#### Target Investor Profile

Investors with an aggressive risk profile

Suitable for investors seeking an all-weather strategy that balances stability and growth. Ideal for those comfortable with moderate market movements, in pursuit of steady medium to long-term returns.

#### Why Choose This Strategy

##### Broad Diversification

Achieve steadier performance across different market cycles through a strategic blend of Government Bonds, equities, and money market instruments.

##### Risk Mitigation

High-quality bonds help cushion the portfolio, allowing investors to better navigate periods of equity volatility and preserve capital.

##### Balanced Income And Growth

Earn consistent income while still capturing long-term growth through steady bond yields, dividend stocks, and capital appreciation from our active equity allocation.

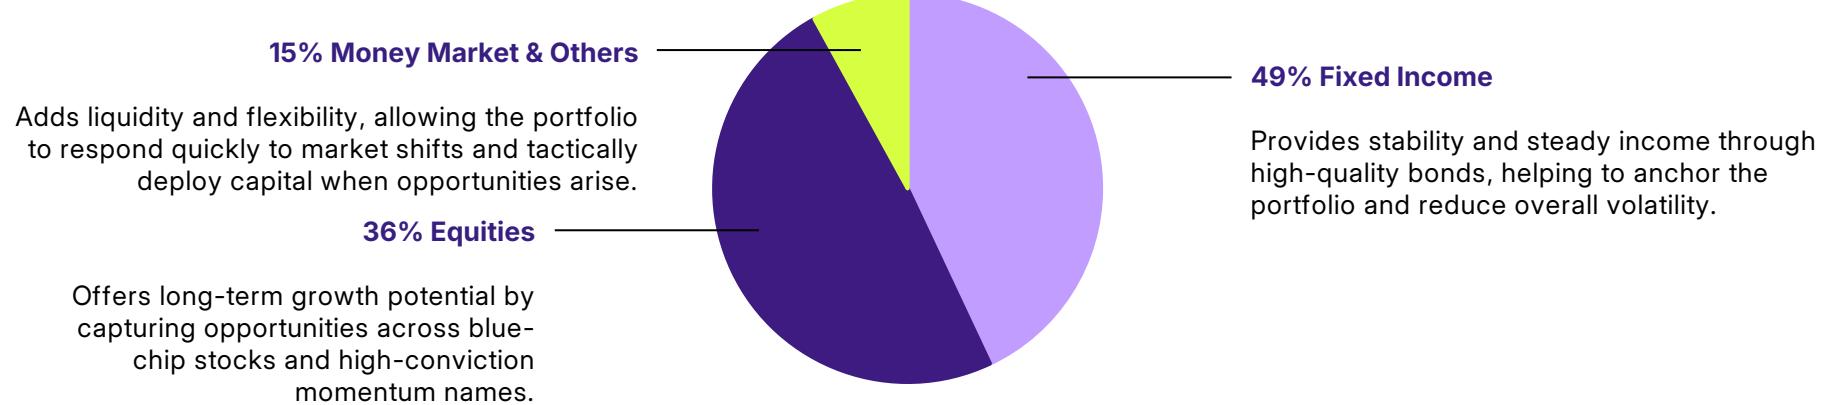

#### Investment Approach

Dynamic Multi-Asset Allocation

We pursue long-term stability and growth by actively managing the fund's strategic mix of bonds and equities, tilting between asset classes to capture opportunities and manage risk. The fixed income allocation anchors the portfolio with steady yield and lower volatility, while the equity portion is selectively invested in quality companies with strong fundamentals.
