Poly Core  
yarn technology

# Stronger. Longer.

Commercial towel technology, engineered to last longer.

# Tested, superior performance.

The durable commercial towel technology that is engineered to perform better for longer while never sacrificing comfort.

Lasts up to 25% longer than standard commercial towels.

Independently tested, PolyCore Yarn Technology enhances commercial towels to offer more washes and a better financial return than regular commercial grade towels.

Stronger than regular commercial grade towels.

PolyCore Yarn Technology uses a unique ground yarn with an optimised core to provide a significant increase in strength of the towel.

Quicker drying.

PolyCore Yarn Technology provides commercial towels with a unique textile blend that cuts drying time by an average of 8%. Getting the towel back in the game quicker for guests or residents.

Find out more about PolyCore.

## What is PolyCore Yarn Technology?

Featuring a unique yarn process that is engineered to produce a stronger ground structure with a **performance enhanced, optimised core.**

PolyCore features all of the luxurious touch and feel of classic cotton with an improved durability and lifespan that gives your facility a towel that is stronger for longer.

**These collective savings combine to give an overall lower cost-per-use for a commercial laundry.**

**These savings plus zero loss in hand feel, comfort, water absorption or utility, PolyCore delivers.**

## Independently Tested\* Commercial Wash-Wear Comparison.

### Classic Cotton Towel.

New Towel

After 60 Washes

Classic Cotton towels start from a lower strength point than PolyCore towels. A dramatic strength reduction occurs after 60 washes.

### Commercial Towel with PolyCore Yarn Technology.

New Towel

After 60 Washes

PolyCore enhanced towels start from a superior strength position than classic cotton towels, and stay strong even after 60 washes.

## Kingdom Cotton Towel Range with PolyCore

When you need a commercial towel which goes the extra mile, the Kingdom is the ideal choice for places of accommodation and care facilities. Unique to Simba, **PolyCore Yarn Technology** helps the Kingdom range of towels last up to **25% longer than standard commercial towels**, and provides more efficient washing, drying, and general care, as well as a far more durable construction than other commercial pieces.

The full range of towels in our Kingdom range achieve this with ease, combining an engineered cotton-rich poly construction which keeps them out in the field and **performing at their best for longer**.

**PolyCore Yarn Technology lasts 25% longer than standard commercial towels.**

P0014271605	Bath Mat	50 x 75 cm	50	247

## Classic Cotton Ring Spun Towel Range

The classic commercial towels in our range feature the kind of **expert construction and carefully considered design** you would expect from a premium towel. However, these commercial pieces are delivered with supreme value in mind, helping your place of accommodation or care facility complete its day to day operations.

Soft to the touch, luxurious against the skin, hardwearing enough to stand up to the rigours of a daily commercial wash cycle, these are towels which are certain to match the aims and objectives of your business. **Don't settle for anything less**—instead, choose high-quality products to give your business the high-level support and scope it needs to really achieve the best results for clients.

Construction: Cotton Ring Spun

# Executive Commercial Towels.

## Executive Combed Cotton

Representing the higher end of our range, the **Executive Commercial Towel is the go-to when you want to raise the bar**. This means, an increase in quality, in reliability, in texture, in aesthetic—basically, all of the premium features of our kingdom and classic commercial towels have been **stepped up a gear with the executive model**.

While these towels may be premium pieces, this does not mean that they are not developed with value at their heart. These expertly engineered cotton towels give the executive commercial range the **strength and reliability required to last for longer**, and to keep looking their best even after repeat washes. Meanwhile, sumptuous fibres retain that luxurious and opulent feel which all of your customers are going to fall in love with.

**Construction:** 100% Cotton, Combed

Code	Size	Dimension	Box Qty	Piece Weight (g)

# Microfibre Bathrobes & Slippers.

## Deluxe Microfibre Robe

A great bathrobe has to look the part, but it also has to provide the right levels of comfort and warmth for all wearers, at all times of year. This is what makes the **Deluxe Microfibre bathrobe such a fine choice for a wide range of commercial applications**. The 100% microfibre construction secures luxurious softness and gentle but effective insulation against the cold.

This expert engineering also ensures that these sumptuous features are secured for longer, even after repeated usage and washing. Commercial washing cycles can take a heavy toll upon cotton apparel and accessories, which is why the Deluxe **Microfibre bathrobe model is designed to achieve supreme longevity and durability**, maximising the value you and your business enjoy in the long term.

# Classic Sheet Range.

## 60/40 Cotton Polyester Classic Sheet Range

At first glance, the bedsheet is a simple product, designed with clear and straightforward aims in mind. However, once we factor in the kinds of stresses and strains these products need to put up with, we begin to recognise the importance of **quality and careful, considered engineering**.

This is a particular concern when it comes to commercial bed linen, which is why our Classic Sheet range is such a **popular choice among business owners in Australia**. Constructed with

**luxury and softness in mind**, but with the kind of attention to detail that enables them to stand up to **wash after wash with ease**, the Classic range marries durability with comfort in a manner which with both your guests and your team of staff will appreciate.

**Construction:** 60/40 Cotton Poly 20x20, 70x60

# Deluxe Sheet Range.

## 75/25 Cotton Polyester Deluxe Sheet Range

**The sheets in our Deluxe range represent a step beyond in every sense.** This range carries our already strong commitment to quality and softness to the next level, resulting in a luxurious feel which is truly superior to the touch.

But this is not the only aspect which sets these sheets apart. **Constructed from 75/25 cotton poly**, pieces in the Deluxe range are engineered to perfection, and will more than hold their own against the rigour and strain of repeated washes.

Even after a long period of service in your business, these sheets **will continue providing the same high levels of comfort and luxury to your guests.**

Deluxe, premium quality, and value which can't be beaten—this is what our range provides to you and your clients.

**Construction:** 75/25 Cotton Poly, 30x30 100x80

# Executive Commercial Sheets.

## 80/20 Cotton Polyester Executive Sheet Range

The **Executive Sheet range** features an **expertly engineered blend of 80% cotton and 20% polyester fibres**, designed to provide unbeatable luxury to guests in search of a splendid night's sleep. Your business relies upon the experience it offers to guests, and so investing in sheets like these—sheets you can trust to do the business time and time again—results in **unparalleled peace of mind**.

But the Executive Sheet range offers more than this. In the hospitality industry or in other

commercial sectors, sheets must balance their softness and comfort with durability and reliability. This is why our superior range features the sort of construction which will keep the sheet looking and feeling their best for longer, **dramatically maximising the value you and your business will enjoy.**

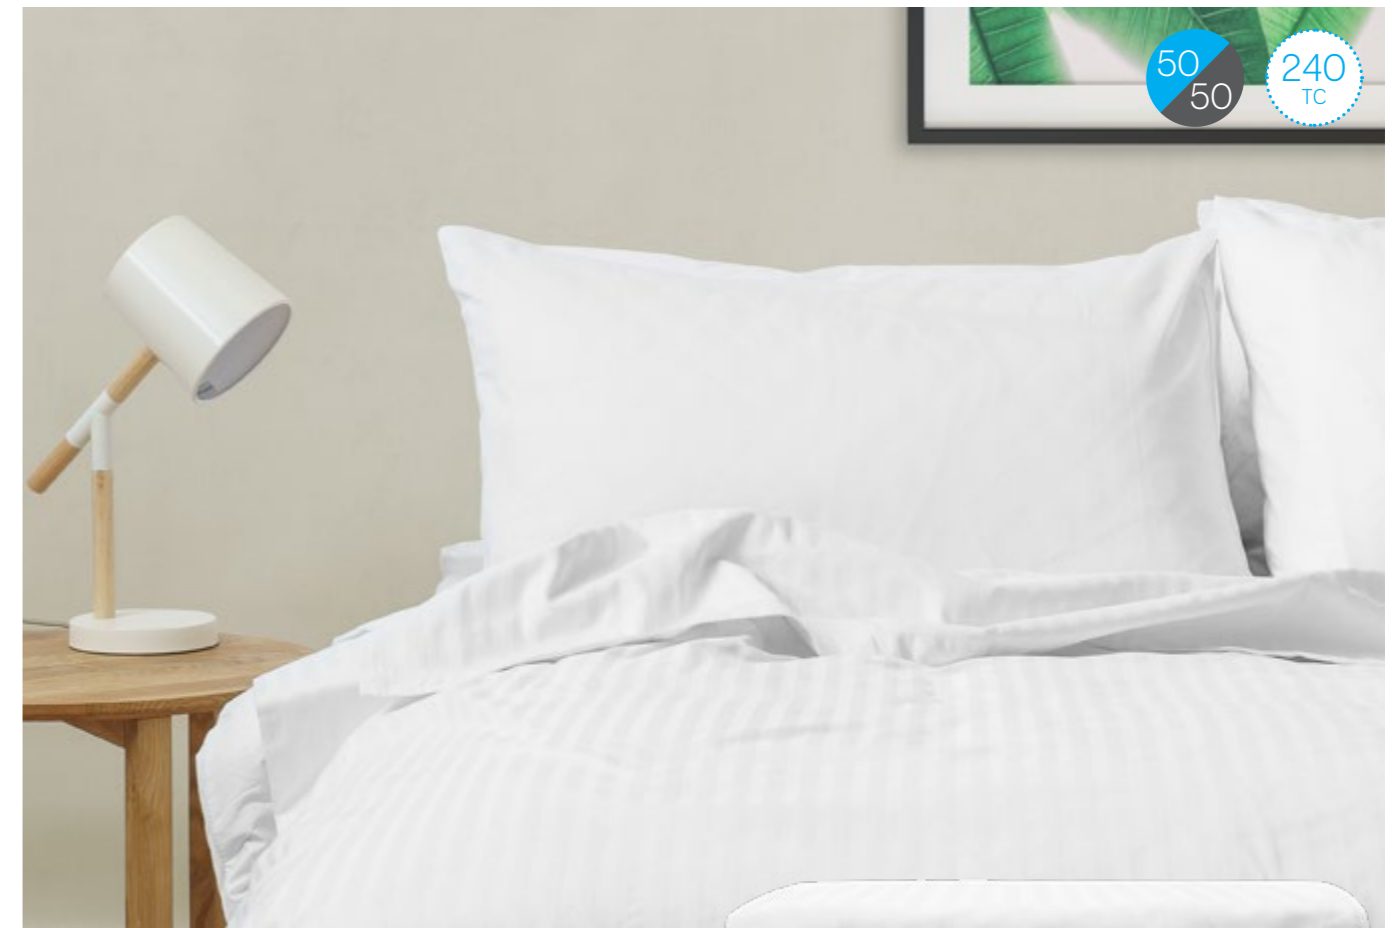

**Construction:** 80/20 Cotton Poly 40x40, 110x190 = T200

**Construction:** Polyester

Code	Dimension	Piece Weight
MDTCE012086XL	Blockade 1-ply XLarge	320 gms

# XALT Level 3 Critical Coverage.

## Critical Coverage Gown Level 3

**Medline's exclusive Blockade fabric** has a taffeta weave with untwisted continuous polyester filaments. Colour-coded military collar to identify size. Stand-up military collar for extra protection at the neck. Feels lightweight and breathable. Durability through low-linting polyester woven fabric provides lasting performance. Economical, in comparison to the cost and environmental impact of single-use gowns in an AAMI Level 3 surgical gown.

- Knee arthroscopy (ACL)/shoulder arthroscopy
- Transurethral prostate resection
- Mastectomy
- Lumbar discectomy
- Bowel resection/hysterectomy/transurethral Prostate resection
- Laparoscopic procedures

**Construction:** Polyester

Code	Dimension	Piece Weight
MDTCEGXB3JXL	Xalt Basic Level 3 Gown XLarge	330 gms

# XALT Level 4 Critical Coverage.

## Critical Coverage Gown Level 4

**Fluid and viral proof**, high amount of exposure to fluid, spray and splashing, as well as pressure to gown. Liquid-proof barrier fabric from below the neckline to the bottom hem and ¾ of the sleeves. Liquid-resistant resiStat fabrics in non-critical zones. Colour-coded military collar to identify size. Proprietary membrane is laminated between two layers of polyester. Stand-up military collar for extra protection at the neck. Comfortable, feels lightweight and breathable. Durability through low-linting polyester woven fabric provides lasting performance. Economical, in comparison to the cost and environmental impact of single-use gowns in an AAMI level 4 surgical gown.

- Hip replacement, Total hip replacement
- C-section
- Cardiac bypass
- Transplant - thoracic/abdominal
- Trauma procedures
- Abdominal/thoracic vascular/aneurysms
- Anything where: Surgeon's hands and arms are in body cavity

**Construction:** Polyester
