIRNESS

11.1. Consideration and Valuation

- 11.1.1. An offer is fair if the value of consideration paid is greater than or equal to the value of CKP.
- 11.1.2. The value of consideration paid and value of CKP, has been summarised in the table below:

Transaction Details	Section Ref	Preferred Value RM
Total Cash Consideration	Section 10	153,345,857
NPV of Total Cash Consideration	Section 10	147,837,851
Value of CKP	Section 9	130,077,531

- 11.1.3. The above values indicate that, in the absence of any other relevant information, we have assessed the terms of the Proposed Transaction in accordance with RG 111 and have determined that the Proposed Transaction is **fair** to the Non-associated Shareholders of the Company, as the present value of a consideration paid is greater than the present value of CKP.

12. ASSESSMENT OF REASONABLENESS

12.1. Reasonableness in absence of fairness

- 12.1.1. As the Proposed Transaction is fair, ASIC RG 111 states that it is, by definition, also **reasonable**.
- 12.1.2. In assessing whether the Proposed Acquisition is reasonable, we have considered the following:

12.2. Advantages of approving the Proposed Transaction

- (a) Increase in cash available to invest in projects aligned with the Company's current strategic goals and objectives offering a better return to the group.
- (b) Divestment from CPO will allow the company to de-risk from any volatility in the palm oil sector including affecting market prices, exchange rate risk, political risks and environmental impact.
- (c) As the sale of CKP is a cash transaction, the ownership interest of existing shareholders of CIL will not be diluted.
- (d) Divestment from CPO will also allow the Company to strengthen their focus on ESG standards.

12.3. Disadvantages of approving the Proposed Transaction

- (a) Given the recent rise in CPO prices, the divestment of CKP may result in a reduction of future earnings of the Company and ultimate returns to Shareholders.

13. CONCLUSION

13.1. Assessment of Fairness & Reasonableness

- 13.1.1. We have considered the terms of the Proposed Acquisition as outlined in the body of this Report and have concluded that the Proposed Transaction is **fair and reasonable to the Non-associated Shareholders of the Company**.

APPENDIX 2 – WEIGHTED AVERAGE COST OF CAPITAL

The Weighted Average Cost of Capital (“WACC”) calculates the rate of return that provides both debt holders and equity holders with a rate of return adequate to compensate them for providing debt and equity capital with their associated risk profiles.

We have estimated the WACC applicable to this transaction using the following formula:

$$WACC = \left(\frac{E}{V} / K_e \right) + \left(\frac{D}{V} \times K_d (1 - t_c) \right)$$

Where:

K_e = cost of equity capital

K_d = cost of debt

t_c = corporate tax rate

E = the market value of equity

D = the market value of debt

$V = D + E$

Cost of equity

The cost of equity of a company is the rate of return required by equity investors. There are a number of theoretical risk and return models available to calculate the cost of equity. Of these the capital asset pricing model (“CAPM”) is the most widely accepted and used methodology for determining the cost of equity capital. The CAPM is based on the assumption that a rational investor will value an asset such that the expected rate of return is equal to the risk free rate of return plus a premium for the risk profile of the asset.

The CAPM formula is set out alongside.

$$K_e = R_f + \beta (R_m - R_f) + \alpha$$

Where:

K_e = required return on equity

R_f = the risk free rate of return

R_m = the expected return on the market portfolio

β = beta, the systematic risk of a stock relative to the market portfolio

α = alpha, the unsystematic risk of a stock

Risk Free Rate

The risk-free rate compensates the investor for the time value of money including the expected inflation rate over the investment period. In practice, for going concern Australian companies, the ten-year Commonwealth Government Bond rate is a widely used and accepted proxy for the risk free rate. This rate is a nominal rate and therefore includes inflation.

We have adopted the ten-year Australian Government Bond rate from the RBA as at 8 August 2023 of 4.01% as a proxy for the risk free rate in determining the cost of equity.

Equity market risk premium

The expected return on a market portfolio represents the return required by investors on equity securities. Therefore, the market risk premium (MRP) is the difference between the expected rate of return on the market portfolio and the risk free rate ($R_m - R_f$). It represents the additional return that investors require to invest in the equity securities, as compared to a risk free investment.

The market risk premium is based on long term historical data including periods of both positive and negative returns experienced during various stages of the market cycle.

Based on our assessment of current market research, we have selected a risk premium of 7.03% to be applied to the calculation of the risk adjusted discount rate applicable to the cash flows.

Beta

The beta coefficient is a measure of the expected volatility and therefore risk of a company's stock relative to the market portfolio.

The expected beta cannot be observed, therefore, the historical beta is usually used as a proxy for the expected beta. A beta can be estimated by regressing the excess returns of the stock against the excess returns of the index representing the market portfolio.

There are significant measurement issues with beta, which means that only limited reliance can be placed on such statistics. Even measurement of historical betas is subject to considerable variation. It requires a considerable degree of judgement.

The beta is measured on the cash flows returned to equity holders and is therefore after interest. Accordingly, a firm's beta also reflects its capital structure. Since financial leverage is likely to alter between firms it is generally erroneous to make comparison of betas between firms without regard to each firm's leverage. Accordingly, the target debt and equity mix is relevant.

The betas can all be degearred (or 'delevered') to remove the impact of leverage.

The method is set out below:

$$Beta (ungeared) = \frac{Beta (geared)}{\left(1 + \frac{D}{E} \times (1 - t)\right)}$$

We have obtained the CIL's beta based on data from Capital IQ for the financial year 2023 being (0.12).

Specific risk

This adjustment represents the premium associated with the small size of CIL relative to the comparable businesses from which the beta data was collected. The size premium ranges are estimated based on market search. Given the subjectivity regarding the size premiums as, the suggested size premiums should be treated as an indication and not an exact guide to the extent of any particular discount or premium that should be applied. We have estimated a size premium of between 5.00%.

Risk-free Rate

We have selected a risk-free rate of 4.01% being the 10-year Australian governments bonds rate as at 8 August 2023, which in our opinion is at a level which is appropriate over the long term.

Debt

We have selected the current rate of 4.52% being the 10-year bank bill swap rate for the week ending 4 August 2023 plus an estimated 2.50% rate of return on debt funders to provide debt to CIL.

Summary of WACC parameters

Substituting the above parameters into the WACC and CAPM formulae noted results in the following range as at the date of the valuation.

Summary of WACC parameters	
Cost of equity (K_e)	
Risk-free rate	4.01%
Geared Beta	(0.12)
Market risk premium	7.03%
Specific risk premium	5.00%
Income tax rate	30%
Cost of equity	8.16%
Cost of debt (K_d)	
Cost of debt	7.02%
After-tax cost of debt	4.91%
Capital structure	
Proportion of equity	75.39%
Proportion of debt	24.61%
WACC (post-tax, nominal)	7.36%

As per the Agronomic Advisory Report for Cheekah Kemayan Plantations dated 8 February 2023 prepared by Kosfarm Development Sdn Bhd, we noted the following comments:-

No.	Item	Agronomist's Observation
1.	Blocking system	Replanting work for P1997B had started in December 2022.
2.	Manuring and Fertilizer	Progress of manuring is up to date whilst semi-mechanical method of fertilizer application has been implemented successfully. Manuring is to be withdrawn for the blocks due for replanting in 2023 and 2024. The program of kieserite failed to be completed in 2022 will be carried forward to 2023.
3.	Bio-waste application	Application of Ecofert could not be completed for certain blocks in 2022.
4.	Crop recovery and harvesting interval	Crop recovery has improved with large number of workers required recently.
5.	Palm appearance and leaf nutrient analysis	Palm appeared acceptable in general except for the flood zones.
6.	Pruning regime and canopy management	Pruning has not been brought up to date especially in P1998C and P1999D.
7.	Field vegetation and Weeding Control	Field vegetation was not seriously overgrown in general but weeding needs to be expedited in certain blocks to reduce weed regeneration.
8.	Pest and Disease control	Deboling of Ganoderma palms was carried out to specifications required but not systematically done on block by block basis, depending on the availability of backhoe.
9.	PR2021F	There were vacancies yet to be filled. Census is to be carried out without delay to check the latest palm density. Palms have shown acceptable vigor and better uniformity. Ablation is recommended to improve growth. Legume cover crop failed to be established. Field vegetation was not entirely satisfactory.
10.	Yield performance	Yield of 2022 was higher than previous year but still lower than expected.

How to Vote on Items of Business

All your securities will be voted in accordance with your directions.

Appointment of Proxy

Voting 100% of your holding: Direct your proxy how to vote by marking one of the boxes opposite each item of business. If you do not mark a box, your proxy may vote as they choose. If you mark more than one box on an item your vote will be invalid on that item.

Voting a portion of your holding: Indicate a portion of your voting rights by inserting the percentage or number of securities you wish to vote in the For, Against or Abstain box or boxes. The sum of the votes cast must not exceed your voting entitlement or 100%.

Appointing a second proxy: You are entitled to appoint up to two proxies to attend the meeting and vote on a poll. If you appoint two proxies you must specify the percentage of votes or number of securities for each proxy, otherwise each proxy may exercise half of the votes. When appointing a second proxy write both names and the percentage of votes or number of securities for each in **Step 1** overleaf.

Attending the Meeting: Completion of a Proxy Form will not prevent individual Shareholders from attending the Meeting in person if they wish. Where a Shareholder completes and lodges a valid Proxy Form and attends the Meeting in person, then the proxy's authority to speak and vote for that Shareholder is suspended while the Shareholder is present at the Meeting.

A proxy need not be a securityholder of the Company.
