AUCTION VENUE

THE WHITFIELD CLUB
14 NAPCHESTER ROAD
WHITFIELD
DOVER
KENT
CT16 3JD

This venue has a good size function room, which we use for the auction and a car park, which is free to use, **but you must put your car registration number into the system on arrival to prevent getting a fine.**

The Village of Whitfield is only 2-3 miles from Dover town centre. If travelling by car, other than the last mile, the area has decent 'A' road coverage with longer journeys across Kent towards London and Ashford being mostly dual carriageways. Both the A2 / M2 and A20 / M20 offer good routes towards Dover.

FREE TEA & COFFEE – Complimentary tea, coffee and biscuits will be available during auction viewing for all our customers.

WELCOME & INTRODUCTION

Welcome to this catalogue for our Dover Stamp Auction Public Sale Number 27.

As usual, this sale takes place at the Whitfield Club venue. If attending the sale, remember you must register your car details if you make use of the car park facilities. We will provide free tea, coffee and some biscuits.

We anticipate that it will probably take around 90 minutes to 2 hours to 'knock down' the entire sale, which consists of 1,059 lots, and will start at 1.30pm prompt.

The sale has our usual wide spread of material including several £1 start lots where we have a 'must sell' instruction. There are also many boxes for viewing and lots of items looking for a new home, so hopefully there will be something to tempt you. In this sale we have a considerable number of 'singles' with better material from around the Commonwealth. The material in this sale comes from several different vendors.

The photo plates show some of the more valuable and interesting items in the sale. There are many 'new' lots being offered for the first time, indeed over half the sale is new material. Please be aware that vendor descriptions can vary. If in doubt feel free to contact us, we are only a phone call or an email away. We try to indicate if we feel any lot appears cheap. Material comes from a variety of different geographical areas. You will see some indications of lots where we recommend viewing to fully appreciate what is being offered and where we think the lot is probably cheap.

We offer full facilities for absentee bidders, by post, telephone, or email. All relevant information for doing so will be found in this catalogue. You can bid with absolute confidence that any lot will be sold at the lowest possible price and not necessarily the maximum amount you have bid. If you are the only bidder, then regardless of the amount bid, it will be sold to you at the reserve price. We are members in good standing of the Philatelic Traders Society (The P.T.S.)

In closing, we look forward to receiving your bids and your continued support. The earlier you bid, the better your chance of success. **If you bid by email, then we do acknowledge bids to the email address you write from. If you don't receive this within 24 - 48 hours or so of bidding, we recommend you check that your email has been safely received.** An unsold list is usually sent to all those who participate and published on our website after the sale.

Rest assured that in line with our previous public statements, we plan to continue with public auction sales. Thank you for your continued support.

Our auctions are conducted using the Philatelic Auctioneer's standard terms and conditions (1983 Revision). These are quite widely available online and we will gladly supply a copy upon request.

Invicta Philatelics Limited is registered for V.A.T.

The maximum amount we can currently accept in cash payments for any auction is £5,000 due to our Bank's restrictions due to Money Laundering regulations and legislation. (This is subject to change at any time).

A BUYER'S PREMIUM of 15% plus VAT will be applied to the hammer price of each lot sold in this auction. There are no additional charges for card payments.

THE GENERAL STUFF

Most importantly of all, t**he RESERVE prices shown in the catalogue are the minimum price any lot will be sold for. There are no exceptions and any bids received below stated prices will be ignored.** Any price inquiries would need to be taken forward with vendors and can therefore only be made after the sale.

Unless stated otherwise, catalogue prices in descriptions will be those in Stanley Gibbons catalogues. Where the description includes 'STC' this means '**S**tated **T**o **C**atalogue' and is a figure provided by the vendor and unchecked by us. You may care to verify this yourself, but it is not guaranteed by us.

Photo plates are for information only. Catalogue descriptions may help but customers are strongly advised to physically view items of interest to satisfy themselves in all respects.

Postal bids should be entered in good time, we cannot be responsible for any forms delayed in the mail. Alternatively, you can place bids by telephoning us, or emailing us. For email bids we will 'confirm' receipt of your bids to you. If you do not receive an email acknowledgement from us within 48 hours, it is likely your email has not been received.

Postage & packing charges are reasonable and includes the cost of packaging materials as well as any Royal Mail or courier charges and a small amount to cover staff time. All items are sent on a tracked or signed for service. We will combine lots together where possible. A single box weighing up to 6 kilos, will cost £12 - £16 to ship in the UK (multiple boxes pro rata and higher weights a little more), overseas at cost. We consider our charges stand a good comparison against competitors.

How to Pay & Future Auction Dates

Paying Us for Successful Purchases

Payment arrangements and options are the same for all clients, whether you bid postally, by email or physically attend the sale. All lots remain our property until full payment has been received.

Please note that payment in full by auction attendees is required before lots will be released to the buyer, unless prior arrangements have been made to do otherwise.

PAYMENT ARRANGEMENTS	
CASH	Cash in £ sterling will be accepted to a maximum of £5,000. This is the maximum limit allowed to comply with banking limits relating to money laundering.
CARD PAYMENTS	We accept both credit and debit card payments without any surcharges or additional fees. **However, we do not accept AMEX payments.** For postal bidders, you can provide these details when bidding, or alternatively, you may phone us to make a card payment over the phone upon receipt of lots.
BANK PAYMENTS	A credit direct to our bank account is **the cheapest way for us to receive money from you.** If you set us up to receive funds in this way it would be greatly appreciated, you need only quote your name and your auction invoice number as the reference. Our Bank Details are as follows: **NatWest** Dover Branch, **Sort Code 60 – 07 – 04** **Account Number 39895874** Account Name: **Invicta Philatelics Limited**
CHEQUE	We accept cheque payments from clients known to us, although, these cost more to process than a direct bank credit. However, all bidders may use cheques if they wish.
OTHER	It may be possible to accept other payment methods, although we prefer the options listed above. Please contact us to discuss any other alternative not listed above.

Selling in our auctions

IF YOU WISH TO SELL IN OUR AUCTION

If you wish to sell material through our Dover Stamp Auction public sales, please phone us in the first instance on 01304 829827 or Peter's Mobile (07702 270948), email us or come to the auction to discuss how we can help. Whilst we can sell almost anything philatelic, the following should be noted;

- Our 'standard' commission charged to vendors in this auction is 20% excluding VAT. Rates for larger properties and 'regular' vendors may vary by prior arrangement.
- We do not charge lotting fees, unsold fees or picture fees. The vendor's commission is the only cost you will pay to sell through us. In short, no sale, no fee.
- You must check with us beforehand if bringing bulky material (i.e. more than 1 box)
- Other than lots reserved at £1, **every lot must have a minimum reserve price of £30,** as the cost of handling items below this value is uneconomic.
- We reserve the right to reject any un-required material submitted.
- We have produced a sheet of 'Guidance Notes' for sellers that is available on request and provides more information on ways in which you can enhance the prospects of selling with us.
- Material left with us is not insured.
- Payment for sales is usually made 6 weeks after the date of the auction.
- Box lots should be provided in decent quality cartons / tubs. Thin card boxes are in danger of being damaged and should be avoided. We may refuse to accept material that is not suitably presented. If in doubt, ask beforehand. Open top boxes are not recommended they are problematic in several respects and should be avoided. Very heavy lots should be spread across multiple boxes if necessary.

We want your items to sell as we do not earn anything unless they do. That is why we will not accept consignments where we feel the reserve prices are too expensive. Our ownership team has been running auctions for over nine years and attending auctions as buyers for over 30 years. That experience gives us confidence that we can help you to try and find a buyer for your unwanted material.

Please help us to help you by providing as much information as you can, this may include any or all of the following factors:

1. A count of the quantity of stamps (or a reasonable estimate / guaranteed minimum)
2. Catalogue value (please indicate the age of the catalogue used – it can make a big difference!)
3. For mint decimal stamps of Great Britain, it helps to calculate a 'face value' which could be used as postage.
4. Specify the dates / reigns covered where applicable.
5. Flag up any particularly noteworthy items in large collections.
