

28th April 2025

ASX ANNOUNCEMENT

QUARTERLY ACTIVITIES REPORT – MARCH 2025

HIGHLIGHTS

- **Transformational acquisition of Geopolymer Industries Pty Ltd**
- **Burracoppin Project review to evaluate kaolin development opportunities**

Ragusa Minerals Limited (ASX: **RAS**) ("**Ragusa**" or "**Company**"), is an Australian based mineral exploration company with an interest in the following projects – Burracoppin REE & Kaolin/Halloysite Project in Western Australia and the NT Lithium Project in the Northern Territory. The Company provides the following update for the Quarter:

Geopolymer Industries Pty Ltd Acquisition

The Company announced it has executed a binding Heads of Agreement ("HoA") to acquire a 100% ownership of Geopolymer Industries Pty Ltd and its subsidiaries (together "Geopolymer").

Geopolymer has a 100% interest in two mining leases - M70/324 and M70/439, which comprise the Gabbin Project located in Western Australia, and one exploration lease - EL9571 comprising the Oakland Project, located in Oaklands, New South Wales (together, the "Projects").

The Projects are considered prospective for kaolin and the development of disruptive technology to produce geopolymer cement – with diverse applications for low emission, sustainable cement and related product solutions across the construction and building industries.

The Gabbin Project is situated 260km northeast of Perth and comprises mining leases M70/324 and M70/439 covering ~484 hectares. The Oaklands Project - EL9571, comprises 114.6km² and is located near the town of Oaklands and ~120km northwest of Albury in NSW.

Ragusa plans to undertake exploration, feasibility and development activities, primarily focusing on the Gabbin Project.

Completion of the Transaction will allow for additional development opportunities of the Company's Burracoppin Kaolin Project and strategic plans to leverage its existing substantial kaolin resource base.

The HoA is subject to a number of conditions precedent, including:

- Due diligence by Ragusa and Geopolymer;
- Ragusa undertaking a capital raising targeting to raise \$2 million;
- All necessary approvals by Ragusa and geopolymer, including Ragusa shareholder approval;
- Entering into an executive services agreement with Brad Marwood as an executive director of Ragusa; and
- Such other conditions which are customary for such a transaction of this nature.

The HoA is expected to complete in the first half of CY2025.

Ragusa and Geopolymer, until the earlier of Completion or termination of the HoA, will maintain exclusivity.

STRATEGIC RATIONALE

Ragusa has entered into the Transaction based on its understanding of Geopolymer's business, prospects, strategy and market positioning both currently and in the future, and the alignment with the Company's Burracoppin Kaolin Project. The Transaction aligns with the Company's strategy to leverage its existing substantial resource base. Upon completion, Ragusa will have three kaolin projects with development and growth opportunities with a potential disruptive technology for low emission, environmentally green cement targeting the building and construction industries and the Asian market.

The Transaction provides Ragusa high-quality value-add projects and a strategic development opportunity, cementing a platform for a promising growth trajectory.

CONSIDERATION

Subject to the terms and conditions of the HoA, and subject to obtaining shareholder approval, Ragusa agrees to issue to the Geopolymer shareholders:

- 35,000,000 fully paid ordinary shares in the capital of Ragusa ("Consideration Shares"); and
- an aggregate of 127,500,000 performance rights ("Deferred Consideration") which will be convertible into shares subject to achievement of the applicable performance milestone (each, a "Milestone") as set out below:
 - 32,500,000 performance rights, convertible into Shares subject to Ragusa announcing a positive independent validated definitive feasibility study on M70/439;
 - 42,500,000 performance rights, convertible into Shares subject to Ragusa announcing the commencement of commercial production at either of Geopolymers Projects;
 - 17,500,000 performance rights, convertible into Shares following the completion of a Definitive Feasibility Study on M70/439 and Ragusa's 20-day VWAP exceeding \$0.075;
 - 17,500,000 performance rights, convertible into Shares following the completion of a Definitive Feasibility Study on M70/439 and Ragusa's 20-day VWAP exceeding \$0.115; and
 - 17,500,000 performance rights, convertible into Shares following the completion of a Definitive Feasibility Study on M70/439 and Ragusa's 20-day VWAP exceeding \$0.15,

in consideration for the Acquisition.

CAPITAL RAISING

Ragusa will conduct a placement of fully paid ordinary shares to raise up to \$2,002,000 (before costs) via the issue of up to 91,000,000 shares ("Placement") at \$0.022 per share, representing a 4.7% premium to the Company's share price on 14 March 2025 (being 2.1 cents).

The Placement will consist of two tranches:

- Tranche 1 will comprise the issue of 13,650,000 Shares at 2.2 cents per share, raising \$300,300 (before costs), to be issued under the Company's available placement capacity under ASX Listing Rule 7.1; and
- Tranche 2 will comprise the issue of approximately 77,350,000 Shares at 2.2 cents per share, raising \$1,701,700 (before costs), following receipt of Ragusa shareholder approval at a general meeting.

Funds raised from the Placement will enable Ragusa to finalise the Geopolymer acquisition, fund exploration and feasibility activities at Geopolymers Projects (subject to Transaction completion) and Burracoppin Project, and for corporate and general working capital requirements.

The Placement is only available to ‘sophisticated investors’ (as defined in section 708(8) of the Corporations Act), ‘professional’ investors (as defined in section 708(11) of the Corporations Act), or if the offer is made through a financial services licensee and the requirements of section 708(10) of the Corporations Act.

Vert Capital Pty Ltd is the Lead Manager of the capital raising.

STATUS

The Company is progressing works to complete the Transaction, including necessary works to finalise the Conditions Precedent (noted above), including the Capital Raising.

Burracoppin REE & Kaolin/Halloysite Project (100% interest)

The Burracoppin REE & Kaolin/Halloysite Project comprises granted exploration licence E70/5708, located ~300 kilometres east of Perth in WA, and is prospective for rare earth elements (REE), halloysite and kaolinite. The project is located near Merredin, with port easily accessible via the Great Eastern Highway. All services required for a low-cost operation are in close proximity.

The Company is conducting a review of the project for development opportunities related to kaolin, including determining any feasibility works and any necessary permitting and/or regulatory works that may be required and consider alignment with the new project acquisition.

NT Lithium Project (Earn-in to initial 90% interest and rights to 100% interest)

The NT Lithium Project is located in the highly prospective Litchfield Pegmatite Belt in Northern Territory, approximately 120km south of Darwin.

The Company is conducting a review to determine its strategy for the project.

Corporate

The Company has cash reserves of ~\$127,000 (as at 31 March 2025).
